DISTRICT NEWS

Mrs. Jos. O'Connor and two children
of Regina, are visiting friends
around Streetsville. It is twelve years
since she was here.

Rev. W. J. Kitching dispensed the
sacrament of the Lord's Supper for
the first time at Bethel United
Church, Drumquin, last Sunday, when
a number of Union Presbyterians
from Omagh Church joined in the
service.

Oakville collected \$70,000 on their
first instalment of municipal taxes
for 1925.

A one day fair will be held at Oak-
ville this year. It was formerly a
four-day event.

Adna Vradenberg, of Niagara
Falls, paid his first visit in 45 years
to Brampton last week, where he
learned the blacksmith trade.

Mr. and Mrs. R. B. Ashley of
Brampton, celebrated the thirtieth
anniversary of their wedding on July
25th.

Will Haines of Brampton was pre-
sented with a club bag by Brampton
Odd Fellows prior to leaving on a
trip to England.

M. L. McLean, Oakville, has been
awarded the contract of building 22
miles of road from Timagami to
Latchford in Northern Ontario.

The Harris woollen mill at Rock-
wood, established in 1867, has been
closed down.

The first instalment of Brampton's
taxes has been collected amounting
to \$83,700 out of a possible \$90,000.

Mr. and Mrs. W. J. Horne, Kendal
Avenue, and Miss Frankie Horne,
Port Credit, left on Saturday last for
a two weeks' motor trip to Georgian
Bay and other points.

Louie Warren of Toronto, struck a
sunken log when he dived into the
Humber at Bolton Summer Resort
and received severe wounds to his
head and face. Fourteen stitches
were necessary to close the wounds.

The death is announced of Wm.
Thomas Squier (Dock), son of Mr.
and Mrs. Aaron Squier of Toronto.
Funeral at Park Lawn Cemetery on
Wednesday. Deceased conducted the
Ontario Hotel in Bolton for some
years before moving to Toronto.

T. A. Shore, principal of Wood-
bridge Public School, at the last meet-
ing of the Masonic Grand Lodge, was
elected D.D.G.M. of Toronto District
'D', which includes the lodges in this
district as well as Toronto lodges.
Mr. Shore is a native of Albion town-
ship and well qualified for the posi-
tion to which he has been elected.

Mr. G. E. Brown and family, of
Port Nelson, have the sympathy of a
wide circle of friends in the death of
the wife and mother. The family
formerly resided on the third line,
near Streetsville, and many of their
old friends from here attended the
funeral, which took place on Sunday
to Burlington Cemetery. Mr. Brown
is a member of Streetsville Masonic
Lodge.

Apples plentiful and wondrously
free from insects; plums having one
of their best years; tomatoes sadly de-
creased due to the ravages of a cold
spring—this is a consensus of a fruit
report gathered from farmers here-
abouts to-day.

The weather that has made the
plums a great success was what
blighted the tomato crop, according
to the growers. The first and second
blooms of the tomatoes were in many
instances killed by cool weather in
the early spring and had to be re-
placed. Just now the same brand of
weather is holding back all ripening.
To the dryness of the spring at the
time when the trees were in blossom
is attributed the remarkable freeness
of this year's apples from skin
diseases and worms. With this ad-
vantage, the winter apples are com-
ing along in fine shape and a good
crop is expected.

PORT CREDIT

It is stated here upon good author-
ity that the Dominion Government
will in the near future fill in the ten-
acre marsh, long an eyesore and
breeding place for mosquitoes, which
comprises part of the village motor
park to the rear of the Lakeview
Hotel. The fill-in would be effected
by bringing sand taken from the bot-
tom of the Credit River, and in this
regard a few residents declare that
one day last week they saw a Govern-
ment boat on the river taking sound-
ings.

At present the land is leased an-
nually by the Village Council from
the Dominion Government, owner of
the property, which was purchased
in connection with the harbor which
the Borden Government planned to
build here just before the war. Res-
idents of the village feel that, with the
marsh filled in and the reclaimed land
made into a park, a great improve-
ment would be made to the general
appearance of the community.

LIBERAL CANDIDATE IN PEEL LAUDS RECORD OF GOVERNMENT

Has Increased Revenue While Reducing Taxation—Foreign
Trade Now Double What It Was in 1914 and
Large, Favorable Balance Shown

Bolton, Aug. 1.—In a speech which
showed a complete mastery of federal
politics, W. R. P. Parker, Liberal candi-
date for Peel, at a meeting here
last night, established a telling vindica-
tion of the King government's
achievements and exposed the weak-
nesses of the case which the Conserva-
tives are putting before the people
of the country.

He pointed out that the present
government had stopped additions to
the public debt, which had increased
by \$200,000,000 during the Conserva-
tive regime. Taxation had been re-
duced and in the year ending March,
1925, people paid \$52,000,000 less in
taxes than they did the year before,
notwithstanding which the budget bal-
anced, and, in fact, showed a sur-
plus of \$1,800,000. Where the former
government spent \$4 the present
administration is spending \$3, and
where the former collected \$4 taxes
from the people the latter had only
collected \$3.

"So far from our national credit
being shaken, our dollar is at a pre-
mium in New York—our foreign
trade, which totalled about one billion
dollars in 1914, is now about two bil-
lion dollars, and perhaps best of all
we find a favorable balance of trade,
excess of exports over imports of
some two hundred and eight millions,"
declared Mr. Parker. "With the ex-
ception of the war years, this is the
greatest favorable balance in our his-
tory. We may not be feeling rich,
and if a man feels poor, citing figures
will not make him feel rich. But I
will say this without fear of contra-
diction—we engaged in the great war.
We started on the 4th of August,
1914, and we quit on the 11th of
November, 1918. We are proud of
what we did, and my point is this,
that nationally and individually we
are as well off, in fact better off, than
any nation who did the same. And
mind you, we did not spare ourselves.
And no one can claim that Canada
was not there to the last man and the
last dollar.

"To sum up what I have said. Af-
ter the war conditions are affecting
us less than any of four-year belliger-
ents, and don't forget that in the
U.S.A. there are at present some two
million unemployed."

Dilemma Confronts Meighen
Mr. Parker was particularly effec-
tive in dealing with the tariff ques-
tion, and made a notable point when
he directed attention to a dilemma
with which Mr. Meighen had been
struggling, namely, the enormous in-
crease of exports and the decrease of
imports.

"Now it has always been one of
the pet doctrines of the high protec-
tionist that imports are a curse and
exports a blessing," commented the
speaker. "The smaller the imports
and the greater the exports, the bet-
ter off a country was, and the bigger
the favorable balance of trade, the
more money must pour into the
country and the wealthier the country
and the individual citizen would be-
come."

"In June, 1925, Mr. Meighen was
faced with the fact that there was the
enormous surplus of \$282,000,000 of
exports over imports, whereas when
he left office there was a deficiency
of some \$6,000,000. And so he has
to turn and rend the pet theory of
the protectionist and claim that the
reduction of imports is a sign that
the country is struggling and in dif-
ficulties."

"Well, I hope we will struggle with
a good many more favorable balances
of \$282,000,000 and I believe we will
if the King government is returned to
power."

Continuing, the Liberal candidate
took notice of Mr. Meighen's refer-
ences to the exodus to the United
States and his statement that in 1923
it amounted to 102,000 and in 1924
to 181,000.

"Now in dealing with the question
of this exodus, the Conservatives
should be talking about something
with which they are familiar," re-
marked Mr. Parker, "as during the
ten years of their administration,

from 1911 to 1921, upwards of 750,-
000 Canadians crossed the line to
settle in the U.S.A., and in the years
1916 and 1917 there were upwards
of 100,000 each year.

"As a matter of fact, in the years
1923 and 1924 the movement was
considerably stimulated by the coming
into force of the quota laws, which
stopped, in a measure, the supply of
workmen from other countries.
Moreover, the correct figures are
150,000 for 1924 and in the eleven
months ending February, 1925, 34,-
000 returned."

The speaker pointed out that other
illuminating passages in Mr. Meighen's
budget address were a distinct pro-
nouncement by him in answer to a
question—that if he came into power
he would at once raise duties on agri-
cultural implements, and, in effect
that he would be prepared to do away
with the British preference as now
constituted. "I can hardly believe he
was serious in these statements," as-
serted Mr. Parker. "Again and again
efforts have been made to persuade
the British people to put on a protec-
tive tariff in order that they might
give preference to Canada and the
other dominions. Mr. Stanley Bald-
win, not long ago, endeavored to per-
suade the British people to do this,
as a result of which he went out of
office and the Labor government
came into power in England.

"The whole thing is a chimera, and
no one knows it better than the leader
of the Conservative party—in
fact, his whole declaration does not
ring true."

Did Not Use Own Panacea
"Now, let me sum up this part of
my argument by pointing out that
Mr. Meighen in office did not apply
his cure-all of a higher tariff than
has been, and he does not now ex-
plain why he did not. In 1921, in
office, the Conservatives left the tar-
iffs alone. In the same year in the
election campaign they advocated high
tariffs the same as to-day. Is this,
then, merely talk? Is it a long-dis-
tance cure-all—one never to be used
at short range?"

King Carried Out Pledges
"The pre-election pledges of the
King government in regard to reduc-
ing the tariff have been carried out
in so far as it was expedient to ad-
vance in that direction, having re-
gard to the necessities of raising pub-
lic money and creating the least dis-
turbance to industry. These reduc-
tions affected food, clothing and hous-
ing, and the plant, machinery, sup-
plies and raw materials in the four
basic industries of agriculture, fish-
eries, products of the forest, and min-
ing."

"The National Railways, which
were in a state of chaos, were amal-
gamated into one system, and entire-
ly reorganized."

"Under this consolidation and the
management of Sir Henry Thornton,
deficits on operating expenses have
been turned into surpluses. In 1923
this favorable balance was \$25,000,-
000, and in 1924 \$17,000,000. This
year with favorable crops all over the
country, it is possible that a much
greater surplus will be earned."

Mr. Parker stated that the King
government, by persistent efforts, was
able to secure the removal of the
British embargo against Canadian
cattle, he had it on the best author-
ity that this had meant a betterment
in the price of every head of cattle
which had passed through the Union
Stockyards since that time, of prob-
ably two cents per pound.

Among other achievements of the
administration was that government
inspection of banks had been brought
into effect, and provisions had been
made in regard to the returns fur-
nished the government, which made
it improbable that any bank failure
such as that of the Home Bank, can
ever occur again.

"The farther I go in this campaign,
the more confident I feel of the re-
turn of the government, and I think
it will be greatly in the best interests
of the country to return them with
an independent working majority,"
concluded Peel's Liberal champion.

Keep 'Em At Home

In one of its announcements re-
cently a leading Canadian Bank said
to its customers: "Keep your dollars
in your home town. Part of every
dollar you spend in your home town
goes to pay taxes and increases the
welfare of everyone living in that
community. Also, the dollars depos-
ited in your home town bank are
used to develop home town industries.
The dollars that go elsewhere do the
same for strangers. For your own
sake and the sake of your community,
buy in your home town and bank in
your home town."

Celebrated 91st Birthday

An old and respected resident of
Dundas Street, Trafalgar, celebrated
his ninety-first birthday on Wednes-
day. This was Godfrey Bentley, who
has lived there continuously for sev-
enty-eight years and witnessed many
changes from the old stage coach and
mud roads to the palace auto on the
paved road.

The celebration was held at the
home of Mrs. Richard Bentley, near
Brampton, where fifty or sixty mem-
bers of the family gathered. There
were children, grand children and six
great grandchildren. Most of the
family connection are still living in
Trafalgar.

Mr. Bentley is yet hale and hearty
and has a remarkable memory.—Oak-
ville Star.

BALD SPOTS IN THE GARDEN

BY AMELIA LEAVITT HILL

About the middle of the summer we often find that our gardens, in many ways at the height of their beauty, have sad surprises in store for us, due to the "bald spots" left by the dying down of spring and early-summer flowers.

In place of actual nothingness some departed blossoms have left behind a mass of greenery, peaceful and decorative, it is true, and satisfactory enough in effect for the average gardener. But some enterprising flower-lovers aspire to introduce among this nest of verdure some suggestion of its earlier glory and, by a skillful management of flower grouping, to insure a succession of bloom throughout the entire summer.

Chief among the blossoms which leave unfortunate gaps crying aloud for filling are the spring bulbs—daffodils, hyacinths, tulips and narcissuses—which have not only ceased to bloom, but which are literally sear and yellow by July.

With the exception of the tulips, none of these is likely to be lifted, and though tulips are not lifted by many gardeners, others feel that in order to insure the best results they should be dug up after they have ripened. We need not go into a discussion of the relative merits of the different methods here; the point is, in the present case, the replanting of the bald spots to the best advantage.

Most experienced gardeners make provision for midsummer's quota of greenness or bareness by the planting of a seed bed of annuals, from which flowers which have yet to bloom may be moved to beautify the desert wastes of passed spring loveliness.

SEEDLINGS THRIVE ON MOVINGS.

If you have already planted annuals throughout the garden, however, it is possible that even without such preparation you will have a supply of extra seedlings which will answer the same purpose. Most annuals thrive all the better for one or two movings, so that your efforts to keep the garden bright will accordingly benefit both plants and vacant spaces.

Petunias, balsams, marigolds—either the low-growing red-and-orange French variety or the tall yellow African marigold—prince's-feather and nicotiana are especially well adapted to such use, since they are both decorative and prolific.

If the place to be filled be sunny, portulaca will fill the void charmingly, and the annual aster will provide many cheery blossoms for autumn cutting. Obviously we may note that late-blooming flowers are particularly well adapted to bald-spot use, since they provide color at a time when this is at a minimum, have ample time to become established after their installation and are too small at the time of transplanting to interfere with their dying neighbors.

In this connection cosmos may be mentioned, although this, to obtain the best results, should be transplanted while still small. The reason for the selection of annuals in filling in, apart from their almost immediate effect, is simply that they are not so deeply rooted as to interfere with the plants among which they have been placed.

When your spring plants, therefore, begin to leave you, set rows of annuals between them to carry on the bloom. If the plants which the annuals are to replace are not to be moved, the annuals may be set more thickly; but, for example, if tulips are to be lifted—which, if done at all, will be as soon as they are ripe—the newcomers must be so placed as to allow ample room for digging without becoming actively involved in the process themselves. As the foliage of the departing plant shrinks and yellows the smaller ones will increase in stature until the ultimate withering of the foliage which marks the ripening of the bulb is itself concealed by the prolific new plants.

Seed, too, may be sown in the required spots; the slight foliage of the bulb plants will not interfere with the seedlings, nor will the latter attain a size which will interfere with them until their bloom is past.

PROVIDING CONTINUOUS BLOOM.

The gorgeous Oriental poppy leaves a void which calls for decoration when its bloom is over, but care must be exercised in providing it with a neighbor. Though one of the loveliest additions to the garden, it is exceedingly temperamental, being hard to establish and, even when established, very jealous of interference. I have known these plants to be set in the same bed with the perennial coccinella, which completely concealed the unsightly gaps left by the passing of the poppies, and the result was perfectly satisfactory; but it was obtained only at the price of ruthlessly weeding out and breaking off the coccinella plants which ventured to trespass too near the poppies when they began to stir from their summer sleep early in September.

The iris, which remains a cool, soft mass of green long after its flowering is over, really needs no aid in adding effect to the garden, unless you are desirous of color everywhere. Its reason may be considerably prolonged by the combining of the so-called German and the Japanese varieties, for the latter will take up the tale which the earlier variety has passed.

The iris may be given color by scattering throughout it clumps of pale

or, even better, by the inclusion of gladioluses. These latter will bloom ninety days after planting, and may be set out from time to time so that the season of their bloom will be prolonged. Their foliage is much like that of the iris, with which they harmonize excellently, and they may be tucked in here and there among the rhinomes wherever they are needed.

There are gardening magazines which give the names of wholesale dealers in these lovely flowers, who will supply comparatively small quantities at prices well below the usual retail rates; so that, although the scattering of gladioluses broadcast throughout the garden may sound like the wildest extravagance, it is really not a particularly expensive luxury.

When it comes to actual planting, gladiolus bulbs should be set from four to five inches deep, according to the size of the corm or bulb, and six inches apart, and should, of course, be lifted every autumn.

The dahling root, or "toe," is set just below the ground, and must also be lifted at the end of the season. Dahlias are set a considerable distance apart in order to permit the free development of the plant.

In transplanting seedlings, or indeed plants of larger growth which are grown from seed, a word as to the method to be used may not be amiss. The most commonly employed—and the easiest—is simply to move the plant to the desired spot, to give it a good watering and to await the result. This generally involves a complete wilting down of the plant in question and its subsequent revival after a day or two of prostration which has sapped it of vitality and impeded its growth.

If, on the other hand, you will lift the plant with a little earth about it, fill the hole which has been made for its reception with water and set the plant in it, piling in dry earth upon the water, the seedling will stand in liquid mud and will almost invariably survive without undergoing the weakening wilting and reviving process entailed by the other method.

It need hardly be said that the roots should be supplied with ample space in their new home, and should never be tightly packed together; the earth should be patted down firmly about the plant, and in the heat of summer a piece of newspaper should be laid over transplanted plants during the heat of the day to shield them from the rays of the sun.

Although such transplanting may seem to entail much extra labor, you will find some compensation in the fact that it will not be necessary to move a very large number of plants in all. It is surprising to see what large and attractive growths will result from a rather scattered planting.

Generally we sow annual seed thickly and have not sufficient hardness of heart to thin extensively, and the result is a mass of bloom born upon minute plants. If, however, you will in transplanting set your petunias, four-o'clocks, balsams and other annuals perhaps six inches apart, not only will your labors be greatly reduced but you will be surprised to see what showy and decorative growths will result.

Apart from the treatment of the avoidable bald spots in the garden it will be found that actual flowerless spaces can, by a little care, be reduced to a minimum. This is done by the simple process of keeping the flowers blooming, which is an easy task, since it consists only in preventing the formation of seed pods.

I know of cases where Canterbury bells were enjoyed well into August by merely pinching off these pods when they formed, after the passing of the flower. This does not mean the cutting off of the entire stalk with the sacrifice of some bloom, but simply the removal of the pods as they form along the stem.

Larkspurs will bloom a second time if cut back when the first bloom is over, as will phlox if the flower heads are removed as soon as they begin to fade. Pansies, so popular in the spring and so yellow and hopeless later, may be coaxed into a longer lease of life if in late July or early August the straggling stems be cut severely back.

Forget-me-nots may be kept green and fresh-looking by removal of the seed pods, but this will be at the cost of the lavish crop of self-grown "babies" which will next year more than make up for any winter mortality, and which are dearly bought at such a price.

Of course if flowers be cut profusely the seed-pod problem will not present itself so soon.

I have known of communities, where literally everyone boasted a garden, in which this fact was attested by the garden owners who, armed with scissors, went daily through their domains cutting off blooms, which were left on the ground to die because the house was already filled with flowers and there was no one in town who was not similarly well supplied.

Of course such cutting does prolong bloom, and in the case of roses adds a supplemental pruning as well, which is beneficial to the plant. When many railroads, however, offer free transportation to flowers which are traveling to hospitals or missions, it seems almost cruel to let our cutting

be to so little purpose and to terminate with our own needs or those of our gardens.

Variations in Egg Quality.

Eggs when laid vary considerably in size and color, and somewhat as to shape. Size is a matter of very great importance because of the fact that eggs are sold by the dozen and not by the pound. It is generally accepted that a standard dozen eggs should weigh one and a half pounds, or an average of two ounces for each egg.

If the current price is based on two-ounce eggs, the consumer has a right to expect some reduction in the price of eggs smaller than the standard. Similarly, the producer has a right to expect a premium for eggs that are uniformly larger than the standard, provided all are equally good in other respects.

Color of egg depends, for the most part, on the breed of the hens laying them. Certain breeds lay white-shelled eggs, whereas it is equally characteristic of other breeds to lay eggs having brown shells. Of course there are to be found all gradations between the pure white egg at one extreme and the very dark brown shell at the other.

Consumers, naturally, have individual preferences with respect to shell color just as they have with respect to the color of roses or neckties or any other commodity in which color variation exists. In certain markets the preference for either white or brown shells is so general and so marked that the daily quotations for eggs show a consistent difference in price between brown and white eggs of equal size and equal interior quality.

While the casual buyer of eggs is indulging his preference as to shell color, the shrewd housewife, who knows that chemically there is no distinguishable difference in the interior quality as related to shell color, is looking for other measures of quality while making her purchases.

Don't Wait to Cull.

The annual culling season is here and care should be taken to start the elimination of the looser hens just as soon as any of them appear. The real poultryman is no longer satisfied with one or even two cullings a year. He is finding it pays to make a culling every two weeks for a considerable period in order to get the boards out of the way as soon after they stop laying as possible.

In making these early cullings all that is really necessary is to be able to tell a laying hen from one that is not. This can most easily be done by examining the vent, the abdomen and the spread of pelvic bones.

The vent of the non-layer, whether she be a good or a poor hen for the year, will be more or less dried and shriveled in comparison with the large, moist vent of the laying hen. If a yellow-skinned breed is being observed the return of yellow color to the vent will aid materially in picking out the vacation hens. Similarly the abdomen loses its soft, velvety condition when the hen stops laying.

The pelvic bones are always fairly well spread when a hen is laying but close up when she stops. The non-layer can easily be identified by this condition. The hen that stops laying in July is usually not much of a hen, provided she has had a fair chance and good management.

She can be culled by the three points suggested. In the later cullings more care must be exercised and hence more factors considered.

Seed Wheat.

Experiments at the O.A.C. show that for the best returns it is important to sow seed wheat which is (1) large; (2) plump; (3) well matured; (4) unbroken and (5) ungerminated.

In the average of ten years' experiments wheat sown at the College from the 26th of August to the 9th of September has been more productive than that which was sown at later dates.

Winter wheat sown on summer fallow or after clovers or alfalfa gives better results than that sown after timothy, buckwheat, etc.

Quality pays regardless of whether it is in the goods you sell or the goods you buy. The added price of quality products shows value received in the added service or satisfaction one gets from them. Quality often makes the difference between success and failure in farming.

If You Are a Blonde.

The changing of pretty, light-blond hair into that despised "dshwater" shade can easily be avoided and without the least injury to the hair. I am—well—past thirty and still have pretty, light hair.

Sleep two ounces of camomile in two quarts of water until the tea is quite strong. After the last rinsing of the hair pour this tea well over and into the hair. Do not dry thoroughly with a towel, but rather let the hair dry slowly, thus gaining the full benefit of the camomile.

If the hair has been wrong well after the last rinsing the camomile solution can be bottled for use in the next washing. If you object to the faint odor which will remain for a few days, add some powderedorris root to the tea. The camomile rinse will not bleach or lighten the hair—it merely gives it the original shade.

Never use tar soap if you are blond. It will surely darken the hair. So will petroleum, olive oil and the majority of hair tonics. I have found that a good soaking of the scalp once a month with kerosene will keep it clean and not harm the hair or its color. For the shampoo scrape some pure soap into a little water, let dissolve and pour onto the hair. Rinse well, being sure that no soap remains.

A little borax or soda can be used, but if the hair is very dry and brittle after washing discontinue their use. I wash my hair once a week and have never found it injurious. The injury in frequent washing lies mostly in using the wrong soaps or hair lotions and in improper rinsing.

If possible, always wash in soft water and dry the hair in the sun. As a general thing, blond hair looks its best when waved or curled. I roll mine up with rags, preferably cut-up old stockings, and if this is done before the hair dries after a washing, the curl will stay much longer.

Be sure the curls and waves are large and soft; frizziness is infinitely worse than straight hair. If you succumb to the bo, don't have the hair cut close to the head or shingled. That is for brunettes. A blonde will always look better with a rather long straight Buster Brown cut and the ends softly curled.

Really pretty, light hair on adults is rare and well worth preserving. Try the camomile for a year—you will be pleased with the result.

Doll Dishes.

On her birthday my daughter asked for a set of doll dishes big enough to eat from when her little friends came in to play. We went shopping for them in toy departments of stores and found such sets expensive. But in the house-furnishings section we bought from open-stock china better dishes at a low price.

We bought six bread-and-butter plates of a dainty flower pattern, six after-dinner cups and saucers, the smallest meat platter, an individual teapot, sugar bowl and cream pitcher. My daughter says any pieces left after doll days she is going to put away to form the nucleus of her own house-keeping dishes.

A Poppy Bouquet.

Do not deny yourself the pleasure of a beautiful bouquet of rich red poppies right in the house where you can see them. Early in the morning cut your poppies and be sure to get freshly opened ones.

Dip the tips of the stems immediately in very hot water, then arrange them in a large pitcher or crock of cold water and set them in the cellar for the day. They will droop at first but straighten up later and if they do not need to be moved about will often last two or three days.

Inches of Time.

We housewives are often held in the kitchen, watching the progress of whatever may be over the fire, waiting for things to get done. I used to chafe at these wasted moments. But I don't waste them now—not since I thought of establishing in my kitchen, on a convenient shelf, a worthwhile book to read at those times. I have read in this way a number of fine books that I could not have gotten through with otherwise. Busy women who think they have no time for reading will find that they can accomplish much in that line if they really wanted to, just by using their inches of time.—Alice A. Keen.

OUR VACATION AT HOME

BY GRACIA SHULL

Last year we spent a most enjoyable and profitable vacation, and we never left home.

A quarter of a mile back of our farmhouse on a beautiful knoll is our large orchard, and at the foot of the slope is a brook fed by a spring as clear as crystal. In the centre of the orchard we constructed a "cock shack"; about twenty feet away we made a platform of rough boards, measuring 16 x 20 feet, and then pitched a tent over the platform. The tent was waterproofed and then painted a dull moss green to eliminate the glare.

This was our dining room and living room—whenever we could prevail upon anyone to stay inside. Meals were carried from the cookroom to the dining tent on a huge tray; only two trips were needed to carry the entire meal for the seven of us.

Wash water and water for cooking purposes were carried from the spring. We slept under the apple trees in hammocks or on cots and even on rugs on clear nights, but on damp or rainy nights the women slept on cots and pallets in the tent and the men slept in a large hay barn just at the edge of the orchard.

We closed up the house as though we were going away for a long visit and promptly forgot all about it. We took old, plain dishes—mostly tinware—plenty of cooking utensils, all of our old cotton clothes, dressed the youngsters in rompers, overalls and sunbonnets and turned them loose.

Horses were turned out to pasture, but the men had to milk eleven cows twice each day, feed and water the hogs, tend 180 hens and about 300 young chickens and other poultry.

Occasionally a little weeding in the garden was indulged in or a little wood gathered and cut for our camp, but not one stroke of unnecessary work was done.

The men went on fishing trips nearly every day. We women gathered, preserved, pickled and canned nearly 300 quarts of berries, grapes, watermelon rinds and tomatoes.

We made forty gallons of the finest apple butter from windfalls and sold the greater part at two dollars a gallon to tourists and summer camps. We

made one hundred and sixty glasses of jelly and sold it at thirty cents a glass. Forty quarts of cucumber catchup we sold at fifty cents a quart, and twenty quarts we kept for home use. We made about ten gallons of tomato catchup and sold part of it, receiving twenty cents a half-pint bottle for it.

Our canning was all done in our cook shack and the men made trips to the cellar every few days to store it, but the women never went near the house during the months of July and August.

BUST, HAPPY WEEKS.

We bought our bread and butter and eliminated pastry. We broiled fish, meat and fowl over a camp fire. We roasted wienies and we rolled whole picnic hams in clay and baked them in our camp fire. We used a long-handled toaster to broil meats, thus saving burnt fingers and faces. We did our laundry work at the brook and did not iron a single garment in two months. We wore knickers and one-piece bungalow aprons that had seen better days. The men wore tennis shoes, old colored shirts, old wash trousers or overalls. We turned up a shower bath under a V-shaped tent of muslin. The youngsters went barefoot and mother and I wore sandals.

The fruit, berries, and so forth, were clear profit except for the sugar, vinegar and spices used in making them, as we had never tried using windfall apples before, or berries and wild grapes, picked in fence corners.

The youngsters grew brown and strong. The horses grew sleek and fat and lazy—the men knew—and I found time to make many dainty pieces of needlework for the coming Christmas box, read many good magazines and books, write letters to selected friends and relatives and spend many happy dreams under the stars at night.

Altogether we were a very happy lot, and when the last week of August rolled round and we made a fire of our old clothes and sent the men down the hill to open up and start the house for our homecoming, it was with real pleasure that we looked back over the happy weeks of our beautiful vacation.

ECLIPSE FASHIONS

BOYS' NORFOLK.
This type of suit will suit all boys who dress their young sons smartly and sensibly, and will give the young boy will wear with much pleasure. The best pattern in the front and back fit under a yoke. The trousers fit closely to the neck, and the pockets may be long and gathered at the top, or short. The patch-pockets are generous in size and will hold many treasures. The trousers are made in three sizes, 4, 6 and 8 years. Size 4 years requires 2 1/2 yards of 54-inch material. Price 25c.

Our new Fashion Book contains many styles showing the latest fashions for boys and girls. Simple and sensible for well-dressed children, it is a book of character and individuality. The junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

HOW TO ORDER PATTERNS.
Write your name and home address, giving number and size of the pattern as you want. Enclose 25c in stamps or coin (not preferred) and a carefully for each number, and address your order to Pattern Dept., Wilson Publishing Co., 75 West Adelaide St., Toronto. Patterns sent by return mail.

Like and mine are parasites which suck away poultry profits. It is a good investment of time and money to keep them in check.

This photograph, taken in Trafalgar Square, London, shows the opening of the first number of Canadian people, donated by Mr. W. Ormiston Bay of Montreal and shipped in cold storage.

THIRTEEN INJURED IN AUTO COLLISION ON HIGHWAY NEAR ST. THOMAS

A despatch from St. Thomas, Ont., says:—Thirteen people were injured on the highway Wednesday night last week in a head-on collision between a heavy touring car and a light sedan a few hundred yards north of the village of Union, between St. Thomas and Port Stanley. Five of those taken to the hospital when the two cars collided are still there. C. L. Weidman, 68—Gerrard St., London, Ont., is in the worst condition, one hip being either dislocated or fractured. X-ray photographs were made to learn just what the extent of Weidman's injuries are. Weidman was also badly bruised about the body, and his back and chest hurt. The others in the hospital are: Mrs. D. Man, Frank Wisniski, aged five years, Earl Walker and Roy Howarth, all of this city. The two cars are a total wreck. Fire completed the destruction of the touring car about 2 o'clock in the morning. The touring car was driven by William Howarth, Jr., of this city. He claims that he was on his right side of the road and that the other car headed straight for him, turning to the other side of the road at the last minute, but too late to avoid a collision.

With Howarth were Earl Walker and Frank Wisniski in the front seat, and his mother, Mrs. Mann, Roy Howarth, Audrey Mann of this city, and Savilla Schultz and Wesley Schultz, 10 and 6 years old, of Rochester, N.Y., who were visiting with Mrs. Mann, their grandmother. All the occupants of the back seat were thrown from the car by the force of the impact. Savilla Schultz being rendered unconscious. Shortly after being taken to the hospital she regained consciousness, and then was taken to the home of Mrs. Mann. With Weidman were his young son and Ethel and Margaret Marshall, all of London. They were taken home. Mr. Mann is at present working in Detroit.

THE MARKETS

TORONTO.

Man. wheat—No. 1 North, \$1.72½; No. 2 North, \$1.70½; No. 3 North, \$1.64½; No. 4 wheat, not quoted. Man. oats—No. 3 CW, not quoted; No. 1 feed, 54c; No. 2 feed, 52c. All the above c.i.f. bay ports. Am. corn, track, Toronto—No. 2 yellow, \$1.24. Millfeed—Del., Montreal freights, bags included; Bran, per ton, \$28; shorts, per ton, \$30; middlings, \$36; good feed flour, per bag, \$2.30. Ont. oats—48 to 50c, f.o.b. shipping points. Ont. wheat—\$1.25 to \$1.30, f.o.b. shipping points, according to freights. Barley—Malting, 74 to 77c. Buckwheat—No. 3, 78c. Rye—No. 2, nominal. Man. flour, first pat., \$9.10, Toronto; do, second pat., \$8.60, Toronto. Pastry flour, bags, \$6.10. Ont. flour—Toronto, 90 per cent. pats., per barrel, in carlots, Toronto, \$5.70; seaboard, in bulk, not quoted. Straw—Carlots, per ton, \$8 to \$8.50. Screenings—Standard, recleaned, f.o.b. bay ports, per ton, \$21. Hay—No. 2, per ton, \$13 to \$14; No. 3, per ton, \$11 to \$12; mixed, per ton, \$9 to \$11; lower grades, \$6 to \$9. Cheese—New, large, 24 to 24½c; twin, 24½ to 25c; triplets, 25 to 25½c; Stiltons, 26 to 27c. Old, large, 28 to 29c; twin, 29 to 30c; triplets, 29 to 31c. Butter—Finest creamery prints, 40c; No. 1 creamery, 40c; No. 2, 37½ to 38c. Dairy prints, 27 to 29c. Dressed poultry—Chickens, spring, 1b., 30 to 35c; hens, over 4 to 5 lbs., 22 to 24c; do, 3 to 4 lbs., 20c; roosters, 18c; ducklings, 27 to 30c. Beans—Can., handpicked, 1b., 6½c; primes, 6c. Maple produce—Syrup, per imp. gal., \$2.40; per 5-gal. tin, \$2.30 per gal.; maple sugar, 1b., 25 to 26c. Honey—60-lb. tins, 13½c per lb.; 10-lb. tins, 13½c; 5-lb. tins, 14c; 2½-lb. tins, 15½ to 16c. Smoked meats—Hams, med., 32 to 38c; cooked hams, 47 to 50c; smoked rolls, 22c; cottage, 23 to 25c; breakfast bacon, 30 to 34c; special brand breakfast bacon, 37c; backs, boneless, 36 to 42c. Cured meats—Long clear bacon, 50 to 70 lbs., \$22 to \$24; 70 to 90 lbs., \$20.50; 20 lbs. and up, \$19.50; lightweight rolls, in barrels, \$29.50; heavyweight rolls, \$24.50 per barrel. Lard—Pure tierces, 18 to 18½c; tubs, 18½ to 19c; pails, 19 to 19½c; prints, 20 to 20½c; shortening, tierces, 14½c; tubs, 15c; pails, 15½c; blocks, 16½c. Heavy steers, choice, \$8 to \$8.25; do, good, \$7.25 to \$7.75; butcher steers, choice, \$7 to \$7.25; do, good, \$6.50 to \$7; do, med., \$5.50 to \$6; do, com., \$4.50 to \$5.25; butcher heifers, choice, \$6.75 to \$7.25; do, med., \$5.50 to \$6; do, com., \$4.50 to \$5.25; butcher cows, choice, \$4.50 to \$5; do, fair to good, \$4 to \$4.50; canners and cutters, \$2 to \$2.50; butcher bulls, gd., \$4.50 to \$5.50; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.25; do, fair, \$4.50 to \$5.25; calves, choice, \$9.50 to \$11; do, med., \$7 to \$9; do, com., \$4.50 to \$5.50; milch cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7.50 to \$9; good light sheep, \$5.50 to \$6.50; heavy and bucks, \$3.50 to \$4.50; good lambs, \$15.50 to \$16.75; do, med., \$15 to \$15.25; do, bucks, \$13 to \$13.75; do, culls, \$11 to \$12; hogs, thick smooths, med and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.56.

MONTREAL.

Oats—Can. wests, No. 2, 69½c; do, No. 3, 62½c; extra No. 1 feed, 63½c. Flour, Man. spring wheat pat., firsts, \$9.10; seconds, \$8.60; strong bakers', \$8.40; winter pats., choice, \$6.20 to \$6.40. Rolled oats, bag, 90 lbs., \$3.65 to \$3.75. Bran, \$28.25. Shorts, \$30.25. Middlings, \$36.25. Hay, No. 2, per ton, car lots, \$14. Cheese, finest wests, 21½ to 22½c; finest easts, 21c to 21½c. Butter, No. 1, pasteurized, 38c; No. 1 creamery, 37 to 37½c; seconds, 36 to 36½c. Eggs, fresh extras, 41c; fresh firsts, 38c. Cows, med. quality, \$3.50 to \$4; calves, fairly good, \$3; do, common veals, \$6; mixed lots of com. drinkers and grassers, \$5; lambs, med., \$18; hogs, mixed lots, \$14 to \$14.25; sows, \$10 to \$10.50.

Her Sensitive Husband.

She was one of the old-fashioned wives. And she spoke as one. "Yes," she said, speaking of her husband to a friend, "he's a wonderful man, but so sensitive. Why, do you know, every time he sees me chopping kindling he has to go and shut himself indoors!"

Major-General Sir Frederick Maurice, noted British military strategist, who is now lecturing in the United States, claims that complete military disarmament is almost impossible.

CANADIAN DOLLAR REMAINS ABOVE PAR

Crop Prospects One of Reasons Given by Financial Experts of United States.

New York, Aug. 3.—Confidence of United States capital in the Dominion, optimistic preparations for new Canadian financing, prospects for an excellent crop, large United States purchasing in Canada and heavy expenditures of American tourists in the Dominion, were some of the reasons offered by financial experts here tonight for the consistent above-par stand of the Canadian dollar on the New York Exchange. To-day the Canadian dollar stood at a premium of 3-32, and since April, save for a single dip in May, it has been on a parity with the United States dollar or at a premium. Experts pointed out that trade reports showed heavy purchases by United States customers in the Dominion, that a large development of power was shortly to be made by United States capital in Quebec, and that this year was a bumper one for tourists in Canada.

Maniac Who Had Terrorized North is Captured

A despatch from Sudbury says:—After terrorizing the district about Copper Cliff and Murray Mine for some weeks, John Kiupani, a Polack, 48 years of age, who has been roaming about for some time in a crazed state of mind, is now in custody and has been committed to an insane asylum by Magistrate Stoddart of Copper Cliff. The man, who is thought to have caused a fire which destroyed a large barn and other buildings on a Garson Township farm some days ago, wielded an axe and threw large stones in his fight against capture by the police. Strategy had to be resorted to in order to effect the capture of the maniac, two of the policemen engaging his attention from the front while Chief Walsh of Copper Cliff stood upon him from behind. During the hectic pursuit the man called out to the police to shoot him; that he wanted to die.

Britain and U.S. Share Sulgrave Manor Site

A despatch from London says:—Sulgrave Manor, George Washington's ancestral home, will belong to both the United States and England. Viscount Lee of Fareham made this announcement at a reception at Sulgrave to members of the American Society of Colonial Dames. The title to the deeds to the home are held in this country at present, but they will be handed over to a board of three trustees, of whom two are Americans and one a Briton.

CHARTER PRESENTED TO YOUNGEST CITY

North Bay Attains New Status in Presence of Large Reunion Crowd.

North Bay, Aug. 3.—North Bay's charter of cityhood was officially presented to Mayor J. H. McDonald at 12 o'clock to-day by Hon. Charles McCrea, Minister of Mines in the Ontario Government. The largest gathering ever seen in North Bay assembled at Memorial Park about 11.30, where ex-Mayor John Ferguson, President of the Old Home Week Committee, introduced the Minister to the citizens of Ontario's youngest city. After reviewing the history of the municipality, Mr. McCrea said the founding of a city here was of tremendous importance to the future of the country. He urged the citizens to be jealous of the rights of cityhood, and to see that they were kept in the same state as when presented.

Before presenting the charter to his Worship the Mayor, Hon. Mr. McCrea added a final word to the citizens of Ontario's newest city: "By your works in the future you shall be known among your sister cities, and it is my hope, my wish and my prayer that the escutcheon of this charter will be kept as clean in the future as it is on this day of its birth." The conclusion of the address was greeted with round after round of applause.

Following the invocation by Rev. Father Chapleau of North Bay and Rev. T. J. S. Ferguson of Cooke's Church, Kingston, formerly of North Bay, his Worship Mayor McDonald addressed the gathering, and extended the freedom of the city to the old boys and old girls who have returned for the celebration. Other speakers were: E. A. Lapierre, M.P., of Sudbury; Harry Morel, M.P., of Mattawa, and Hon. Senator Gordon of North Bay.

The key of the Gateway City was presented to the Queen of the Carnival, Miss Nellie Baxter, by his Worship, and Miss Baxter in turn presented it to North Bay's pioneer resident and physician, Dr. A. McMurphy.

2,277,712 Bushels of Grain Loaded in Day at Montreal

Montreal, Aug. 3.—Grain figures issued by the Harbor Commission on Saturday show that all grain shipment records were broken by one day's delivery of 2,277,712 bushels of grain to outgoing ships. The four harbor elevators were working at top speed all day, loading more than 15 vessels, 12 of which sailed for British and European ports over the week-end.

Harbor officials declared that this was the first time in history that grain shipments in one day have exceeded the two-million mark.

Coast Safeblowers Rob Safe of \$18,000

Victoria, B.C., Aug. 3.—Sunday night two bandits broke into Spencer's store here, bound and gagged the night watchman and, having blown open the safe, made off with between \$16,000 and \$18,000. J. L. Griffiths, the watchman, was found to-day by the engineer of the building still bound and gagged with sticking plaster, on the top floor of the building.

Remarkable Feat in Shipbuilding by English Firm

London, Aug. 3.—A remarkable feat in rapid ship construction has been accomplished by the Furness Shipbuilding Co. at its ship yard on the Tees River, where the company laid the keel of a steamer for the Canadian lakes trade 15 weeks ago and the vessel is now completed and is being loaded with her first cargo.

Teachers.

Teacher—"Johnny, will you define the genders." Johnny—"There are two genders, masculine and feminine. Masculine is divided into two parts, temperate and intemperate, and feminine into torrid and frigid."

Chief Bull Head Earl Haig. This photograph of the famous British soldier was taken at the Calgary stampede.

BEATTY SUGGESTED TO SUCCEED BYNG

London Daily Express Would Have Admiral as Canada's Next Governor-General.

London, Aug. 3.—Earl Beatty, Admiral of the Fleet, whose term at the Admiralty expires next autumn, is being mentioned here as a probable successor to Lord Byng as Governor-General of Canada when the latter leaves Rideau Hall at the close of his period of service in the Dominion. This suggestion is given powerful backing by Lord Beaverbrook, the

LORD BEATTY.

Canadian-born owner of the Daily Express, which paper states: "Of those qualified for the task, and likely to be free to accept, Earl Beatty would appear to be the most obvious choice. His term in the Admiralty expires almost at the same time as Lord Byng's term as Governor-General, and he would certainly be very acceptable to the Dominion. His temperament is peculiarly suitable to that of the Canadians. He possesses a personality which radiates and has an immediate effect on all with whom he comes in contact, and his bluntness would be no means displeasing to Canada."

HEALTH IMPROVED AS RESULT OF TRIP

Prince of Wales Terminates South African Visit and Sails for S. America.

A despatch from Cape Town, Union of South Africa, says:—The Prince of Wales, looking bronzed and much more robust than when he came to South Africa, sailed from Simon's Town, the naval station, for South America at four o'clock Wednesday afternoon. He will go by way of St. Helena.

The Prince said he never felt better in his life and had enjoyed the climate enormously. "I feel that I have got to know something about South Africa," he remarked, "and I hope I can now be regarded as a good South African."

Prior to sailing the Prince knighted Rear Admiral Fitzmaurice, Commander-in-Chief of the African station, on the quarterdeck of the flagship Birmingham, in the presence of the Governor-General, the Earl of Athlone, and the ship's officers.

There is a fervent hope throughout South Africa that the Prince may return in a private capacity, and particularly that he may eventually become a South African farmer as he is a Canadian farmer.

Prince of Wales Has Arrived at St. Helena

St. Helena, Aug. 3.—H.M.S. Repulse, which is carrying the Prince of Wales from South Africa to South America, anchored here to-day.

EARL HAIG AND PARTY GET HEARTY SEND-OFF

Filed Marshal Expresses Desire to Visit Canada Again.

A despatch from Montreal says:—Earl Haig, famous British Field Marshal, concluded a tour of Canada, during which he has worked for the consolidation in Canada into one branch of the British Empire Service League, a biennial convention of which was held under his presidency in Ottawa this year.

A military guard of honor, a military band and hundreds of civilians assembled to give the Field Marshal a send-off at Montreal. He was accompanied by Countess Haig and a group of delegates from all parts of the British Empire to the League's convention in Ottawa.

"I have enjoyed my visit more than I can tell," said Earl Haig, as he went aboard the liner "I am more than satisfied that the thousands of brave Canadian ex-service men will join in the British Empire Service League."

"You have all been so kind to me that I shall put forth every effort to come again. You have a wonderful country and as I said in a recent speech, we consider Canada the keystone of the Dominions."

"It's not good-bye, but au revoir," he said to his guard of honor, as he shook their hands.

Toronto Young Man Drowned in Muskoka

Bala, Aug. 3.—James Thomson, aged 26, of 139 Westmount Avenue, Toronto, was drowned at Bala, Muskoka, to-day. Shortly after breakfast Mr. Thomson went swimming in the Mill stream, and it is presumed that he was taken with cramps, as no cry for help was heard.

Mr. Thomson was formerly a teller with the main branch of the Royal Bank, Toronto. He is survived by his parents, who reside in Scotland, and a sister, Mrs. R. C. George, of 139 Westmount Avenue, Toronto, and a brother in Detroit. Mr. Thomson came to this country from St. Margaret's Hope, Orkney Islands, about five years ago. It is understood that he served with the Scottish troops during the Great War.

First Divorce Granted in Northern Wilds

A despatch from Edmonton says:—His Honor Judge Dubuc, acting as Stipendiary Magistrate for the Northwest Territories, who has returned to the city from Fort Smith, has granted the first divorce ever given in the far North.

Sitting at Fort Smith, Judge Dubuc heard the application of Ernest Gowen, Hudson's Bay post manager at Fort Good Hope, for a divorce from his wife, on the usual statutory grounds. A decree to become absolute in three months was granted.

Fort Good Hope is on the Mackenzie River, 1,300 miles from the end of steel, at Waterways, and 1,600 miles north of Edmonton.

DAMAGE FROM FIRES IN ONTARIO ON DECLINE

Fire Marshal's Half-Yearly Figures Show Drop of \$1,484,247 in Total.

A despatch from Toronto says:—The toll of damage occasioned by fires continues to show a steady decline in Ontario. Figures for the first six months of 1925, issued by the Provincial Fire Marshal, revealed a total loss of \$5,148,463, as compared with a total loss of \$6,632,710 for the corresponding period of last year, the decrease being \$1,484,247. For the month of June past, the total loss was \$974,689, as compared with \$1,260,640 for the same month a year ago, the decrease being \$285,951.

During the month of June the chief fires in Ontario were one at Hagersville, in which the loss was \$99,500, one at the Minaki Inn, at Kenora, in which the loss was \$200,000, and one at the Bartlett's store in Windsor, in which the loss was \$57,450.

So far during 1925 factories have been the principal sufferers in Ontario fires. Some 194 of them have been visited by flames, with resultant loss of \$2,815,884. Closely following them in the matter of damage incurred come retail business places, 579 of which have been the scene of conflagrations with consequent loss of \$2,006,173. During the half-year there have been 3,650 dwellings on fire, in which the damage has run to \$1,660,400. Farmers' barns to the number of 354 have been affected by outbreaks, and the loss in this department has been \$481,000.

Geese from Kingsville Killed in Far North

Kingsville, Aug. 3.—Five tags taken off Canadian wild geese killed by native Indians near the Albany Post of the Hudson's Bay Co. at Mattice, Ont., have been returned to Jack Miner, the naturalist here. It is not thought that these big birds have been tagged before.

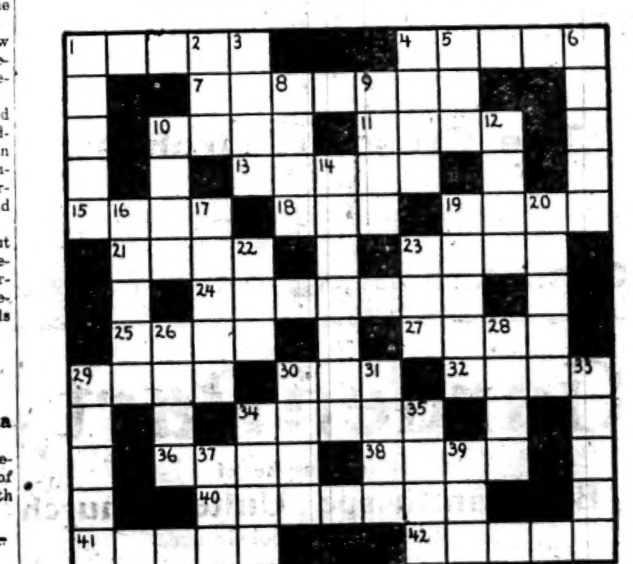

England Plans Long Radio.

A despatch from London says:—In addition to the big radio station now being built at Rugby, the postmaster general is planning to erect another high-power station at Winthorpe, near Skegness, on the east coast. This station, when completed, is expected to be used for communication with Australia and India.

Answer to last week's puzzle.

CROSS-WORD PUZZLE

THE INTERNATIONAL SYNDICATE

SUGGESTIONS FOR SOLVING CROSS-WORD PUZZLES

Start out by filling in the words of which you feel reasonably sure. These will give you a clue to other words crossing them, and they in turn to still others. A letter belongs in each white space, words starting at the numbered squares and running either horizontally or vertically or both.

- | | |
|---------------------------|-----------------------------|
| HORIZONTAL | VERTICAL |
| 1—Tortures | 1—Dowdlyish woman |
| 2—Still | 2—Still |
| 3—Springy | 3—Sudden blow |
| 4—To pierce | 4—To split asunder |
| 5—To make level | 5—Frozen dessert |

The Garden Party at Erindale

When we get our mail, the first thing we do,
Is to read all the news, in The Streetsville Review.
About two starting life, with feelings so tender,
And some journey ended, by some old auto fender.
We see all who visit, and we read all the jokes,
And the United Church Garden Party, to be held at Vokes'.
This will cause us some trouble, for it sure is some fix,
For we are mixed up, in a family of six.
And this family, were all determined to go,
For we all heard Miss Ward, the pianist, and William Joe.
But last week we paid, an instalment of rent,
And we couldn't go, for our money was spent.

To city people, it must seem sort of funny,
The way country people, have to make money,
In the country we never, do things by halves,
So we went to Toronto, with some hogs, and some calves,
The sight of the party, we cranked up the Ford,
And some had to stand out, on the running board.
Through Lissar and Streetsville, and the towns we went through,
Were all starting off, for this great party too.
We were pleased to view, the grounds before dark,
For it was all like, a beautiful park.

There was a musical treat, from the Orchestra, Port Credit Band,
And they had to repeat, we thought it was grand,
Joe's Bert's and Miss Ward's parts, were acted so clever,
We thought we could listen, for ever and ever,
We think old and young, all laughed so heartily,
We will never forget, Vokes' great garden party.
For a garden party, if a crowd you would fetch,
Get Joe Williams, Miss Ward, and also Bert Petch. SANDY.

GRAND Garden Party

under the auspices of

The Bible Class of Streetsville United Church

will be held at the residence of Mr. Andrew Jamieson
Lot 4, Con. 3, Toronto Township, 1 mile east of Streetsville
Wednesday Evening

Aug. 19, 1925

A splendid program will be rendered by the following artists:

Mr. C. LeRoy Kenney,
A. T. C. M., Entertainer

Miss Margaret Kenney
Accompanist and Entertainer

Miss Evelyn Fortner
Elocutionist, Toronto

Alex White
Boy Singer, Weston, (called the Second Harry Lauder)

Miss Margaret Hewson
Accompanist, Toronto

First class music will be furnished by

The Crescent Orchestra

Admission—25c. & 15c.

Refreshments for sale on the Grounds

REV. S. J. T. FORTNER, Chairman

Come and Bring Your Friends

THE REVIEW

and get all the news

Brampton

When her father backed his car into A. H. Milner's car at the four corners in Brampton, yesterday, a little girl fell out on the pavement and was injured.

Descendants of John and James Douglas, Scotch pioneers, who settled in the Streetsville district in the early days of the country, held their third annual reunion at Eldorado Park Monday. Members of the clan from Ottawa, Peterboro, Forest Ont., Brandon and Cromer, Man., and from various points in Ontario were present. Those who travelled the greatest distance to be present were Mrs. T. Douglas and family of Brandon, and J. H. Douglas, Cromer. R. F. Douglas, Toronto, secretary of the organization, was in charge of the affair.

Rather than worry his wife, who is seriously ill in a Guelph Hospital, Hugh Logan of Terra Cotta, sought out Magistrate Moore in connection with the case against him of unlawfully having liquor, which was to have been tried at Brampton on Saturday morning, and which Logan would have defended. The charge was changed to one of being intoxicated, and Logan, pleading guilty, was fined \$50 and costs of \$11.

The Women's Auxiliary of the 74th Battalion, Toronto, held their annual picnic at Brampton, and had a most enjoyable time, some seventy members attending. On arrival at Brampton they were met by officials of the Dale Estate and conducted over the beautiful greenhouses, each lady being presented with a bouquet of roses. Lunch was served in the park, after which a fine program of sports took place. The winners were as follows: Walking race, Mrs. Barclay; skipping contest Mrs. M. Gray; peanut race, Miss Mabel Harding; balloon race, Mrs. Giles. The 74th being a Peel battalion, the visit of the auxiliary was greatly appreciated by the citizens. After dinner the whole party returned to Toronto in the T.T.C. coaches, very pleased with the day's outing.

Port Credit

Midnight attempts at theft have been reported by campers at Port Credit. Two United States tourists claim that their tent was entered and some goods taken, only recovered after a long chase, in which the thief escaped. Similar incidents have been reported to the police.

Some 600 attended the local L.O. L. garden party in St. Lawrence Park Monday. Col. Tom Kennedy presided over a concert in the evening, when an excellent program was given by Toronto talent. Sam Charters, M.P. gave an address. The lodge will have a good balance after paying expenses.

Erindale

The Orange Garden party held at the residence of Mr. Edgar Adamson Saturday night was a great success, about 1000 people being present. A splendid program was rendered by the Fox Fan Co. of Toronto, including "Jimmy" Fax, the funny man, who tickled everybody nearly to death; Miss Thelma Oswin, the pretty young dancer, in cute costumes who danced to perfection; Miss Parsons, soprano singer and Miss Mamie Mason, who played the accompaniments and entertained with selections in elocution. Rev. Mr. Blodgett of Toronto acted as chairman in a very acceptable manner. The weather was perfect and a good business was done in the refreshment line. The boy scouts from Toronto were there in full force and their bugle band rendered selections.

Among those present we noticed: Sam Charters, M.P.; Mr. W. R. P. Parker, and Col. T. L. Kennedy, M. P.

Miss Beatrice Church is spending the week with her aunt, Mrs. Wright at Woodbridge.

The Ladies Aid of St. Andrew's Presbyterian Church will hold a lawn social at Mr. S. H. Foster's on Friday evening, Aug. 14th. A splendid program will be provided.

Master George Ward is visiting with friends in Orangeville.

The radial service between Oakville and Burlington was discontinued last Monday because it did not pay. This will be a boon for the bus lines.

Dr. C. C. Ramage of Cooksville, visited friends in Western Ontario this week.

Miss Violet Bowie, daughter of Dr. T. J. Bowie of Streetsville, who has been summering at Camp Franklin, in the Georgian Bay, carried off the prize for ladies singles in the tennis tournament held there. The prize was donated by Judge Aires of Kentucky, who is also a guest at the Camp.

Let's Go to Eldorado

In a large and crowded city.
Some twenty miles away.
A chummy lad and lassie
Rolled 'long the burning way,
The air was foully heated
With a hot and sultry blight
When unto him she gaily turned
And said with a delight

"Let's go to Eldorado
Where the breeze is blowing cool
And watch the little fishes play
Down in the silvery pool,
And have a race around the course
And a paddle in the blue
And you may ride the hobby horse
While I sit watching you."

Now a C.N.R. electric car
Was passing on the line,
And on their heels, they made a wheel
And just caught it in time:
They quickly passed the suburbs by
Unto a country scene,
When the Con. calls 'Eldorado'
And they stepped out on the green.

This pleasure land, to them so grand
Proved such a lovely spot;
By Cupid's darts and arrows
They both got badly shot;
And the parson's got a job on hand
To tie the lasting knot,
And the day at Eldorado
Will never be forgot.

Will you come to Eldorado
Where the breeze is blowing cool,
And watch the little fishes play
Down in the silvery pool:
And have a race around the course
And a paddle in the blue,
And you may ride the hobby horse
While I sit watching you
GEO. HALLIDAY

S. H. Albertson, township clerk and one of the best known and most highly respected residents of Trafalgar, suffered severe injuries in a motor accident at Postville on Saturday night. He was driving across the highway from the seventh line, when his car was struck broadside by a westbound auto travelling at high speed. The terrific impact smashed the front wheel and axle of Mr. Albertson's car, and threw him to the side with such force that several of his ribs were fractured, his arm injured and many minor hurts sustained. He had a close shave from being killed outright. The occupants of the Hamilton car were badly shaken and bruised. Mr. Albertson was removed to Mrs. W. Dent's and Dr. Wilkinson was soon in attendance. We are glad to state Mr. Albertson is making a rapid recovery.

MILTON

A serious motor car accident occurred at Speyside, north of Milton, when a sedan owned and driven by Joseph Hulse of Orangeville, was wrecked, and its occupants badly injured.

Hulse, his two daughters (Misses Clara and Delia), and F. Faulkner, were on their way to Milton to take part in the program at the summer carnival. Their car got out of control as it was descending the steep hill on the Second Line, Esqueving, near Speyside, between Acton and Milton. The machine ran wild down the hill, plunged through a fence, turned turtle several times, and struck a telephone pole, which snapped off near the middle. All the occupants were injured, Miss Clara Hulse being more seriously injured than the rest, she having sustained a broken collarbone, and also had several ribs broken.

A doctor was summoned from Milton, who, after rendering first aid, had Miss Hulse taken to the home of a friend here. Later she was able to return to her home with her sister.

BRAMPTON

Thrown from the horse he was schooling when the animal fell over on its back, killing itself, Alex. Rault, aged 30 years, a groom at Joseph Brownridge's stables on Main Street North, received injuries to his head which resulted in his death three hours later. Rault suffered concussion of the brain, and never recovered consciousness. The horse is thought to have died almost instantly, since the force of its fall severed an artery in its neck.

A large representation of the G.W. V.A. turned out under President George Ching, to pay the last respects to Alexander Rault, who met a tragic death on Thursday while engaged in training a horse. Present with the veterans were Major A. Firth, Major W. D. Sharpe, Major Harold Robson, and Lieut. McLean. The casket, enwrapped in the Union Jack, was placed in the hearse, which was followed by a dray carrying a large number of floral tributes, among which were a wreath from the G.W. V.A., and others from B. H. Bull and Sons, Mr. and Mrs. J. T. Brownridge, Mr. and Mrs. Fred Goddard, and his chums. Rev. Stanley Elliott, a returned chaplain, conducted the services. Sergt. Major Hurrell was in charge of a firing party of eight men, and W. Cuthbert sounded the Last Post. The bearers were Stanley Goddard, Fred Lockhurst, George Flood, Bert Cook, Ernie Tallant and W. Potter. The deceased was in the Royal Artillery during the war, and was a member of the Active Reserve Force at the time of his death.

Nevills—In Brampton, Wednesday, August 5, Catherine Buie, beloved wife of Colin Nevills, in her 72nd year. Private funeral Friday.

Mrs. Miriam Dance charged her husband with assault and on Saturday Magistrate Crawford fined him \$2 and costs of \$9.

Brampton Soft Ball Team came down last Thursday evening for a friendly game with Streetsville. The visitors defeated our players by a small margin.

Miss Doris Sanford is visiting with friends in Dundas.

Erindale

A most successful garden party was held last night on the beautiful grounds of Mr. Miles Vokes, Dundas Street, under the auspices of the United Church at Erindale. About 300 people gathered from the surrounding country and distant places.

The grounds were brilliantly lighted by Hydro and with the large crowd present, presented a gay appearance. The pastor, Rev. Mr. Bellsmith, occupied the chair and a splendid program was rendered, including selections by an orchestra from the United Church, Port Credit.

Joe Williams, the English comedian, and Bert Petch, elocutionist, kept the audience in good humor with their several selections, while Miss Millicent Ward played the accompaniments, and entertained in a pleasing manner.

Refreshments were served at the booths, where the crowd was well supplied with all kinds of eats.

The committee worked hard to make the garden party a success and were well rewarded for their efforts. One lady sold eighty tickets.

The program was of a high class and the general opinion was that it was the best garden party this church ever held.

Erindale

The Women's Institute will hold a business meeting on the Rectory lawn on Thursday evening Aug. 13th at 7.30 sharp. All members are requested to attend.

Misses Annie O'Brien, and Dorothy Wilson, who were injured by being hit by a motor car on the highway last week, are recovering. Miss O'Brien is able to be out again, but Miss Wilson is still confined to her home. It took several stitches to close her wounds.

Confirmation class is held every Friday evening at St. Peter's Church Rectory at 7.30 sharp.

Death of Mrs. Brown

On Thursday at 12 o'clock noon, Wilhelmina McPherson, beloved wife of Mr. Geo. E. Brown, postmaster at Port Nelson, passed away at her home, after a lengthy illness, which was borne with Christian patience and fortitude. The deceased was the daughter of the late Malcolm and Catherine McPherson, who were early pioneers of Nassau County township, and later moved to Trafalgar township, settling near Oakville. Sixteen years ago the family came to reside at Port Nelson, and during her residence here the deceased made a host of friends.

She was of a kind and loving disposition, a good friend, and a devoted wife and mother. She always took a deep interest in the Strathcona Home and School Club, and was a faithful worker and member up to the time of her illness being a regular attendant. She was a member of St. Luke's Church, and was always active in church work. Besides her husband, she is survived by one son, Gordon, Detroit; six daughters, Mrs. W. A. Summers and Mrs. W. E. Williamson, Port Nelson, and Misses Flora, Luena, Evelyn and Etta, at home; three brothers, John and William, Oakville, and Daniel, Detroit, and two sisters, Mrs. J. A. McKay, Oakville, and Mrs. Cook, Ingersoll.

The funeral took place on Sunday afternoon from her late residence and was one of the largest ever witnessed in Burlington. Friends and relatives were in attendance from New York, Detroit, Niagara Falls, Hamilton, Toronto, Meaford, Erindale, Cooksville, Streetsville, Meadowdale, Brampton, Milton, Ayr, Acton, Oakville, Port Credit, Hillsburg, Palerme and district to pay their last respects to the deceased. A short service was held at the house and the remains were then conveyed to St. Luke's church, where an appropriate service was conducted by the Rector, Rev. Geo. W. Tebbis. During the service Mrs. Wm. Hammond sang very acceptably "There is no Night There." Many were unable to gain admission to the church, but the day was beautiful, and those who could not obtain seats remained outside, and accompanied the remains to Greenwood cemetery, where the deceased was laid to rest in the family plot. The pall bearers were Gordon Hanley, Milton; Irwin Cotter Port Nelson; Malcolm and William McPherson and Allen McKay, Oakville; and Elmer Brown, Toronto. The many floral tributes testified to the high esteem in which the deceased was held by a wide circle of friends.

Make sure of a room

The hotels will be crowded with people arriving for the Exhibition.

If you intend stopping at a hotel, call up by Long Distance promptly and make your reservations.

If you intend stopping with friends, telephone them and make sure they can accommodate you. They may have other arrangements.

The definite assurance of comfortable accommodations waiting for you will make holiday trips doubly enjoyable.

Every Bell Telephone is a Long Distance Station

COWS FOR THE SETTLER

THE ONTARIO GOVERNMENT IS HELPING NORTHERN FARMERS

The Northland Produces Much Hay—It is Best Sold on the Hoof or in Milk—Settlers May Purchase Cattle Cheaply—Wireworm Poison.

(Contributed by Ontario Department of Agriculture, Toronto.)

Few people in Old Ontario who have not travelled through the northern part of the province realise that there is a territory lying north of New Liskeard and west of Cochrane that will in the near future become one of the most important producing agricultural areas of the province. The country adjacent to the railways is now cleared or being cleared to such an extent that the settlers are no longer dependent upon their timber or pulp wood for revenue, but are now engaged in farming proper. Many farms, especially in the New Liskeard section, are entirely cleared of bush and the while acreage is either under cultivation or in hay and pasture.

Northland Produces Much Hay.

With the wonderful producing power of this new land there is an exceptionally rapid growth of vegetation and hay is now being produced in such quantities that it is with difficulty that a market can be found for the entire production. So much is this so that even this year in June, stacks of 1924 hay may be seen as one travels along the railway. Settlers have not been producing hay alone, but have been getting into live stock raising as rapidly as circumstances and conditions would permit. This is evidenced by the fact that between New Liskeard and Cochrane there are creameries at the following points: New Liskeard, Ramore, Earlton, Matheson, Val Gagne and Cochrane.

Ready Money Scarce With Settlers.

As was the case with settlers in Old Ontario so it is in most cases with settlers in Northern Ontario—they have very little ready cash as their earnings have been used in clearing the land consequently the Ontario Government is assisting the settlers financially in the building of creameries and in the purchase of cows. Such assistance is being given on business principles only, that is, the money for the building of creameries and the purchase of cows is being loaned to the settlers at a moderate rate of interest and under certain conditions.

Purchase of Cows.

Briefly speaking, the new policy of the Department of Lands and Forests, through the Northern Development Branch, in co-operation with the Department of Agriculture through the Live Stock Branch, is as follows:—Cattle are to be purchased in car-load lots only.

Settlers are to appoint a Representative to select the animals, and are to authorise him to act on their behalf in such selection and in deciding as to price.

Settlers are required to sign an application form to this effect agreeing to give promissory notes and liens against their farms for unpaid balances.

Government will appoint a representative of the Department of Agriculture to accompany settlers' representative and assist him in selection of cattle.

Government will advance full amount of money to pay for cattle at time of purchase and to prepay transportation charges and to pay expenses of settlers' representative.

Settlers will be charged \$12 per cow to defray the transportation charges and the cost of their own representative. This flat rate will mean a saving of several dollars per cow to the settlers, and will give them the advantage of knowing exactly what these costs will amount to.

The total cost to the settler will be the amount paid for the stock purchased for him plus \$12 per head for those other charges.

Upon delivery the settlers will be required to pay at least 25 per cent. of this total cost and as much more as he is able.

Interest at 5 per cent. will be charged on unpaid balances and repayments are required at the rate of \$3 per cow per month, and the settler shall give a promissory note to this effect and a lien against his farm.

Repayments may be made to the creamery or to such other local office as may be designated in the community.—L. E. O'Neill, Live Stock Branch, Ontario Department of Agriculture.

Out-Worm Poison.

Bran, 25 lbs.
Paris Green or White Arsenic, 1 lb.
Molasses, 1/4 gal.
Water, 2 gals.
Mix the bran and poison together dry in a large vessel. Add the molasses to water. Stir well and then pour the liquid over the poison bran and mix until every part is moist and will fall through the fingers. Apply half a teaspoonful near each plant at dusk and see that chickens keep away.—Dept. of Extension, O. A. College, Guelph.

Sweet Clover Hay.

A recent press bulletin from the Federal Department of Agriculture states that where any other suitable crop can be grown it is best not to use sweet clover for hay. As it is a hollow stemmed, coarse growing plant, it is rather hard to cure sweet clover properly. It must be cut at the right moment, which is usually during the rainy period of early summer. As a silage or pasture crop, however, sweet clover is one of our most valuable plants, while few legumes exceed it as a soil builder.

Streetsville Boosts The Tax Rate

Streetsville elected a whole new Council last January on the economy ticket, and at the regular meeting Tuesday evening they raised the tax rate by 4 1/10 mills on the dollar. Last year the Council pulled the tax rate down from 50 to 46—now it is up again to 50 six-tenths.

There is no reason for taxes to be going up, when other things are going down. Other municipalities have reduced their tax rate this year and Streetsville Council should have done the same. The raise means that we will have to pay \$4.10 more this year on every \$1000 of assessment.

Streetsville High School

Annual Examinations 1925

Lower School

The following have passed the Lower School Examination Form I

Constance Adamson, James Adamson, Ellsworth Arnott, Hilda Bonham, Lillian Buckingham, Mary Crozier, George Dowling, Douglas Dunn, Jean Dunn, Joseph Featherston, Ruth Greig, Russell Grice, Dorothy Hammond, Myrtle Hisey, Hazel James, Laura Mannors, Bessie McCarry, Garnet McGill, Beatrice Millar, Earle Moore, James Pinkney, Albert Quennell, Agnes Sanford, Helen Sanford, Hazel Stanfield, Cecil Treanor, George Turner

Form II

Bessie Adamson, Harvey Andrew, Mary Atkinson, Mildred Belford, Reginald Bruce, Beatrice Conn, Viola Crozier, Herbert Falconer, Viola Lackey, John Lindsay, Alexander Longwell, Emma McCarron, Jack McMillan, Sarah Ross, Douglas Statia, Bessie Steen, Oliver Steen, Nellie Taggart.

Engagement

Mr. and Mrs. A. S. Gledhill, Streetsville, announce the engagement of their only daughter, Betty, to Mr. Leland Bryan, only son of Mr. and Mrs. John Bryan, Aurora, the marriage to take place in August.

Mr. and Mrs. G. W. Webb, Toronto, announce the engagement of their only daughter, Violet, to Mr. Carl Ostrander, Huttonville, the marriage to take place early in September.

Mrs. S. Palter announces the engagement of her daughter, Bertha, to Dr. Bernard M. Okun, optician, Toronto.

Community Club

The members of the Community Club met at the home of Mrs. W. Leslie, 8th line Trafalgar, on July 29. Although the harvest and fruit harvest was in full swing there were a good number present. A pleasant social afternoon was spent and business in connection with the picnic, and the coming bazaar, was not forgotten. The next meeting will be held at the home of Mrs. Nat. McCracken, town line, on Wed. Aug. 12, when a towel shower will be held. Tea was served at the close of the meeting.

Masonic

After the close of the regular meeting of River Park Lodge on Tuesday evening lunch was served and a pleasant time spent by those present. A pleasing feature of the evening was the presentation of a small token of esteem to Wor. Bro. J. S. Jephson, who is about to leave for Frankford, to enter business. Bro. Jephson is a past master, well skilled in Masonry and has been a great help to River Park Lodge during his sojourn here. He will be greatly missed in the Lodge but the brethren at Frankford will be the gainers.

Carroll—At the Wellesley Hospital, Toronto, Aug. 4, to Mr. and Mrs. J. A. Carroll of Brampton, a son, William Fenton.

Business Locals and notices of meetings or entertainments—10 cts per line each insertion. Minimum charge 50c.

The Review office will be closed for business every Saturday afternoon.

Mr. Alex McGregor, district editor of the Peterboro Examiner, has declined the offer of a position as Editorial writer on the Kingston Daily Whig, duties to commence Sept. 1st.

Mrs. Robert Stewart (nee Irene Cornish) of Calgary is visiting friends around Streetsville.

Mr. John McAuley and son of Elmvale have returned home after spending two weeks with his sister, Mrs. Harry Wolfe.

The ladies of the village treated the boy scouts, on the Fair grounds, to supper Wednesday evening.

Mrs. Stewart Sr. of Toronto, and daughter, Bessie, Mrs. Robert Stewart and three children, of the West, are visiting with Mr. and Mrs. Arnold Stewart.

Mrs. Joe O'Connor, (nee Minnie McCarron), of Regina, is renewing old acquaintances on the ninth line, Trafalgar, her birthplace.

The funeral of the late Mrs. G. Brown, Port Nelson, on Sunday last was largely attended, many old friends and neighbors from Streetsville being present. The Brown family before making their home in Port Nelson lived for many years on the farm now occupied by Mr. G. Steggall and left many friends here.

Mr. and Mrs. Ashton of Toronto spent the week end with Mr. and Mrs. F. Haddon.

Mr. and Mrs. W. R. King of Barrie visited over the holiday with the Misses Graydon.

Mr. and Mrs. S. N. Fallows and son of Toronto are visiting with Mr. and Mrs. Geo. S. Bonham.

Messrs. Wm. and Dave Russell and Dr. D. V. Reed motored to Lake Simcoe Saturday and spent a day fishing, bringing home a good catch of black bass, some of which weighed 3 pounds.

Mr. Howard Buck, Mrs. W. H. Buck, Mr. and Mrs. Burrows, and Mrs. D. Reed, motored to Windsor and Detroit and spent a few days with friends.

Mr. S. S. Finlay has purchased the Elderfield property, corner Main and Church Streets, and intends to make his home here.

Mr. John H. Stephens of Toronto, and Miss Mildred Hazel Kennedy of Georgetown were married by Rev. Mr. Caldwell.

Hec. Graydon, skip, E. Graydon, W. S. English and Rev. F. Vipond of Streetsville bowled eight games in the York Lawn Bowling Tournament at Toronto this week and won six. Pretty good.

Miss Marion Duffin of Toronto is visiting her cousin, Mrs. Lindsay.

Misses M. J. and L. Maxwell of Toronto visited friends here on Sunday.

The death occurred Monday at his home in Esquew, of Donald Huffman, in his 26th year. A week ago Mr. Huffman pricked a pimple with a pin, which caused blood poisoning to set in, and although doctors did everything in their power to save his life, he succumbed. He was a faithful member of Boston Presbyterian Church, and in politics a staunch Liberal. He is survived by his widow, whom he married two years ago.

The members of the Eastern Star held a very enjoyable picnic on the Fair grounds Monday afternoon, while another aggregation styled the "Northern Star" held an opposition picnic. The boy scouts gave a 'jam-boree' and the three events brought out a large number of our citizens on Civic holiday.

T. L. Church, M.P., will again be a candidate for Northeast Toronto, in the Dominion election. H. C. Hocken M.P., will also run in Toronto West, and the Telegram says they are sure to be re-elected. The popularity of Toronto's former Mayor and his industry at Ottawa are regarded as sufficient to carry him by a large majority in any riding where he may be invited to run.

Love Gives Itself

THE STORY OF A BLOOD FEUD

BY ANNIE S. SWAN.

"Love gives itself and is not bought."—Longfellow.

Two mothers, who lost sons in the great war, performed the unveiling ceremony of Leicester's War Memorial.

CHAPTER XXV.—(Cont'd.)

There was a supper after the play that night, and Judy, watching Carlotta's quiet, rather abstracted manner while all the congratulations were being showered upon her, loved her more and more. She believed now that nothing could spoil her or cause her to swerve from her allegiance to Alan.

The thing amazed her beyond all power of speech or thought. For Carlotta had great gifts. She was richly dowered both in body and mind, and Judy's relentless, sisterly eyes had long discerned that Alan was a very ordinary man. But happily for the world, which is largely peopled with ordinary folk, the ordinary man or woman is not cheated of love's gifts, which have naught to do with the head, but all with the heart.

Judy was glad at last when they were able to get to bed, in the small hours of the morning, at the Holland House.

"What a night it has been," she said, as she lingered a moment in Carlotta's room, "and what a queer place is New York!"

Carlotta, a little wistful now about the eyes and mouth, smiled a little unsteadily.

"I never, no never saw anything like your evasion of the 'interviewers,' Judy! It is positively great! So calm, so dignified! Just staring them through and through as if they did not exist, and hardly obstructed your view. You discomfited them completely."

Judy laughed. "You see, they got it into their heads that I was a sort of chaperon or duenna, or something, and they might ask me all sorts of questions. Some of them, I fancy, have gone away thinking you travel about with a st-class idiot, or a deaf mute!"

"And that is of no consequence! But I rather think they went off with a very different opinion—that they had met their match. Oh, I am so tired, body and soul, and spirit! I should like to go to sleep for days and weeks and years, and wake up in the old Clock House bedroom at Ayr, and get up to look out at The Heads in the morning sun."

"Don't grieve, Carlotta! For heaven's sake, don't grieve! For I am just about at the end of my tether," said Judy confusedly. "Sleep all day to-morrow if you can, my dear. I'll tell Mrs. Baddeley on no account to disturb you."

Mrs. Baddeley was Carlotta's elderly maid, an acquaintance of old Cambridge days, to whom meeting with Miss Carlyon had brought untold ease and comfort.

"Good night then, dearest and best. Oh, Judy, how empty it all is! Pray, hard—won't you—that to-morrow may be bright, for I am mortally afraid of to-morrow!"

Judy held her close, and they kissed one another, almost as two lonely children might; and the New York which had gone to bed to dream of Margaret Tenterden, and to awake to envy her, did not know that she cried herself to sleep.

Judy awoke bright and early and was relieved to hear from Mrs. Baddeley that Carlotta still slept.

"Jes' like a child, Miss Rankine! But she do look white and tired yet. I hope she'll sleep on, for I don't see how she is to keep on with this life if she don't get her proper rest. It's more than flesh and blood can stand."

WRIGLEY'S "after every meal"

Parents—encourage the children to care for their teeth! Give them Wrigley's. It removes food particles from the teeth. Strengthens the gums. Combats acid mouth. Refreshing and beneficial!

1889 No. 32—25.

"Watch her well, Mrs. Baddeley. I'm going out as soon as I have breakfasted to explore New York."

As a matter of fact Judy's exploration was confined to the smallest possible area. A judicious question put to the waiter in the dining-room soon put her on the right track for Forty-second Street.

New York is not a city of great distances, and those who know their London are amazed at the ease and speed with which places can be reached on foot.

It was a glorious morning, and thought the temperature was many degrees lower than anything Judy had ever known on the sheltered Ayrshire coast, the brilliance of the sun and some rare quality in the air somehow communicated a certain buoyancy to her spirit as she set out on foot to discover first-hand news of Alan, and, mayhap, meet him face to face. At the back of her mind there was a strange feeling of remoteness, which assured her that the meeting was not imminent as she imagined.

She was interested in the pushing, eager crowd on Broadway, and wondered why they went so late to business, not aware that business had begun long before, and that the pushing habit was characteristic of New York, where it is everybody's business, apparently, to be in a hurry, without any particular reason or object.

When she came to the house of Mrs. Isaacstein in Forty-second Street—the only address Alan had ever given them—she surveyed it with the keenest interest, and was, on the whole, not repelled or disappointed with its appearance. At least it looked eminently respectable, if dull.

Her heart beat a little quicker as she ascended the steps and pulled the bell. It was answered immediately by black Sambo, and finding herself at close quarters with a large and shining face, Judy stepped back slightly, not yet used to the sight of the alien race.

"I wish to see Mr. Rankine, please, if he is in the house," Sambo, grinning affably, shook his head violently.

"Mister Rankine no here, mam; not a great while. Come in an' see the missus—she knows."

Judy accepted the invitation, aware that her disappointment was slight after all! Somehow she had expected some answer of this kind. Anything else would have seemed all too easy and out of the question. She followed Sambo, in his gaily-colored jacket, for which he only exchanged the white one when his table duties were over, and he had to dust and clean silver in mysterious regions beyond.

He ushered her into the little business room, which was very close and warm from the steam heat, and setting a chair with all the easy courtesy natural to his race, he went to find his mistress.

In the clear light of the morning Mrs. Isaacstein seemed to look more than usually Hebraic. Her frock was very shabby, her lace collar soiled and a little awry, her jewellery tawdry and out of place; but her smile was one of real kindness and welcome.

"Mr. Rankine, you ask for? Ach, he haf left us quite awhile. So far back as last August."

"But you know where he is, surely?" stammered Judy. "I am from Scotland, and we have been writing to him here all these months."

"I don't know his address at this minute. And he haf not been here for—oh, so long!" she answered, not aware of his visit to Jean Dempster on the previous evening, for she herself had been spending an evening at a restaurant with some Jewish friends. "It is Miss Dempster who knows all about him."

"Oh, yes! My brother has told me about Miss Dempster. Is she in the house now, and could I see her?"

"She is at business, miss. On Broadway, at the Dormer building, fourth floor. It is not far, you can walk there. So you are from Scotland, and Mr. Rankine's sister? You are not so very like him. Ach, but he was a beautiful gentleman!"

Judy could not even muster a smile at this left-hand compliment.

"The Dormer house, Broadway? I have just come down Broadway. I suppose I must have missed it?"

"No doubt, miss. She does not come home to lunch. None of my boarders do. We meet, a happy family, at seven each evening. Some of them haf been here for years and years!"

Judy, foreseeing the deluge, prepared to beat a hasty retreat.

She was not specially attracted by left the doorway she involuntarily left the house or its chateleine, and as she muttered "Poor Alan!" not aware that he had reached depths which, by comparison, made Mrs. Isaacstein's establishment appear like a palace.

Her spirits dashed, but not quenched, Judy proceeded to locate the Dor-

mer building, which she found to be a skyscraper of quite moderate dimensions, and ascending by the elevator to the fourth floor, she discovered a door with the words "Ackermann's School of Stenography" printed on it.

Pushing it open, she was confronted by a small glass partition with a little window in it, labelled "Inquiries." When she tapped at that a bell-boy quickly came to attend and to take her name and business.

"Tell Miss Dempster Miss Rankine wishes to see her," said Judy rather curtly, and then stood, while the lad took away her message.

Presently someone spoke to her from behind, and Judy turned swiftly to behold a quiet, pleasant-faced woman, not quite young, who bade her good morning.

"Please come to my room," she said, and the Scotch roll in her tongue somehow oddly comforted Judy's rather forlorn heart.

"I am sure we ought to shake hands," she said, "for my brother has told me about you in his letters."

Jean warmly gripped the small, slim hand in its perfect-fitting glove, and then went out rather hurriedly, leading the way along the corridor to another door marked "Private." Holding it open, she signed Judy to pass into a very warm, cheery room, with a Turkish rug on the floor, and pretty office furniture, which a woman's hand had arranged to the best advantage.

"So you are his sister," she said abruptly as she closed the door. "When did you come? And were you by any chance in the Manhattan Theatre last night?"

"I was in a corner of the box on the first tier, behind the curtain. Did you see me?"

"I didn't, but I wondered whether he did."

"Are you speaking of my brother?" asked Judy, paling slightly.

Jean Dempster nodded. "I am. He was in the theatre last night along with me—but it is a long story! Won't you sit down and undo your furs? You have noticed, I don't doubt, how hot all the houses are in New York, and we have to be careful about wraps."

She spoke quite steadily and casually, but the color had risen in her cheeks, and quite evidently she was a little agitated, even excited.

"In a box, were you? Then I don't see how he could have seen you," she went on. "I am sure he did not look that way, and if you were sitting with your back to the circle, your face would not be seen."

"But why are you saying all this?" asked Judy. "What happened?"

"The curtain had just gone up, and we were intensely interested—both of us. It was the moment when Margaret Tenterden—the wife, you know—comes on in her evening frock with that lovely velvet coat on. Every woman's eyes were glued to it at once. Suddenly I heard him say 'Good God!' and the next moment he was gone!"

"Out of the theatre?" cried Judy, with a little gasp. "But, of course, you know where he is?"

"Yes, at this moment he is on a West-bound train—let me see—somewhere between Toronto and Winnipeg."

"Tell me everything!" said Judy faintly, as she sank down on the edge of the chair, her eyes cleaving to Jean Dempster's face.

Jean regarded her steadily for a moment, as if seeking to gauge her depths, and so arrive at some decision regarding how much she should or could tell her. She sat down in her own armchair before the desk, and asked quietly:

"I suppose you know that your brother has had a pretty hard time in New York?"

"We have gathered that he has not had the success he expected," answered Judy, rather painfully, for it cost her something to sit there, opposite this "plain" working Scotswoman, and hear her discuss Alan so casually—as it seemed to her.

"Six months is hardly long enough to achieve success—at least honestly—anywhere," said Jean in the same steady, quiet voice. "And your brother did not get in with the right kind of people."

"He had several introductions. Some of them quite good, we thought." "They were of no use at all. He did not even get a simple suggestion from them."

"Then tell me what he has actually been doing, will you?" "He has tried a good many things. He had a secretarial post for a few weeks, but the Syndicate burst up. They took him because they said he looked like a Duke, and would impress callers. That was quite good while it lasted."

"That was at the very beginning, of course, when he wrote in such good spirits?" suggested Judy.

Jean nodded. "From that he went to a clerk's post, poorly paid, and with no prospects. After that there were other things, but as he left my particular boarding-house in August, I don't know every step of the way. I hadn't seen him until last night for nearly two months; certainly not for a considerable time before Christmas; and when I wrote to him at Christmas he did not answer, though he called at the house for his Christmas letters."

"And how did you happen to meet him last night? Was that accidental?" "It was and it wasn't. You see, the night before last he called at Isaacstein's to bid me good-bye, as he was going out West."

"To a fresh post of some kind?" asked Judy, with a glimmer of hope, though she was much distressed to hear that they had missed him by so few hours.

"Not exactly a post. A rich Scotsman has sent him to his brother's ranch in Alberta, somewhere beyond or near Calgary, and he had arranged to go off by the midnight train. I had two seats given me for the Manhattan, and we went together, as a sort of play for the last time. I suppose that he went direct from the theatre to the station. Of course, it was too late for me to go to the Central after the theatre came out, though I was tempted."

"He didn't write, then, or send you any explanation?" "None."

"Then what is to be done now? Did he give you the address of the Alberta ranch?"

Jean shook her head. By this time she had made up her mind about Judith Rankine, and her heart was warming to her. Her eyes were so true and kind, and her voice, with its little note of distress and forlornness, appealed to her mightily.

"He was not a man who talked much about himself or his affairs," Jean said. "For instance, he did not tell me he had a sister."

(To be continued.)

They Won't Last.
"Bankers say the new dollar bills won't last."
"I found that was just the trouble with the old ones."

Heritage.
My mother's great-grandmother A lass from Devon came; Her little body is dust so long I've nigh forgotten her name.

Her wistful legend only Has stood the wreck of years, How always at the summer's flood Her laughter broke to tears;

She'd blunder with her baking, Her stitches run uneven; She'd droop above her churn and sigh, "Ah me, it's June in Devon!"

It made a family byword Long after she was dead; "As fine as June in Devonshire," Her children's children said.

Across the world I journeyed One year, as summer came, And stumbled on her little heart Who had forgotten her name.

And found beyond refuting What made that crooked seam, What burned the biscuits in their prime, And spoiled the mellow cream.

O little great-grandmother, The dream that bound your brow Has touched my own unwitting eyes It's June in Devon now.

—Nancy Byrd Turner.

Out of the Ink-Works of Babes. Candid letter from a twelve-year-old acknowledging a present:

"Dear Aunt Harriet: 'Thank you for your gift. I have always wanted a pincushion but not very much.'"

Minard's Liniment for Burns.

1046—Men's and Youths' Shirt; attached or separate collar, and turn-back cuffs. Sizes 34, 36, 38, 40, 42, 44 and 46 inches breast. Size 36 breast requires 3 1/4 yards of 32-inch or 36-inch material. Price 20 cents.

1139—Men's and Youths' Union Suit; high or low neck, with or without set-in sleeve. Sizes 34, 38, 42 and 46 inches breast. Size 34 is for 32 or 34, size 38 for 36 or 38, size 42 for 40 or 42, and size 46 for 44 or 46. Size 38 breast requires 3 1/4 yards of 32-inch or 36-inch material. Price 20 cents.

1157—Men's and Youths' Night-shirt, with or without yoke and fullness at back. Sizes 36, 40, 44 and 48 inches breast. Size 36 is for 34 or 36, size 40 for 38 or 40, size 44 for 42 or 44, and size 48 for 46 or 48. Size 40 breast requires 4 1/4 yards of 36-inch, or 4 1/4 yards of 40-inch material. Price 20 cents.

Many styles of smart appeal may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. HOW TO ORDER PATTERNS.

Write your name and address plainly, giving number and size of such patterns as you want. Enclose 20c in stamps or coin (coin preferred; wrap it carefully) for each number, and address your order to Pattern Dept., Wilson Publishing Co., 73 West Adelaide St., Toronto. Patterns sent by return mail.

Diogenes, Junior.

On the glorious fifteenth, Junior came into his fifth year, and the day was planned to be a notable event in his life. One of the signs of his approaching manhood was that his mother gave him the necessary money, and he was to go to the drug store all by himself and order his first ice cream soda.

Of course, during his previous years, Mrs. Johnston had purchased ice cream cones for him, but with the advent of his fifth year he entered the realm of sodas. Smilingly he trudged to the corner and entered the store.

He seated himself at a table and meekly asked for a chocolate ice cream soda. Quickly his order was filled, and the tempting, foaming glass with its alluring little straw was placed before him.

After he had finished, he looked around quickly before dashing a tear from his eye. Then he picked up the straw and approached the cashier.

"Lady," he choked, "I bent the little sucker; what is it worth?"

Painting Paris.

The Eiffel Tower in Paris is now receiving its fifth coat of paint since its erection in 1889. One hundred men are employed for 40,000 hours, and thirty tons of paint are required for the work.

She'd blunder with her baking, Her stitches run uneven; She'd droop above her churn and sigh, "Ah me, it's June in Devon!"

It made a family byword Long after she was dead; "As fine as June in Devonshire," Her children's children said.

Hands- nice and smooth

A spoonful of Lux tossed into the dishpan softens the water and makes dishwashing easy. Lux is kind to the hands—keeps them nice and smooth.

Lever Brothers Limited, Toronto.

Time-Piece.

Caught, caught is the wild cuckoo That sang among the oaks; They have prisoned him in a dark prison To count them the hours.

Between the dawn and the dim evening Twelve songs must he sing, That men may reckon the day's passing And the passing of spring.

O they have shattered the sweet April And slain the heart of May, Because they have stolen the wild cuckoo To tell the time of day.

And wearily sings the wild cuckoo, Wearily sings he now, Because his heart would cease from singing And his throat knows not how.

—Jan Struther.

Minard's Liniment for Dandruff.

How Time Flies.

It was almost time for the street car that daily carried the breadwinner and head of the Tuttle family to his office, and the morning paper was not in its customary place on the front porch.

Stamping back into the dining room, a stern look in his eye, Mr. Tuttle demanded:

"Did any of you see the morning paper?"

Everyone denied having seen it, and were busily engaged in searching for the missing paper, when the daughter, struck with a sudden inspiration, exclaimed: "Oh, I'll bet that's what I used to wrap up the fudge Bert took home last night!"

The eggs of the West African ostrich average nearly three and a half pounds in weight.

NEW HEALTH FOR SUFFERING WOMEN

Aching Backs and Tired Limbs
Need Not be Endured.

Too many women endure suffering that casts a shadow over half her existence. Aching back, tired limbs, attacks of faintness, splitting headaches need not be a part of a woman's life. Such trials indicate plainly that the blood is thin and watery and that the sufferer needs the help of a real tonic such as Dr. Williams' Pink Pills. Suffering women who have used this medicine speak of it in the highest terms. Among those who have been thus helped is Mrs. Ada L. Harman, Virden, Man., who writes:—"Following the birth of a still-born child a few years ago, I had a very serious time. I was so weak for months that I could not walk across the room without a feeling of faintness. I had scarcely strength enough to stand up, and when dressing would have to sit down two or three times. My face and lips were colorless, I had no appetite, and life did not seem worth living. A friend urged me to try Dr. Williams' Pink Pills and I got six boxes. Before they were all gone I felt improved. My appetite was returning, color was coming into my face, and I was visibly stronger. I continued taking the pills and fully regained my former good health. I consider Dr. Williams' Pink Pills a blessing to weak women, and hope my experience will induce some other sufferer to try them."

You can get these pills from any medicine dealer, or by mail at 50 cents a box direct from The Dr. Williams' Medicine Co., Brockville, Ont.

When in Doubt.

"What does one do when all the rest is taken away from one, when life has grown trivial, stunted, and narrow?" This question is asked by a character in "Wages of Sin," by Lucas Malet. The answer given is: "After a time one lights a candle called Patience and guides one's footsteps by that."

Amid dreary days that is a splendid light to have, for it will shine when every other light is extinguished. It is our highest wisdom to have that lamp always clean and burning. Many a dark path and obscure turning will be revealed by Patience.

When we are in a corner or hemmed in by all manner of obstacles, we need Hope as well as Patience. To lose hope when everything seems against us is to be in the slough of despair.

Patience may become exhausted. It may be tried to its last stand; but Hope need never burn out. Sometimes it may flicker and splutter and burn low for a moment, but Faith relights it. If Faith failed, Love would do the relighting.

Look back over your past and you will discover that we are always being helped in this way. When strength is failing, Patience, Hope, Faith, or Love comes along and woe us back to health and activity. They are never far away from any of us.

However complex may be the maze, there is a way out. The exit has to be reconsidered, certainly, for it is never self-revealed. It may be you are out of the maze before you realize it. That often happens. But don't complain if in your effort to get through you come up against a barrier and find the way has a blind end. Go back cheerfully and try again. Keep up a good heart, laugh at your impossibilities, and say: "It shall be done." That is a wonderful tonic.

Don't live in a fog if you can possibly be out of it. Try your hardest to see daylight. Things have their true proportions in the light. But never complain and never blame anyone except yourself. Whilst everyone affects and influences everyone else, no one else is to blame for our mistakes.

When you are doubtful what to do, just be advised never to look down. Look up, the sky, the stars above. Will whisper to thee of His changeless love.

We are not just as specks on the ocean of life, drifting anywhere. We have a work to do, and we are related to a "Divinity that shapes our ends, rough how them how we may."

So, trust the Star of the Morning for as certain as night follows the day that star will guide you through patience and hope to victory and joy.

Graphite in Greenland.

The world's richest deposits of graphite, sufficient for large scale mining for ten years, were recently discovered in Greenland.

The royal yacht Alexandra, formerly belonging to King Edward, has now been sold and will be used for pleasure trips to Norway.

WE WANT CHURNING CREAM

We supply cans and pay express charges. We pay daily by express money orders, which can be cashed anywhere without any charge.

To obtain the top price, Cream must be free from bad flavors and contain not less than 30 per cent. Butter Fat.

EX-PRESIDENT OPENS COURSE

Chief Justice W. H. Taft, ex-President of the United States, replying to the speech of welcome at the opening of the new 6,000-yard championship golf course at the Manoir Richelleu, Murray Bay, Quebec, just prior to teeing off with a 170-yard drive. Mr. Taft complimented W. H. Coverdale, President of the Canada Steamship Lines, Limited, on his Company's enterprise in creating one of the finest golf courses in Eastern Canada, set among some of the finest scenery in that part of the Dominion.

Play Safe.

"Bet your life I don't," said the chatty drummer to the other man in the smoke. "I was in Windsor when they had that last dose of smallpox and I don't allow any child of mine to go to school until he is vaccinated. I say if a scratch on the arm will prevent a fellow getting that, why I'm for it. The day I arrived, another chap and myself bumped up against a man who was just coming down with it. When I found out about it I was a bit upset and figured that I was about ten years old when I was last vaccinated; the chap with me hadn't been done at all because his father didn't believe in it. I escaped just with the old scar. He came down about a week later and had a hard time to come through. That's enough for me—vaccination's all right."

"We commercial men—and of course it's just the same thing with my wife and kiddies, too, when they go away from home—can't afford to take a chance. I think any man is mighty foolish who walks into danger which will mean being sick for six or eight weeks' worry and anxiety, to say nothing of doctor bills, hospital and nurses; so that's why I take a shot of typhoid vaccine every two years. They talk of the soldiers not getting typhoid during the war (and it is true, of course), but I'm judging from my own experience. Sometimes on the road I have had to drink milk and water in places which were proved later to be real nests of typhoid and I haven't had a day's sickness, while three or four times other travellers took the fever and were off for six weeks or more; this means that my dose of vaccine saved me in money alone six or seven hundred dollars."

"That vaccine isn't made for nothing, but the money the government spends on it (it's all free, you know) means a real service to the people."

Protection, safe and sure, may be had against diphtheria, scarlet fever, typhoid fever and smallpox. Tested products distributed free within the province by Ontario Department of Health, Spadina House, Toronto.

Not Going Just Now.

"Why is it we never hear the 'Watch in the Rhine' any more?"
"It's in hock."

Minard's Liniment for Aches and Pains

Poems That Aren't True.

How many who have recited "The Wreck of the Hesperus," possibly the best-known ballad in our literature, know that the famous ship, instead of being lost with all hands, actually returned to port with no more serious damage than a broken bowsprit?

Maritime records for the year 1839 record a great storm on December 15th, when, among twenty other vessels, the Hesperus was driven into Boston harbour, so it is difficult to account for Longfellow's entry in his diary two days later:

"News of shipwrecks. Horrible. Off the coast. Twenty bodies washed ashore off Gloucester, one female being lashed to a piece of wreck." He then mentions details regarding the Hesperus, and concludes: "I must write a ballad upon this."

A couple of weeks later he makes this entry: "I have broken ground in a new field, namely, ballads, beginning with 'The Wreck of the Hesperus' on the reef of Norman's Woe. In the great storm a fortnight ago, I shall send it to some newspaper. I have a great notion of working upon the people's feelings."

An almost equally famous poem is Charles Kingsley's "Three Fishers." The story so graphically told was the result of a fit of old spirits on the part of a tired parson.

Kingsley was very keen on social reform and was regarded in his day as rather a dangerous type of clerical Socialist. Thus, when he went to preach in a West-end church he greatly offended the incumbent and did not escape a public protest. He returned to Eversley Vicarage late that night, but instead of going to bed he paced about his garden. The next morning he recited to his wife the beautiful lines: "Three fishers went sailing out into the west."

The story of the boy Felicia Hemans calls "Casabianca," who "stood on the burning deck" of the French flagship Orient and was involved in the explosion of its powder magazine in the Battle of the Nile, is not well authenticated. There may have been such a boy, but seeing that he perished with his father it is difficult to say who told the story, and it is certain that the poetess draws very largely on her sentimental imagination.

One of the most flagrant cases of a poet letting imagination ignore facts is furnished by Oliver Goldsmith, whose "Deserted Village" is one of the most beautiful poems in the language. The poet anticipated criticism in his dedication of the poem to Sir Joshua Reynolds: "I know you will object, and indeed several of our best and wisest friends concur in the opinion, that the depopulation it deploras is nowhere to be seen and the disorders it laments are only to be found in the poet's imagination."

Stories About Well-Known People

Quiet Heroism.

General Sir George Higginson, who celebrated his ninety-ninth birthday recently, was once the hero of an incident which recalls a famous episode in the life of Lord Beaconsfield.

The General was taking his wife, who was just recovering from a severe illness, to Bournemouth. At Winchester he called a porter and gave him some order. The man executed it, and then swung the door to. The General's fingers were caught in it, but he made no comment, though he must have been suffering the most excruciating pain. But not until he had arrived at his destination, and had seen his wife safely installed in her hotel, did he have his hand seen to.

Quiet heroism like this seems to be a characteristic of our race. Another good example of it was provided during the daylight raid of June 13th, 1917. The Shoreditch County Court was sitting at the time, and though bombs were falling all round, and one of them made a big hole in the ceiling, the proceedings continued.

"If we are to die, let us die as brave Englishmen should," observed Judge Cluer, and a girl who was in the witness-box declared her readiness to continue if no one failed. Counsel then resumed his cross-examination.

The Quinine King.

"For the application of botany to the development of the raw materials of the Empire," the Society of Arts has awarded the Albert Medal for 1925 to

Sir David Prain, until recently director of the Royal Botanic Gardens at Kew.

The medal specially marks Sir David's work in connection with the production of that most valuable drug, quinine. By organizing the Government's cinchona plantations, which annually yield vast quantities of quinine, he has brought this drug within reach of every part of the world has thereby saved countless lives.

A Duty Performed.

Novellists as well as prophets, it appears, lack honor in their own country. At least Sir James Barrie does. In Memories and Adventures, Sir Arthur Conan Doyle tells of the tolerant but unenthusiastic attitude that Sir James' old neighbors at Kirriemuir adopted toward him.

"Kirriemuir folk could by no means understand Barrie's success and looked upon their great son as an inexplicable phenomenon. They were actually aware, however, that tourists were arriving from all parts to see the place, on account of Barrie's books."

"I suppose you have read them," I said to the wife of the local hotel man. "Aye, I've read them, and steep, weary work it was," said she."

A Titled Typist Now.

Week by week come announcements that one or another member of the British aristocracy has gone into the world of business. Lady Constance Howard, sister of the Countess of Carlisle, is the latest. She has turned stenographer and typist.

The First Vaccinators.

Although vaccination is indissolubly linked with the name of Jenner, there is ample evidence that it was practised by farmers and others in the rural districts of England long before his day.

It was common knowledge amongst these people that an attack of cowpox immunized the sufferer against smallpox, and it was usual for farm workers to infect themselves and their children with the former complaint to protect them against the latter.

Indeed, twenty-two years before Dr. Jenner made his first vaccination a farmer, named Benjamin Jesty, of Downhay, openly advocated the practice; but, not being a medical man, he was laughed at for his pains.

Japanese View Gardens on Plan of Paintings.

Japanese look upon a garden as a picture, beautifully designed and framed, much as the Occidental looks upon a painting. Professor Takuma Tono, landscape architect of Waseda University, Japan, told Seattle on a lecture tour of the United States.

"Our Japanese gardens are entirely different from gardens in any other part of the world," Mr. Tono said. "In all Western nations the garden is considered a collection of rare and beautiful plants, flowers, shrubs and trees, rather than the picture for which the Japanese strive. Japanese gardens are more naturalistic than architectural."

Ocean Rich in Minerals.

The total amount of any of the elements occurring in the entire ocean is stupendous, says "Thrifty Magazine." Iodine exists in sea water only to the extent of about two parts per million, yet the entire ocean contains some 60,000,000,000 tons of iodine, valued at present prices at \$640,000,000,000,000.

Bromine is also obtained in a limited way from the mother liquor left after the crystallization of salt from sea water.

A gallon of sea water contains approximately a quarter of a pound of salt, and since the average density of rock salt is 2.24 times that of water, the entire ocean, if dried up, would yield approximately four and a half cubic miles of salt.

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly— as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Safe From Criticism.

"I was afraid my sermon last Sunday would annoy some of my people, but it didn't," said the vicar.

"What was your subject?" asked his friend.

"The Duplicity of the Average Man," and I spoke pretty plainly."

"You couldn't tread on any corns that way. Every man considers himself above the average."

Minard's Liniment for Corns and Warts

Same Eggs.

Upton Sinclair was condemning, in Los Angeles, the extortions of the middleman.

"In pre-war days," he said, "the middleman sold us eggs for thirty cents a dozen. Now he makes us pay ninety cents a dozen. And the worst of it is—"

Mr. Sinclair gave a grim laugh. "They're the same eggs."

Buddhas in Pearl.

Miniature Burghas are inserted into oysters in China to make pearl Buddhas.

Wells have now to be driven to a depth of over 220 feet under London to reach water. A century ago the pressure of underground water was sufficient to bring water to the surface wherever a boring was made.

Genuine ASPIRIN

Proved safe by millions and prescribed by physicians for

Headache Neuralgia Colds Lumbago
Pain Toothache Neuritis Rheumatism

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate-salicylic Acid (Aspirin) Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

OLD CHUM

The Tobacco of Quality

Superstitions of Alaskan Eskimo.

Alaskan Eskimos have established ideals of astronomy, says Lionel Travis, trader, who spent many years with the northern natives. They call the Great Dipper a herd of caribou spread out for mutual protection, with a long single file of leaders. The triangular stars of Cassiopeia are three stones supporting an oil lamp. The Pleiades are teams of dogs pursuing a polar bear.

The new moon is either wet or dry by its curves. If the curve is capable of holding a harpoon line wet and stormy weather is due, so Eskimo hunters remain in the igloos. Should the curve permit the harpoon to slide off, the men hurry forth to seek game.

The Eskimos also maintain superstitions about eclipses and falling stars, all of which apparently control the weather, ice conditions, the abundance of game or fur bearers.

Nails Given Better Hold.

Packing cases coming from Europe have been found fastened together with tennypenny nails that have spiral flutes in the sides to afford a better grip on the wood. The grooves also decrease the likelihood of splitting the board and help in driving the nail straight.

It is usually the case that we are neither so happy nor so unhappy as we imagine ourselves.

Old People

Bitter-Phosphate feeds the nerves and old people need it to make them feel and look younger. It's the one best nerve builder for weak, nerve-exhausted men and women and that is why we guarantee it. Price \$1 per pkg. Arrow Chemical Co., 25 Front St. East, Toronto, Ont.

ATHLETES!

Minard's is wonderful for the rub-down. Takes out the stiffness, soothes the bruises.

A Rejoinder.
Leonard Bacon, who was one of the best-known theologians in New England a half century ago, was attending a conference, and some assertions he made in his address were vehemently objected to by a member of the opposition. "Why," he expostulated, "I never heard of such a thing in all my life!"

"Mr. Moderator," rejoined Bacon calmly, "I can not allow my opponent's ignorance, however vast, to offset my knowledge, however small."

FACE WAS DISFIGURED

With Pimples. Terribly Itchy. Cuticura Healed.

"My trouble began with black-heads and pimples on my face. The pimples were large, hard and very red, and some of them festered. They were terribly itchy causing me to scratch and the right side of my face was disfigured. The irritation kept me awake, and my face was a sight."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more and before long I saw a wonderful change. I continued the treatment and now I am healed." (Signed) Miss Louise MacDonald, Box 172, Mary St., Newcastle, N. B.

Use Cuticura to clear your skin. Sample Book Free by Mail. Address Canadian Depot: "Bathhouse," Ltd., Montreal. Price, Soap 25¢, Ointment 25¢ and 50¢, Talcum 25¢. Cuticura Shaving Stick 25¢.

TIRED OUT ALL THE TIME

Nerves Gave Little Rest

Relieved by Lydia E. Pinkham's Vegetable Compound

Harrowsmith, Ontario.—"I took your medicine before my baby was born and it was a great help to me as I was very poorly until I started to take it. I just felt as though I was tired out all the time and would take weak, fainting spells. My nerves would bother me until I could get little rest, day or night. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to publish this good medicine. I lend that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will serve to help others."

—Mrs. HARVEY MILLIGAN, R. R. No. 2, Harrowsmith, Ontario.

In a recent canvass of purchasers of Lydia E. Pinkham's Vegetable Compound over 100,000 replies were received and 98 out of every 100 said they had been helped by its use. This medicine is for sale by all druggists.

DISTRICT NEWS

As the result of his right hand coming in contact with a saw when he was sharpening a mower knife, W. Sproule, of Trafalgar Township, had two fingers severed.

Willie, the six-year-old son of W. Gordon of Trafalgar Township, received a number of severe burns, as the result of playing with matches. His clothing caught fire, and the little chap was painfully burned about the chest, arms and face.

Last Thursday morning Wm. Harris saw two deer, does, on the hill near Robert Griffith's, half a mile from the Guelph road. When he got within fifty yards of them in his car they jumped a fence, ran into the middle of a field and joined a bunch of cattle.

J. H. Rutherford, road superintendent of Albion, has recovered the Ford car which had been stolen about ten days ago, and in which were all the sheets connected with the roadwork. The missing car was located at St. Paul, Minn., and was considerably damaged.

George Conover, of Esquesing Township, north of Milton, had an unfortunate experience in growing cauliflower. He set out 1,000 plants which thrived well for a few days, but a horde of cottontails, which are playing havoc with the vegetable gardens in Halton County, discovered the plantation, and in one night consumed the whole of the thousand plants.

Brampton Public School Board met on Tuesday night. It was revealed that the school attendance has shrunk so that a teacher could be dispensed with if considered advisable. Next term it is understood the boys and girls of the entrance classes will be separated—boys to one room, girls to another. It seems that during the school hours and by separating the sexes it is hoped more learning will be acquired.—Brampton Banner.

Prizes were awarded in the standing field crop competition in oats in Peel County this week as follows: W. J. Fraser, 91 points, \$20; T. G. Fraser, 90, \$15; J. D. Steen, 88 \$12; H. A. Dolson, 87, \$10; J. McMillan, 85, \$8; W. Carney, 84, \$6; A. Hewson, 83 1/2, \$4. The winners are entitled to make entries free of charge in classes for field crop contestants at the C.N.E. sheaf of oats and two bushels of oats.

President John Speers, of the grounds committee of the Peel County Flewing Association states that he has secured the J. Silverthorne farm on the third concession west, Chinguacousy, for the Fall match to be held on October 28. A committee consisting of Messrs. J. M. Dolson, R. Gardhouse, L. Laidlaw, the President and the Secretary, J. E. Whitlock, will draft a prize list, while H. Laidlaw, J. M. Dolson and J. E. Whitlock, will look after the local arrangements.

On July 4th, George Brockschire son of Mr. and Mrs. Wm. Brockschire, Port Hope, was united in marriage to a nurse of the Port Hope Hospital, Flora Isabelle Winfield, daughter of Mr. and Mrs. Wm. Geo. Winfield, of Milton. The ceremony was performed by Rev. A. Stewart, of Acton at the home of the bride's uncle, E. Y. Barraclough, Glen Williams. After a short honeymoon, the happy couple returned to Port Hope, where they have taken up their residence on John Street.

Miss Helen Beardmore told the ladies of the Norval Institute how to keep girls on the farm by interesting them in branches of agriculture which girls can follow. Twenty-five of the Meadowvale Institute, of which Miss Beardmore is president, were the guests of the Norval branch, Miss Ellen Smellie, president of the Norval branch, giving the use of her home. A fine musical programme was given by Misses Bona, Mildred and Hilda Newman, Ida Davidson, Mary Crozier, Mrs. Will Lamb, Mrs. W. E. Gooderham, Mrs. Haddon Pegg, Mrs. Hartley, of the Mendelssohn Choir. A short address was given by Miss Elizabeth Appleby, president of the Halton County Institutes.

Three people were injured, one perhaps fatally, when a motor car, driven by William J. McNabb, plunged down an embankment and turned completely over twice at 11.30 last night on the Mono-Caledon town line, three miles east of here. Marjorie Brinkman, aged 21, is in the Dufferin Hospital with a fractured temple and a badly lacerated right arm, which may have to be amputated. Her sister, Meadia, who was the third person in the automobile, is suffering from slight spinal injuries and shock. McNabb was only slightly bruised.

The party was returning from a garden fete at Mono Mills, when on a slight down-grade the car became unmanageable. It was badly wrecked. A full investigation of the accident is being conducted by Chief of Police William Marshall.

DISTRICT NOTES

Rev. A. H. Brace and Mrs. Brace of Gravenhurst recently celebrated their 60th wedding anniversary.

There is an outbreak of diphtheria in Milton, necessitating the placarding of a number of houses. The disease is said to be of a mild type.

Work has been commenced on the new five-room school to cost \$42,000, which is being built on the Forest Ave. School grounds in Port Credit to relieve the present overcrowding.

Wellington Graham of Alliston, has a lemon, grown at home, measuring 9 inches round the middle and 10 1/2 inches the long way. The lemon is said to be much finer than the imported fruit.

The record yield of wheat in Waterloo county for 1925 surely goes to Jas. Simpson of Branchton who threshed his crop on Tuesday, securing 447 bushels from nine acres, or an average of 53 bushels per acre.

Port Credit Citizens' Band will hold a garden party at St. Lawrence Park on Saturday afternoon and evening, August 15th. Bert Lloyd and his famous company will provide the entertainment. Dancing and refreshments. Proceeds for the upkeep of the band.

A Plymouth Rock hen owned by Stanley Ezard, west Mary Street, is the centre of attraction here, her ladyship having startled her owner a few days ago by crowing like a rooster. The hen recently raised 13 chicks from a setting of 13 eggs which is, perhaps, as she too probably thinks, something to crow about. If the hen lives it will be on exhibition at the fall fair.

Ex-Mayor Forster, of Oakville, was chairman at Britannia United Church garden party, the best event of the kind ever held in connection with the church. Four hundred people attended. The gate receipts were \$135, and at the booths \$75 more was taken in. Duncan Cowan was the main attraction; Miss Beatrice Smith, Miss Dorothy Price, Toronto; Miss Elsie Platt, Fort William, violinist; Charles Tuck and the Misses McDonald, Tuck and Sterling, Oakville, furnished the programme. The young people made the place as bright as day with a huge fire, and Mary Dunton, Edith Irvine, Wilda McKechnie, Ruth Cousins, Mary Anderson, Cecil A. McKechnie, Mack Cousins, Arthur Culnan and Clarence Dennis ran one of the booths, while a home-made cooking was in charge of Misses Susie Oram, Gertie Gray, Mary Johnson, Madames Aubrey Night, John Moore, Will Elliott and Robert Anderson.

MARRIED

Stuart—Rutledge

A very pretty wedding took place at the home of the bride's parents, Scott Street, when Elizabeth Maud, only daughter of Mr. and Mrs. W. Rutledge, became the bride of Robt. Burns Stuart, son of Mrs. Stuart McNutt. Rev. Stanley Elliott, of Grace United Church, officiated. The bride, who was given away by her father, looked lovely in a gown of white silk canton crepe, with embroidered net veil and orange blossoms, and carried a beautiful bouquet of roses and lily of the valley. The bride was attended by Miss Beatman, of Toronto, who wore a beautiful dress of pale green silk and carried a bouquet of carnations. The groom was attended by the bride's brother, Weldon Rutledge, and Miss Edith Armstrong played the wedding music. Following the ceremony, luncheon was served by Cole's, of Toronto, the tables being beautifully decorated with roses and similar, and the bride's cake having a central position on the table. The bride and groom left later for a motor trip to Buffalo, Niagara and Detroit. On their return the happy couple will reside in Brampton.

BRAMPTON

It was officially announced at the Court House yesterday that Mr. Gordon Ingoldsbys has received the appointment as Deputy Registrar of the Surrogate Court. Mr. Ingoldsbys has been assistant to the Registrar, Mr. Joseph Dixon, for the past three years.

Word has reached here that Rev. Blevin Atkinson and Mrs. Atkinson, together with other passengers and the crew of the ship "Bayeskimio," were saved when the vessel was wrecked off the coast of Ungava. Rev. Mr. Atkinson was returning to Baffin Land after several months' furlough. When the ship foundered the Hudson Bay vessel "Nascopie" went to the assistance and was able to take all hands off the wrecked ship. The cargo, including the missionary's supplies and a radio set valued at \$300, went to the bottom; as a consequence, the Women's Auxiliary of the Missionary Society of the Church of England is issuing a special appeal to supplement the comforts and supplies lost.

RHYMES OF THE ROAD

Under the spreading chestnut tree the village smithy stands:
The smith, however, isn't there with horseshoes in his hands.

The weatherbeaten sign is gone, now there's a new addition
Which says "Garage, Oils, Gasoline" and Expert Mechanician."

When we were boys we watched the sparks go flying towards the roof
And sniffed the fine aroma of hot iron on a hoof;
But never horse comes limping in these days to be new-shod;
The one-time smith is fixing up a loose connecting rod.

We used to love to watch him heat a wagon tire and weld it,
And while it dimmed from white to red we wondered how he held it.
But now the anvil's sold for junk, the sledge and chisels rusted;
The smith is busy tinkering a vacuum feed that's busted.

The horse and buggy days are gone; they will return no more;
And yet the one-time blacksmith does not yearn for days of yore.
"The flivver has a lusty kick," he says, "but as a rule,
It doesn't slam you in the slates as did the farmer's mule."

Full many a day I've toiled and sweat to shoe a fiery steed
And had him bite me in the neck if he was off his feed.
But now I am a specialist in every motor trouble,
And while my task is half as hard my daily income's double.

OBITUARY

Robert Watson Groat

The death occurred on Friday afternoon at the home of his son, Stafford Groat, Georgetown, of Robert Watson Groat, who had reached the ripe age of 80 years. The late Mr. Groat was born in Chinguacousy Township, where he conducted a cheese and butter factory for thirty years. The products of his factory attained a very high reputation throughout the country, and at the Chicago World's Fair, his cheese won the silver medal and a diploma. He was a staunch Liberal and a member of the Baptist Church. In the year 1873 he was married to Jeanette Henderson, who died in 1884. There were sons, two of whom survive. William Groat of British Columbia, and Stafford Groat, of Georgetown.

Miss McBrien

At the home of her niece, Mrs. Archie Freeman, North Bay, the death occurred on Tuesday, July 28th, of Miss Annie McBrien, formerly of Milton. The late Miss McBrien was born in the County of Fermanagh, Ireland, and came to Canada with her parents in 1862. She lived at Ashgrove for some time, afterwards moving to Milton, where she was associated for many years with the firm of the late Wm. Bews & Sons. Five years ago she went to North Bay to make her home with her niece. She was a member of Milton Methodist Church. She lived a faithful, gentle, wholesome life, and walked down the path into the great unknown with the confidence and fortitude that is born of right living and honorable conduct. Her remains were brought to Milton, Thursday, July 30th, and were interred in Ashgrove cemetery. In the absence of the pastor of her church, the service was conducted by Canon Nafel, of Grace Church.—Milton Reformer.

Respectfully submitted,
W. H. STEWART.

DIED

BARCLAY—In Georgetown on Saturday, Aug. 8, Margaret Mitchell, beloved wife of Wm. Barclay, in her 68th year. Interred at Georgetown.

NOVA SCOTIA COAL STRIKERS ACCEPT GOVERNMENT PLAN AND RESUME WORK

A despatch from Halifax says:—Signing of a six months' interim contract, withdrawal from the mining areas of the military, recommencement of work on Monday, and appointment of a commission to investigate the entire coal industry, are developments which are expected to happen in rapid succession as the result of the agreement of both the British Empire Steel Corporation and their miner employees to accept the Government's proposals for a return to work.

The appointment of the commission will probably take longer than the other developments, but Premier Rhodes said it would be done "as speedily as possible."

Work on the contract will start at once, when the District Board of the miners will meet corporation officials in Glace Bay. It is not anticipated that this will present any appreciable difficulty, inasmuch as the Government's settlement terms provided that the contract should have 1922 wages rates and the 1924 working agreement.

With the contract out of the way this week, Vice-President J. F. M. J. anticipates that work could be commenced in the mines on Monday. Withdrawal of 1,000 troops which were sent from Ontario, Quebec and

Halifax, in the middle of June, following the New Waterford riot, is looked for very soon, and it is understood to have been discussed by the Government.

The tie-up of the province's coal industry lasted just five months, having started on March 6. Previous to that, both prior to and after the 1924 contract expired, on Jan. 15, negotiations were conducted.

Informed reviewers of the condition of the collieries following the long strike are of the opinion that work can be started on Monday in Collieries Nos. 1A, 1B, 2, 4, 5, 10, 12, 14, 16, 22 and 24. Nos. 6 and 15 are closed indefinitely from flooding; No. 11 cannot operate until the burned bankhead and equipment is replaced; No. 21 was announced to have been abandoned at the beginning of the strike; and No. 24 previously dependent on No. 11 for power, will be curtailed in operation until other arrangements are made.

These collieries are all on the south side of Sydney Harbor. On the north side maintenance work was carried on throughout the strike, and no appreciable delay is expected in starting operation. The same situation prevails in Pictou County, and maintenance work has been going on in Cumberland County for some time.

VERDICT OF INSANITY IN SCOTT TRIAL

Prisoner at Once Committed to Chester Asylum—Still Faces Death Sentence.

A despatch from Chicago says:—Russell Scott has won his last fight to escape the gallows. A jury in the Court of Superior Judge Joseph B. David found him insane.

The jury reached its verdict after deliberating three hours and forty minutes. Its first ballot was reported to have been 7 to 5 for insanity and thereafter the vote gradually swung to the insanity verdict. Scott immediately was committed to the Chester Asylum for the Insane.

The jury took seven ballots. Scott sat tensely in his chair while the jury filed into the box. He turned eagerly to the foreman when he announced to the court that a verdict was ready, and as the Bailiff passed the verdict to the Clerk, Scott's eyes followed the slip of paper that might mean life or death.

When the verdict was read Scott's mouth twitched nervously and his shifted his position in the chair. He sat motionless at the side of his attorneys while the court entered the judgment on the verdict, and then was hurried out of the room as the Bailiff adjourned the session.

Mrs. Catherine Scott, the young wife of the prisoner, leaned forward in an attitude of prayer after the verdict was read. Scott's mother, at his side, wept and embraced Scott's wife, while Thomas Scott, his aged and crippled father, received the verdict without show of emotion.

Scott, while going to the asylum as insane, still faces death on the gallows should he ever be found to have regained his sanity.

Scott, convicted of the murder of Joseph Maurer, drug clerk, was saved from death three weeks ago, six hours before he was to have been hanged, by a week's reprieve from Gov. Small.

Remains of Montreal Man Found in Lake Quonapaug

Gulfport, Conn., Aug. 9.—The body of Joseph Cole, of Montreal, who was drowned in Lake Quonapaug, near here last Sunday, was recovered yesterday about twenty feet from where the drowning occurred. The body came to the surface after the lake had been dynamited for the second time. Cole, who was 26 years old, is survived by his mother and one sister.

The governor-general's trip northward from Peace River Crossing culminated with his arrival at Aklavik in the delta of the Mackenzie river near Beauport Sea, a subdivision of the Arctic Ocean. In all, Lord Byng will have traveled about 2,000 miles over western Canada's great inland waterways. The above map shows his route along the Peace, Slave and Mackenzie rivers.

Harvesters from B.C. Leave for the Prairies

Victoria, Aug. 9.—British Columbia harvesters started their annual trek to the grain fields of the Prairies yesterday when the harvest rates became effective on railways in Canada. About 600 men began the journey east.

The greater part of the harvesters will not start until Alberta gets ready to gather its crop. Practically all the men who left yesterday are going to Saskatchewan.

Business in Dried Mushrooms. One of Poland's most important exports is dried mushrooms.

LAKE AND RIVER TAKE HEAVY WEEK-END TOLL

Son Loses Life in Vain Endeavor to Rescue Mother in Otonabee.

Toronto, Aug. 10.—Two young Toronto residents met death by drowning over the week-end, May Hurst, aged 15, of 124 Munro Street, in the lake off Simcoe Park, foot of Carlaw Ave., yesterday afternoon, and Alex Barton, aged 20, son of T. Herbert Barton, barrister, 22 Wychwood Park, in Lake Rosseau, near Wasan, Muskoka, on Saturday. Miss Hurst lost her life when she upset a rowboat containing two of her friends, Samuel Casimir and Melville Robert Bullock. The unfortunate girl was sucked down by the overturned boat. Lifesavers, under Superintendent Lang and Officer Hughes, went out in a speed boat, and after dragging for a time recovered the body in seven feet of water at a spot about 50 yards from the shore.

Barton's death was due to a collision between a small motor boat, owned by Mr. Miller Lash, also of this city. The body sank in about 100 feet of water, and has not yet been recovered.

Peterboro, Aug. 9.—Two more victims were added to the quota of the Otonabee River Saturday afternoon, when Mrs. Harry Gabbott, 41, and her son, Douglas, aged 11, were drowned at Wallace's Point, eight miles below Peterboro. The body of the mother was recovered shortly after the accident, and the boy was found this afternoon at 3.30.

The boy's heroic attempt to assist his mother probably caused his death, as, while not an expert swimmer, he could undoubtedly have reached shore, being lightly clothed.

Simcoe, Aug. 9.—Joseph Murray Crockett, the 7-year-old son of Mr. and Mrs. Edward Crockett, while out fishing yesterday forenoon, was drowned in shallow water from a bridge over which J. Alex Wallace, M.P., gets access to his farm from the east end of Davis Street. The little fellow had been out the day before with others and had caught his first fish. Encouraged, he had set out again at 9 a.m. Falling to return at noon, he was found by a search party.

TWO TORONTO BANDITS TAKEN IN GUN BATTLE

Youths Said to Have Terrorized Citizens of Eastern Section of Philadelphia.

Philadelphia, Pa., Aug. 9.—In a running gun battle early to-day the police captured two Toronto youths who are said to have terrorized the eastern section of this city for the last week. The young men, who are alleged to have confessed to a series of hold-ups, described themselves as Frank Clancy, alias Ward, 19, and James Clancy, alias Quinn, also 19.

Armed with a German Lueger pistol brought back as a war souvenir by an older brother, they came to a vacation, "hopping freight trains. Arriving penniless, they confessed, they commenced a series of hold-ups, which ended when they took \$22 from Joseph Lefevre, a cab driver. Lefevre reported the occurrence immediately to the police and bandit-chasing cars were despatched to the neighborhood of the hold-up. A detail of bluecoats sighted the two youths as they were about to enter another taxi-cab. Seeing the police, they broke into a run, with the officers in close pursuit. Bullets whizzed and the police gained, finally cornering the fugitives.

With one cartridge remaining, Frank Clancy's gun jammed and Patrolman Fraser, centre on the police football team, sent him crawling to the ground with a flying tackle. Two others clubbed James into submission. The young men are being held for a hearing.

Silesian Speaks for 12 Hours in Oratorical Contest

A despatch from Berlin says:—Franz Horaz, from upper Silesia, aspires to be European champion in public speaking. Coming to the German capital for the initial event, he recently mounted a soapbox in the Lustgarten, began speaking at 9 a.m., and ended at 9 p.m., pausing only occasionally for two minutes to sip lemonade or near beer. Above his head hung a placard reading: "I am contesting for the European championship in speaking. I challenge the orators of Germany. If no one accepts I win the title. Contests will follow in Warsaw, Paris and Rome." During his Berlin performances this modern Demosthenes has recited Schiller, Goethe and other German poets by the hour, declaring he is anxious to revive the ancient, but lost art of oratory. In Paris he intends to recite Moliere, and in Rome the entire Divine Comedy, each in the original language.

Alberta's Wheat of Better Quality Than Last Year

Calgary, Alta., Aug. 9.—Alberta's 1925 wheat crop will grade higher on the average than the 1924 crop, in the opinion of George Hill, Dominion Grain Inspector. Mr. Hill is basing his opinion on the samples of the new crop which have reached his office from several parts of the province.

THE MARKETS

TORONTO.

Man. wheat—No. 1 North, \$1.81; No. 2 North, \$1.78; No. 3 North, \$1.72; No. 4 wheat, not quoted. Man. oats—No. 3 CW, not quoted; No. 1 feed, 57¢; No. 2 feed, 55¢. All the above c.i.f. bay ports. Am. corn, track, Toronto—No. 2 yellow, \$1.22. Millfeed—Del. Montreal freights, bags included: Bran, per ton, \$28; shorts, per ton, \$30; middlings, \$36; good feed flour, per bag, \$2.30. Ont. oats—48 to 50c, f.o.b. shipping points.

Ont. wheat—\$1.30 to \$1.35, f.o.b. shipping points, according to freights. Barley—Malting, 74 to 77c. Buckwheat—No. 3, 78c. Rye—No. 2, nominal. Man. flour, first pat, \$9.10, Toronto; do, second pat, \$8.60, Toronto. Pastry flour, bags, \$8.10. Ont. flour—Toronto, 90 per cent, 56¢; seaboard, in bulk, 56¢. 56¢; seaboard, in bulk, 56¢. Screenings—Standard, re-cleaned, f.o.b. bay ports, per ton, \$21.

Hay—No. 2, per ton, \$13 to \$14; No. 3, per ton, \$11 to \$12; mixed, per ton, \$9 to \$11; lower grades, \$8 to \$9. Cheese—New, large, 24 to 24¢; twines, 24 to 25¢; triplets, 25 to 25¢; Stiltons, 26 to 27c. Old, large 28 to 29c; twines, 29 to 30c; triplets, 29 to 31c.

Butter—Finest creamery prints, 29 to 30c; No. 1 creamery, 40c; No. 2, 37¢ to 38c. Dairy prints, 27 to 28c. Eggs—Fresh extras, in cartons, 41 to 42c; loose, 40 to 41c; fresh firsts, 37 to 38c; seconds, 32 to 33c. Dressed poultry—Chickens, spring, 1b, 30 to 35c; hens, over 4 to 5 lbs, 22 to 24c; do, 3 to 4 lbs, 20c; roosters, 18c; ducklings, 27 to 30c.

Beans—Can., handpicked, 1b, 61¢; primes, 6c. Maple produce—Syrup, per imp. gal., \$2.40; per 5-gal. tin, \$2.30 per imp. gal.; maple sugar, 1b, 25 to 26c. Honey—60-lb. tins, 13½¢ per lb.; 10-lb. tins, 13½¢; 5-lb. tins, 14c; 2½-lb. tins, 15½ to 16c.

Smoked meats—Hams, med., 32 to 33c; cooked hams, 47 to 50c; smoked rolls, 22c; cottage, 23 to 25c; breakfast bacon, 32 to 36c; special brand breakfast bacon, 38 to 39c; backs, boneless, 38 to 42c.

Cured meats—Long clear bacon, 50 to 70 lbs., \$22 to \$23; 70 to 90 lbs., \$20.50; 20 lbs. and up, \$19.50; lightweight rolls, in barrels, \$29.50; heavyweight rolls, \$24.50 per barrel.

Lard—Pure tierces, 18 to 18½¢; tubs, 18½ to 19c; pails, 19 to 19½¢; prints, 20 to 20½¢; shortening, tierces, 14½¢; tubs, 15c; pails, 15½¢; blocks, 16½¢. Heavy choice steers, \$8 to \$8.50; do, good, \$7.25 to \$7.50; butcher steers, choice, \$7.25 to \$8; do, good, \$6.60 to \$7.15; do, med., \$5.50 to \$6; do, com., \$4.50 to \$5.25; butcher heifers, choice, \$7 to \$7.75; do, med., \$5.50 to \$6; do, com., \$4.50 to \$5.25; butcher cows, choice, \$4.50 to \$5; do, fair to good, \$4 to \$4.50; canners and cutters, \$2 to \$2.50; butcher bulls, \$4.50 to \$5.50; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.25; do, fair, \$4.50 to \$5.25; calves, choice, \$9.50 to \$11.50; do, med., \$7 to \$9; do, com., \$4.50 to \$5.50; milch cows, choice, \$70 to \$80; do, fair, \$40 to \$50; springers, choice, \$75 to \$90; good light sheep, \$5.50 to \$6.50; heavy and bucks, \$3.50 to \$4.50; good lambs, \$14.50 to \$14.85; do, med., \$13.50 to \$13.75; do, bucks, \$12.50 to \$13; do, culls, \$13 to \$13.25; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.55.

MONTREAL.

Oats—Can. wests, No. 2, 70½¢; do, No. 3, 63½¢; extra No. 1 feed, 64½¢. Flour, Man. spring wheat, firsts, \$9.10; do, seconds, \$8.60; strong bakers, \$8.40; winter oats, choice, \$6.40 to \$6.60; rolled oats, bag 90 lbs., \$3.85 to \$3.95. Bran, \$3.25. Shorts, \$30.25. Middlings, \$36.25. Hay, No. 2, per ton, car lots, \$14. Cheese, finest wests, 22½¢; finest easts, 23c. Butter, No. 1 pasteurized, 38½ to 38½¢; No. 1 creamery, 37½ to 37½¢; seconds, 36½ to 36½¢. Eggs, fresh extras, 41c; fresh firsts, 38c. Com. bulls, \$2.75 to \$3; calves, good, \$7.50 to \$8.50; grassers, \$4.50 up. Hogs, mixed lots, good weight, \$14.25 to \$14.50; sows, \$11 to \$11.50.

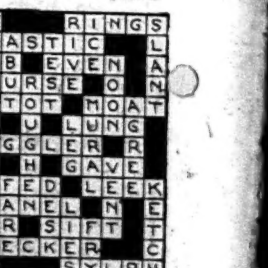

Napoleon's Memory Honored by Prince at St. Helena

A despatch from St. Helena says:—The Prince of Wales paid a touching tribute to the memory of Napoleon during his visit here. At Long Wood, he planted an olive tree near the place where the body of the one-time ruler of Europe rested before it was taken to Paris.

Nothing remains to identify the former tomb itself except a plain white slab of stone bearing no inscription. A brass plate nailed on a nearby cypress tree, placed there by the La Force Expedition in 1860, says simply:

"To the memory of the Emperor." The Prince planted his tree three feet from the stone slab, opposite a weeping willow sent from France by Marshal Foch.

Answer to last week's puzzle.

FATHER OF R. SCOTT'S VICTIM IN DIRE WANT

Jacob Maurer Has Now No Support—Murderer in Insane Asylum.

Chicago, Aug. 9.—At about the time that Russell T. Scott, his fight to dodge the gallows won, was leaving Chicago in the custody of Deputy Sheriff for the Chester Insane Asylum, there appeared at the Detective Bureau an old work-worn man whose interest in Scott's case was next to that of Scott's family and Scott himself.

He was Jacob Maurer, the aged father of J. Maurer, the 19-year-old drug clerk, for whose murder in a hold-up Scott was sentenced to hang, escaping the death penalty twice by a margin of a few hours, and finally being found insane since his conviction.

Bitter and unforgiving, the old man recalled a story of hardship and privation that has befallen his family since his boy's death in April, 1924, and then sought to recover the clothing worn by his boy the night he was slain, and which has been held by the State for evidence against Scott.

"You probably want them as keepsakes?" some one suggested, but Maurer shook his head.

"I want them," he said, "to wear myself. I've been sick, and I've been out of work because I've devoted my time to this case, and I've got to be better dressed to get a new job."

The old man explained that his daughter is now the sole support of his family, and that, in addition to being in poor health, he is unable to sleep.

"Joey," he said, and his voice broke, "always used to wake me up at 12.30 every night when he came home from work, and now I can't help waking up at that time and expecting to see him."

Scott left Chicago heavily shackled in charge of two Deputy Sheriffs. "A last message for Chicago," he shouted as the train moved out. "Tell them I'm both sane and innocent."

Hatheway, Bank Robber, Gets 6-Year Term

A despatch from London, Ont., says:—Leslie G. Hatheway, the confessed bandit who robbed the branch of the Bank of Montreal at Thornedale on July 3 of the sum of \$6,000 odd, and held the staff up at the point of a gun, later locking them in the vault, was sentenced by Deputy Police Magistrate Gladman to serve six years in the penitentiary.

Hatheway seemed surprised, and later stated that he guessed he had been given a year for every thousand he stole. His wife fainted when she heard the sentence, and a doctor had to be called. Recovering in an hour, she drove to the jail, where she had a pathetic meeting with her husband. It is understood that there will be no appeal, and that Hatheway will be started on the serving of his sentence at once.

Hatheway signed documents waiving right to appeal. On the strength of this he will be taken to Kingston at once.

Old Song May Be Omitted from Protestant Hymnal

A despatch from Seattle, Wash., says:—The next edition of the universal hymnal used by many Protestant churches will be minus one old song if certain Northwest societies have any influence. This week, at the session of a conference here of Baptist ministers, a special song service was announced. The song leader took the platform, opened the hymnal and called a number. A ripple of laughter started on the platform, which soon ran through the church.

The hymn announced was "We've Reached the Land of Corn and Wine."

This photograph of William Jennings Bryan was taken less than two hours before his death in Dayton, Tenn.

EIGHT ARE VICTIMS OF MOTOR ACCIDENTS

Mystery Surrounds Early Morning Crash Near Chip-pawa—Little Girl May Die.

Niagara Falls, Ont., Aug. 9.—Lutetha, 7-year-old daughter of Mrs. Clara Morrison, this city, was probably fatally injured late to-night on Victoria Avenue, when she was struck by an automobile driven by John McGue of this city. According to witnesses, the little girl was with her mother, and stepped from behind the street car, when she was hit by the McGue car. She sustained a badly fractured skull and doctors say there is little hope for recovery. She has never regained consciousness. McGue was not held.

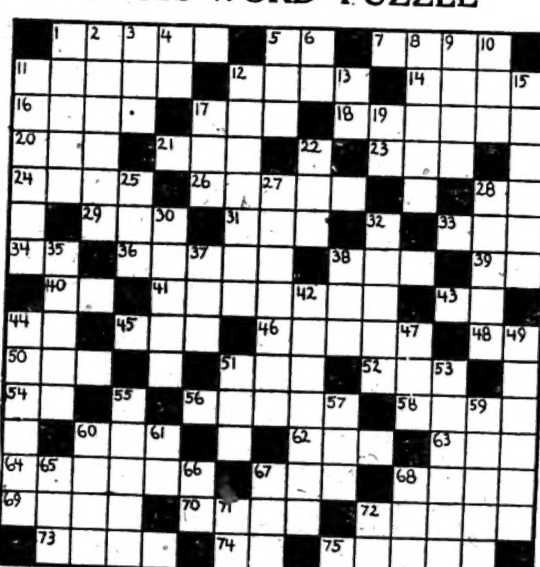

Running out into the road, Howard Bates, 5 years old, had his right leg broken when struck by a car driven by Thomas Defoe of this city. Mr. Defoe swerved his car almost across the road in an effort to avoid a crash, but struck the lad with a rear fender. A big sedan driven by a Mr. Porter of St. Catharines, crashed into a tree on the Niagara Boulevard, above Chip-pawa, early this morning. The top of the car was completely torn off, and six occupants were badly cut with glass. After receiving attention at the hospital all but two were able to return home. Hospital authorities say they have instructions to give out no names.

A Unique Occurrence in British Railway Annals

A despatch from London says:—A bit of British railway history was made at Victoria Station here recently. At the height of the bank holiday rush a ticket taker incautiously left the gate to a platform unguarded. It happened that there was an empty train awaiting removal to another track. But on the other side of the barrier there was a crowd waiting to go to Margate. They surged through the gate, took possession of the train and refused to leave it.

Rather than disorganize the whole station service and risk a riot the company decided to send the train to Margate, after all.

WHERE NOTHING WEARS OUT

The English Farmer's Tools and Buildings Have a Marvelous Durability.

By J. Sidney Gates.

The first impression on viewing English farming equipment is that nothing wears out. The tools look as old as the buildings and the buildings have been there hundreds of years.

One day I passed a tool shed and stopped to talk with two old men who were painting wagons. There must have been a dozen wagons standing under this low open shed covered with a tile roof. As I watched the red paint go on a huge wrinkled hub I remarked that the wagon looked pretty aged.

"No, sir, 'tain't so very old," remarked the painter. "Bout sixty, I should judge. There is one down the line there more than ninety."

These old farm wagons are of a lightness sufficient to furnish a full load, though empty, for an ordinary farm team.

Much of the farm hauling is done with 2-wheel carts. Every farm is equipped with several small 2-wheel carts. They are all cross-ribbed, iron-bound affairs and are used for any sort of small load work. It is usually a 2-wheel cart that takes the milk to market and that hauls out the manure from the stables.

A few days after my encounter with the wagon painters, going along a by-road I met an old man driving one of these carts. The body of this vehicle was perched, way above the wheels and extended out over the horse's withers and for an equal distance behind. It is a common type of cart used for hauling bulky material. Nothing interested, the old man told a story about it, a story he recalled hearing his father tell.

May Turn Out All Right.

It seems that the cart was made to order. When this man's father got word it was ready for delivery he went before to inspect the new vehicle before finally making the purchase. At this inspection one of the hubs did not appear quite satisfactory, and he was on the point of calling off the sale when the wheelwright sternly protested. He claimed the wheel was as sound as any he had ever made, despite an apparent surface mar of some sort.

Finally the cart was brought home under the strict understanding that if the wheel ever showed any weakness it would be replaced free of charge.

"That's been high into seventy years ago," said the driver to me, "and I believe it's going to turn out to be a pretty good wheel."

There are several angles to this "nothing wears out" tendency of equipment on English farms. In the first place, there is enough material in the ordinary English wagon or plow to make two or three of the size we grow over here. Just what the advantage would be in lugging through fifty years enough extra material to make a thing last another fifty is a little hard to figure out.

On the other hand, a great deal of this perpetuity of an implement is due to constant and painstaking repair whenever a weakness develops. That old story about the 500-year-old barrel must be of English origin. A man was boasting of a very ancient barrel and took his friend down in the cellar to see it. They switched on the lights and the friend ended the barrel up for more complete examination.

"Why, this head does not look old at all," he commented. This drew forth the admission that twenty years back new heads had been put in.

The staves next came in for inspection and their reputed age was questioned.

Again there was an admission from his host that his grandfather had replaced half the staves and that his father, shortly before passing, had renewed the rest of them.

"And how about the hoops?" said the visitor, as he dropped the barrel on its side and rolled it over. The hoops looked almost new.

"Well, you see, valuing the barrel as I do, I try to keep it up and only a month ago I had a new set of hoops put on."

At this the visitor began to grin broadly, and the man who owned the barrel sheepishly covered his tracks by exclaiming:

"It has, at least, the same old bung-hole."

And I dare say that many of the implements in use on British farms, despite the rugged way in which they are put together, have been repaired so often and had broken parts replaced that it would be only after the bung-hole fashion that they could lay claim to an original birthday.

WE WANT CHURNING CREAM

We supply cans and pay express charges. We pay daily by express money order, which can be cashed anywhere without any charge.

To obtain the top price, Cream must be free from bad flavors and contain not less than 30 per cent. Butter Fat.

Bowes Company Limited, Toronto

For references—Head Office, Toronto, Bank of Montreal, or your local banker. Established for over thirty years.

A Brake on Progress.

But the fact that they are made so solid, thereby having normally such a long life, while cutting down current cost, has led to a serious stagnation in so far as design is concerned. The British farmer keeps his old-time equipment because it is in such good condition he could not afford to scrap it. The British implement manufacturer has accepted the replacement role instead of venturing forth with something so new and so superior that the farmer would scrap his old stuff to buy it.

Of all the English farm equipment, the most striking to me was the plow. Of course, there are plows and plows in England. They have steam plowing down apparently to a more economical basis than we have yet developed with the mobile tractor. Under their steam system the engine remains stationary, or nearly so, at the side of the field, while the plows are drawn across by windlass-operated cables.

But the typical 2-horse plow in design looks like the great-grandfather of the hoariest old implement we have over here. It is known as the Kent plow. The beam and handles are the main part of the plow shoot are all of wood. The beam, I should judge, is more than eight feet long, and the handles slope far back.

These plows appealed to me as being primarily implements of precision. Not only does the great length of the thing make it relatively easy to run a straight furrow but there is an arrangement for gauging depth which is equally as precise. Depth is never trusted to mere clevis control.

At the front of the beam are two wheels and a stout axle. In the centre of the axle, spaced a width of the plow-beam apart, are two upright iron bars with a range of opposite holes through which the beam is pinned and its height above the ground steadily and accurately controlled.

I can't conceive of this plow ever wearing out.

The Hurdle Fence.

Under the British system of handling stock, particularly sheep, they do a great deal of hurdling. Sometimes a sod in late summer is used as a feeding-ground for fattening animals. A few acres of this field will be fenced off at a time and the stock, confined in this space until the droppings pretty well cover the land, and then the hurdles, or temporary cross fences, will be moved along to a new area.

The type of hurdle fence used is of wrought-iron panels, mounted on hooked and wheels. These panels are hooked together and one horse can pull into place a 50-yard section. I asked a farmer about the cost. Wrought-iron fences, equipped with running gear, can't be had today for a song.

"These hurdles do cost a considerable sum," he replied, "but they never wear out and that must be taken into consideration. The lot on this farm have been here, I suppose, for two full generations."

Ponderous Hay Carrier.

One of the most ponderous and apparently least likely to wear out pieces of English farm machinery, was the hay or straw carrier used in stacking. An ordinary endless-belt-type carrier is mounted on a long ladderlike frame made of heavy timbers. I should say the sidepieces of this frame are four-by-eight beams! This frame with carrier belt is mounted on uprights supported by a 4-wheel truck. On the truck is an old style circular horse power. The carrier is adjustable. It can point any direction and tilt any angle.

Round and round underneath goes a horse when it is in operation, and by an ingenious gear arrangement the

heavy endless belt of this carrier journeys upward with its burden of hay. Even the ordinary horse rake on the English farm has, I should judge, more than twice the material contained in one of our rakes. But an English farm, once equipped with hay-making machinery, should be out of the market for pretty nearly the next hundred years.

The English farm buildings, barns, stables and outhouses are mainly built of stone. Evidently the foundations went down to solid, unshifting earth or rock, for you rarely ever see a cracked wall. The universal roofing material is tile and a tile roof appears to be good for all time.

To do all this building over again today and to do it in this permanent style would cost a pretty sum. But it is a job that former generations have done so well that very little of it will ever need to be done over in our lifetime.

I have a feeling that much of rural England was built so solidly and so well because it was built in an age before there was very much else to do. The spirit engendered in those times has trickled down through the latter ages. It is a spirit one likes to see rekindled and passed along.

Horse's Pulling Power.

There can be no doubt that weight is an important factor in the production of a horse that can pull a heavy load. This has long been recognized in the United States, where for many years draught horses, pure-bred and commercial, have been sold by weight, and it has recently been definitely proved by the Iowa dynamometer, a machine for measuring the pulling power of a horse.

It has been abundantly shown that a pair of horses cannot exert a tractive pull greater than their own weight. A tractive pull is not merely the pulling of a heavy load over a required distance, but the maintenance of the pull required to start that load over a distance which is now fixed at 27½ feet.

Thus, the weight of a horse is undoubtedly a limiting factor in what it can accomplish. Moreover, the fact that a horse can make a tractive pull of nine-tenths of its own weight is significant; and these two points, taken together, show that breeding for weight in horses is no mere fad or "fancy point."

He—"You're a bird."
She—"And you're a worm—but I'm not going to grab you."

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours they may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child, and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Surnames and Their Origin

MULDOON

Variations—Meldon, O'Muldoon.
Racial Origin—Irish.
Source—Given name.

The family name of Meldon is not one which would be popularly regarded as Irish, though there'd be no doubt about the forms Muldoon and O'Muldoon.

There are two different Irish clan names from which these Anglicized forms have developed, and there is no method of telling from which any one of the three have come, in the case of the individual, aside from a genealogical research. You could make a guess with some chance of being right, if you knew the section of Ireland from which your ancestors came.

In the ancient province of Meath was the headquarters of the clan "O'Maoldubhain," which was founded, apparently, about 870 A.D. by "Maoldun" (from "maol" and "Dubhan," meaning "follower of St. Dubhan," who was a brother of "Fogharthach" (Fogarty), the 157th monarch, or High King, King of Ireland. (This line of "High Kings" or emperors reaches from 1700 B.C. to the thirteenth century A.D.)

In Tirowen was the clan known as the "Biol Maolduin." It is the branch of the O'Neills of Ulster. It was established by "Maolduin," the son of "Aodh Ornaigh," the 16th monarch of Ireland.

JACOBS

Variations—Jacob, Jacobson, James, Jameson, Jamieson.
Racial Origin—English and German.
Source—A given name.

The family names of Jacobs and James, with their respective variations are virtually the same, not in the sense that they imply relationship, even remote, between families bearing them, but in the sense that meanings of the names are similar.

This is the obvious result of a fact which is not generally recognized, that the given names of Jacob and James have the same meaning, which is "he that supplants" or "the supplanter." Both given names became widespread throughout Northern Europe in the growth of Christianity and the hold which the stories of the Bible took upon the populations of those days, for at one period in the history of Europe a given name had little chance of surviving unless it was of biblical origin or had acquired a religious flavor through the sanctification of some early saint of the Church in one of the northern lands.

The simplest form of family name is that which originated as designating parentage, the combination of the father's given name with the word "son" in English, "sohn" in German, "sen" in Welsh and Dutch. The "s" in Jacobs is what remains of this ending in Jacobson.

Be a Giver!

God, let me be a giver, and not one who only takes and takes unceasingly.
God, let me give, so that not just my own, but others' lives as well, may richer be.

Let me give out whatever I may hold
Of what material things life may be heaping.

Let me give raiment, shelter, food, or gold,
If these are, through Thy bounty, in my keeping.

But greater than such fleeting treasures, may I give my faith and hope and cheerfulness,
Belief and dreams and joy and laughter gay.

Some lonely soul to bless.

—Mary Carolyn Davies.

BEST MEDICINE SHE EVER USED

Dr. Williams' Pink Pills Highly Praised by a Nova Scotia Lady.

Among the well known and esteemed residents of Hiram, N.S., is Mrs. Amanda Woodworth. Some four years ago Mrs. Woodworth had the misfortune to lose her husband, and as a result of caring for him during his illness, and attending to farm duties, she became terribly run-down. Mrs. Woodworth says she felt as though her blood had turned to water. The least exertion would leave her tired and breathless. She was often attacked by spells of weakness that left her almost speechless, and frequently suffered from severe headaches. The medicines she took did not help her, and she almost despaired of gaining her health. In this condition she one day read in a newspaper of a case very similar to her own, in which health was restored through the use of Dr. Williams' Pink Pills. This made her decide to give these pills a trial.

After using a few boxes she found the pills were helping her, and she continued their use until her old-time health and vitality were restored. Now Mrs. Woodworth looks after a small farm of fifteen acres, besides doing all her household work, and says she never felt better or more energetic in her life. She gives credit for her present splendid health to Dr. Williams' Pink Pills, which she says are the best medicine she ever used, and strongly recommends the pills to all run-down people. You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The World's Winds.

The best-known wind in the world is the trade wind. It is commonly assumed that the word is connected with trade or commerce, because in the old sailing-ship days mariners used to seek this wind that it might blow them steadily in the right direction. Dependable, and not subject to variation or calm. This is a common error. In Anglo-Saxon, it was the treaded wind, a wind with a specific tread, trend, or direction.

The trade wind, then, is one of uniform track. In the northern hemisphere these winds blow from the north-east, and in the southern hemisphere from the south-east, about thirty degrees on each side of the Equator. In some places they blow six months in one direction and six in the opposite. The mistral is another famous wind. It is a violent north-west wind blowing down the Gulf of Lyons and felt particularly in the neighborhood of Marseilles. The sirocco is a hot, suffocating wind that blows in northern Africa and Arabia. The sirocco blows from North Africa over Italy.

Minard's Liniment for Corns and Warts

But How Big Was That One?

Skinner had invented a new hair restorer, and he had sent a large number of sample bottles out to various well-known people in the hope of obtaining some testimonials for advertising purposes.

"I don't know whether to publish this testimonial or not," he said to a friend who was calling upon him as he was opening the letters he had received.

"What does it say?" inquired the other.

"Well, it says," replied the proud inventor, "Before I used your hair restorer I had three bald patches. Now I have only one."

"There's a reason."

FARM BOYS! YOUR OPPORTUNITY!

Do Not Let It Pass

The Ontario Agricultural College offers you an education that will fit you for practical up-to-date business farming or professional life. An education to a farmer is a life-time gift. The years of youth are short. Tuition fee for the first year only \$20. Board and room only \$8.50 per week. 700-acre farm, fine live stock, modern, well-equipped buildings, living conditions the best. Write for College Calendar, descriptive of all sciences and practical courses.

J. B. REYNOLDS, M.A.

President

ONTARIO AGRICULTURAL COLLEGE

QUELPH, ONT.

Doctor's Orders.

In an out-of-the-way village in Scotland a man entered one of the mourners' carriages at a funeral. Opposite him was another man he did not recognize. Leaning forward, the newcomer said, "You'll be a brither o' the corpse?"

"Naw," replied the other.

A minute later the man remarked, "Maybe you'll be a cousin o' the corpse?"

"Naw," came the answer.

"You'll be a friend, then?" suggested the man.

"Naw," said the man emphatically. "I'm no relation, but I hanna been verra weel, an' the doctor ordered me to take kerridge rides!"

The largest leaves are to be found on trees of the palm family.

The leaves of the double coconut palm are often thirty feet long and several feet wide; only one leaf is produced each year, and they are so strong and so firmly attached to the stem that a man may sit on the end of one and rock to and fro in perfect safety.

Flying Champion.

Captain F. L. Barnard, winner of the King's Cup in the air race round Britain, is one of the most popular pilots in the flying service; he is also one of the most skilful. Tributes to his magnificent airmanship are paid him almost every day, for there are many well-known people who, when flying from England to the Continent, will only book passages in machines piloted by him.

Perhaps the most remarkable aspect of his feat was that in the race he attained an average speed of over a hundred and fifty miles an hour, which is a record. As he landed, Captain Barnard pushed forward to receive his wife's congratulations. "I'm glad you won," I heard her say, "but I'm much more glad you got back all right."

A "Royal" Guard.

For more than twenty-five years Mr. Charles Rose has been called the "royal" guard, for during that period he has conducted every royal train that has run over the "Brighton" Railway system of England.

He once told this story. The late Czar of Russia was evidently a timorous traveller, for the monarch gave orders, whilst on a journey to Portsmouth, for the communication cord to be pulled outside Epsom, and in consequence the train stopped at the station. Rushing along the platform to find out what was the matter, Guard Rose was informed that the train was going too fast and that it made the Czar feel nervous.

Chaperoning Squad of Parrots.

For the most peculiar job ever undertaken by a woman, at least one prize must go to Miss Grace Chapman, an English animal dealer. She brought a trainload of parrots across Spain. The birds made such a racket that they frightened the train crew and on one occasion she had to act as her own engineer.

Pachmann's "Sweetheart."

I had a chat the other day with the great pianist M. Vladimir Pachmann, who has just returned to London after nearly three years' absence, says an English writer.

As interesting as ever, M. Pachmann told me he has evolved an entirely new method of fingering for the piano. And by way of demonstration he sat down and executed a series of the most intricate scales, talking affectionately to the instrument as he did so.

"Why do I talk to my piano?" he said, as he rose. "Ah, that is my little secret! But I can give you one reason: It is because I love it; it is a part of myself. Yes!"

Minard's Liniment for Aches and Pains

Preparedness.

In one of the Southern states the negroes are great patrons of a matrimonial agency. One dark, anxious to find a wife for his son, went to the agent, who handed him a list of his lady clients. Running through this the man came upon his own wife's name, entered as desirous of obtaining a husband between the ages of twenty-eight and thirty.

Forgetting about his son, the father hurried home to announce his discovery to his wife. She was not at all perturbed.

"Yes," she said, "I done give him my name. I puts it down when you was so sick last winter."

ONTARIO WOMAN REGAINS HEALTH

Wants Other Women to Know About Lydia E. Pinkham's Vegetable Compound

Mount Forest, Ont.—"Before I took Lydia E. Pinkham's Vegetable Compound I felt weak and miserable, and had pains all through me. I was living in Alina Craig at the time, and one day a friend came in and told me her experience of using the 'Vegetable Compound' and advised me to take a bottle, which I finally did. I began to get stronger and those pains left me. I am glad I found out about this medicine as I think there is none equal to it for women who have troubles of this kind. I cannot praise the Vegetable Compound too highly for the good it has done me. Whenever I know of a woman suffering I am glad to tell her of it."—Mrs. WM. RIDGDALE, R.R. No. 1, Mount Forest, Ontario.

Women throughout the Dominion are finding health in Lydia E. Pinkham's Vegetable Compound.

No harmful drugs are used in its preparation—just roots and herbs—and it can be taken in safety even by a nursing mother. For sale by all druggists.

1896 No. 33-725.

Lawn Bowling

The Streetsville Ladies Lawn Bowling Club held a very successful gala day last Friday, which about fifty visitors from Parkdale, Kew Beach, High Park, Islington, and Milton attended. Mrs. Longwell, President, spoke suitable words of welcome to the ladies after which the games commenced. In the afternoon two games of Irish Trebles were played. The Streetsville ladies served a dainty lunch and a very pleasant social hour was spent, one more game being played in the evening. The rinks were divided up and the games played progressively.

In the winning rink were Mrs. Couse, Streetsville, Miss Evans, Islington, and Mrs. Gee, Parkdale. In the second prize rink were Mrs. Howden, Kew Beach, Mrs. Greig, Streetsville, and Mrs. Tier, Islington. The prizes were measures.

Brampton

The death of Mrs. John Woodhall occurred Monday at the home of her son-in-law, H. C. Garbutt, Peel ave, after a lengthy illness. Mrs. Woodhall was a daughter of the late Wm. Keyworth and was born in Vaughan Township, York County, 88 years ago. She was married to the late John Woodhall in 1858, and for 53 years resided on the Centre Road and First Line East in this district. For the past 15 years she had been residing with her daughter, Mrs. H. C. Garbutt. She was a Presbyterian One son, John Denton Woodhall of Maryland, U.S.A., and two daughters, Mrs. Wm. Harris, Cooksville, and Mrs. Garbutt, Brampton, survive.

Joe Featherston Passes in China

Word was received last night by Mr. J. K. Featherston that his brother Mr. Joseph E. Featherston, Canadian Commissioner of Chinese Immigration at Hong Kong, and former civil servant of Ottawa, died yesterday, August 12, in Hong Kong. He was born near Streetsville 45 years ago. Mr. Featherston left for China in 1923. He entered the Civil Service in 1905, and was at various times secretary to Hon. Frank Oliver, Hon. J. A. Calder, and Hon. Chas. Stewart.

Presentation

On Tuesday evening Misses Beatrice and Cora Woodruff entertained about twenty girls at their home. Although the elements were raging outside, inside they were forgotten in playing games and solving contests. Miss Bea Jephson was the winner, and after a dainty lunch had been served, was presented with a green gold ring with white gold and amethyst setting.

Dear Bea:
We've gathered here, no, not to cry; But to say "Au Revoir" and "not good-bye,"
For while your leaving means a heart felt pain,
Yet Streetsville's loss is Frankford's gain.
So from your pals please accept this ring;
And may it sweet memories of friendship bring,
For our good wishes with it we give
And hope that long and happy you may live.

St. Andrew's Notes

This Sunday
10 a.m.—Sunday School
10.15—Bible Class
11 a.m. & 7 p.m.—Both services taken by Rev. John Gibson.

On Sunday the congregation listened to two very able sermons from Rev. Mr. McLean of Bradford. In the morning he took for his text, from John 10: 10, I am come that they might have life more abundantly. Spoke of life under 3 aspects, Physical, Intellectual, Spiritual. We only truly live when we are in agreement with Christ and in harmony with God's will.

Mrs. Fred Saxon of Toronto gave a beautiful rendering of Rock of Ages. In the evening Mr. McLean spoke on the message to the Church at Ephesus.

United Church Notes

This Sunday

From Streetsville to Temiskaming to see Canadian Silver Mined

As the guest of Mr. E. Batchelor, President of the Gowanda-Duggan Silver Mine Limited and of the directors the Rev. Frank Vipond left on Saturday night enroute for the Township of Donovan, District of Temiskaming, being one of a party of fourteen shareholders who are making a personal inspection of the results obtained in development of the Company's Claim covering 150 acres in which several veins from 2 to 4 inches wide on the surface have been checked by drilling to 8 to 12 inches wide at a depth of 50 feet. The avowed policy of the owners of this mine is that it shall be Canadian or at least British in its capitalization for development and Canadian or British in destination of ultimate results. With all too good reason was the comment of an authoritative English financial paper recently regarding the U.S. ownership of so much of Canadian Mining property. It is easy to secure big capital from a big capitalist in New York or other U.S. financial centre, for the proved silver and other mining properties in Canada, but that policy saps the financial life of Canada and U.S. class suffers more indirectly than the well to do farmer and other comparatively would-be small investor, who instead of coming in on the ground floor as a small shareholder in the development stage at development prices often, if he desire to be "in" on good Canadian Mines has to pay from 5 to 20 times the original price after shares are "on the market" and at that to a foreign holding Company. It is in connection with a policy opposed to this, the development of a policy "Shares at original prices for the small Canadian or British Shareholder" that the party of which Mr. Vipond is an invited member has gone to the scene of activities of the Gowanda-Duggan Mine.

W. C. Webster

A sad drowning accident in which Mr. W. C. Webster, second son of the late Mr. and Mrs. Charles Webster of Erin, lost his life at the summer home of his cousin, Mr. Selwood, at Fraser's point, Quebec, on the St. Lawrence River.

Mr. Webster and Mr. Selwood had gone fishing on Tuesday afternoon of last week, when returning home with a good catch Mr. Webster stood up in the launch to find a suitable place to land when his foot slipped and he fell into twenty feet of water, never to rise again. The body was not recovered until this Tuesday sixty miles from where the accident happened. His mother, Mrs. C. Webster who made her home with him in Buffalo, was buried three weeks ago in Greenwood Cemetery, Georgetown, beside her husband.

Mr. Webster was a nephew of Mrs. W. Webster of Streetsville, and a cousin of Mr. M. Barber of Toronto. He is survived by his wife. The funeral takes place in Buffalo.

Lawrence Gaudette of North Bay appeared before Magistrate Shields on charges of reckless driving on the Highway near Oakville and for B.O. T.A.

Miss Bawler, Brampton, has been appointed assistant teacher at Streetsville High School.

Mr. Harold Bell of Georgetown is visiting at Mr. McCaugherty's.

Ferguson Carr, an inmate of the Mimico Industrial School, who escaped from that institution, was struck by a car in Brantford and sent to the hospital and a week later ran away. He was recaptured and taken back to Mimico.

W. A. Collins was fined \$30 and costs of \$18.00, for having liquor in an illegal place, in the Brampton Police Court by S. M. Crawford.

Where Your Money Goes Municipal Rates for 1925

1924	1925	What Raised for	Amount	Mills
Amount		Public School	2664 00	9
\$ 2376 00	7-4-10	High School	2800 00	9
2500 00	8	County	2549 00	8-6-10
2470 00	8	Debtors	4382 00	14
4050 00	12-5-10	Village	3000 00	10
3584 00	10-6-10			
\$14,960 00	46-5-10	Totals	\$15,395 00	50-6-10

The above are the rates of municipal taxes for 1924 and 1925. We give them for both years for comparison. The ratepayers can see by this table the increase in the different rates. The custodians of the people's money are always open to public criticism—and those members of a Council who cannot stand criticism should not have an office. The Council are the servants of the ratepayers—and must render an account of their stewardship. When the taxes are raised the people want to know why.

The Public School rate is higher because the School Board did not ask enough last year. It is not on account of the repairs after the fire because the Fire Insurance Co. paid the Board nearly \$800, quite sufficient to cover all damage.

The High School rate is higher because the Board let the principal go, and will have to pay at least \$300 more for another—and chances are they will not be able to replace him, as they did not receive a single reply to their last ad.

The County rate is higher because the County Council raised the equalized assessment on Streetsville. The Debenture rate is higher because the first debenture issued to pay for the waterworks installed in 1923 & 1924 came due this year. (This was for work done on Main, Church and Mill Streets).

The Village rate is half a mill less—and its less because there was less work to be done. There was some money spent on Thomas St, but not much anywhere else. There was nothing to be done, because the Council of 1924 cleaned up all the work before they left office.

One Councillor says this year's Council had to pay some bills left over from last year. This is not true. All lawful bills presented to the Council of 1924 were paid before last year's Council left office—and we defy anyone to prove anything different.

The Assessment is \$313,000—about \$10,000 less than last year, caused by reducing the assessments on the Dracass mill and the sash factory—which affects the rate.

The total assessment next year should be \$10,000 higher on account of the half dozen new houses in course of erection

FOR FLETCHER'S
CASTORIA.**

Here and There

According to the official records one hundred and thirty whales have been caught by the Victoria, B.C. whaling fleet so far this season. The sperm whale is the most plentiful this year.

It has been estimated that over one hundred and fifty thousand people attended the Calgary Stampede this year. A historical pageant more than five miles long was the opening feature of the jubilee.

With an estimated attendance of five thousand each, twenty conventions have been booked to take place in Montreal for August, September and October, according to figures from the Tourist and Convention Bureau of that city.

It is expected that when Hon. Honore Mercier, Minister of Lands and Forests, returns to Canada, a thorough organization of the aviation branch of the Quebec Lands and Forests Department will take place. It is reported that the Province is to purchase several more hydroplanes, to be used for forestry research work, as well as for combating forest fires and other work.

Church dignitaries, statesmen and thousands of laymen congregated in ancient Quebec to be present at the wonderfully impressive ceremonies attendant upon the burial of the late Cardinal Beign. The Basilica, which has only recently been reconstructed and opened to the public, presented a scene of colorful beauty and majestic dignity, while the profoundly sorrowful services were being recited.

At this year's Cross-country Ride and Pow-wow of the Trail Riders of the Canadian Rockies it is expected that approximately one hundred riders will cover a new trail which extends from Marble Canyon on the Banff-Windermere Road over the Wolverine Plateau and past Lake O'Hara to Hector, while between 250 and 300 are expected at the Pow-wow near the Wapta Bungalow Camp. While out west Field Marshal Earl Haig signed on as a member of the Trail Riders.

On the occasion of the departure from England of a party of one hundred school-teachers on board the "Empress of Scotland" to visit Canada and study educational methods here, His Majesty the King sent the following message to the International Education League: "His Majesty congratulates the League upon the happy conception of the undertaking which will give opportunities to study the educational system in Canada and to gain an insight into her history, development and general resources."

That 69,000 harvesters would be required to handle this year's crop, of which the East would be expected to supply 50,000, was the estimate arrived at last week at a conference of various governments held in the Canadian Pacific offices at Winnipeg. In the meantime the Canadian Pacific Railway has taken all necessary steps to transport the army of harvesters. Their colonist cars and special equipment has been overhauled and the company is now fully prepared for its annual rush of harvesters.

George Morris Bosworth, Chairman of the Canadian Pacific Steamships, who died in London, England, on the morning of July 26th, from septic poisoning following an operation for appendicitis, was with the company almost from its inception. He was 68 years old when he died, joined the Canadian Pacific Railway in 1882 and was head of the steamship service for nearly seven years. When informed of Mr. Bosworth's death, E. W. Beatty, K.C., chairman and president of the company, stated that in his opinion Mr. Bosworth had had no equal in the country as a manager of railway traffic and added that "the company deeply regrets the passing of another of the old guard, whose ability and effort so largely contributed to the company's success."

Between 300,000 and 400,000 Canadians and Americans of Norwegian origin will gather at Minneapolis and St. Paul in June next to celebrate by a great national gathering the hundredth anniversary of the landing of the first organized party of Norwegian settlers on this continent. President Coolidge, King Haakon of Norway and Lord Byng, Governor-General of Canada, have been invited to attend. Meetings of some forty Norwegian organizations, divine service by the Bishop of Oslo (formerly Christiania), field sports, musical contests and historic pageants will make up the program.

All members who are willing to enter in one or all of the tournaments namely, ladies, mens, and mixed doubles, will kindly be present at the court on Friday evening at seven o'clock. If not able to be present, please advise either the secretary or the president of your willingness. Aug. 11. J. D. Scott, Pres.

Streetsville High School

Annual Examinations 1925

Middle School

Following are the results of the Middle School examination at the Streetsville High School. The figure after a subject denotes grade of proficiency. The letter 'C' denotes a credit.

School Medallists

The following pupils, having passed the required number of subjects at this or previous examinations are entitled to the school medals.

Hazel Bentley, composition, c, literature, c, Brit. history 3, ancient history 3, algebra 2, geometry 3, physics 3, chemistry 1.

Irene Bonham, ancient history c, geometry 1, physics c, Latin authors 3, Fr. authors 3.

Lorne Bonham, ancient history c, geometry 1, physics 2, Latin composition 2, Fr. comp. c.

Helen Graydon, composition 3, literature 1, Br. history 2, ancient history 3, algebra 1, geometry 1, physics 4, chemistry 1.

Irvine McCaugherty, Br. History 3, ancient history c, geometry 3, physics c, Latin authors 2, French authors 3.

Frederick McCherry, Br. history c, ancient hist. c, algebra 2, geometry c, physics 1, Latin authors c, Margaret Pickett, Brit. history c, ancient history c, geometry 1, physics 2.

Samuel Ross, Ancient history, c, geometry 1, physics c, Latin Comp. c, French comp c.

Lila Wagner, Ancient history c, geometry 1, physics 2, Latin authors c, French authors c.

General List

The following have completed the subjects as indicated:

Marie Blackall, comp c, geometry 2, chemistry c.

Olive Bonham, literature c, Br. hist. 2, algebra c.

Bruce Bunt, literature c, algebra c, chemistry 3.

Edward Cook, comp 2, literature 1, Br. hist. c, algebra 1, chemistry 1, Fr. authors c.

Edna Crozier, geometry 2, physics c.

Isabel Featherston, comp c, literature c, Br. history 3.

Dorothy Graydon, comp c, lit. c, Blanche Hisey, comp c, lit. 1, Br. history c, algebra 1, chemistry 1, Latin authors 2, French authors 2.

James Hisey, comp c, literature c, Br. hist. 3, algebra 2, chemistry 2.

George Longwell, Fr. Comp. c, Edna McGill, lit. 2, Br. history c, algebra 1, geometry c, physics 3, chemistry 3.

Alice Maxwell, Br. hist. c, algebra 2, chemistry 2.

Allison Pinkney, lit c, Br. hist. c, chemistry c.

Beatrice Quannell, Br. hist. c, geometry 2, physics 2.

Violet Root, lit. c, Br. hist. c, algebra c, chemistry c.

Gertrude Ross, comp c, lit. 3.

Dorothy Rundle, lit. c, algebra c, chemistry c.

James Rundle, comp c, Br. hist. c, chemistry c.

Florence Scablon, comp. c, lit. 1, Br. hist. c, algebra 1, chemistry 1, French authors 2.

Evelyn Statia, algebra 1, chem. 2, Lenore Tolman, algebra c, chem c, Enid Turney, comp c, geometry 1, physics 2.

Norman Turney, Latin comp. c, French authors c, French comp. c.

V. G. Hector has sold Mr. W. Ritchie's bungalow with two acres, on Dundas Highway, Dixie, to Mr. Laughton of Rannymede Road, Toronto.

Editor & Proprietor

Thursday, Aug. 13, 1925

Business Locals and notices of meetings or entertainments—10 cts per line each insertion. Minimum charge 50c.

The Review office will be closed for business every Saturday afternoon.

The Ladies Aid of St. Andrew's Presbyterian Church will hold a lawn social at Mr. S. H. Fosters on Friday evening Aug. 14th. See big ad. for program.

Mr. Wm. Kemp and Miss Marie are attending the Old Boys Reunion at Kingston and taking a trip to the Thousand Islands.

Miss Evelyn Clare Fortner, nurse in the Toronto General Hospital, is spending her vacation with her parents, Rev. and Mrs. Fortner.

Miss Weese of Belleville is visiting with Mrs. Longwell.

Miss Marjorie Graydon of Toronto is visiting friends here.

Miss Helen Graydon is visiting with her sister in Palmerston.

Miss Hattie Graydon is holidaying with friends at the Elgin House, Muskoka.

Misses Mildred McCaugherty and Isabel Featherston visited in Buffalo over the week end with Miss Jean McCaugherty.

Mrs. John Reid (nee Stella Hiltz) and daughter, Miss Ruth, of Hamilton, are visiting with Mr. and Mrs. Harry Wolfe and friends here.

Mrs. Margaret Gray and daughter Miss Susan, of Buffalo, N. Y., visited at the Editor's this week. Mrs. Church and Miss Beatrice, returning home with them for a few days.

The Rev. S. J. T. Fortner was called to officiate at the funeral of the son of one of the officials of the church of his former charge, at Minesing, also to attend the funeral of a member of the same church. Both interments took place last Thursday.

The boy scouts left on Friday for their homes at Mimico, marching to Stop 42, Guelph Radial, where they entrained.

A jitney service will be run from the village to the garden party at Mr. A. Jamieson's, Wednesday evening, August 19th.

Percy B. White, aged 21, a former bank clerk, was arrested in Toronto, within five minutes after he robbed a Bank of \$1000. He is a native of Orangeville.

The Rev. W. A. Fortner, pastor of the 9th Street M. E. Church, Oleo, N. Y., preached in the Union Church, Sunday morning. Mr. Fortner is a brother of Rev. S. J. T. Fortner.

Mr. G. V. Plankenhorn of Erin-dale, has opened a tailor shop in the Queen's Hotel Block.

A gent's furnishings shop will open shortly in the store next to Reese's Restaurant.

Mr. Fred Noble is progressing nicely with his new house on Thomas Street. The roof is on and the walls boarded in.

Mrs. Hicks and daughter, Miss Mabel, are visiting friends at Weston. Miss Ethel McKenzie and Mrs. King of Toronto have returned home after a pleasant visit with Miss Louise Montgomery.

Quite a number of Streetsville men contemplate going to the west on the harvesters excursion next week.

Mrs. Wilmer Hamilton underwent an operation at a Toronto hospital last week. The operation was successful and she is improving nicely.

Miss Grace Turney is visiting her sister, Mrs. Olden, in Toronto.

V. G. Hector has sold Mr. P. J. Laupphier's stucco bungalow situated on Dundas Highway, Cooksville, to Mr. Robert Stewart of Soelgrove.

Mrs. Thomas, Mr. and Mrs. Floyd Albertson and daughter of Toronto are holidaying in town.

Miss Mary Chester is holidaying at Lake Scugog.

Mr. William Arch is building a new six room house on the corner near the subway, the site of the Gibbons house, which was destroyed by fire last year.

Love Gives Itself

THE STORY OF A BLOOD FEUD

BY ANNIE S. SWAN.

"Love gives itself and is not bought"—Longfellow.

CHAPTER XXV.—(Cont'd.)

Judy looked through the window, with a far-away expression in her eyes.

"I am not so much surprised at that, after what you have told me. Of course, it was all very different from anything he had ever known. Surely it was a frightful mistake for him to come to America!"

"It's a mistake for most of them to come," assented Jean quietly. "Your brother isn't the type that makes good here. He's too fine. What he suffered—but there! I don't want to go on like that, and he never spoke of it, anyway."

"But what are we to do?" asked Judy, wringing her hands a little.

"Can't we find or go after him?"

"Who are 'we'?" asked Jean on the spur of the moment.

"Miss Carlyon—that is, Miss Tenderden and I," said Judy quickly. "I don't know how I am to tell her! Is there no way of finding out the Alberta address; and how far is it out there? Could I go and come in a day or two?"

Jean Dempster smiled and shook her head.

"I'm not sure of the exact distance, but it's nearer two thousand than one thousand miles from New York, Miss Rankine."

"Two thousand miles!" echoed Judy, in incredulous amazement. "Why, that is as far as we have come!"

"Further. But this is the land of immense distances. You can't go there after him, Miss Rankine, unless you have both time and money. But I could get the address for you, I think, though he did not give it to me. I know the name of the man who has sent him out. I could find out his address for you, if you would like to go and see him yourself; but, on the whole, I wouldn't advise you to."

She added this as an afterthought, reflecting that perhaps the millionaire, Fordyce—if all the stories about him were true—would not be likely to spare her feelings.

"I'd rather not go and see him. How did my brother get to know him?"

"He was in the employment of his firm, and had a row with the manager about some abuses he found there. He hadn't learned to shut his eyes to abuses. I don't think he ever would learn that—would he? The man's name is Fordyce. He has a factory on the East Side. I can easily get at him on the phone, or by letter, or interview, if you would like his address."

"Of course I should like his address. I must get it! We must cable to him or something."

"Very well, Miss Rankine. I'll find it all out for you some time to-day. And where can I send it?"

"We are at the Holland House."

Jean scribbled it down on the edge of her table, and at the moment the bell-boy brought an urgent message.

"I am sorry, but I have to attend to my business, Miss Rankine," she said as she rose. "I wish I had had something brighter to tell you about your brother."

Judy's face was now very sad, and her eyes rather hopeless.

"We have both been uncomfortable in our minds about him for a long time; and, as you have been so very kind to Alan, I ought to tell you that Miss Tenderden is his promised wife."

Jean Dempster stood still in the middle of the floor, as if petrified with astonishment.

"That lovely, lovely lady who doesn't look as if she was an ordinary human being at all! Oh, Miss Rankine, isn't it a frightful tragedy?"

"You have used the right word. And God knows what the end will be! Then will you try and get that address for me? I shall have to go home now and tell Carlotta."

"You don't think me rude if I ask a question, Miss Rankine? What brought him to this? Of course, anybody with half an eye could see that he was not an ordinary man at all—that he was a gentleman through and through—what we call a born gentleman—as well as one by upbringing and training."

"Misfortunes. I can't go into it all. It's a long, sad, bitter story. I hope we shall meet again—we must! Carlotta will wish to see you, Miss Dempster. I don't know how to thank you. I don't think I can even try! But I'm thankful—oh, so thankful—he had a friend like you here."

"I did my best," said Jean simply. "And oh, I've seen such a lot of mother's sons stranded here! It's cruel, I think! I wish something could be done to prevent it!"

"How did you come here? I suppose your family are with you?"

Jean shook her head.

"No. I left Scotland to get away from my old self. I've had my share of tragedy. I'm fed up with it! I've seen little else, I whines think."

"It has given you the understanding heart," said Judy; and moved by an uncontrollable impulse, she leaned forward and touched Jean Dempster's cheek with her lips.

CHAPTER XXVI.

HIS WIFE.

Several times that afternoon Jean Dempster phoned to the East Side factory asking for Mr. Fordyce. Various officials and subordinates inquired her business, but to each and all Miss Dempster replied that she must talk with Mr. Fordyce himself. Finally she had to leave her office without meeting with success, but left her name and number to be passed on to him the moment he was available. Upon reflection she added that the business was urgent, and that Mr. Fordyce would probably think so when he heard it.

She went home to Mrs. Isaacstein's feeling oddly detached from all her fellow-inmates and from the whole ordinary current of her life.

Judy Rankine had not told her much, but Jean had her intuitive faculty largely developed, and had small difficulty in piecing the story together. It was, however, though true in some essentials, considerably wide of the mark.

Such a restlessness was upon her that immediately after dinner she left the house again and went in the direction of the Manhattan Theatre, hoping to be fortunate enough to secure at the eleventh hour some obscure seat in the house, from which she could watch Miss Tenderden. It was not as a great actress that she was interested in her, but merely as the woman who mattered in Alan Rankine's life.

She was fortunate in finding a corner at the eleventh hour, and she had just settled herself comfortably when she saw Harry Fordyce, the man she had been trying all afternoon to get into communication with, enter the stalls. He was quite alone, and for the few moments before the curtain went up she had an excellent opportunity of studying his face.

He had no looks, but only a certain rugged power; and, in spite of all the stories which had been circulated about him, she could find nothing evil or repellent in his face. He looked grave, and even bored, and, though several around him would have been pleased with his notice, he studied his program intently, and spoke to none.

After the curtain went up Jean, under the spell of what most of the critics were agreed was one of the finest bits of acting New York had ever seen, forgot all about him. It was not until after the close of the second act that she noticed that Fordyce's stall was empty, and that, quite evidently, he had left the house. Perhaps she was not surprised; for it was a poignant story, and some of Carlotta's winged words might have pierced the joints of his armor.

Jean studied the play even more intently the second night than the first, and she watched Carlotta with a tender and painful interest which, of course, had its being in her own interest in Alan Rankine. Jean had not known how deep that interest had been until now, when he had drifted out of her life. It was not a love interest in the ordinary sense. She believed that she would never feel that kind of interest in a man a second time. But she had honestly liked him, and mothered him, as she had mothered many

another foreign unit in that great and difficult city. And she wanted desperately to know the whole story and to follow it to its end.

Her eyes ranged round the crowded tiers of the audience without finding Judy, who was not in the house, but had stopped at home to write exhaustively to Claud, who had returned to Cambridge, to tell him how they had just missed Alan. July now blamed herself bitterly for allowing these fateful hours to be swallowed up carelessly; even Carlotta's calm pronouncement that that too had been written in the book of destiny failed to satisfy or comfort her.

Jean Dempster did not sleep soundly that night, her pillow was dream-haunted, and she awoke unrefreshed. About an hour after she had begun her business day someone rang her up sharply on the phone.

"You, Miss Dempster?"

"Yes," answered Jean shortly.

"Fordyce speaking. You rang me up at the factory yesterday. I believe, several times. What did you want?"

"Only an address, Mr. Fordyce," answered Jean in her pleasant Scotch voice, "an address to which Mr. Alan Rankine has gone out West."

"Oh," came somewhat doubtfully over the telephone, and the listener quite evidently hesitated. He had had a good many affairs in his life requiring extreme caution and reserve regarding all his movements, and it was as natural for him to hesitate over this as to breathe. Quite possibly a woman was at the bottom of Rankine's plight, and he might be glad to get away from her.

"Say—you're Scotch, aren't you?"

"Yes, same as you," answered Jean on the spur of the moment. "That's my excuse for venturing."

"Well, where are you speaking from now?"

"My office—in the Dormer House, on Broadway."

"Oh! business woman?"

"Stenographer's office."

"Right. I'll come round inside an hour or an hour and a half, on my way back to lunch. Can't give you that address off-hand—well—for various reasons."

"Thank you, Mr. Fordyce. I'll be here."

Now that was destined to be a momentous morning in Jean Dempster's life, and, all unconscious of it, she pursued her usual avocations in her quiet, methodical manner.

Her desk was cleared and her office spick and span when her caller was announced.

He looked at her keenly when he entered, and they exchanged brief salutations.

"You know the chap?" began Fordyce, sitting down on the edge of the chair Judy had occupied yesterday.

Jean inclined her head, aware of the fact that Fordyce was studying her intently and was pleased with what he saw.

He was a man of about forty or thereabouts, with a somewhat heavy figure and a square, good head, with immense determination in his clean-shaven jaw. But his gray eyes were not so hard as they might have been. They were quite soft and kindly as they rested on Jean Dempster's pleasant face.

"Do you know the chap?" he repeated, and watched her face to see the effect of the question.

"I know him quite well. He boarded at the house where I live when he came to New York first, last May."

"Only then! He must have descended rapidly! Eh? What was it?"

Jean did not immediately reply.

"I don't want that address for myself, Mr. Fordyce," she said presently, and with some irrelevance. "I'd like you to understand that. If Mr. Rankine had wished me to know his whereabouts he would have told me, only he left me rather hurriedly that last night. I suppose he did take that train."

"Why yes, I guess so. He had all his tickets, anyhow, and I said goodbye to him at Sherry's at half-past two in the afternoon."

"At Sherry's?" inquired Jean with uplifted brows.

"Yes—he had as much right there as the most of 'em," he answered with a slight, dry smile. "In spite of the fact that he hadn't a stiver to pay with. Who wants the address then, if you don't?"

"His sister and someone else."

"His sister! But I understood from him that he had no people here. In his circumstances a man doesn't want his people about. Did she cable, or what?"

"No. She is here in the city, stopping at the Holland House."

"On his track?"

"Partly. Yes—I think that is why they came."

"Who are they? Not his mother! I hoped she was dead. Mothers complicate life for a chap when he's down on his luck."

Something indefinable flickered across the hard face at the moment, and Jean's eye did not fail to perceive it. She was beginning to be deeply interested in Harry Fordyce.

"No, not his mother. I don't think I'm betraying any particular confidence in telling you—especially after you've been so kind to him. I saw you at the Manhattan Theatre last night, Mr. Fordyce. Well, let me tell you, Mr. Rankine is engaged to Margaret Tenderden."

Fordyce whistled in sheer amazement.

"Well, I never! Engaged! She's a fine woman—but then, he's a fine man. What was the racket, do you know? What brought him down to the hobo stage? Couldn't get a word out of him?"

"And he didn't tell me much," said Jean reflectively.

"I could bet my bottom dollar it wasn't drink," observed Fordyce.

"No, it certainly wasn't drink. Sheer misfortune—family misfortune first, and followed by personal misfortune and ill-luck. He is the head of one of the oldest families in Ayrshire, his sister told me that much; and there ought to be estates, but I don't know what has become of them."

"One more chapter added to the history of this inferno!" observed Fordyce with a sort of light bitterness. "Well, I must say I liked the chap, and I'm eternally obliged to him

besides for something he did for me down east. Did he tell you?"

"Yes," admitted Jean after a moment, "he did."

(To be continued.)

To-Morrow.

To-day may be dark and forbidding; our hearts may be full of despair; But To-morrow the hope that was waiting will prompt us to do and to dare.

To-day was may feel that life's sorrows outweigh all the joy that we crave; But To-morrow will teach us the lesson that life is worth while to the brave.

Pain is forerunner of sadness—despondency robs us of health; The man who is chock full of gladness is the man who makes most of life's wealth.

To-day may be all that is mournful—our paths cannot always be bright; But To-morrow we'll somehow take courage, and trustingly enter the fight.

To-morrow the sun will be brighter; To-morrow the skies will be fair; To-morrow our hearts will be lighter; we'll cast aside sorrow and care. Remember when heartsick and weary: the sunshine comes after the rain;

To-morrow is time to be cheery; To-morrow we take hope again!

Japanese Proverbs.

The character and the ideals of any nation are always pitifully expressed in the popular proverbs that have become part of the everyday speech of the people. Here is some of an interesting proverbial philosophy of the Japanese:

One Japanese characteristic, perseverance, is expressed in the saying: "Fall seven times, stand up the eighth time." Another proverb in the same vein declares: "A road of a thousand miles begins with one step."

The Japanese equivalent of "casting pearls before swine" is "giving gold coins to a cat," and instead of "a wolf in sheep's clothing" they speak of "a wolf dressed in a priest's robes."

When a Japanese wishes to explain that a thing is quite impossible he tells you that one might as well "learn to swim in a field" or "lap up the ocean with a shell."

"A small-minded man looks at the sky through a reed" and "The heart is the same at three as at sixty" are other Japanese gems. Pictureque too are "At the foot of the lighthouse it is dark" and "When the hen crows the house goes to ruin." The latter saying indicates the Japanese view of femininity. Equally pithy is: "There is no medicine for love-sickness or for a fool."

Gambling With Ice-Cream.

In nearly all the small towns in Spain the buying of ice-cream from a street vender is made the opportunity for a gamble.

On the top of the zinc pail that holds the cream is a small wooden plate above which is poised a revolving stick. Round the edges of the plate, which is gaily colored, graded numbers from ten to one hundred are painted. The intending purchaser pays the vender a penny, which entitles him to one twist of the stick. If the pointer indicates a number higher than that made by the stall-holder, the winner is entitled to an ice-cream free of charge and another twist of the stick.

With luck, and provided the game is played fairly, one can have a succession of losses for the original penny. If the stall-holder wins in the first instance the penny is lost and the customer receives nothing. These barrows are a source of interest to students who spend most of their spare cash in attempts to defeat the ice-cream man.

The vendors also sell a very popular drink. For a penny one can obtain a glass full of a white liquid resembling milk. It is made from water, sugar, crushed almonds, and orange juice. When served it is icy cold and makes an excellent "cooler."

Minard's Liniment for Burns.

The Blank Book.

"I've just returned from one of those mind readers, Miss Sharp. She can't read a thing, you know."

"Not from a blank book, Mr. Sapp."

Mamma Surprised Again.

Marjory—"Mamma, were you at home when I was born?"

Mother—"No, darling. I was at grandma's in the country."

Marjory—"Wasn't you awful surprised when you heard about it?"

Peculiar Performer.

"My clothes used to be yellow - now they are snowy white"

"I always had trouble with my clothes—they used to come out so yellow. Then a friend told me about Rinso. I found it makes a wonderful soap solution. This removed every bit of dirt and then it all rinsed out completely. There was nothing left to yellow the clothes—as there was no soap to stick—it was all dissolved."

"I am now delighted with my wash—my clothes are always snowy white."

—A letter received by the makers of Rinso.

Just shake some Rinso into a saucepan, add hot water, and you'll get the wonderful soapy solution that is the only soap you need for your tubs, your boiler, your washing machine. Rinso soaks dirt out.

Lever Brothers Limited, Toronto.

BABY'S FIRST SHORT DRESS.

As baby grows older short dresses will be required, and the little garments pictured here will give comfort and make baby charming. It doubles the life of a garment when you make it yourself, and gives the chance of expressing individuality. A little round yoke was used to make this simple dress fit smoothly at the neck, and is trimmed with a spray of embroidery. The neck and sleeves are finished with narrow valenciennes lace. The girly petticoat buttons on the shoulders, and is also trimmed with lace. The little straight skirt is cut in at the sides and gathered to the upper part, making a smooth-fitting garment. The long kimono is perforated for shorter length, and is lovely trimmed with ribbon and fancy stitching. The plainest of night-robes has long sleeves, and no frills to keep baby awake. The dress requires 1 1/4 yards of 36-inch material, night-robe 1 1/4 yards, straight petticoat 1 1/4 yards, girly petticoat 1 1/4 yards, long kimono 1 1/4 yards, short kimono 3/4 yard. One size. Price 20c. Our Fashion Book, illustrating the

newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

HOW TO ORDER PATTERNS.

Write your name and address plainly, giving number and size of such patterns as you want. Enclose 20c in stamps or coin (coin preferred; wrap it carefully) for each number, and address your order to Pattern Dept., Wilson Publishing Co., 73 West Adelaide St., Toronto. Patterns sent by return mail.

Minard's Liniment for Dandruff.

We're All Gasometers!

The chief ingredients of your body are five gases—oxygen, hydrogen, nitrogen, chlorine, and flourine, and there is enough gas in a man to fill a gasometer of 3,649 cubic feet. The most important element is oxygen, and the bulk of that gas compressed within us, if set free, would be equal to a beam of wood one foot square and 1,191 feet (nearly a quarter of a mile) long.

Every man's body contains 2,400 feet of hydrogen, sufficient to inflate a balloon that would lift himself, balloon, and a tackle.

The nitrogen in the human body is about half an ounce to each pound of body weight, and about twenty times the bulk of the body. There is sufficient carbon in the human body to make 65 grains of lead pencils.

Greenland is the largest island in the world.

The Right Way to Boil Potatoes

Put the potatoes in an SMP Enamelled Potato Pot. Cover with water. Add salt to taste. Boil until soft. When finished, drain off all the boiling water through the strainer spout. No danger of steam scalding the hands because the handle securely locks the cover on. If your family uses potatoes, you require one of these.

THE QUESTION OF FLOORS

BY JULIA W. WOLFE.

The time is almost here when a carpet securely fastened around the edges of a room will be a rarity. If you have floors which are stained and soiled with paint the first thing to be done is to apply caustic potash to the paint stains, and leave it on until they are dissolved.

It may take a couple of days to do this if the paint is hard, and afterwards the floor should be well scoured and dried.

If the boards do not fit perfectly, have the spaces filled with putty or with a mixture which has often been recommended, old newspapers soaked in a paste made of water and flour. The proportions of this are one pound of flour, three quarts of water, and one tablespoonful of powdered alum. The newspapers must be torn to bits, and the whole thoroughly boiled, and mixed until of the consistency of putty. It may be colored with a little of the staining mixture, and should be forced into the cracks with a knife, when it will soon become hard and dry like papier mache.

The labor of staining a floor is not very great, and, as no particular skill is required, the boys of the family might be allowed to use their superfluous energy in this way. By sitting on a low stool and painting one board at a time, lengthwise on the board, and using a large brush, a good-sized room may soon be covered. Allow it to dry well before putting on the second coat, and this in turn before

shellacking, and let twenty-four hours elapse before using the room after the final coat.

Perhaps it would be best for the novice to buy the stain already mixed, but a little experimenting will give excellent results, and the expense will, of course, be less. If a soft yellow color of pine is desired, use raw slenna, diluted very thin with turpentine. This does not show dust or footmarks like the darker stains, and is very desirable in rooms which are much used.

Raw umber greatly diluted is a good color for a living-room, and thin Vandyke brown on Georgia pine is very pleasing. For a fancy border you may use a contrasting shade.

A good way is to experiment with the different stains on bits of wood of the same quality as the floor until the desired tint is obtained.

The chief objection to a stained floor proceeds, undoubtedly from the fact that the dust remains on the surface, instead of being absorbed as it is in a carpeted room. To get rid of this it is only necessary to tie a piece of soft flannel around a broom and go over the boards every day or two. This is really but the work of a few minutes, and the frequent polishing gives a fine gloss not to be gained in any other way.

Water should never be used on a stained or parquet floor, as it has the effect of making it dull at once, besides being quite unnecessary where the flannel cloth is used as suggested.

Apple Storage Troubles.

As we store most of our commercial apple crop in our own underground cellars and sell them to grocers in competition with cold-storage apples, we have had more or less difficulty in putting a juicy, snappy apple on the market in its proper season.

Various causes contribute to this difficulty, one being insufficient moisture in our cellars, especially during the first thirty to fifty days of storage. We have helped this somewhat by ventilating during spells of weather when the air was very humid, and also by sprinkling the alleyways and even the containers.

Picking before complete ripeness also contributes to keeping quality.

In our efforts to delay evaporation of the fruits, as it amounts to just that, we have used tight standard barrels, paper-lined crates and boxes and various other containers with varying results.

Those containers which were nearest air-tight gave us poorest results, for in these invariably developed scald with accompanying poor keeping qualities.

We have learned by government experiments as well as our own that in ordinary dry storage, as we usually term it, apples must go through a sweat period for four to six weeks after picking and must have opportunity to evaporate some of the moisture which appears poison to their long-keeping ability, after which they may be kept in more or less air-tight containers.

Practically all apples, except russet-skinned ones, contain a moisture-proofing all their own on the outside of their skin. At certain periods on certain varieties this gets very oily. Scraping the peeling of an apple with a knife blade will show this paraffin-appearing substance that retards evaporation and holds in the flavor.

But for all this and all these precautions, we still have a certain percentage of tough, rubbery apples. So we set about to determine the cause of the evaporation, for such it is. We have found that any disease which interferes with this coating process gives us more or less tough wrinkly apples, though good specimens otherwise.

We have found that apple scab gives wrinkled apples in proportion to the scab-infected area. We have found blotch causes tough apples in proportion to the number of blotch cracks on the skin of those apples. We have found another injury not so nearly under our control which also causes tough wrinkled apples, and this is spring-frost injury during blossoming time or soon afterward.

This causes russetting of the apple in about the proportion to the frosting; it also makes misshapen apples, and we find that evaporation is un-

usually rapid through these russeted areas.

We have a suspicion, in fact we are quite sure, that this evaporation also takes place on apples that are russeted by incorrect spraying. Therefore, to avoid these wrinkly apples, which mean loss, we have to use good care from the start of the crop until its normal keeping season is past—a much greater period than we ever thought was necessary heretofore.

A Party for August.

The hot, listless days of August, sometimes spoken of as "dog days," made us wish for something interesting but not strenuous to do. So we were glad when one hostess chose this time for a most delightful nonsense party. It was a "dog party," and never did we laugh so hard in all our lives.

The name of the dog or the breed we were supposed to represent was written across our invitations. In the left hand corner was a picture of a dog's head cut from a magazine, and underneath this verse:

Every dog has his day,
Whether we stay or run away.
Come to my kennel on Saturday at eight.

A thrilling dog story here to relate.

The story-tellers were introduced as Mr. Newfoundland, Miss Spitz or Miss Chow, each impersonating by some characteristic antic the dog given him or her and telling the story in the first person. Prizes had been announced for the most thrilling story, the funniest, and the longest. The prizes were dog collars.

Those for the boys were made of crepe paper with a large bow and the girls' were clover chains with other blossoms woven in. The prize for the longest story went to the boy who would not finish but kept repeating, "And I went to the next house in search of a bone, then on to the next house in search of a bone."

Next came the "Laplander's" contest. Ice cream cones were passed and collars promised those who first reduced the cream to the level of the cone's rim, lapping it with the tongue and not using the teeth. A collar was also given to the one who made the most noise in this contest—won, needless to say, by a young man.

Those who had not yet won collars were paired against one another in deep growling, loud barking and graceful dog-trotting having. "Dog biscuits, Scraps and Mud-puddle liquid." Under these names masqueraded beaten biscuit, fruit salad and coffee.

Talk is Too Cheap.

TEACHING BY THE ASSOCIATION OF IDEAS

BY GEORGE F. LUMB.

At the time when my son was about three years old, I happened to read a book on Psychology which gave me a new interest in my boy's development. In the evening I would take him on my knee and tell him a story purposely designed to impart to his child mind some facts that would interest and at the same time instruct him.

For example I would start off like this:

"Once upon a time there was a kind farmer. He had two little boys, Jack and Tommie. One day the farmer took his little boys out to the apple tree that grew near the barn and he said, 'Now you have both been good boys and I am going to give you the apples that are on this tree.' There were five apples on the tree and the farmer picked them all. He gave three apples to Jackie and he gave—let me see, three and two are five—he gave the other two apples to Tommie."

After a few weeks of telling often the same story, I would be more deliberate in making my calculation, and the response would come from my little boy.

I remember the thrill I felt one evening when I was telling him about a farmer who had three mules and four horses—we had used the same combination in a squirrel story. This farmer wanted to build a new stable. I said, "Now let me see, how many

stalls did he need to have for three mules and four horses?" and in a moment a little voice piped up, "Seven, Daddy." He had applied his knowledge!

So I proceeded from one story to another. I told him about the oceans, about the millions of yellow people who live in China, about Wellington, Queen Elizabeth and Franklin and it was a delight and satisfaction to see the hungry little mind drink in the facts of life and of nature. Unconsciously he learned Arithmetic, History and Geography.

He is fourteen now, a senior in High School, has just been elected Class Historian and for two years past has not brought home a mark below 80.

I wish I could tell every young parent of the joy and satisfaction that come from this practice of which I have spoken. The daily confidential intercourse establishes a bond between parent and child which is invaluable, and the mind of the child is greatly enriched, making the school lessons easier to grasp because of the breadth of vision acquired.

One of my son's teachers told me the other day that she had never seen a pupil who could absorb knowledge so easily. I feel quite sure his progress has been due to our stories and talks rather than to any special native ability.

EVOLUTION OF A FROG

BY M. B. WALDRON.

"A froggie would a-woooing go,
Whether his mother would let him or no;

So off he sat, in his opera hat;
On the road he met with a rat!"

Gaily sang Daisy, sitting on a rug on the porch, arranging the drapery of her doll's overskirt.

A voice coming through the curtains of the long window at her back interrupted her.

"What do you know about frogs, Daisy?"

"What do I know about frogs, Nell? Oh, ever so many things! I know a frog begins with a pollywog and grows into a tadpole, and by and by his tail drops off, and he's a frog."

And sometimes frogs and toads get into the middle of great rocks and trees and live hundreds of years without anything to eat or drink."

And Daisy returned to her doll-dressing with an air of wisdom.

"Come with me, Daisy, and I'll show you something."

Daisy laid her doll carefully upon a cushion, and followed her sister.

Presently Nell stopped beside a bench in the back yard, and said:

"What do you see, Daisy?"

"I see an old pail with some water, and grass and weeds in it."

"Do you see nothing else?"

"Nothing except some acum floating around on the top of the water."

"Well, look closely at the acum, as you call it. That is a gluey substance, and the black specks you see in it are frogs' eggs. I was out with Jack this morning, looking for beetles, and we brought this home. If you will watch those eggs every day, you will learn how frogs grow. Each female deposits about 1,200 eggs in the water; then the sun shines on them and keeps them warm."

"Don't the mother frog have any more bother about them, Nell?"

"No. You will see that each one of these eggs will turn into a tiny lump of jelly, and it will cling to the grass by means of a small sucker; then it will develop a tail, and it will breathe by means of a wonderful apparatus called gills, so that really a baby frog is a fish."

"Oh, I know what a fish's gills are! They are made to draw oxygen from the water, so the fish can breathe. Dad said; but I don't know what oxygen is," interrupted Daisy.

Nell continued her lesson, well pleased that Daisy was interested.

"After awhile you will discover a pair of hind legs forming, then a pair of front ones. The creature will soon cease to be a tadpole. You won't see the long tail drop off, but will observe it grow less and less as it is absorbed into the animal's system. The mouth will grow wider, until it reaches the size you see in a fully developed frog."

"But, as you know, gills are an apparatus for obtaining oxygen from water, and as our frog intends to spend the greater part of his time

upon land, he will need a pair of lungs. Accordingly, lungs are gradually formed, and then our froggie can 'a-woooing go,' if he chooses."

"How queer! I didn't know there were so many funny things about a frog," observed Daisy.

"Yes, a frog is a wonderful little fellow, and I like to study him. Come, and I will show you a splendid green croaker we captured this morning. I put him in this glass jar and supplied him with food, so I could watch him. I will let him out by and by."

"Oh, Nell, he is choking! See how he opens his mouth and gasps!"

"He is only swallowing air. See how firmly he shuts his mouth now. That is to keep the air from escaping and force it into his lungs. He has no ribs, as we have, to keep his lungs distended, and so has to work very hard in keeping them filled with air. Should anything hold his mouth open very long, he would suffocate."

"A frog absorbs some air through his skin, however, and he had the faculty of imbibing a quantity of water through his skin, equal in amount to his whole weight. Sometimes, if suddenly frightened, he will eject a large quantity of water from his body. It is clear and pure, though people used to think it poisonous."

"I saw him catch an ant then, Nell. He darted out his tongue quick as a flash!"

"Yes; his tongue is a wonderful instrument. He sits perfectly quiet, and the poor ants never suspect anything until they are struggling on the tip of his tongue. When he is through his meal, his tongue is doubled over so the tip is at the back."

"You would never guess, Daisy, that a frog has teeth, but he has eighty of them; but no one knows what they are for, as the frog does not chew his food, and the teeth are in an undeveloped state."

"You are mistaken Daisy, in thinking that frogs and toads can live for a long period without food or air. It has been proven by very thorough experiments, that when all supplies were cut off they would die."

"Toads and frogs also, have been found in very curious places, but there must have been some small way for air and moisture, and tiny insects to reach them, or they could not possibly have existed for the length of time they are said to have done."

"Under favorable circumstances, frogs have been known to reach the comfortable age of 50 years, which I think is quite long enough for a frog to live. I must tell you what a funny thing used to be done in some parts of Great Britain."

"The people in those places had great faith in the healing properties of the frog, and when a baby had a sore mouth, its mother would procure a live frog, and holding it by its hind legs, thrust it, struggling and squirming, into the baby's mouth."

Then come the cup cakes, each wrapped in oil paper, and above these the sandwiches—two meat or nut sandwiches, two with salad or lettuce filling and two sweet sandwiches. These are also wrapped separately. Sometimes olives or pickles are added. And, of course, the round metal or paper drinking cups and paper napkins finish off the top.

Boiling a couple of eggs at breakfast-time and saving a bit of meat and salad from the Saturday dinner has become a habit, the girls declare.

Things are taken from the bag as used. Nothing is spread out to attract flies and the bags as well as the refuse are burned.

Very often they take balls, horse-shoes and other means of staging games and contests. Supper partners are chosen by lot. Once the matron secretly numbered the girls, including herself among them, and tossed a ball into the air. The man who caught the ball the first time had supper with the girl who was number one, and so on.

At another time partners were chosen by matching strings of different lengths. Some were short, some long, and the rest in between, but two lengths in each case matched.

Try the picnic bag for small or large groups, for the club picnic or the Sunday school class party.—M. J. T.

The Picnic Bag.

I know a party of young people who have a picnic supper every Saturday night throughout the summer.

"What a lot of trouble that must be!" you think. Not at all, for these young folks have discovered the advantages the picnic bag has over the old pie, cake and salad affairs and even over the expensive hampers with their limited capacity and the work of cleaning them afterward.

This picnic group is composed of four girls, four boys, a young matron and her husband. Two cars carry them to the lake for a row or a swim, to the park or deep into the woods.

Each girl provides a picnic bag containing the food for herself and partner, after the fashion of the box suppers of olden times. The heaviest paper bags are used, the tops are turned in a couple of inches and small rope handles are put through this fold. Sometimes the bags are decorated with pictures cut from magazines.

But usually these young folks make the work of preparation just as easy as they can. Therefore only the plainest of paper bags are usually selected. In the bottom of each bag is usually placed fruit for two, then hard-boiled eggs, since the men seem to prefer these to deviled eggs and they are

easier to prepare. Then come the cup cakes, each wrapped in oil paper, and above these the sandwiches—two meat or nut sandwiches, two with salad or lettuce filling and two sweet sandwiches. These are also wrapped separately. Sometimes olives or pickles are added. And, of course, the round metal or paper drinking cups and paper napkins finish off the top.

Boiling a couple of eggs at breakfast-time and saving a bit of meat and salad from the Saturday dinner has become a habit, the girls declare.

Things are taken from the bag as used. Nothing is spread out to attract flies and the bags as well as the refuse are burned.

Very often they take balls, horse-shoes and other means of staging games and contests. Supper partners are chosen by lot. Protect Your Screen.

Generally during the fruit preserving and canning season we are troubled most with flies and at this time our screen door at the rear of the house (usually called the kitchen door) receives its hardest knocks. The busy housewife must pass in and out quite frequently and is nearly always carrying something through this door. At least it is that way at our home, so we have installed in the screen door a screen protector which also aids in opening the door when one is carrying a pan or pail or some other article. This little device is simply a piece of three-eighths inch board about three inches wide and fits upon the door frame at just the proper height where the arm naturally strikes the screen when pushing the door open.

Of course you understand that this device will not aid you when coming into the house. It only helps as you are passing out.—S. H.

The Grand waterfall in Labrador is 200 feet high.

Do you envy them? The open-air swimming pool at Jasper Park Lodge, Alberta, looks inviting on a warm day.

CLIPSE FASHIONS

Exclusive Patterns
by Hazel Rogers

ALL FROM ONE PATTERN.

The little one has a mode all her own, which is almost as varying as her little whims and fancies are changeable. Simplicity in design and cut, however, should always be the keynote of the mode of the juvenile. The illustration shows how three very attractive-looking frocks can be made from a single pattern, by using material of a different design. The first little frock, of all white, has tiny tucks at the neck, on both the back and the front, and is trimmed with narrow lace and ribbon bows. A plainer version, in printed material, has the tucks, but the neck and armholes are plainly bound. The wee one at the top wears dotted Swiss and orchid color ribbon outlining the neck and armholes. Sizes 1, 2, 4 and 6 years. Size 2 years requires 1 1/2 yds. of 27-inch or 32-inch material. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

HOW TO ORDER PATTERNS.

Write your name and address plainly, giving number and size of such patterns as you want. Enclose 20c in stamps or coin (coin preferred); wrap it carefully for each number, and address your order to Pattern Dept., Wilson Publishing Co., 73 West Adelaide St., Toronto. Patterns sent by return mail.

Some Summer Helps.

Plantain leaves washed clean, then bruised by clapping them between the hands and applied to an insect sting will immediately allay the burning and throbbing, and if repeated several times the inflammation will soon subside.

Mosquitoes seem to be fastidious about smells. They don't like the odor of hickory leaves and will keep away if you fasten some about you; this is worth knowing when you are picking berries or working in the garden. An entomologist recommends the following to keep mosquitoes from one while asleep: Oil of citronella, one ounce, spirits of camphor, one ounce, oil of cedar, one-half ounce. Mix and apply a few drops on the pillow or on a towel near the head of

Villian Kitchen Vassalage.

"Generous" thinking is indeed worth while, but illiberal consideration often confines us within four walls and constructs about us our own prison.

During these times of high-priced food, when every home cook is planning her meals on the closest margin possible for the greatest health of the family she serves, and continually searching in a cook's bag of tricks to make left-overs more appetizing, she may be led to give illiberal consideration to the working equipment in her kitchen. With the thought constantly in mind of cutting the food bill, she neglects to add to her kitchen equipment as it becomes worn out, or new devices are placed on the market. Of course, one can overstock their kitchen with labor-saving devices, and it requires the wisdom of an experienced cook to select those which will aid her in doing her work most efficiently.

Seldom is it a saving for the housewife to do with poor equipment in her workshop. More than half of her time is spent in the kitchen, but those hours are lengthened if she attempts to do efficient work with inefficient equipment. Immediately she places herself into bondage of villian kitchen vassalage. The more time she spends in the kitchen, the more time she will need to spend, and to no satisfying result.

Then, too, the home cook, on her daily bout of peeling potatoes, washing dishes, baking bread, and so on, is likely to live so much within her own kitchen that she cannot see opportunities to alter the arrangement of her own kitchen to save many weary steps.

To-morrow morning just try this little trick. When you step into your workshop to start the pot of breakfast coffee, survey it critically, just as though you were in your neighbor's kitchen. Try to see just how many flaws you can detect in the arrangement of its furnishing and work-out equipment. Then get busy and change them in order to free yourself from villian kitchen vassalage.

Marksmanship Supreme.

The new night watchman at the observatory was watching someone using the big telescope. Just then a star fell.

"Gosh!" scolded the watchman, "but that fellow's a crack shot."

CANADIAN PACIFIC

IT PAYS TO ADVERTISE

Here and There

All tourist and motorists records are being broken at Banff this year. There are three times as many campers as in any other year and 2,400 more bathers than in 1924. The Canadian Pacific hotel here and at Lake Louise reports bookings as being unusually heavy.

More Alberta provincial savings certificates were sold in the first six months of this year than in any full year previously, even including the big record year of 1920. Since the beginning of the current year up to the end of June, the total sales amounted to \$1,401,600. There is now close to \$7,000,000 outstanding in savings certificates.

Radio receiving licenses held in Canada at the end of last month numbered 56,063, according to statement issued by the Federal Government. Ontario leads all provinces with a total of 28,507. Quebec occupied second place with 7,882 licenses, followed by Saskatchewan with 6,551; Manitoba, 4,443; British Columbia, 3,392; Alberta, 3,004; Nova Scotia, 1,435; New Brunswick, 735; Prince Edward Island, 87; Yukon, 22; and Northwest Territories, 5.

A consignment of 21 fox hounds from the famous Mendip Hunt Pack, in Somerset, England, were brought to Canada early in August by the Dominion Express Company for the Toronto Hunt Club. The English papers published photographs of these splendid animals and expressed gratification that good British hounds were being used on the hunting fields of Ontario. This is the third such consignment brought out by the Dominion Express within recent weeks.

The delegates to the Empire Press Conference at Australin who came from Britain and passed through Canada recently spent several days in the Canadian Pacific Rockies and enjoyed themselves trail-riding and hiking among the beauty spots that surround Banff and Lake Louise. Lord Burnham and several other distinguished British journalists established new walking records in covering the distance between Wapita and Emerald Lake in two hours, while it took the trail riders on ponies two hours and a quarter to cover the same ground.

Representing education authorities and the public and secondary schools of Great Britain, about one hundred teachers from the United Kingdom arrived recently at Montreal on the "Empress of Scotland" and are now touring the country. Before their departure they received a congratulatory message from King George and on their arrival were tendered an official reception by representatives of the Quebec provincial government. Prominent educationists and were entertained to dinner at the Chateau Frontenac by E. W. Beatty.

In a recently published monograph on "The Transportation of Canadian Wheat to the Sea" Mr. L. M. Fair, M.A., makes the following comparison of Canadian and United States rates to show to what extent the resources of our railways are organized for the benefit of western producers:—

To Fort William From—	Miles	Rates per bu. wheat.	U. S. Rate
		cents	cents
Winnipeg	420	.08	.12
Portage la Prairie	475	.09	.13
Carberry	525	.09	.13
Broadview	684	.10	.18
Regina	770	.12	.21
Medicine Hat 1,070		.14	.27
Lethbridge	1,177	.15	.28
Calgary	1,243	.15	.31

Preparations are practically complete for the 1925 Calgary Exhibition and Stampede. It is anticipated that the stampede this year will be the biggest ever held. It has been extensively advertised in Canada and the United States, and a large number of inquiries have been received from interested parties, who anticipate being present. Entries have been received from the best known riders and riders on the continent, and the large number of valuable prizes offered for competition ensures that the spectator will see the best that can be offered in the way of bronco breaking, roping, wild steer riding, etc.

THE REVIEW

Streeterville

RECENT RAINS RENEW POSSIBILITY OF SCAB

In a recent interview with Professor L. Caesar of the Ontario Agricultural College, it was learned that there was a danger if we continue to receive much more showery weather of having an outbreak of scab. The apple crop is as yet very clean and we cannot afford to have an outbreak at this late date. If the weather becomes fine and warm there is very little danger, but should it remain showery it would be well to spray almost at once with lime sulphur, 1 gallon to 50 gallons of water, adding nothing else to this unless you are sure there are biting insects attacking the fruit. If, however, you see sideworms entering and depositing arsenate of lead to 40 gallons of water. On the other hand, if you use arsenate of lime use only 1 pound to 40 gallons and add about 3 pounds hydrated lime. When spraying use a fine mist and do not spray on a very hot day for fear of burning the fruit.

Preparing For County Match

Judging by present prospects everything is pointing towards a most successful County Plothing Match this fall. At a meeting of the directors of the association held in the office of the Department of Agriculture a few days ago, it was announced by President John Speers on behalf of the grounds committee that after a great deal of searching it was found that the most suitable location for a successful match was on the Silverthorn farm, lot 18, concession 3, west Chinguacousy. While not centrally located as had been hoped for, otherwise it is an ideal spot for a match, being convenient to a gravel road, providing sufficient sod and stubble, and a type of soil which should permit of good work being done even in the event of a dry fall.

Each of the township councils have made substantial grants towards the prize-list and these, together with other donations from local firms and individuals should provide an excellent prize list.

The date of the match has been temporarily set for October 28th and the prize list which will include classes for local boys and men should bring out a large number of contestants.

STREETSVILLE

The members of Peel Chapter No. 96, Order of the Eastern Star, Streetsville, were delighted to receive an invitation from their highly respected Worthy Matron, Miss Ruth Cordingly, to spend a social evening at the home of her father, Mr. David Cordingly, of the tenth line, Trafalgar, to bid good-bye to one of the highly respected officers, in the person of Mrs. J. S. Jenson.

Even the weather seemed to help on the enjoyment of the happy gathering, for the moon and stars shone their gentle light from above while the lights were strewn from boughs, the beautiful trees on the lovely lawn. Just outside of the lawn a huge bonfire seemed to send a fairy-like appearance to the grounds.

The younger members of the Ord engaged in different forms of sports while the older ones enjoyed a good social chat.

After delightful refreshments were served and enjoyed by all present, the Worthy Patron, Mr. F. A. Macdonald called the gathering to order and made a few well chosen remarks presented Mrs. Jephson with a beautiful Eastern Star pin as a small memento of the happy hours spent with P. Chanter.

Mrs. Jephson, though quite taken by surprise, thanked the members for their kindness and asked them to visit them in their new home in Frankfurt. Mr. Jephson on behalf of his wife also spoke, in which he said he sorry he was to sever his connections with their many friends in Streetsville and while for the time being distance would separate them yet in spirit a thought Streetsville would always be present.

After the singing of Auld Lang Syne and a hearty vote of thanks being tendered to Miss and Mr. Colving for their kindness and thought in making this gathering such a success and after wishing Mr. and Mrs. Jephson and their two daughters farewell this happy gathering dispersed.

Mr. John Tierney of Niagara Falls was in town one day last week. He lived here with his mother (Mrs. Harper), in the double house on Victoria Ave., about 25 years ago. He has not been back since and found very few people he used to know.

(continued)

Showing Other Countries What This Country Looks Like

- 1-Interior view of the Basilica of Ste. Anne de Besupre which is featured in "A Woman's Faith."
- 2-Scene from "A Woman's Faith."
- 3-Another scene from "A Woman's Faith" showing Alma Rubens and Percy Marchmont in the Basilica.
- 4-The plot thickens.

Canada continues to grow in popularity with the motion picture producers in the United States. Every year, they come over, in steadily increasing numbers, bringing their stars, cameras, megaphones and what-nots with them and proceed to help themselves to large portions of our scenery and sizeable lumps of our history as well. Then, with the Rocky Mountains in one hand and a couple of provinces in the other, they return to the States and obligingly show their fellow countrymen and the strangers within their gates the sort of stuff Canada is made of. And, when all is said and done this does not do Canada any harm. On the contrary.....

The latest film to be released which has an all Canadian setting and an all Canadian story is "A Woman's Faith" produced by the Universal Film Corporation and the scene is laid in provincial Quebec with a splendid climax at Ste. Anne de Beaupre. It is at first a distressing story. There is a young girl, you see, and a young man, and there is a young man, and an amorous young woman who is not all that ought to be. And there is another young woman, named Nérée Caron who is all that young women ought to be and, in the second part, she and Steele — but we must not give the story away.

The film is rich in local color. There are scenes of French-Canadian peasant life in a quaint picturesque Quebec village which cannot fail to favorably impress those who have never visited the province and the interior views of the old basilica of Ste. Anne de Beaupre are works of art in themselves.

Another item which enhances the value of the film at this particular time is that it shows the last, if not the only, moving-picture of the late

Cardinal Begin whose death so recently shocked the Catholics of this continent. The late Cardinal is shown in full robes and surrounded by ecclesiastical dignitaries of all ranks, attending an important ceremony at the Basilica.

Incidentally, Alma Rubens whose refined emotional acting stands in a class by itself, has probably starred in more made-in-Canada pictures than any other lumina in the motion-picture firmament. She did particularly good work in the picturization of James Oliver Curwood's "The Valley of Silent Men" which was filmed near Banff, in the Canadian Pacific Rockies a year or so ago.

Among the other stars who scintillated in a Canadian setting are Thomas Meighan, notably in the northern drama "The Alaskan"; Milton Sills, in "The Knock Out"; filmed in Northern Quebec in which he added to his laurels as an actor and collected a blackeye from an over-conscientious villain; and 'Hoof' Gibson who starred in a picture centering around the Calgary Stampede while Field Marshal Earl Haig was present at that famous Western celebration.

DISTRICT NEWS

Reduced railway rates will again
be in effect during the period of the
Canadian National Exhibition.

Dorothy Jackson, daughter of Wil-
liam Jackson, was struck and seri-
ously injured by a motor car driven
by Albert Green, of Woodbridge.

Oved 700,000 invitations have been
sent out to the primary school pupils
of the Province to be the guests of
the Canadian National Exhibition on
Young Canada's Day.

All nine Provinces will be repre-
sented in the women's section of the
Canadian National Exhibition. The
Model Farm Kitchen will be repeated
and several new features added.

Nova Scotia will again exhibit at
the Canadian National Exhibition.
County competitions will be re-
ceived at the Canadian National Ex-
hibition this year.

Children's dancing and Highland
pipe competitions will be one of the
many special attractions for Young
Canada's Day at the Canadian Na-
tional Exhibition.

Mrs. James Devlin, of Omagh, an-
nounces the engagement of her daugh-
ter, Edith Kathleen, to Clifford
Maude, youngest son of Mr. and Mrs.
Leonard Maude, of Milton, marriage
to take place quietly this month.

Mrs. Mary A. Gabriel, Shelburne,
Ont., announces the engagement of
her daughter, Mary, to Mr. Albert
E. Lewars, son of Mr. and Mrs. Ed.
Lewars, of North Augusta, Ont., the
marriage will take place the last
Tuesday in August.

Cookville football team went to
Highland Creek Saturday and de-
feated the team of that place by a
score of 2-0. Several Streetsville
men are playing with Cookville this
year, including Dr. Reed, who they
are fortunate in having for their
goal-keeper.

Mr. and Mrs. Bert E. Featherstone,
of Trafalgar, announce the engage-
ment of their daughter, Bertha Geo-
rgina, to Mr. Clarence E. Hall, son of
Mr. and Mrs. Joseph O. Hall, of Nel-
son, the marriage to take place the
latter part of August.

Mr. and Mrs. W. J. Henry, "Rose-
heath," Esqueving, announce the en-
gagement of their only daughter,
Alice Luella, to Mr. Wm. McFadden,
elder son of Mr. and Mrs. Thos. Mc-
Fadden, Milton, Ont. The marriage
to take place the latter part of
August.

The funeral took place to St.
Mary's R. C. Cemetery, Brampton,
of Minnie Ryan, daughter of the
late Jeremiah Ryan, whose death
took place in Mimico. Miss Ryan
was born in Brampton and educated
at the Brampton Public and High
Schools. For the past 25 years she
has been teaching school in Mimico.
She is survived by one brother, Wil-
liam.

William Wilson, of the Cataract,
an employee of the Caledon Mountain
Shale Products, had a very narrow
escape from death when his car went
over the embankment of the river and
was stopped after a fall of ten
feet by the bushes. One wheel was
badly damaged and the glass was
broken, but when the men from the
works pulled it up by means of a
tackle it was able to proceed under
its own power. Wilson was for-
tunately uninjured, though badly
shocked.

The death occurred in Cookville
of Mrs. John Simpson, in her 86th
year. Formerly Mary Sinton, she was
born in Scotland, where she married
Mr. Simpson. Her death took place
at the home of her son-in-law, Har-
mon Price, of Cookville, and the fu-
neral took place from his home to
the Brampton cemetery. The Rev.
Bellsmith, of the Union Church in
Cookville, conducted the service.
Mrs. Simpson is survived by her hus-
band, three sons, William, in New
Zealand; James, of Acton, and Rob-
ert, Mount Dennis, and five daugh-
ters, Mrs. H. Bright and Mrs. Jane
Hannah, Brampton; Mrs. Street, To-
ronto; Mrs. M. Graham, Cleveland,
and Mrs. H. Price.

A motor accident occurred Tues-
day afternoon at the intersection of
Dundas Highway and second line Tra-
falgar, in the village of Palermo, when
Mr. Featherston, of Milton, in a tour-
ing car driving south and a roadster
from Kitchener going east collided.
One car smashed off a telephone pole
and the other dashed into Mrs. Por-
ter's corner store, damaging the front
window.

PASTOR DECLINES CALL
Port Credit, Aug. 18.—Word was
received here that Rev. Dr. Howard,
of Van Kleeck Hill, in the Glasgow
Presbytery, has declined the call is-
sued to him by the congregation of
St. Andrew's Continuing Presbyterian
Church here.

SEEKING FOR ONESELF

From Streetsville to the Bottom of
A Silver Mine

I could recall what that great Em-
pire-builder, Cecil Rhodes, had said
not long before his death, about min-
ing being the one opportunity for the
would-be investor of small means, the
man or woman whose capital was rep-
resented by anything from a five
pound note to 500 pounds, and who
had otherwise to be content with a
paltry 3 or 4 per cent. interest, to ac-
quire something akin to wealth; that
great uncrowned king of South Africa
who had no personal gain than to
serve had also pointed out how much
of the material wealth of the greatest
nations of all ages had been depend-
ent upon their mineral resources. In
an impersonal and academic way I
had always linked up the development
within the last 20 years of mines in
Northern Ontario with lessons in po-
litical economy on national wealth. I
have had friends and acquaintances
among those who had justified in their
much increased bank accounts the dic-
tum of Cecil Rhodes, and also among
those who, having neglected an essen-
tial consideration in their pursuit of
riches, via mining investment, did ev-
erything but bless the day they started
on that search, but it was not until a
little over a month ago that anything
approaching a personal interest in the
mineral development of Northern On-
tario was awakened in me. A friend
of some years, a mining engineer,
paid me a visit on rest for a few days
from his labours of many months as
manager of a silver property in Gow-
ganda Silver Area in the District of
Temiskaming. The story of "things
up there" was interesting and did not
lack the touch of adventure which in-
variably appeals.

Over two years ago a certain pros-
pector had come across certain veins
and other evidence of the presence of
silver which had resulted in his secur-
ing from the Government three claims
aggregating 143 acres on the banks of
the River Montreal. Unshakably con-
vinced as the claim-owner was of a
wealth of silver under earth, evidenced
among other things by native or pure
silver on the surface, he was never-
theless owing to lack of capital and
to not having personal touch with the
financial world unable to take any
active steps personally towards de-
veloping the property. The claim had
been talked about in several quarters;
was inspected and reported upon by
different engineers; a large financial
and mining corporation had the ac-
quirement of it "under serious consid-
eration" when in the language of one
who was "seriously considering" a
"gink from Toronto got in ahead of
us". The "gink" is the president of
the syndicate that for the past 12
months has been making good the ex-
pectations of the original claim-own-
er an whose faith was evidenced by
the fact that he took most of his
selling price in shares in the syndi-
cate. Work was at once commenced;
two shafts were sunk; samples of sil-
ver and of ore were submitted to the
Government analyst; with results that
made the faith of all interested
stronger than ever. A well equipped
camp was established; a staff engaged
and the necessary machinery was
installed last winter. Such in outline
was the story of the Gowganda-Dug-
gan silver mine as my friend, Mr. E.
L. Spence, told it to me, supplement-
ing the oral with the visible in the
shape of many nuggets. Out of the
interest thus evoked came the sugges-
tion that I accept an invitation
from Mr. E. Batchelor, the President
of the Syndicate, and go up and see
the mining country for myself.

Thus it was that a week ago last
Monday night I was one of a party of
eleven, all except myself shareholders
in the Gowganda Duggan Silver Mine,
in the parlor-car of the north bound
express. A wreck ahead of us about
a hundred and fifty miles out from
Toronto necessitated a detour which
would delay our reaching Cobalt by
some 5 or 6 hours. That was bad
enough, but worse came when we re-
alized at 8 o'clock next morning that
owing to the detour we could not pick
up the dining-car—for breakfast—
until noon. Cobalt was reached at
4 o'clock that afternoon. Here two
automobiles were awaiting us and we
at once started on a drive, at varying
speed limits of 58 miles over roads,
that at spots were really good, through
a country still wild and, at stretches
seemingly primeval with its rocks and
cliffs, winding river and spreading
lake, yet showing the mastery of man,
in many a hamlet and in the recurring
sight of mining properties in active
operation. The physical formation of
the land and the atmosphere of the
country make an insistent appeal to
the spirit of adventure which is, if
latent, in every man capable of play-
ing a man's part in the battle of life;
and these calls from nature inani-
mate, have surely played no incon-
siderable part in what human nature,
answering the calls, has achieved in
work that smacks of the heroic.

About two years ago Haileybury
was laid flat by forest fire which took
heavy toll of human life, yet the
lice Magistrate Moore convicted John
Haileybury through which we passed,
on the site of the old Haileybury is a
well built town largely of brick and
under the Revenue Act. He settled,
stone, pulsating with industrial life
marked by many store of com-
fortable homes by several churches, considered a "blest capitalist."

Last Thursday, at Georgetown, Pe-
lice Magistrate Moore convicted John
Haileybury through which we passed,
on the site of the old Haileybury is a
well built town largely of brick and
under the Revenue Act. He settled,
stone, pulsating with industrial life
marked by many store of com-
fortable homes by several churches, considered a "blest capitalist."

public buildings and commercial struc-
tures. Those, and there are some,
who speak glibly of Northern Ontar-
io as being overdrawn in its possi-
bilities and overrated in the vigour of
its people need only go to Hailey-
bury to grasp the reality of things
that are. Towns cannot be re-built in
a year or two, big business re-es-
tablished, and hundreds of homes main-
tained in comfort and taste and in
not a little luxury on "inspired re-
ports" and "hot air."

Some miles beyond Haileybury and
after passing New Liskeard we struck
a long stretch of the most wonderful
agricultural land I ever saw. Western
Manitoba impressed me twenty-five
years ago, but the "virgin soil" of the
Prairie Province ceased to be the
standard of excellence as we gazed
upon mile after mile of the rich black
loam responsible for the abundant
crops of grain and hay. In about
three hours we reached Elk Lake, a
typical mining country town where
we refreshed the inner man, and re-
plenished the cars. Over fifty miles
had made demands on man and car,
but greater was yet in store for both
in the last lap of nearly 30 miles.
There were long stretches of "road"
(save the mark) compared with which
the roughest and most uncultivated
boulevard in Streetsville—except for
the ditch—in "good going." Ten miles
of such plunging and jolting was how-
ever part of the "experience," made
more thrilling when our own car skid-
ded or backed down to within in an
uncomfortably few feet of the edge
of the "road", where the drop was
from 20 to 100 feet, made easier how-
ever in case one went over by a few
fathoms of lake water. We finally
arrived, safe but sore, at the end of
the car trail at 3 a.m.; this was the
edge of a bush where we were to have
been met by a guide from the camp,
but who had concluded at about mid-
night that we would not arrive. It
took about an hour to pick our way
over an alleged horse or wagon trail
and in dense darkness to the river
point a mile and a half away, where
we waited around a fire we kindled
until about 6 o'clock, when we heard
the welcome thug thug of the motor
launch from the camp, steered by the
mine superintendent, who gave us the
comforting assurance that breakfast
was waiting for us.

In less than half an hour we put
his assurance to the test and after a
couple of hours' sleep followed by a
splash and a shave, supplemented by
a smoke, we were all keen for a start
to the mine, half a mile away. All
the camp buildings were of solid char-
acter being constructed of heavy logs.
The engine and boiler house and ma-
chine shop at the mine were of simi-
lar solidity.

These and the machinery were in-
spected and the uses of the latter ex-
plained and then we gathered at the
shaft house over which from a struc-
ture of heavy rafters was suspended
a huge bucket four feet deep and
about 2 1/2 wide, strongly suggestive
of the kind of cauldron in which im-
aginative artists depict two venture-
some missionaries being cooked by
cannibalistic hosts. This suggestion
became more real and personal as
after I had climbed into the bucket it
swayed and turned like a roasting
spit in the hot sun, high above the
opening down which I was to disap-
pear in quest of silver knowledge.
Like a well cooked roast that was to
be eaten cold I was soon in the re-
frigerator, for fifty feet below in the
rock-walled tunnel four feet wide and
about 7 feet high it was cool enough
to chill anything except enthusiasm,
which was kept warm by the sight of
the silver shimmering in the vein-car-
rying wall. Borrowing the inspector's
geological hammer I "picked" my own
specimen to which I added several
others acquired at other points of the
property. That 40 feet of tunnel or
drift is but the beginning of things sil-
very, which stretch across the 143
acres.

I do not profess to have any tech-
nical knowledge or experience of min-
ing process or of silver mining, and
only regret I have not a larger ex-
perience of silver coinage, and lay
no claim to speak of relative finan-
cial values of mines or claims, but to
those who, from their lack of know-
ledge of the actual conditions, or
from a superficial scepticism born of
having made mistakes in judgement
in the past, are disposed to make light
not merely of the potential, but of the
existing wealth in silver, of the great
country up north and in particular
of the Gowganda Silver area, as it is
described on the Government map, I
say unhesitatingly—go and see it for
yourself as I did. When you get back
you will be tired and stiff and sore
for days; you will not want to bowl
on the green or hoe weeds, or even
water the garden for a week—but you
will be satisfied you did something
worth doing and saw something worth
seeing.

Love Gives Itself

THE STORY OF A BLOOD FEUD

BY ANNIE S. SWAN.

"Love gives itself and is not bought"—Longfellow.

CHAPTER XXVI.—(Cont'd.)

"I've chucked that boulder and bully, Donaldson, and I'm looking into things. Fact is, Miss Dempster, one half of the world doesn't know how the other half lives. I'm not trying to excuse myself, mind! I haven't the right, for I've been right down there in my time, too, and I ought to have known."

"You have been abroad though for a long time," said Jean on the spur of the moment, and then colored, remembering that she was encroaching on personal ground.

"Yes, I've been out of New York City just fifteen months. But I'm stopping here for a bit now, and I'll spend the most of it on the East Side. I find that work tastes sweet after a while of play. It's what we were born for, Miss Dempster, and the moment we stop work, we feel—the devil steps in and has his innings."

Jean smiled her grave, kind smile, which had comforted many.

"We are certainly happier working," she admitted. "The difficulty is to apportion it fairly."

"How long have you been out? You sound," he added with a smile, "as if you might have left the Broomfield yesterday!"

"I've been here just on four years."

"All your people here, I suppose?"

"None of them. I live at a boarding-house on Forty-second Street. It was there I met Mr. Rankine. A man he met on the boat brought him to the house. But, of course, he couldn't be at home in a Forty-second Street boarding-house!"

"He's had to be at home in a lot of queer places, I doubt! But he'll find all right out West. I hope he'll find the man I've sent him to. I cabled that he was coming."

"How good of you! But then the Scotch don't leave anything to chance," said Jean with a smile.

"Wouldn't you call at the Holland House, Mr. Fordyce, and see Miss Rankine?"

"I can't do that. I don't want her thanks. He'll pay me back. Actually made me take an I.O.U. And I took it, too. Here's the address."

He took a card from his pocket-case and wrote the words on it, then passed it over, and rose.

"Well—I suppose our business is at an end. I'm glad I came. And if I hear anything of Rankine I'll ring you up or come out and see you if I may. Do you do well here?" he asked, glancing intently round the homely little room.

"I've nothing to complain of. I work hard, but I am well paid, and my employers trust me."

"Who's at your back?" Is there an Ackermann?"

"Only Mrs. Ackermann now. She's a widow, and lives at Jersey City."

"I see. Well, good day. I'm glad I've met you. Perhaps we'll come across one another again. Engaged to Margaret Tenterden! No wonder he was in a hurry to get quit before she saw him! The poor beggar hadn't even a dress suit left, and very few of the other sort!"

"Only one," put in Jean, "because he told me so."

ISSUE No. 34—25.

"No, she did not tell me. He was in the theatre last night, you say! How didn't I know? Oh, what a cruel shame! And now he is far away. He really did go on that train, you think?"

"I'm afraid there isn't a doubt about it. Mr. Fordyce told me he had all the tickets, and now he is at least six hundred miles away."

Carlotta dropped her cheek on her hand and her face became strangely old and sad.

"It was a frightful tragedy. How did it happen that he was in the Manhattan last night? Surely it was the very irony of fate. From what Judy told me I should not have imagined that he had any money to spare for theatre tickets."

"He hadn't," answered Jean promptly. "The tickets were mine, given me by a business client who couldn't use them. He only came because I urged him, and because I thought it might be a little bit of cheer for him to remember his last night in New York."

"You saw a good deal of him, didn't you, Miss Dempster? He often spoke of you in his letters."

"I saw a good deal of him at the beginning, but not lately. I was feeling anxious about him just before he turned up the night before last to say good-bye."

"He had had times, had he not? Much harder than he allowed us at home to know about?"

"I'm afraid so," answered Jean, realizing that nothing could be gained by hiding things, and that Miss Tenterden had come determined to know the truth. "But one thing you may be glad and proud about, Miss Tenterden—right through he never lost grit nor that fine sense of honor which made him different from the usual run of men one meets. And I'm sure he'll come out on top yet. I'm most frightfully sorry for you. Of course, I'm only a humble working woman, and I know I haven't the right to speak to you like this; but I see your heart is in your mouth. I've been through a lot, Miss Tenterden—far more than you can have any idea of, and God forbid that you should ever sample my particular brand of suffering. I gave away all I had to a bad man, and I'm left stranded here, so far from home! Now you, in spite of what you are, and though you have a world at your feet, can be sure that whatever Alan Rankine may be doing, or what the upshot may be, he will never be unworthy of your love, nor of any woman's."

Carlotta rose a trifle unsteadily to her feet.

"Thank you, dear woman—thank you very much! You have suffered a lot, you say? Have you seen things even up then in life? Do you think—do you think this horrible tangle will ever come right?"

"Sure thing," said Jean cheerfully. "God's in His heaven—all's right with the world."

"You see I feel it all so frightfully," Carlotta went on nervously as she fumbled with the fastening of her coat, "because it was through me he lost his home and his place in Scotland. Some day perhaps—some happier day—I will tell you. And yet—yet—I would lay down my life cheerfully for him; and all I have accomplished is to make him a wanderer on the face of the earth, and to send him to the uttermost ends."

"But he'll come back from the uttermost ends," maintained Jean, and her kind face positively shone. "Just you wait and see!"

Her heavy speech, the hearty confidence with which she spoke, put some odd kind of courage into Carlotta's troubled heart.

"This morning I thought everything was dark, and even Miss Rankine, who is the best friend I have in the world, could not make me feel any better. I even felt that I must get away from her for a while, for—well, there are wheels within wheels."

"There must be," assented Jean. "It's the most extraordinary and the most fascinating story I ever heard of."

"And nobody knows what the end will be," said Carlotta, with a wan little smile. "I suppose you wonder why I should come here and ask all these questions?"

"I don't wonder in the least, for you see, Miss Rankine told me that you are engaged to her brother."

"Engaged?" repeated Carlotta, looking straight into Jean's kind eyes. "I'm his wife!"

CHAPTER XXVII.

THE HAVEN.

The days wore on, and March ushered in spring to New York, in a blaze of unexampled splendor. But it found little response in the hearts of the two women from Scotland, who, with each dawn, hoped for news of the wanderer on whom they had staked so many of their hopes.

The success of his brief season at the Manhattan had far surpassed the hopes of Graham Madox. While fully aware of his own powers, which had won him recognition on the other side, Madox was eager to acknowledge that it was Carlotta who had conquered New York.

In Judy's estimation he was too ready to acknowledge it. Her sharp eyes discovered when she had the opportunity of seeing them in one another's company often, that it was other than an artist's pride and affection Madox felt for his beautiful colleague.

"That man is in love with you, Carlotta," she said, rather shortly, one day. "The simplest way out of the difficulty would be for you to marry him and be done with it."

Sometimes poor Judy was sharp of tongue and bitter of look. But consider her position! A pensioner on Carlotta's bounty, compelled to stop in New York until the end of her season, without active occupation or object in life, with little to do but brood; every allowance must be made for her. Even the most perfect friendship in the world is bound to feel such a strain.

Carlotta's patience and loving-kindness were infinite; but at length she began to feel some fret of the spirit.

No letters had come from Alberta,

Bliss Carman Communes With the Gulls.

Newton McConnell, the well-known Canadian cartoonist, made the above sketch of Bliss Carman from life aboard a Canadian Pacific coastal vessel when they were crossing together from Victoria to Vancouver. The "nature poet" is a lover of the great wide west and spends much of his time in the Rockies and near the Coast. Here is his poem to the Trail Riders of the Canadian Rockies whose annual pow-wow and ride takes place this month:

Word from the Moccasin Trail.
From the land of the Abenakis—
The rivers and hills of the East—
An Indian spirit sends greeting,
To the great Trail Riders' feast.

Afoot and alone with perill
We went with arrow and bow,
Mounted, unarmed and jostling,
In safety at ease you go.

Little enough was our learning,
Small was our craft and skill,
But we saw the feet of the morning
Go by—and our hearts were still.

We shaped the canoe and the paddle,
We fashioned the snowshoe and frame,
And the Great Spirit was with us,
As we kindled the council flame.

You have circled the earth with your knowledge,
Your magic is more and more,
Yet must you heed our wisdom—
The truth of the wilderness lore.

You ride to make good our beginning,
Our trails to keep clear and extend,
Guarding the lodge and the campfire
In peace at sundown's end.

So, over all we are tribesmen,
By the law that does not swerve—
At home in the tent of the open,
On call through the Great Reserve.

We lift you the friendly signal,
We send you our sign on the air,
Look East for our smoke at evening,
And say, "Our brothers are there."

May no foot want for a stirrup,
No prayer nor adventure fail,
And the Master Guide go with you,
Is the word from the Moccasin Trail.

—BLISS CARMAN.
Haines Falls, N.Y.,
July, 1924.

She—"Why do women find the jack-knife dive so hard?"

He—"It's so hard for a woman to shut up, I suppose."

Ways and Means.

Mr. Splish—"Have we paid for our piano now?"

Mrs. Splish—"Yes, dear. And we only have one installment left on the bed."

Mr. Splish—"Have we paid for the gas stove?"

Mrs. Splish—"Yes, dear. Only five payments left on the silver, too."

and cables had merely elicited the information that nothing had been seen or heard of Alan Rankine there.

He had disappeared as completely as if the earth had swallowed him; and in her darker moods, Judy inclined to the idea of suicide. Carlotta, more optimistic because more wise, did her best to cheer her.

"I had already refused Graham Madox three times before you and I ever met child," she answered, calmly enough, though she was hurt both by the words and by Judy's tone.

"But he can ask you a fourth time! I see it in his eyes!" answered Judy ruthlessly. "And nobody could blame you if you accepted him. Why, it would be just an ideal arrangement!"

The Scar Tattooing of the Sepik.

Sepik.

Many were the strange sights that Miss Beatrice Grimshaw saw on her visit to the head of the headwaters—the Sepik River, in New Guinea. Miss Grimshaw, says the Wide World, is the first white woman to ascend the Sepik; she was lucky to get in and perhaps luckier to get out, for the people are cannibals. This is how she describes their peculiar "scar tattooing":

The scar tattooing of the river is one of the first things to strike a traveler's eye. Every man of full age is scar-tattooed in raised patterns as thick as a pencil over his back, shoulders and arms. On the point of the shoulder the tattooing sometimes becomes a real work of art resembling a coat of arms or an elaborate monogram. Down the back the tattooing runs in neat rows of scars raised high above the skin; sometimes it shows a pattern of raised dots placed at regular intervals. Always or almost always it is clean, neat and sharply finished. No Sepik is considered to be a man till his tattooing is done. The men will not admit him to their conferences in the club house, the girls will not marry him, till he has passed this ordeal.

And it is an ordeal! All through his boyhood the dread of the tattooing days haunts the Sepik child. He is never allowed to forget it. Whoever quarrels with him, whoever is offended by him, taunts him in advance, "Wait till you are tattooed—ah! ah! I shall be there! I'll give it to you then!" And the boy creeps away with fear in his heart. Youths have been known to die under the tattooing.

A day comes when the old men declare that there are two or three boys in the village who are growing up fast, and that it is quite time to tattoo them. They are caught, dragged forward and, with the whole village looking on delightedly, flung on the ground and held down by heavy logs, on the ends of which their special enemies gladly volunteer to sit. Then the operators take bamboo knives and set to work. The shrieks of the victims rise ceaselessly, but are drowned by the fierce beating of the village drums and the cries and taunts of the lookers-on. The work goes on for hours. At the end the youths are flung bodily into the water of the river to wash their wounds clean, and then the sap of a certain tree is applied as an antiseptic. In a day or two red clay is rubbed into the wounds. For many weeks the youths are shut up in strict seclusion, lying on their faces and hardly able to move or eat. Sometimes the loss of blood kills directly in the actual tattooing process; sometimes a delicate boy dies afterwards. But most survive, and in nearly all cases the scars are astonishingly clean. No white person thus far has been able to discover how the raised effect is produced with such certainty and regularity. It might puzzle any of our own surgeons to duplicate it.

Care of the Canary.

A word of warning, I am sure, will be appreciated by my readers. I mean those who have an idea that the canary must be hung outside for it to enjoy life. Just as soon as the sun shows its nose around the corner, poor "Dick" has to take his punishment, and out he goes to enjoy the sights and outdoor excitement, but never do we give a thought to the dangers we subject the bird to. Likely you have been doing this, year after year, and getting away with it; there is only one first time, and I would advise against courting trouble.

The folly of hanging the bird outside has already been shown. I have had a number of cases brought to my hospital for care within the past week. Cases of sunstroke, and in a bad way, having been hung in the direct sun for several hours. A pet cat got another, and nearly severed his wing. Yes, it could have, and nearly did, put a stop to "Dick's" song for keeps.

Well, there are so many dangers connected with hanging the bird outside that I feel it my duty to warn those who care, against such practice. I am in a position to know wherein these dangers come, and have had so many cases brought to my attention that I feel sure you will see the mistake.

You may, without intention, place your bird in a draft, or you may hang his cage in a nice shady place, as is often done, early in the morning and forget all about him for the rest of the day, and when the afternoon sun gets around and the poor little chap is left there to cook, he has no way of telling his troubles, and who cares?

If you have an idea that it does the canary good to hang him out, you are wrong. Keep him where you can enjoy his company and he will be a better bird for it. Perhaps your neighbor or friend hangs his canary out of doors and she may be glad to know it isn't well to do so. Please pass the word along.—Wallace G. Jones.

Minard's Liniment for Burns.

Going Him One Better.

"What's wanted over here is hustle," said the American to his English companion.

Just then the fire brigade dashed round the corner and flashed by at a terrific speed.

"What's that?" enquired the American.

"Only the district window-cleaning company working overtime," was the cool rejoinder.

"A scarab beetle 15,000,000 years old has been found in North China."

Hello Daddy—don't forget my Wrigley's!

Slip a package in your pocket when you go home to-night.

Give the youngsters this wholesome, long-lasting sweet for pleasure and benefit.

Use it yourself after smoking or when work drags. It's a great little freshener.

PLAITS REGISTER IMPORT-ANTLY.

Box and kick plaits form a very pleasant deviation from the straight-line frocks. Inverted plaits are given a place on the model pictured above, and start at the collar and reach to the hemline, being held in place by stitching over the hips, and released to give fullness to the skirt front. The new back flare is deftly handled by the plait at the centre back. Buttons strike a smart trimming note, while the sleeves are long and the neck is finished with a round collar, which is a universal favorite. No. 1137 is in sizes 16, 18 and 20 years. Size 18 requires 8½ yards of 36-inch or 40-inch material. Price 20 cents.

Many styles of smart apparel may be found in our new Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

HOW TO ORDER PATTERNS.

Write your name and address plainly, giving number and size of such patterns as you want. Enclose 20c in stamps or coin (coin preferred; wrap it carefully) for each number, and address your order to Pattern Dept., Wilson Publishing Co., 79 West Adelaide St., Toronto. Patterns sent by return mail.

Minard's Liniment for Burns.

Father of Hungary.

Contrary to the general belief, Attila, the Hun, known as "The Scourge of God," was not the founder of Hungary; in fact he was not a Hungarian but a Hun. Attila swept over that portion of Europe 443 A.D. with a great horde of mounted warriors armed with bows and arrows and established his throne in Szeged. He had a wooden palace, wooden throne, and wooden platters and drinking cups. He had many musicians.

The real Magyar founder was Arpad, who appeared in the tenth century and who is called "The Father of His Country." By the Magyars he is considered very much like Washington, to whom they have erected a life-size statue in the beautiful park in Budapest.

The average Angora goat will produce about 6 to 9 pounds of meat.

SIR ADAM BECK PASSES AFTER LONG-FOUGHT BATTLE TO REGAIN HEALTH

Hydro Knight Succumbs Unexpectedly at His Home in London on Saturday—Directed Affairs of Great Enterprise to the Last.

London, Ont., Aug. 16.—Sir Adam Beck, founder of the Ontario Hydro-Electric Power Systems and chairman of the Operating Commission since its establishment, for twenty-five years one of the most forceful characters in the public life of London and the province and an internationally known apostle of municipal ownership, died last night at 10 o'clock at his residence, "Headley."

For two weeks it had been known that Sir Adam's brief accession of strength derived from blood transfusions in the Johns Hopkins Hospital at Baltimore was ebbing from him and that pernicious anaemia, with which he was stricken late in the autumn, had run the inevitable course. He personally requested of the newspapers that no mention of his condition should be made until the end. As a result, the announcement was received with surprise as great as the regret occasioned by his passing.

Nearly a week ago Sir Adam lapsed into a state of coma, from which he occasionally revived only to relapse again. Thursday night he was able to recognize those around him, but from that time until his death it became a question of how long his heart would be able to maintain the spark of life. His only child, Mrs. Strathairn Hay, of Toronto, formerly Miss Marion, and her husband had been with him continuously for the past three weeks. With them at the bedside when the end came were Sir Adam's brother, Mr. J. Fritz Beck, of Toronto, Chief Engineer of the Hydro-Electric Power Commission of Ontario, and Miss S. B. Venning, who for many years has been Sir Adam's trusted private secretary.

The illness with which Sir Adam Beck was stricken last autumn is ascribed to irreparable fatigue precipitated by strain and overwork. Sir Adam, just before his departure for Alaska, South Carolina, to visit Dr. and Mrs. John Todd of Montreal at their winter home, held the belief that his condition was a matter merely of overwork, nervous disorder and

The Late Sir Adam Beck

resultant poor circulation. He hoped that a few weeks' rest in the South would accomplish a complete recuperation, and though he had talked of retiring this year from the chairmanship of the Hydro-Electric Power Commission, he had a program of public service which he believed would engage him for the next fifteen years. The news of his death saddened the people of Ontario, regardless of political affiliations, for in his passing London has lost a brilliant, devoted and distinguished representative, Ontario a dominating champion of popular rights, and Canada a native son and statesman whose name and fame, by his achievements, have been imperishably inscribed in the annals of the nation.

The death of Sir Adam, through the termination of a rather prolonged and severe illness, is to his friends a sudden and little-expected ending of a strenuous career. On June 20 he celebrated his sixty-eighth birthday shortly after his return from Baltimore, where his condition first assumed a serious aspect.

WINDSOR MAN DEAD 2 PERSONS ARRESTED

Woman Shot in Leg Supposedly in Attempt at Suicide.

A despatch from Windsor says: Clayton McMullen, 32 years old, proprietor of a battery service station at London Street and Carron Avenue, was shot and instantly killed as he stood on the lawn in front of his home at 322 Ellis Avenue, shortly after 9 o'clock Thursday night. Mrs. Ruth Janisse, 30, and her husband, Howard, 32, the latter an employee of Gossau Brothers' garage, located across the street from the battery station, are both under arrest in connection with the shooting.

Mrs. Janisse, a bullet wound in her left leg, is under police guard at Grace Hospital and her husband occupies a cell at police headquarters. The story as pieced together by Windsor and Provincial Police is that shortly before nine o'clock an automobile with curtains drawn drew up in front of the McMullen home on Ellis Ave. Janisse jumped out and knocked at the door, McMullen answering the knock. Then as the two men walked slowly towards the darkened automobile a single shot rang out and McMullen tumbled to the lawn, a bullet through his heart.

Then as Janisse leaped into his machine the revolver spoke again, a woman screamed and at once the automobile sped away. A few minutes later Janisse assisted his wife into Grace Hospital, explaining that she had accidentally shot herself.

Meanwhile neighbors had telephoned an alarm to police headquarters and police who hurried to the scene found McMullen, lying dead, blood dyeing the grass around him. A moment later the McMullen telephone rang and Janisse at the hospital inquired as to McMullen's condition. When told he was dead he hung up the receiver.

Before he could leave the hospital Motorcycle Officer Reginald O'Neill arrived and snapped the handcuffs on his wrists. A pearl-handled .32 calibre revolver with two chambers empty was found in his pocket, police say. Questioned at headquarters, Janisse told the police that his wife had shot McMullen "for something he did to her."

McMullen's body was removed to a private morgue where it was viewed by Coroner Dr. A. Craswell.

Two Trainmen Killed in Head-on Collision

Lethbridge, Alta., Aug. 16.—In a head-on collision between a Canadian Pacific Railway passenger local and a light pusher engine near Cowley, Alta., Saturday, two members of the engine crews were killed and two passengers injured.

Engineer Middleton of the pusher locomotive and Fireman Kendall of the passenger train were killed. According to reports received none of the passengers was seriously injured.

Miss Amy Price, South Wales' school teacher, who has won a free trip through Canada. The tour was the prize for the "child education" competition.

Two Girls Injured in Auto Crash at Prescott

A despatch from Prescott, Ont., says:—Helena Quinn, age nine, and Margaret Quinn, age seven, daughters of Mr. and Mrs. Michael Quinn, who resided about five miles east of Prescott on the main highway, were seriously injured when they were struck by a car driven by a Cardinal man Wednesday evening. The little girls were returning from a picnic with a neighbor, Aaron Scott, who let them out of his car at their own gate with the usual warning, "look out for the cars." The two little girls, hand in hand, ran from behind Mr. Scott's car to reach their home and were struck by a passing automobile and hurled into the ditch.

Helena suffered terrible scalp wounds and has not regained consciousness and the extent of her injuries have not yet been determined. Little hope is entertained for her recovery. Margaret sustained a broken arm, injuries to her head and face and several cuts and bruises about the body. It is expected that she will recover.

Old-Time Cobalt Miner Killed in Vipond Mine

Cobalt, Ont., Aug. 16.—Norman Isnor, formerly captain at the Kerr Lake and Drummond Mines here, and an old-time Cobalt miner, was killed yesterday at the Vipond Mine, Porcupine, where he was shift boss. He fell down a chute. Deceased was about 55 years old and a native of Nova Scotia.

CANADA'S FIELD CROPS WORTH \$400,000,000 MORE THAN 1924 HARVEST

A despatch from Ottawa says:—Canada's field crops this year will be worth nearly \$400,000,000 more than in 1924. The actual value of the 1924 yields was \$319,730,000, while the value for the present year is estimated at \$1,318,664,907. The volume of the 1925 crop is computed on the basis of the official report of the condition of crops on Aug. 1. The value is computed from the prices of grains at present prevailing for October delivery, and the estimate of the value of the other crops is based on the average price over the last five years. There are a few more than 600,000 agricultural families in the Dominion, which means that each family will have added to the country's wealth a little over \$600 more than last year.

This year's wheat yield is estimated on the basis of October delivery prices to be worth \$544,335,800, as compared with the actual value of \$320,362,000 in 1924; oats, \$223,168,500, as compared with \$200,688,000; barley, \$76,120,000, as against \$61,760,000; rye, \$15,486,744, as compared with \$15,676,000; flax, \$20,625,318, as against \$18,849,000.

The total estimated value of the five principal grains this year is \$879,726,362, as compared with last year's actual value of \$616,837,000, or a gain of over \$260,000,000.

Of the other field crops for this year the largest increase will be in hay and clover, the estimated value for this year being \$282,118,550, as compared with an actual value in 1924 of \$165,587,000. Potatoes will also show a considerable gain, this year's value being estimated at \$57,479,400, as compared with \$47,965,000 last year.

Other field crops showing gains are: Peas, \$6,533,422, as compared with \$5,676,000 last year; beans, \$3,701,555, as compared with \$3,306,000; mixed grains, \$24,805,000, as compared with \$22,626,000; turnips, \$25,662,250, as compared with \$17,884,000.

Four yields this year will show slight declines in value, according to present estimates. They are as follows: Buckwheat, \$10,135,909, as compared with \$10,149,000; corn, \$12,724,000, as against \$14,227,000; alfalfa, \$18,722,003, as against \$14,705,000; and sugar beets, \$2,056,600, as compared with \$2,268,000.

Mothers' Allowances Total \$149,898 in July

A despatch from Toronto says:—Under the provisions of the Ontario Mothers' Allowance Act, 4,184 mothers throughout the province, with 12,786 dependent children in their care, received during July, 1925, the sum of \$149,898. The number of children in each home ranges from two to eleven. In 662 homes there are four children; in 316 homes there are five children; in 132 homes there are six children; in 69 homes there are seven children; in 17 homes there are eight children; in 7 homes there are nine children; in 1 home there are eleven children.

The causes of dependency of the mothers are the death, total and permanent incapacitation, or desertion for a period in excess of five years of the fathers of the children.

Of the beneficiaries: 3,393 are widows; 522 are wives of incapacitated husbands; 159 are deserted wives for a period of five years and upward; and 110 are foster mothers to orphans.

Owen Sound Man Killed by Dropping Cement Bucket

Owen Sound, Ont., Aug. 16.—Wilfred George, 24 years of age, single, was almost instantly killed yesterday morning when he was struck on the head by the cement bucket used in the construction of the Great Lakes Elevator here.

George was employed by the construction company to clean out debris from the bottom of the wood trestle on which was operated the bucket which takes the cement from the ground to the top of the elevator. His head was caught between one of the braces of the trestle and the descending bucket.

Three Bathers Drowned in St. Lawrence River

Montreal, Aug. 16.—Three people lost their lives while bathing in the St. Lawrence River to-day.

Adrien Nadon, aged 17, got beyond his depth and sank before help could reach him. The body was recovered. Florence Chamaillard, aged 16, was seized in the swift current and lost her life. Romeo Pouliot, aged 21, was seized with cramps and sank before his friends could reach him. The body was recovered.

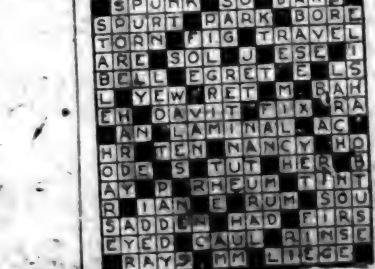

Ontario's Oldest Postmaster Passes at Age of Ninety

A despatch from Brockville says:—George Ferguson, aged 90, probably the oldest Postmaster in Ontario, died suddenly at his home in Bishop's Mills, where he had been Postmaster and merchant for half a century. In earlier life he taught school after arrival from Leitrim, Ireland.

Police Department Entered by Burglar

A despatch from Paris says:—The perfect of the Paris police made the humiliating discovery on Friday that a burglar had broken into the lost articles department of the prefecture building and carried away several articles of value.

Answer to last week's puzzle:

THE MARKETS

TORONTO.
Man. wheat—No. 1 North, \$1.84; No. 2 North, \$1.81½; No. 3 North, \$1.74; No. 4 wheat, not quoted.

In addition to King George, the list of Royal yachtsmen includes the monarchs of Spain, Italy, Denmark and Persia.

PRINCE OF WALES AT MONTEVIDEO

British Heir Accorded Great Welcome by Capital of Uruguay.

A despatch from Montevideo says:—A welcome unprecedented in the annals of Montevideo was accorded the Prince of Wales on Friday, when he touched the Uruguayan shore on his voyage from South Africa.

Transferring early in the morning from the battleship Repulse to the cruiser Curlew, the Prince reached the pier here at 10 o'clock. Thousands of Uruguayans lined the shore and the dock and cheered the royal visitor.

Foreign Minister Blanco boarded the Curlew officially to welcome the heir apparent to the British throne in the name of the Uruguayan Government and people. The royal visitor landed at 11 o'clock and was received by President Serrato and members of his cabinet and other high personages.

The party then motored to Government Palace through streets lined with cheering people and with bands at various points along the route blaring the British National Anthem. Arriving at the palace, the Prince reviewed the troops from a balcony. His appearance on the balcony was a signal for renewed cheering and applause. Later he was entertained at an informal luncheon given by President Serrato at a restaurant in the Prado or municipal park. There were no speakers. After the luncheon the Prince attended the cattle show.

A gallantly decorated fleet of tugs and motor boats and craft of all descriptions went out to meet the Curlew. A deafening chorus of sirens saluted the royal ears while guns were fired off and pennants dipped. There was no doubt about the enthusiasm of the marine element.

As the Curlew neared the quay dense masses of cheering people could be seen held back from the dock by cavalry and mounted police whose bright uniforms and fluttering red and blue pennons made the scene picturesque.

In front of the crowd was an imposing battery of cameras and movie men, who began grinding as his Royal Highness stepped down the gang plank. The enthusiastic demonstration continued throughout the day and into the night. Wherever the Prince's car appeared a multitude sprang up as if by magic and cheered themselves hoarse.

Cornwall Woman Killed

Cornwall, Ont., Aug. 16.—Mrs. Joseph Wood, aged 78, died this morning from injuries received last night when she was knocked down by an automobile at a street intersection.

\$87,000 PAYROLL STOLEN BY THUGS

Five Gunmen in Winnipeg Attack Cashier of Electric Company.

Winnipeg, Man., Aug. 14.—What Winnipeg police describe as the most daring daylight robbery in the history of the city was staged here this morning by five armed robbers annexing the payroll of the Winnipeg Electric Company, amounting to approximately \$87,000.

The robbery, apparently cleverly planned, was carried out in full view of scores of people within a few yards of the city's busiest thoroughfares.

Richard Shaw, assistant cashier of the company, was about to enter the Electric Railway Chambers with the pouch containing the semi-monthly wages of the company's 1,550 employees when he was halted by a well-dressed man who ordered him to hand over the money bag. Sizing up the situation, Shaw attempted to force his way into the building, but was frustrated by another hold-up man, who slugged him over the head with the butt end of his revolver. Leaving the cashier prostrate on the floor, the robbers bolted with three other confederates, commandeered the company's bank car, ordering the chauffeur to "drive like hell."

A few blocks from the scene of the hold-up the thugs stopped the car and after ordering the driver out, disappeared.

Police Watch Border. Detachments of the Mounties have rushed to the International border and patrols guarded every thoroughfare leading out of the city.

Shaw, who was unconscious for more than an hour after the bludgeoning, sustained a nasty scalp wound, but his condition is not regarded as serious.

So carefully was the robbery prepared and so exactly executed by each of the participants, that the police are now working on the theory that at least one of the robbers was a former company employee.

Pedestrians who witnessed the actual assault upon Shaw attempted to intervene but were kept away by threatening gestures of the desperadoes. Women screamed as one of the thugs brought the cashier to earth with the butt end of his revolver. The cries attracted the attention of A. Watson, whose office is across the street from the Electric Chambers. He telephoned for the police, who were on the scene less than three minutes after the actual robbery. Motorcycle policemen combed the city for more than four hours but returned without having found any trace of the robbers' car.

When I was a boy, the adventurous youth ran away to sea. No one runs away to sea now.—Sir Martin Conway, M.P.

Lawn Social

Under the auspices of the Ladies Aid of St. Andrew's Presbyterian Church will be held on the Lawn of

Mr. and Mrs. S. H. Foster, Streetsville

Tuesday Evening, August 25

AT 8 O'CLOCK

10 a.m.—Sunday School
10.15—Bible Class
11 a.m. & 7 p.m.—Both services
taken by Rev. J. A. Mustard, of Toronto.

United Church Notes

This Sunday
10 a.m.—Sunday School
10.15—Bible Class. Teacher...
Rev. W. A. MacKay.
In the morning Rev. W. A. MacKay will preach at Streetsville, Eden at 2.30 and Meadowdale at 7.30.
Rev. S. J. T. Fortner will preach at Britannia at 11 a.m. and at Streetsville at 7 p.m.
The subject for the evening service in the United Church Sunday will be "Come ye apart and rest a while." All are cordially invited to the services.
There was a good attendance at the United Church service at Meadowdale Sunday evening. Mrs. Hartley of Toronto, rendered two solos in a manner which was very highly appreciated.

Shower

Miss Betty Gledhill was given a miscellaneous shower at the home of Mrs. E. F. Redick, last Thursday evening, when nearly forty girls, members of the Junior Institute and friends, wished the bride-elect every happiness in the future. Mrs. Redick had the rooms decorated with flowers and a large chair, draped in white, on a pedestal of flowers, was placed for "Betty." Master Maynard Redick, wheeling the tea wagon, prettily decorated in white and heavily laden with parcels of assorted shapes and sizes, to her. A dainty lunch was served and a pleasant social hour spent. The girls were pleased to have with them Mrs. Gledhill and Mrs. Bryan.

Bryan—Gledhill

On Tuesday afternoon at the residence of her parents, Miss Winona Gledhill became Mrs. L. D. Bryan. The room in which the ceremony took place had been bowered with flowers as the bride entered the alcove on the arm of her father, the Wedding March, rendered by Mrs. G. Binns (the groom's sister) died down and while the register was being signed in another room after the service Mrs. E. F. Redick sang, "All Mine Alone." The Rev. Frank Vipond officiated and there were present the immediate relatives of the bride and bridegroom, Mr. and Mrs. Bryan Sr. of Aurora, Mr. and Mrs. Gordon Binns of Newmarket, Mrs. Frank Vipond, Mr. and Mrs. E. F. Redick and son, Maynard, Misses Marjory and Helen Graydon. An informal but very cordial reception of the little gathering of relatives and friends was held before the departure of the bride and groom. The bride was dressed in white and the opinion voiced that while the groom had shown excellent taste and judgment in the selection of his bride he had fallen down terribly in these qualities when it had come to a decision of a place of residence and that far-off Haileybury was to be the future home of this very charming maiden of Streetsville. Mr. Leland D. Bryan looked every inch a man and one capable of giving a good account of himself in most of the trying circumstances of life but he wilted and with his blushing honors thick upon him, when called upon to respond, could only look the things he wanted to say as husband for the last ten minutes of one of Streetsville's bonniest brides. A very jolly and happy little gathering, not without its sadness for parents parting from their only daughter, came to an end as Mr. and Mrs. L. D. Bryan commenced their honeymoon amidst a shower of confetti and in a car profusely adorned with visible and audible evidence that the couple in the back seat were starting out on a venture of faith and hope and love on which they bore the good wishes of the little crowd that cheered them off. The bride was gowned in pale grey with navy blue coat with hat to match. The soloist Mrs. Redick, and accompanist, Mrs. Binns, were the recipients of dainty French lace handkerchiefs.

Barker—Adamson—At Trinity Church, Port Credit, Wednesday, August 14th, Alice Marjorie, only daughter of Mr. and Mrs. Charles Adamson, Erindale, to Delmar Maurice, eldest son of Mr. and Mrs. J. M. Barker, Erindale.

CASTORIA

Cooksville Dots and Dashes

One of the pioneers of Dufferin and Peel Counties died Thursday at Cooksville in the person of Mrs. Mary Simpson, widow of John Simpson, who predeceased her by eight years. Deceased, who was in her 86th year, was held in high respect in this community. The cause of death was cerebral apoplexy, but this in turn was undoubtedly due to a fall down the cellar stairs at the home of her daughter, Mrs. Price, where she lately resided, the accident occurring about a month ago.

Born at Edinburgh, Mrs. Simpson came to Canada 60 years ago, settling with her husband in the vicinity of Orangeville and Brampton, contributing greatly to the development of the section. She was a Presbyterian in religion.

Surviving are three sons, William, New Zealand; Robert, Toronto, and James, Acton; five daughters, Mrs. C. Bright and Mrs. J. Hannah, Brampton; Mrs. M. Graham, Cleveland; Mrs. W. J. Street, Toronto, and Mrs. W. H. Price, Cooksville; sixteen grandchildren and nine great grandchildren. Another son, John, died three months ago.

The funeral on Sunday at Brampton Cemetery was very largely attended by numerous friends and relations, and a large circle of acquaintances. Rev. Mr. Bellsmith conducted appropriate memorial services.

Marvin Henrikson, 12 year old son of Mr. and Mrs. I. Henrikson, was successfully operated on for appendicitis in Grace Hospital on Sunday.

Dixie and Cooksville baseball outfits, the old rivals, battled to a 3-2 victory for Dixie on Monday night.

Considerable Hydro activity and changes are noted in this vicinity. A new high voltage line is being wired from Etobicoke and during the changing hours, is causing considerable annoyance to housewives and others on the lower highway due to power being shut off. Burehamthorp and community are now in receipt of hydro, lines having been recently strung to reach that district.

A lady teacher has been engaged to teach the Contingency class to be formed here this fall and Mr. Dyer will continue as principal of the Public School. At Dixie where two new teachers have been engaged, almost 1000 applications were received by the trustees. Many of these were not opened.

The new flush closets have been installed in the Cooksville school and a septic sewage tank built to the rear.

Cooksville and Dixie branches of the Women's Institute held an enjoyable picnic at the home of Mrs. L. J. Sheather, one day last week. The feature event was the tug-of-war.

The local soccer team defeated the New Toronto team 2-1, in a hard fought game on Saturday. The game was not finished for in the last period a fight started between two players, followed by the amusing spectacle of having the wives of these two players coming to the rescue of their "hubbies" and turning on each other.

The roof of St. John's Anglican Church is about completed and work on the interior is proceeding. It is a fine looking edifice and will likely reopen in November.

Cooksville Fall Fair is about five weeks away and the work of compiling the prize list is going on.

Many friends will sympathize with Mrs. Wm. Harris in the death of her mother in Brampton on August 10. Burial took place on the 14th inst.

The annual picnic of Dixie Presbyterian Sunday School was held on the fine church grounds on Saturday last.

Juniors Busy

Streetsville Junior Institute is sending a team of four girls to the Menu Planning Contest at the C.N.E. on Tuesday, Sept. 1st; on Thursday, Sept. 3rd a demonstration of a first lesson in millinery will be given by eight or ten girls, and on Wednesday Sept. 9th seven or eight girls are taking part in the Household Science Judging Competition. Mr. John O'Connor is upholding the Junior Farmers in the Stock Judging Competition.

Community Club

On Wednesday afternoon an unusually large crowd attended the meeting of the club held at the home of Mrs. N. McCracken. The President being absent Mrs. J. H. Campbell took the chair and opened the meeting in the usual way. After the business part of the meeting was over the towel shower was held and for a time Mrs. McCracken's living room looked like a fancy store, with beautiful aprons and hand embroidered towels (for the bazaar). The younger members and the children enjoyed a game of ball in the beautiful meadow adjoining the house.

On Friday evening a ball game for the members of the club will be played at the home of Mr. Maurice Williamson. Refreshments will be served at the close of the game. The next meeting will be held at the home of Mrs. Hazelhurst, Milton, Aug. 26.

Port Credit

Miss Heary is spending her vacation in Cleveland, Ohio.

Mrs. Geo. Robinson is visiting friends in Buffalo.

Mr. Dudman is having a fine bungalow built in Credit Grove.

Sure Port Credit Beach is growing. Who said it wasn't?

Mrs. G. F. Skinner arrived home last week after a delightful holiday with friends at Kettleby.

Mrs. J. Young and Miss Lundy are spending their vacation at French River.

Mrs. N. Miller and daughter are holidaying in Muskoka.

The Memorial Hall is nearing completion, and when finished will be one of the finest buildings in the village.

Wesley Gibson of Caledon was fined one dollar and costs for throwing a 16 year old boy, who threw an apple at his door.

Sir Adam Beck, creator of the Ontario Hydro, died at London on Sunday and was buried at Hamilton on Tuesday.

Walton Memorial Church, Bronte, was presented with two handsome quarter cut oak portable sacramental trays by Mrs. Geo. Walton of Toronto.

Mrs. J. A. Tracey has been appointed clerk of Esquew Township in place of her late husband.

Nine boys escaped from Victoria Industrial School, Mimico this week. One of the boys possessed a key to the dormitory, and it is thought that the escape was carefully planned, as the boys walked out while the others slept. They are all about 16 years of age and wearing school garb.

The fourth annual Etobicoke Field Day was held at Long Branch last Saturday with a record attendance.

PRESENTATION TO J. S. JEPHSON

Last Thursday evening about thirty members of River Park Lodge A. F. & M. Streetsville, met at their lodge room to bid farewell to one of their members in the person of Wor. Bro. J. S. Jephson, prior to his leaving for Frankford, Ont. Shortly after arriving at the hall Wor. Bro. Jephson was requested to come forward, when Wor. Bro. H. W. Gierst read the following address and Wor. Bro. F. A. Mass presented Wor. Bro. Jephson with a beautiful gold watch, open face, and having the following inscription in the back—(Presented to Wor. Bro. J. S. Jephson by his Masonic friends of River Park Lodge No. 858, A.F. & M. Streetsville, Aug. 12, 1925).

To Wor. Bro. Jephson
As we journey along the highway of life we pass many milestones, some of which have probably been engraved with disappointment, disaster and grief, but it almost seems a rare gift that these hours of disappointment should form a background for our brightest hours of joy and happiness.

One milestone which will shine forth most brilliantly in the lives of the brethren of River Park Lodge No. 858 is the acquaintance and brotherhood of Wor. Bro. Jephson with us. And we hope that it will be one so indelibly engraved that the forces of time cannot obliterate its inscription of our pleasant and respected associations with him.

Many expressions of regret at your departure have been murmured showing only the high esteem in which you have been held in this community, many are your friends and many are proud to be called your friends, and these your friends have gathered here this evening to show in some small way the appreciation of your friendship by asking you to accept this gift as a token of friendship, at the same time asking you, as the gift ticks (if the seconds, minutes and hours, to occasionally think of us and ever remember that we can never erase you from our memory.

Signed on behalf of your Masonic friends of River Park Lodge.
H. W. Gierst, R. M. Woodruff
F. A. Mass, F. A. Brown

Wor. Bro. Jephson was taken completely by surprise, and made a very appropriate reply, thanking his friends for the gift and for the kindness they had always shown him during his residence here.

Wor. Bro. Mass acted as chairman and a pleasant hour was spent in songs, speeches and music. The members then formed the circle of friendship with Wor. Bro. Jephson in the centre and after singing "Auld Lang Syne" and "God Save the King" three cheers and a tiger were given for the guest of the evening. The hour was brought to a close by all wishing Wor. Bro. Jephson his wife and family long life, success and happiness in their new home.

Mr. Jephson was manager of the Toronto Milling Co. flour mills here for about seven years until the company suspended operations last year. He is a good business man, and by his genial manner has made a host of friends who regret his removal from the village.

Mr. Jephson is a Conservative in politics, a Presbyterian in religion and an enthusiastic lawn bowler. He came to Streetsville from Pickering, where he was a Post Master, and has rendered great assistance to the officers and members of River Park Lodge.

TORONTO TWP. COUNCIL

Cooksville, Aug. 1st, 1925.
The regular meeting of Council was held, the Reeve presiding, and members all present.

Successful Garden Party.

Last evening, at the residence of Mr. Andrew Jamieson, the Bible Class of Streetsville United Church, held a most successful garden party, in fact it was the best held in this vicinity this summer. The committee worked hard and had everything in good order. Rev. S. J. T. Fortner was chairman and conducted the program in a satisfactory manner.

The evening was interspersed with choice selections by the Crescent Orchestra of Port Credit, a splendid musical organization, while a most interesting program was rendered by C. LeRoy Kenney, Canada's greatest comedian, who kept the crowd in good humor with his funny selections.

Miss Margaret Hewson and Miss Margaret Kenney who acted as accompanists and entertained as well; Miss Evelyn Fortner, who recited in a pleasing manner, and Alex White, boy singer of Weston, who rendered several Scotch selections in good voice.

The weather was ideal and nearly a thousand people were in attendance. There was a big demand for refreshments and everything in the booth was disposed of. The receipts were big and the Bible class will clear about \$150.

Messrs. Thomas Waddell Jr., Bill Stoddart, Dean Carr and Alfred Rutledge went on the Harvesters' Excursion Tuesday.

BORN

Fullerton—In Brampton, on Monday, August 17, 1925, to Mr. and Mrs. J. E. Fullerton, a son, Edward Cline.

C. P. R. Time Table

Corrected from latest Time Table May 1925

Trains leave Streetsville Junction as follows:

East Bound

6 20 a.m. Guelph-Jet—Toronto Colon

7 42 a.m. Detroit to Toronto Union

Flag Sunday only—Stops other days to let off passengers from Galt and west

10 58 a.m. London to Toronto Union

11 25 a.m. Teeswater to N. Toronto

3 59 p.m. Detroit to Toronto—Flag

5 25 p.m. Goderich to Toronto Union

7 35 p.m. Teeswater to N. Toronto

The Review office will be closed for business every Saturday afternoon.

Mrs. Geo. Irwin and son, Arthur, of Toronto, visited with Mr. and Mrs. W. G. Adamson on Wednesday.

Mrs. Alice McLeod has gone to Brantford on a visit to her brother, Mr. Albert Scruton.

Mr. Wm. Cutts, A.R.C.A. and his wife, Gertrude Spurr Cutts, A.R.C.A. of Port Perry, two of Canada's leading artists, will spend the next few days with Mr. and Mrs. Wm. Kemp.

Mr. Graydon Chester of Britannia left on Monday for the West with a party of four boys from Brampton.

Messrs. Will McCaugherty and Bennett Drennan are leaving for the West tomorrow. They will visit friends before returning home.

Miss Elva Broadbent is holidaying in London this week.

Mrs. Ewing of Owen Sound is visiting with her niece, Miss Lawson.

Mrs. Ella Stokes of Cleveland, Ohio, is visiting with her sister, Mrs. S. H. Foster.

Mrs. Frank Bowes of Toronto and Mr. and Mrs. Ross Bowes of Montreal visited at the Editor's this week.

Miss Phyllis LeMaistre of Montreal is visiting with her grandmother, Mrs. Chester, this week.

Miss Lillian Church visited friends in London this week.

Mrs. Gordon Bunt visited with Mrs. W. G. Cook, ninth line, this week.

Miss Frances Hastings is spending a few days with friends in town.

Lois, youngest daughter of Dr. S. H. and Mrs. Smith, had the misfortune to fall and fracture her right arm while visiting at Napanee.

Rev. R. J. W. Perry, wife and daughter are visiting friends at Mt. Forest.

Miss Jennie Miller of Toronto visited with her aunt, Mrs. J. Kee last week.

Mrs. Ewing and family of West Toronto spent a few days with her aunt, Mrs. Jas. Kee.

Mrs. J. Mulholland and daughter of Detroit and Mrs. Wigglesworth of Horoby are visiting friends here, calling on Mrs. J. Irvine yesterday.

Miss Vera Hall of the Toronto General Hospital, visited Miss Evelyn Fortner Wednesday afternoon.

Mr. Murray Ronald of Minesing visited the family of Rev. S. J. T. Fortner over the week end and was accompanied to Niagara Falls by Mr. Gifford Fortner.

See H. Culliner's big ad. on last page, announcing the opening of his store in Streetsville this Saturday.

Erindale U.F.O. Club will meet at the home of Mr. S. Marlatt on Monday, August 24th, at 8 o'clock.

Mr. C. R. Evans' new house is progressing nicely. The roof is on and the brick veneering is being done by J. H. Dellow & Son of Cooksville.

Woodbridge will have a big field day on Saturday, Aug. 22nd.

Miss May Hutchinson, for 15 years teacher of English and History at the Brampton High School, was presented with a diamond cluster ring on the eve of her departure for Windsor to accept a position on the High School staff, by pupils and ex-pupils numbering more than 500. The teacher's mother was presented with a bouquet of roses.

James Armstrong of Omagh, bought the cement dwelling lately erected in Housefield's survey Milton, from W. Richards; Wm. Hamilton has sold his house on Robert St. to C. Campbell of Horoby; Mrs. Bundy bought a frame dwelling on East Mary St. from J. F. Robinson.

Mr. Horace Chambers of Lisgar, was taken ill suddenly while at work at the brick yards here and was rushed to a Toronto hospital.

Engagements

Mr. and Mrs. B. Harrop, Norval, announce the engagement of their daughter, Gladys Irene, to Mr. G. Clare Featherstone Ford, son of Mr. and Mrs. James G. Ford, Milton, the marriage to take place early in September.

HOW TO HANDLE EARLY MOLTERS

BY GEORGE A. PHILLIPS.

Few hens lay while they are going through a complete molt, and as it is not desirable to have hens stop laying in July or early August to take on a coat of new feathers which will not be needed for protection before November or December, let us see whether there is anything that can be done about the early-molting hen.

Since modern culling methods have come into vogue, considerable attention has been given to the time of molting as an index to the laying ability of a hen. Unfortunately for the peace of mind of poultry keepers in general, contradictory conclusions have been published by different investigators.

Most of the experimental data show that early molting indicates an inferior laying-record. Folks are beginning to see, though, that early molting, particularly where most hens in the flock molt early, is often caused by mismanagement, and is not necessarily a sign of poor laying ability. In talking of early molters, we must distinguish between partial molt and complete molt.

The degree of molt can usually be determined by examining the primary feathers in the wing. These feathers drop out one at a time, or at least only a few at a time, and several weeks' time is required for all the wing feathers to be molted. As a rule, when a wing feather is dropped it is replaced by the new feather coming in.

Normally, from seven to fourteen days elapse from the time one primary feather is dropped until the next one goes, with an average of probably ten days. Approximately four weeks are required for a wing feather to get its full growth, and a fairly definite idea of how long a hen has been molting, and what per cent. of her feathers have been changed, can be had by studying the wings.

Careful observation will show that many of the hens which show new feathers over the back and neck have molted only two or three wing feathers.

This means that they are out of laying condition for possibly three or four weeks, and have undergone a partial molt. If conditions are favorable, those hens are likely to lay well during most of the fall, but, in most cases, undergo a complete molt before winter.

Hens that have brooded chicks will undergo a partial molt before starting to lay, but if properly handled will lay well in the fall.

On many farms the feed is reduced for the fall after the grass comes; after laying heavily for a few weeks a majority of the birds grow thin in flesh, stop laying, and begin to molt. Then, when harvest comes, if the birds have access to the grain-fields or stacks, they commonly pick up in flesh, the molt will be stopped, and the hens will begin to lay.

Long periods of excessively hot weather, severe attacks of lice or mites, carelessness in allowing broody hens to stay on nest too long before they are broken up—these are causes of partial molts which make hens quit laying for several weeks during the middle of the summer.

The above causes explain why some hens that apparently molt early are fairly good layers if given a good chance. But there are hens which are poor layers by inheritance, and which begin to molt in July and prolong the process until about November. These hens lay few if any fall or winter eggs, and these are the hens the poultry keeper should be on the lookout for; there are enough of these in most flocks to make it worth while to suspect early molters.

A good rule in culling, to get rid of the early molters, is to give the entire flock at least four weeks of regular and liberal feeding on a ration consisting of grain and laying mash; then sell the ones that do not show the redness of their combs, the flexibility of the abdomen, the spread of the pin-bones, that they are laying, or are about ready to start laying. A loafing hen puts no money in your pocket.

The Advantage of Thinning.

The harvest season is a good time to check up on many things particularly on the results of thinning.

One important aspect of the question which we seldom hear discussed and which is difficult, perhaps impossible, to estimate accurately, is the time the grower saves in picking and packing a crop of thinned fruit as against that required for an equal volume of fruit from unthinned trees. In many discussions of the practice of thinning fruit, and certainly in the minds of most fruit growers, the operation is charged and should be charged with the total cost of the job. Though, as a matter of fact, it is probable that we get back in the increased speed which is possible with thinned fruit more than the cost of thinning.

This greater speed is due to two different factors. First, the smaller number of fruits per bushel, owing to the greater average size of the individual fruits; and second, to the fact that a very large percentage of the imperfect specimens have been removed in thinning and there is much less probability of poor stuff getting by the operator when he speeds up. The Experiment Station which has done the best work on this question of thinning apples, has this to say on the phase of the question here under discussion:

"It has been found in this thinning work, that if trees were heavily loaded, the cost of thinning could not fairly be charged against the thinned trees.

"Different factors, such as the following, offset this charge in such cases: In the first place, the fruit taken off at thinning time would have to be picked at picking time anyway, and it would cost as much to remove it then as it would at thinning time. This was the case with the Ben Davis apples in 1914 when the unthinned trees had from 1,000 to 1,666 more apples per tree to be picked. Even with this additional fruit there was then less than half as great a total marketable yield as there was from the thinned trees bearing the smaller number of apples.

"Second, it cost considerably more in sorting to remove the large number of culls from the unthinned trees and after the sorting these culls were then not saleable. Thus in this case no charge could be made for thinning. Even in the case of thinning young nine-year-old Baldwins, it cost 35 per cent. more to pick the unthinned trees. Here again the sorting cost was increased with more unsaleable apples from the unthinned trees.

"In most cases where thinning is necessary, only a small part, if any, of the cost of thinning can be charged against the thinned trees."

The Septic Tank.

The septic tank is doing its part to increase the average life of man. Have you built yours yet, or have you other sanitary means of sewage disposal? August is a good month in which to do this work. Bulletin and working plan "blue print" supplied by Dept. of Physics, O.A.C., can be had by anyone desiring to build a septic tank.

Have a compost heap and keep it growing day by day.

House Early Pullets Early.

We are approaching the season when early-hatched pullets should be put again in their early laying quarters.

Now is a good time to feed these early-maturing pullets all of the grain they will eat, and if mash is given them see that it has a lot of corn meal in it, for a couple of weeks at least—possibly 15 per cent. of yellow corn meal. The idea is to put as much flesh on them as possible to enable them to carry through the rigorous production period just beginning. When put in the laying house see that each one is treated with blue ointment or sodium fluoride for body lice.

Also be sure that the perches and perch supports, nests and dropping boards are painted with a good oil, wood-penetrating, mite-killing paint, for during August the mites are troublesome and the best practice is to make the house absolutely immune from them.

Watch for Bumblefoot.

Bumblefoot is a quite common and frequently serious menace to the health and behavior of chickens. As the name indicates, it consists of a swelling of the foot, caused by bruises or injury and resulting in a pus pocket forming under the bottom of the foot which, if not treated properly, will develop rapidly, until lameness and possible permanent injury follow. Bumblefoot is especially prevalent in the hot, dry weather of midsummer, when birds are allowed any run on gravelly, bare ground.

If the poultry yards can be seeded down to a permanent sod, there will be fewer injuries from this trouble. During the hot days of midsummer, if the yards are bare, plowing them once every other week or cultivating them once every other week, will go a long way toward keeping them in a better sanitary condition and reducing the danger of injury to the birds' feet.

Who Was the Joke On?

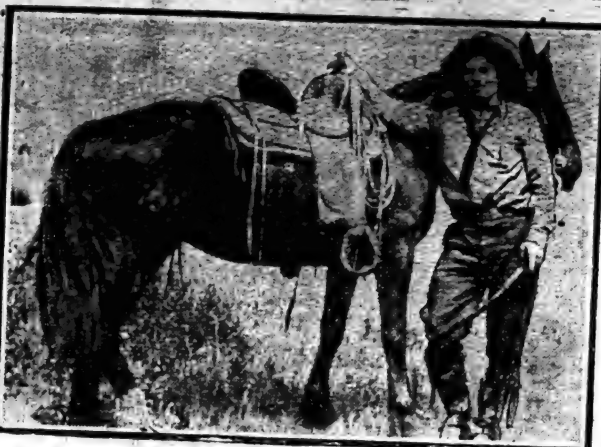

A farmer had just built a big barn. One day as he was setting off for town he told his two boys to cut a small hole in one of the sides so that the cat could get in or out at will. The boys cut a hole just beside the big barn door, but when the farmer returned and saw it he was much displeased.

"Why can't I depend on you boys to do a single thing right?" he exclaimed angrily. "Don't you know that hole is in the wrong place?"

"Why?" asked the boys. The farmer fairly snorted. Leaping from the buggy, he seized the barn door and swung it open and, of course, it covered the aperture. "Now where is your cat hole?" he shouted. "How in the name of sense can the cat get into the barn when the door's open?"

Protect Machinery.

Note repairs needed on farm equipment when through using tools. Clean, oil and store machines out of the weather. This practice lengthens the life of a machine and prevents delays when it is to be used.

Allan Falconer, champion Canadian rider. With the title, he got the saddle, a loving cup and \$2,000.

CAN GIRLS RAISE PIGS?

BY VERA M. DEAN.

When I was nine years of age I was a very sick little girl. I had to stay home from school a great deal, until the doctor told me to spend as much time as possible in the open.

Dad got me interested in helping him on our 240-acre farm. There were all kinds of chores to do—calves, pigs, horses and cows to take care of, besides berries and bees.

However, pigs were my choice. The pig is one of the cleanest and most intelligent animals on the farm if it's given a chance. Besides, pigs increase faster and mature quicker and give more and quicker profits. I have worked other projects in club work, but pigs make my biggest profit and help increase my bank account.

When I wasn't much older than eleven an old bearded friend of my father's was over to see us. I told him about my interest in pigs, but he only smiled. I think I have raised wrong when I say that girls can be more successful than boys in the raising of hogs. Girls usually take more pains and time in keeping hogs and their quarters more sanitary, and look after the minor ailments with closer attention.

One morning my father found one of his best Berkshire sows dead after farrowing eleven little pigs. Five of them were still alive. He gave them to me and I took them to the house and fed them warm milk with a teaspoon.

In a few days they learn to eat from a shallow pan. They were kept in an old washbowl near the stove at night and were carried out into the open and sun in the daytime.

They grew fast and a grass lot was provided for them. Their main ration was milk with ground oats, and weeds from the garden. I gave them a clean place to sleep and washed them with disinfectant to keep them free from lice and their skin clean.

When Fair time came, I exhibited three of them at our County Fair and won two firsts and one second, selling two of the male pigs at \$85 and \$75 each. Since then I have won many prizes and cash prizes to the amount of \$1,833.25, besides many other trophies and free trips.

But showing alone was not the height of my ambition. I wanted to make a real business out of it. I did, and discovered that feeding is the most important thing to make one successful in the pig business. Here is my summary of how to do it:

Skim-milk and whey, with plenty of green pasture—alfalfa, sweet clover, red clover, blue-grass and fresh-pulled weeds of all kinds. Greens cut the feeding cost in two and make better pork and breeding animals. For concentrates feed ground oats and standard middings with a little oatmeal, salt and wood-ashes added. Feed sparingly and regularly four times a day. My experience is that pigs respond to good care more than any other animal.

Can a girl who is successful in the Pig Club Project be successful in canning? Why not? Last year while I was in the show-ring showing some of my dandy prize-winning pigs, I was challenged by my competitors, also by a few noted men and women, that a girl who could be successful at raising and showing hogs could not be successful in canning and sewing.

Upon hearing this remark, I decided I would show them that a girl can work the two projects together successfully.

On March 1, I signed up in the canning project, my motto being, "Can all you can, show them you can," and at the end of the contest, I had canned 1,269 pints of fruit, meat and vegetables, and no doubt would have canned more but I doubt my time with my three other projects, demonstration team and county leadership.

In sewing I completed 29 articles and garments inside of three months. Not knowing anything about sewing when I started, I feel that it has taught me a lot.

So in conclusion, when any one asks me, "Can girls and women be successful in raising hogs?" I point to my rack of ribbons and other prizes and say, "I certainly believe they can!"

A FARM WHICH WALKED DOWN MAIN STREET. Above is one of the Canadian Pacific floats which took part recently in a procession at the Calgary Stampede and was regarded as the most unique feature of the parade. It is a complete model of a farm and besides the usual buildings and livestock, shows such details as a radio aerial stretching from the barn to the farm-house, an automobile entering a garage, farm implements and all the paraphernalia customarily associated with modern farm yards. The float was prepared and contributed by the Department of Natural Resources of the Canadian Pacific Ry.

A QUESTION OF CLOTHES

BY L. W. KING.

My friend from down East is having a wonderful journey; it is her first vacation in many years and she is enjoying it to the utmost. From every city she visits she sends me enthusiastic post cards, so that I can follow and enjoy with her all of the novel sights and good times. On her way my friend stopped with me for a day and a night, and we had one of those delightful visits that only two women who have known each other for years can experience.

I was so pleasant to help her unpack her pretty dresses and hang them away, to listen to her newsy chat about other good friends, to set our supper table out under the trees at the edge of the garden, and later to sit there in the moonlight gossiping long after all the windows in my neighbors' houses were dark.

We exchanged views on every subject under the sun, from politics to recipes, and of course the question of clothes was given not a little consideration.

"I thought at one time I was not going to be able to make this trip," said my friend. "I felt that I could not afford both the journey and the new clothes I would need for it, and so I became discouraged and almost decided to stay at home."

"But you managed the new clothes in some way, didn't you?" I replied; for no woman could ask for a more suitable wardrobe.

"Yes, I managed, but not with new clothes; just furnished up my old things and made them do."

Of course I wanted to know all about it and, as we are old friends, she told me.

"First of all," she began, "I laid out all the clothes I possessed and looked them over and made a list of them. Then I made up my mind which could be made presentable, and decided to concentrate on them. I discovered all sorts of ways in which they could be freshened up; new and attractive collars and cuffs did it for some of them, a change in the waistline made a wonderful difference in others, some of the skirts I shortened to conform to the latest mode and then I managed an ensemble costume from an old tailored suit that I feel is quite an achievement."

"I remodeled the sleeves in several good but unfashionable dresses and brought them up to date in other ways. And do you know I had almost as much fun fixing over my old things as though I were planning a whole new wardrobe?"

"While I worked I discovered many things that are going to prove very valuable to me in the future. One is that it is very foolish to let the question of clothes interfere with one's chances for a good time, and another that it isn't necessary to follow all of fashion's whims in order to be well dressed. Becoming lines and colors, distinctive little trimming details and simplicity now seem to me the very foundation stones to a well-thought appearance."

And when I saw my friend off at the train the next morning, garbed in her cleverly remodeled dress, with its crisp, becoming collar and cuffs, her simple hat and neat shoes, I knew that she was right. Becomingness is the most important quality a woman's clothes can possess.

The Horse in Hot Weather.

Water often when the heat is intense, a little at a time if horse is warm; don't water too soon after feeding, and always at night after horse has eaten his supper.

When the sun is hot let horse breathe once in a while in the shade of some house or tree. Anything upon the head, to keep off the sun, is bad for the horse unless it is kept wet, or unless the air can circulate freely underneath it.

If horse stops sweating suddenly, or acts strangely, breathes short and quick, or if ears droop, get him into the shade at once, remove harness and bridle, wash out his mouth, sponge all over, shower legs, and give him two ounces of aromatic spirits of ammonia, or two ounces of sweet spirits of nitre in a pint of water, or a pint of warm coffee. Cool head at once, using cold water or if necessary chopped ice wrapped in a cloth.

A hot night in a narrow stall neither properly cleaned nor bedded, unfits the horse for work.

Turning the hose on the horse is too risky a thing to do unless you are looking for a sick horse. Spraying the legs and feet when he is not too warm on a hot day will be agreeable to him.

Sponge out the eyes nose and dock when the horse comes in tired and dusty at night with clean cool water, and also sponge under the collar and saddle of the harness.

Juniors' frocks in bright prints and plain colors, for afternoon or play, are charming with short kimono sleeves and little boyish collars or low necks. A sash of contrasting-color ribbon is tucked beneath side plaits, which form a panel effect in the front, tying in a large bow at the back, and is the only trimming. The diagram pictures the simplicity of Pattern No. 1138, which is in sizes 4, 6, 8 and 10 years. Size 6 years requires 1 1/2 yards of 36-inch or 40-inch material. Price 20 cents.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically, by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

HOW TO ORDER PATTERNS.

Write your name and address plainly, giving number and size of such patterns as you want. Enclose 20c in stamps or coin (coin preferred; wrap it carefully) for each number, and address your order to Pattern Dept., Wilson Publishing Co., 73 West Adelaide St., Toronto. Patterns sent by return mail.

Polluted Well Water.

If doubtful of your farm water supply, send a small sample to the Bacteriological Dept., O.A.C. for examination and advice. At this time of year, when wells are low, contamination is frequently found. Boiling doubtful water for drinking purposes is always good practice, as is also the treating of same with chloride of lime.

What a Cynic!

Tired Business Man—"I'd like to go where I'd be entirely cut off from the world."

Friend—"Why don't you try a telephone booth, old man?"

BLEMISHES OF THE SKIN

Are Proof the Blood is in a Weak and Watery Condition.

One of the surest signs that the blood is out of order are the pimples and unsightly eruptions that break out on the face or body. The same condition is indicated by an attack of eczema or scrofula. You cannot get rid of these troubles by the use of purgative medicines, as so many people try to do. Purgatives merely gallop through the system and leave it still weaker. What is needed when the blood is shown to be out of order is a tonic which will restore its missing elements and leave the blood rich and red. For this purpose there is no other tonic can equal Dr. Williams' Pink Pills, every dose of which helps enrich the blood, drives out impurities, and brings a new feeling of health and energy. Mrs. R. E. Bishop, Hawthorne Ave., Hamilton, Ont., tells for the benefit of others what these pills did for her. She says: "I was suffering terribly from scrofula. I doctored with several doctors, but without success. My complexion was sallow, I had no strength, feeling very weak and languid. My neck was full of lumps called scrofula, and at times they were very painful. After trying several so-called blood medicines, Dr. Williams' Pink Pills were recommended to me and I got half a dozen boxes. After taking them I found a decided improvement in my appearance, and to my joy the lumps were disappearing from my neck. I persevered in the treatment, and finally the only sign left of the trouble was a scar on my neck where one of the swellings broke. Since that time I have been in robust health and heartily recommend Dr. Williams' Pink Pills to any suffering from impure blood."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Polishing Hurts Apples.

Polishing apples interferes with their keeping qualities. The real function of the bloom of apples and other fruits is not definitely known, but apparently it affords some protection and is associated with certain life processes.

Polishing the fruit either purposely or in a more or less accidental manner interferes with these natural processes and causes earlier break down.

On one occasion a volume of apples crated on October 11 was divided. One allotment was carefully polished and the other went into storage in a natural way. The polished apples decreased in quality rapidly, and by January 22, 34 per cent. of the lot showed marked breaking down. Not only did the polished fruit show more rapid deterioration and greater loss of weight, but it showed a uniformity greater loss for the period. In other words, the loss of weight by the polished fruit was noticeable from the first day, and there is no indication of the heavy loss of this fruit early in the storage period being equalized by more rapid losses from the unpollished lot later.

Of particular practical significance is the fact that by December 12, two months after storage, the polished apples in this particular lot had become so wilted that they were practically unmarketable, while the unpollished portion was in good marketable condition.

The Wandering Mind.

"Reggie fancies he's a great traveler."

"Yes, his mind's always wandering."

Vanity, All is Vanity.

"How do you like that new mare of yours?"

"Oh, fairly well. But I wish I had bought a horse. She's always stopping to look at herself in the puddles."

Encouragement.

She (as train toots at grade crossing): "George, you go right ahead. Don't let that big brute bully you."

An Artificial Resin.

French chemists have developed an artificial resin from which panels for radio sets are to be made.

WE WANT CHURNING CREAM

We supply cans and pay express charges. We pay daily by express money orders, which can be cashed anywhere without any charge.

To obtain the top price, Cream must be free from bad flavors and contain not less than 20 per cent. Butter Fat.

Bowes Company Limited, Toronto

J. E. Barnard, seated, who collaborated with Dr. Eye in the research which led to the discovery of the cancer virus. He is shown with his assistant.

Stories About Well-Known People

A Barrie Yarn.

Sir James Barrie, the dramatist, in whimsical mood at a luncheon recently given in his honor, chatted gayly about Sir Francis Bacon and other writers and gave a Barrieque contribution to the perennial Bacon-Shakespeare controversy.

"It often has been said that Shakespeare was like a cuckoo, the bird that lays its eggs in other birds' nests," said Sir James. He then referred to the ghost of Stationers' Hall, saying, "The ghost, I understand, is a scrap of paper which proves conclusively that Bacon did not write Shakespeare's plays."

"This document, I am told, and soon I will know for certain, is signed by Shakespeare and is in these words: 'Received from Lady Bacon for fathering her play of "Hamlet" the sum of five pounds sterling.'"

Then Barrie went on in even a lighter strain, much to the delight of his listeners, declaring: "After all, that famous old liveryman of the Worshipful Company of Stationers was probably the wife man who said to Ben Johnson, 'I know not whether Bacon wrote Shakespeare, but if he didn't, it seems to me he missed the opportunity of his life.'"

A Sir Prime Minister's lack of affection for his notice at a reception in Whitehall the other night.

An overseas visitor was announced. Hearing the name, the Premier turned and extended his hand in greeting.

"How do you do, Mr. Baldwin," he said, quietly. "My name's Baldwin."

Prolific.

Seeing four of their plays running in London at once is a pleasure allowed to few authors. But Mr. Noel Coward has recently been enjoying the experience, for he is the author of "On With the Dance," "Fallen Angels," "Hay Fever," and "The Vortex." The last has come to the end of its long run, but it is said that Mr. Conrad is soon to turn out another play, entitled "Easy Virtue."

So possibly he will again have four plays running at the same time. And he is only twenty-five!

Surnames and Their Origin

MORLEY.

Variation—Marley, Marley, Mahrie, Mehrie, Merle, Merley, Merly, Varley.

Racial Origin—Irish. Source—A given name.

Few of the variations in this group of family names would be popularly regarded as Irish. Yet they are.

If persons bearing these family names to-day were to spell them in the true Gaelic fashion, it would be "Mac-Mearlaigh," but the pronunciation wouldn't be materially different, barring those certain twists to the vowels and the faint guttural which you sometimes hear in the speech of the Irishman and the Highlander and term variously a "brogue" or a "burr." The form of Marley comes a little closer to this pronunciation than Marley, though the latter of the two Anglicized forms is the more common spelling.

This clan took the name about 1150 A.D. from a chieftain named "Mearlach." The meaning of this given name is "quick-warrior."

The form Varley, not often met with in this country, is a variation embodying a Gaelic twist, for in certain combinations the Gaelic letter "m" takes the sound of "v." The letter "y," though not the sound, is absent from the Irish language.

Really Over!

That great head master, Dr. Allington, who rules the destinies of scholars at Eton, has a great dislike of all games so a friend of his told the writer.

Once when Dr. Allington was escorting the father and mother of one of the school eleven to see the son play he dawdled so long that they became irritated. On reaching the ground his face lit up with pleasure when an umpire called out "Over!"

"I'm very glad it is," said Allington, and promptly returned to his study!

Princess as Chambermaid.

A few days ago, at a well-known London hotel, I stumbled on a remarkable real-life romance, though a sad one. I discovered a princess working as a chambermaid, and thankful for the opportunity. She is Princess Alla Meestcherevsky, although not one in a hundred of the people on whom she waits realizes her identity.

Telling her story, the Princess revealed that she had lost her all in the Russian revolution. But the hardships she has suffered here are almost as great as those of which she was a victim in her own country. At one period she spent her nights in a hospital for "down-and-outs." Then she got a post as a nursery governess, but ill-health cheated her of it. She has been a general servant, too.

Don't Worry.

Doctors have been gathering statistics on nervous diseases and their tendency to shorten life, and have issued a remarkable bulletin against worrying.

"So far as is known," the bulletin says, "no bird ever tried to build more nests than its neighbor; no fox ever fretted because he had only one hole in which to hide; no squirrel ever died of anxiety lest he should not lay by enough nuts for two winters instead of one; and no dog ever lost any sleep over the fact that he did not have enough bones laid aside for his declining years."

Get acquainted with great men. Finding out how insignificant they are will encourage you to greater effort.

Minard's Liniment for Corns and Warts

The Alien.

He halts his push-cart underneath a tree, And waits for children in the park to buy; He looks into the arching dome of sky, And stands there still, remembering Italy.

A ruined temple hidden in a vine Of ivy climbing on its portico, And yonder, where the ripening olives grow, A woman praying at a broken shrine.

He stands there still, remembering Italy.

The woman's eyes beneath a veil of hair—

The sun fades out, the arching sky is dark,

So dark, indeed, that he can hardly see—

That every one has gone and left him there—

The apple vendor, waiting in the park.

—Owen Bristow

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the newborn babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Old Stuff.

Wife—This menagerie manager advertises a complete collection of the world's animals—the first ever made. Hubby—"Old stuff—Noah beat him to it before the flood."

Raw Foods Would Make Us Giants.

By eating uncooked food we may "evolute" into a race of giants, according to the theory of W. T. Anderson, editor of the Macon Telegraph, and frequently mentioned in Georgia as a probable and formidable candidate for governor at the next Georgia Democratic primaries.

"Men are dwindling to the stature of pygmies since the custom of cooking food has become the accepted standard of civilization," declared Editor Anderson in a recent address. "It is high time we returned to raw food. Men were giants before cookstoves were used."

Japan to Extend Drills.

Military training of all students in Japan, which is embodied in the proposed national military training system, was commenced recently in the normal schools of the empire. It is planned to extend the system to students of middle and other schools of higher grade next year.

Estimated cost of inaugurating the program in the lower and higher grades has been estimated at 6,000,000 yen. It is hoped the new system will be in operation in 1928.

Military authorities will be asked to supply 300,000 rifles to the different schools and young men's associations.

To be ignorant of what happened in the world before you were born is to be all your life a child.

A tea your grocer recommends is usually good tea

RED ROSE TEA "is good tea"

And most grocers recommend it.

The Vial of Perfume.

There they lay, ready to be packed, some carefully selected gifts for the missionary far away on the other side of the world. The lady who was sending them reached across her desk, and suddenly the room was filled with a strangely sweet perfume. It was as if a gentle breeze had stolen in at the window across a garden of roses—yet it was winter, and outside the ground was covered with snow. In stretching her hand the lady had overturned a vial of delicious perfume, a little of which poured out upon the gifts that were to be sent on their mission.

In far-away China a tired little missionary opened a package from America, and a strange sweet fragrance greeted her like a breath from a rose garden at home. It brought her an added joy that the gifts alone could not have given.

We are always giving; sometimes because we delight in giving, sometimes because we see the need and feel a sense of duty; but all the time close beside our gifts stands an unopened vial, and when we pour out some of its contents upon our gifts it increases the value tenfold.

Oh, the vials of love and cheerfulness unopened in our hearts! Let us keep them sealed no longer, but pour out their contents upon our gifts, whether they are for loved one or the stranger. How wonderfully the presence of a loving spirit enriches even the noblest of gifts!

Borrowing Again.

It was the day of the school concert, and the audience consisted mainly of mothers, proud or envious, according to the parts that their children were playing.

One small boy came on to the platform. Striking a bold attitude, he began:

"Friends, Romans, countrymen, lend me your ears."

Whereupon one of the mothers turned to her companion.

"There, that's the Joneses' boy," she said, tartly. "He wouldn't be his mother's son if he weren't trying to borrow something."

Minard's Liniment for Aches and Pains

A Candid Little Thing.

Children, even when well bred and polite, often speak with disconcerting frankness. As for example:

A fashionable lady was calling on the small girl's mother.

"And how are you, my dear?" she inquired.

"Very well, thank you," answered the child.

"Now, my dear," went on the visitor, "you should ask me how I am."

"But I don't want to know," came the candid but unexpected answer.

Parrots Menaced.

Magnificent parrots peculiar to certain of the Lesser Antilles are threatened with extinction.

MINARD'S LINIMENT

HARD PIMPLES ALL OVER FACE

For About Three Years. Healed by Cuticura.

"I had trouble with pimples and blackheads for about three years. The pimples were scattered all over my face and were hard and red. They itched and burned a lot causing me to scratch and the scratching caused eruptions. My face looked so badly that I was ashamed to go out."

"I began using Cuticura Soap and Ointment and they helped me. I continued the treatment and in two months I was completely healed." (Signed) Miss Helen Budnik, R. 1, Box 11, Neerda, Wis., Sept. 27, 1924.

Rely on Cuticura Soap, Ointment and Talcum to keep your skin clear.

Travel CANADIAN PACIFIC

On The Road To Nelson

(1) A Canadian Pacific Lake Steamship plying between Nelson and Kaslo on the British Columbia lake district. (2) "The Canyon" near South Fork on the Kootenay River. (3) Bonington Falls. (4) "The Pool" near Nelson on the Kootenay River, B.C.

On the road to Nelson, whether one enters from the east or west, new beauties charm the eye at every step. Murmuring pines and fir trees cast their shadows along sunny roads, while wayside flowers gladden the eye. Even in winter, it is equally picturesque, when snow crystals adorn the trees and shrubs, with flowery jewels, their shadows casting strange pictures across the soft snow covering the sleeping earth. For winter in the mountains of British Columbia is a season of joyous sport and out of door life.

Along the way, as the Kootenay makes its downward dash to the Columbia, appear falls and rapids. Two of these are utilized for electric power, by the West Kootenay Power and Light Company, which distributes power for three hundred miles, and the City of Nelson power company, which provides its citizens with heat and light and power from this source. Beyond another of these rapids is the famous fishing

ground, known as Blocon pool, where fishermen from all over the world have tried their luck through dark and sunny days.

While the fishing may take time and patience, if the season or the bait is not just right, not so the scenery, for the beauty of the entire riverbed may be seen from the car window when passing between Nelson and Kaslo, where two routes are provided to the Pacific coast.

—Mrs. W. Garland Foster.

MONEY MAY NOT STICK

It is now stated on good authority that the report broadcast last week to the effect that Phil Forbes, of Nasagawaya, self-styled king of bootleggers, was worth \$50,000 to \$75,000, was all pure imagination, and, like the liquor Phil handled, "moonshine."

Forbes would like now to be in possession of 75,000 cents. He called Police Magistrate H. P. Moore into jail last Friday to say that he would like to pay his \$1,000 fine and reduce his term of imprisonment by six months, but was afraid that even if his wife could sell his motor car and truck he could not raise more than \$700 or \$800.

It is now said that Phil never had more than a thousand or two in his palmiest days.

His father, George Forbes, who was also reported to be the owner of a big bank account, says that he is dead broke; that it took all he could scrape together to raise \$510.60 to get his daughter-in-law, Mrs. Jim Forbes, out of jail in May. At present Phil is in jail, and Jim is in jail, and Phil's brother-in-law, Gordon Gallagher, is in jail.—Milton Reformer.

Lady Broke Her Leg

Milton, Aug. 17.—Mrs. George Fisher, of Trafalgar Township, has been removed to a Toronto hospital. She had the misfortune to fall and break her right leg a short time ago, and complications setting in necessitated hospital treatment.

Garage Man Assigned

Milton, Aug. 17.—Thayer Hepburn, proprietor of the Hepburn Garage here, has made an assignment to the Canadian Bank of Commerce. This is the first assignment made in Milton for many years.

Broke Arm Cranking Car

Milton, Aug. 17.—Miss Edna Wood, of Nelson Township, received a broken arm when the engine backfired as she was starting her automobile.

THE RADIANT GROOM

The following press account of a fashionable wedding did not appear in any issue of any newspaper that we know of. It was written by a young lady who had become impatient of the many caustic remarks she had heard about the lack of attention paid to the groom at any wedding. She shows what might be the result were the groom made the centre of interest instead of the bride, and the result is fearful enough to make any prospective bridegroom quite content to be a mere cipher at his approaching nuptials.

"Mr. Phil Bert, son of Mr. and Mrs. Brazil Nutt, of Nuttingham, became the bridegroom of Miss Equal Rights at High Noon to-day. The ceremony took place at the home of the groom's parent, and was largely attended.

"Mr. Nutt was attended by Mr. Pecan as groomsmen. As the groom approached the altar he was the cynosure of all eyes. Blushing prettily he replied to the clergyman's questions in low but firm tones.

"He was charmingly clad in a three piece suit consisting of a coat, vest and pants. The coat, of some dark material, was draped about his shoulders and tastefully gathered under his arm. A pretty story was current among the wedding guests, that the coat was the same as that worn by the groom's father and grandfather on their wedding days.

"Mr. Nutt does not deny the truth of the sensational touch. The vest was sleeveless, met in front. It was gracefully fashioned with pockets, and was held together at the back by a strap and buckle. Conspicuous on the front of the vest was the groom's favorite piece of jewelry, an Odd Fellow's pin, and from the upper left hand pocket was suspended a large Ingersoll watch, the bride's gift to the groom, which flashed and gave the needed touch of brilliance to the costume, in perfect taste and harmony.

"The groom's pants were of dark worsted material and were suspended from the waist, falling in a straight line almost to the floor. The severe simplicity of the garment was relieved by the right pantalolet, which was caught up about four inches by a Boston Brighton, worn underneath, revealing just the slightest touch of brown holeproof above the genuine leather shoes laced with strings of the same color. The effect was rather chic.

"Beneath the vest the groom wore blue galluses attached fore and aft to the pants and passing in a graceful curve over each shoulder. This pretty though useful part of the costume would have passed unnoticed had not the groom muffed the ring when the bridegroom passed it to him. When he stooped to recover the errant ringlet, the cerulean blue of the galluses was prettily revealed.

"His neck was encircled by a collar, characterized by a delicate saw-edge, and around the collar a cravat was loosely knotted so that it rode under his left ear with that studied carelessness which makes supreme artistry in dress.

"Mr. Pecan, the groomsmen's costume was essentially like the groom's, and as the two stood at the altar a hush of admiration enveloped the audience at the complete and wonderful harmony of the raiment. Actually you could hardly tell one from the other had it not been for the patch of court plaster worn by the groom over the niche in the chin made by a safety razor. Neither Mr. Nutt nor Mr. Pecan wore a hat at the ceremony.

"As Miss Rights led her groom from the nuptials it was noticed that she wore the customary conventional veil and orange blossoms."

THE REVIEW

Streetsville

Toronto Divided into Postal Districts

For the purpose of expediting the sortation and delivery of letters and other mail matter addressed to Toronto, the City has been divided into Postal Districts along somewhat the same lines as has obtained in London, England, and large Continental cities for years.

There are ten Postal Districts—Nos. 2 3 4 5 6 8 9 10 12 and 13.

Toronto residents and business concerns will notify correspondents of the number of the Postal District in which they are located.

The Postmaster General asks that the public assist in making the new system a success by always placing the Postal District number immediately after the word "Toronto" in the address. Thus a letter for delivery in Postal District No. 2 would be addressed—

Mr. John Smith,
196 College St.
Toronto, 2,
Ont.

If intended for District 3, the address would be Toronto, 3, District 4 would be Toronto, 4, and so on.

It is MOST IMPORTANT, however, that the full street address be given in every instance. Otherwise delayed delivery or perhaps non-delivery will result.

Good Crops on Scene of Last Year's Plowing Match

Splendid crops are to be seen on the big 700-acre farm of B. H. Bull and Son, where the big Provincial Ploughing Match was held last year. According to Dixon Rutherford, farm superintendent, there is no difference between the crops grown on land where the high-cut classes were held and those grown where the jointer classes held sway. He did note, however, that the latter worked down a little more easily in the spring, and also that in the case of the corn crop the high-cut land required a little more cultivation to keep down the weeds.

Incidentally on the Bull farm they have 70 acres of corn and 12 acres of roots, both splendid crops. The 250 acres of spring grain is above the average for the district and at the time of our interview Dixon Rutherford with a farm-horse outfit was busily engaged opening up a 35-acre field of oats, a visit to which should dispel all doubts as to the ability of Peel farmers to grow good crops.

Alfalfa Growers Commence Cutting

Last week saw the beginning of the harvesting of the mammoth alfalfa seed crop. Many of the growers are using a binder for the first time and apparently it is making a good job. A large number of others are, however, using either the reaper or the mower with various attachments. According to all appearances, the crop should yield around 6 bus. per acre on the average. In the fields which have been rogued the quality should be good, but unfortunately weeds are encroaching in some, and only a second grade article can be the result. The problem of weeds is a very serious one at the present time and particularly so in a district which is making a business of growing seed as a cash crop. It would appear essential that township councils more strictly enforce their weed by-laws, and in addition to this is would appear to us that it is even more important that each individual see to it that the weeds are not only cut along the road-sides but also around the various fences on their own farms. Very often this work should be done at least twice in the season if the owner hopes to keep the plants from going to seed and thence to spread to various parts of his farm.

Get-of-Sire Classes at the Brampton Fair

The directorate of the Peel County Agricultural Society are again planning to take advantage of the "Get of Bull Competition," the policy of which is administered by the Dominion Live Stock Branch. Two classes will be put on, one for Jerseys and the other for Holsteins, and an entry in each will consist of a group of three animals, not necessarily all the property of one owner, but all three the progeny of one pure-bred bull. The group of three may be comprised of either grade or pure-bred heifers and pure-bred males. Prizes of \$20, 15 and \$10 respectively will be offered in each class, and this should bring out many entries from the respective lovers of the Jerseys and the "Black and Whites."

PORT CREDIT

Coming into the Credit River last night and anchoring there, a huge sand pump sent up by the Dominion Government made its appearance, much to the surprise of many Port Credit residents. Inquiry revealed the fact that the sand pump crew had instructions to dredge out the channel and deposit the sand on the marshy portions of land along the shore owned by the Dominion Government and used by the public as a picnic ground and park.

For many years the harbor has been in a state of gradual ruin, with the piers and breakwaters rotting away. Several years ago the light-house, said to be one of the oldest on this side of Lake Ontario, was put out of commission. A number of derelict scows and other small craft are lying rotting in the harbor.

Owing to the shallowness of the harbor it has been thought impossible to remove these eyesores. Some days ago a few business men of Port Credit held a conference and decided to have the case presented to the Dominion Government. It was pointed out that many small pleasure craft which are becoming so popular in these waters need a refuge in the harbor as well as many fishermen who daily use the harbor for the purpose of landing their fish and drying their nets.

At an estimated cost of \$42,000, a six-roomed addition is to be made to the Forest Avenue School at Port Credit, work to be started as soon as possible. Tenders have been called for, D. C. Cotton being the architect in charge.

For some time the need for extra accommodation for pupils has been imperative, and the building of the addition follows the decision of the School Board and Council of some weeks ago to go right ahead with the project.

BRAMPTON

Corp. John Woodhouse, of this town, passed away to-day at Christie Street Hospital, after a lengthy illness. He was in his fifty-seventh year, and during most of his life had served in the Imperial forces. Corp. Woodhouse was born in England, coming to this district about 16 years ago. In the Great War he was one of the first in this town to enlist, and went overseas with the 4th Battalion. He was a casualty in the first Ypres fight, and, after a time spent in hospitals in England, was sent home as a convalescent. He had a great military career, and during the recent visit of Earl Haig to Toronto the distinguished soldier shook hands with him and complimented him on his many medals. He had been awarded medals for service on the Indian Frontier, in Egypt and in the South African War, besides the Great War. He had served for 19 years with the Seaford Highlanders. Corp. Woodhouse is survived by his wife. He was an Anglican, a member of Christ Church here. The funeral, which took place on Sunday from the Armories here to Brampton Cemetery, was of a military nature.

Parkhill L.O.L. No. 3489, Islington, entertained the members of Earlby Shannon, L.O.B.A. No. 550, of the same place, 125 guests taking part in the event on Saturday afternoon at Eldorado Park. The most exciting part of the outing was the tug-of-war between the ladies' team and the men, the ladies' being easily the victors on each tug.

On Monday Geo. Agnew was driving a self-reaper, cutting lucerne on his farm in Nelson, on the mountain, near Milton. The machine struck a stone, and Mr. Agnew was thrown off. He fell with his legs crossed and both bones of his left leg were broken below the knee.

On Monday evening the town council of Brampton was asked to guarantee a loan of \$10,000 to the Peel Memorial Hospital. It was represented that pressure had been brought to bear by citizens of the town and by the local doctors upon the board of governors urging the opening of the hospital. The work was rushed, though there were no funds in sight. The board was disappointed in not receiving a larger grant from the county council. It was stated that the hospital was paying its way, but that it had an indebtedness of \$7,500, most of it owed to Brampton men.

"We did not find a single place of all that we visited in the State of Michigan during our tour that we would exchange for Ontario," was the universal verdict of a large party of Bramptonians who have been touring Ontario and Michigan for the past month. In the party were Mr. and Mrs. Arnott McClure, Mr. and Mrs. Thomas McMichael, Mr. and Mrs. W. A. Nelson, Mr. and Mrs. W. C. Spier, Mr. and Mrs. James McClure, Mr. and Mrs. Ray Watson, Georgetown. The party left Brampton a month ago, went north through Muskoka, visited the northern towns, crossed into Michigan at Mackinaw, and returned by way of Sarnia, Kitchener and Guelph. They found excellent roads through the north, and were struck by the long strings of United States tourists carrying camping outfits.

WOODBIDGE

To Robert Watson, of Vaughan Township, Lot 7, Concession 6, falls the honor so far this season of growing the best yielding field of wheat in the Province of Ontario, 55 bushels to the acre over 19 acres of land, and which around the present prevailing price of \$1.45 per bushel, would realize in the neighborhood of \$1,500.

Mr. Watson is one of the best farmers in the township, and the wheat is of the Golden Dawson variety. Another good yield is that of Fred Jackson, near Vellore, also in Vaughan Township, who has threshed 530 bushels of the Dawson variety. These yields are extraordinary even for Ontario. Alfie is running from 6 to 7 bushels to the acre.

DISTRICT NEWS

Miss Eldred Sibbald, of Hornby,
visited with her cousin, Miss Norine
Gardner, at Bolton.

Margaret Wiggins, of Sunnyside
Corners, passed her entrance exam-
inations this year and is only nine
years old and weighing 48 pounds.
She has attended school for only four
years and seven months.

The engagement is announced of
Mary Margaret, second daughter of
Mr. Andrew Giffen of Brampton, to
John Hunter McCulloch, younger son
of Mr. and Mrs. Robert McCulloch of
Brampton, the marriage to take place
very quietly at the end of August.

Mr. and Mrs. Frank Dobson, Nob-
leton, Ont., announce the engagement
of their eldest daughter, Gertrude
Irene, to Mr. Edward Hollingshead,
son of Mr. and Mrs. S. Hollingshead,
Schomberg. The marriage to take
place the latter part of August.

A pretty wedding was celebrated in
Hamilton, when Elise Jane Cowie,
daughter of Mr. and Mrs. John Cowie,
Nelson Township, became the bride
of Reginald White, son of Mr. and
Mrs. Ernest White. Rev. Mr. Norm-
an officiated. After the ceremony a
reception was held, after which the
couple left for Port Carling for their
honeymoon. On their return they
will reside in Hamilton.

Alliston has lost its second Reeve
by death during the past eight
months. H. A. Baycroft, who was
elected last June to replace the late
Jas. Moore, passed away on Sunday,
Aug. 2nd. Another election will now
be held to fill the vacancy on the
council board.

The death took place at her home,
Lot 8, Concession 4, Esqueping Town-
ship, on Friday night, of Mary Wil-
son, widow of the late Abram Stark
in her eighty-eighth year. Mrs. Stark
was a lifelong and active member in
Boston Presbyterian Church, one of
the oldest churches in Canada, erected
nearly 110 years ago. Her hus-
band died twelve years ago. She is
survived by five sons and two daugh-
ters; William L., Robert and John,
of Esqueping Township; George, in
Detroit, Mich.; Abram, of Trafalgar
Township, and Misses Mabel and Mol-
ly, at home. The funeral will take
place tomorrow afternoon from the
homestead to Boston Church Ceme-
tery.

Hardware and Metal Magazines es-
timates that each year the local pa-
per gives from \$500 to \$1000 in free
advertising to the community in which
it is located. It adds: "No other
agency can or will do this. The editor,
in proportion to his means, does more
for his home town than any other
man, and in all fairness he ought to be
supported—not because you like
him or admire his writings, but be-
cause the local paper is the best in-
vestment the community can make."

The farmers in the north end of
Halton County are complaining of
the destruction to property by wild rab-
bits, which are so numerous that they
are over running the farms and doing
great damage to crops and vegetable
gardens.

Max Bierman, of Toronto, was
fined \$200 and costs by Police Magis-
trate Hugh Falconer in the police
court at Grand Valley on Aug. 13th.
Bierman had 140 head of cattle on a
farm in East Luther Township. When
it was discovered the herd was suf-
fering with mange the Ontario Live
Stock Branch, Ottawa, quarantined
the animals. Since then some of the
animals were disposed of.

There passed peacefully away at
the residence of her sister, Mrs.
Trennor, Georgetown, on Sunday eve-
ning, Aug. 16th, Mrs. Alice Downey,
in her eighty-fifth year. Deceased
was born in Ireland, coming to this
country with her parents when eleven
years old, taking up residence at
Dixie, where she resided for many
years. She removed to Erindale,
where she lived for about twelve
years, then went to Georgetown about
thirty-three years ago, where she has
since resided with her sister, Mrs.
Trennor. Deceased leaves to mourn
her loss two sons and one daughter,
Mr. W. J. Downey, of Sioux City,
Iowa; P. Downey, Toronto, and Mrs.
W. Higgins, Brampton. Two sons and
her husband predeceased her. The
remains were laid to rest in George-
town cemetery. The beautiful floral
tributes were many testifying to the
esteem in which the deceased was held.

Cast prizes of \$4,000, and the title
of "Champion Band of Canada," will
go to the winner of the band com-
petitions on Music Day, at the Canadian
National Exhibition.

The ever popular Musical Ride will
again be given at the Canadian Na-
tional Exhibition by the Royal Cana-
dian Dragoons.

There will be four days of trotting
at the C.N.E., Saturday, September
5th, and the following Tuesday, Wed-
nesday and Thursday.

DO NOT GAMBLE

A Fool's Game

Invest—Read the Difference

Buying Shares in a Mine

"No more shares for me," said a
Toronto man when asked to buy treas-
ury stock in a company that is devel-
oping a group of claims, "I've had all
the mining I want. I've been hooked
properly in that game."

Not an uncommon complaint. But
almost always an illogical one.
"Yes," the broker replied, when he
got particulars. "You were hooked,
but mining did not do it. You did it
yourself. You were just plain specu-
lating on the market, not on the mine,
and the market slipped down and you
sold out at a loss. You didn't know
anything about the mine, the value be-
hind the shares, either when you
bought or when you sold. You
weren't interested in mining as a
business, you were trying to outguess
the market, and you fell down."

This size-up would fit the cases of
scores of people who think they have
lost money in mining, but who really
have lost it gambling.

Mining contains elements of specu-
lation not shared by other forms of
enterprise, but look it over and you
will see that it is as solid and sure an
industry as any in the country.

Next to agriculture it is the most
necessary industry in the world; with-
out mining, indeed, farmers would
still be turning over their ground with
rude wooden implements.

Glance around your office and see
everywhere what mining has done.
Your telephone, your typewriter, the
knob on the door, the pens on your
desk—you cannot look at anything
that did not spring from mining. You
pull out your watch, its metal was
made from mining. You feel the
money in your pocket, the coins were
made from Cobalt silver: The paper
money would be valueless without the
gold of Porcupine and Kirkland. The
machinery in the factories was first
ore in the ground, the coal you use
has to be mined.

An industry of such wonderful use-
fulness must be more substantial than
believed by our Toronto friend who
lost his money gambling, and thought
he lost it in mining.

We cannot deny that sometimes
people do lose money in mining en-
terprises, but can anyone name a
form of business or industry in which
money is not lost. If all the invest-
ments that have been made in the last
nineteen hundred years had turned
out well, very man, woman and child
to-day would have an income of a mil-
lion a year. But it has actually been
shown that mining does average up
as about the most lucrative and surest
form of investment.

Of course, it all depends how you
view it. You can look carefully into
the merits of this and that stock, and
then buy for solid investment. The
man who picked up Hollinger at a
price that show them today a yield of
12 per cent. made as solid investment
as can be found in Canada, at double
the ordinary yield given by best class
investments.

But at the other extreme is the
buyer of mining stock purely for
gambling purposes, without regard for
intrinsic values. When this type gets
outguessed they shouldn't blame min-
ing.

Unfortunately, however, they are
prone to charge the industry with
their losses, and unfortunately also,
we hear more about these people than
about those who have used good
judgement and sound business prin-
ciples.

The amount of money that has been
made in gold and silver mining in-
vestments in Northern Ontario is enor-
mous. It runs to a quarter of a
billion dollars (\$250,000,000), almost
half in dividends, the balance in in-
creased prices of the original shares.
What has been lost is insignificant
beside the quarter billion.

The mines have been very, very
good to the investor who has used
good judgement. The markets have
been lenient with the speculators who
have taken wild fliers on tips and
hearsay. An unusually large proportion
of the mining properties that
have been tested out have made good.

Some thousands of people can to-
day credit the ownership of hand-
some homes and a couple of cars to
a fortunate investment in the origi-
nal shares of a mining company.

There can be little doubt that the
mines of the north will go on in their
work of making millionaires, of mak-
ing moderate fortunes, and assuring
people freedom from financial worry.

We are inclined to the view that
in the future, as in the past, it is the
people who invest their money in the
mines, rather than those who specu-
late in the market who will win out.

There is a big difference between
those who seek to "get rich quick"
by gambling on the rise and fall of
the markets, and those who seek
wealth on the solid foundation of
ownership of the gold and silver and
other precious metals in the mine, an
ownership secured by investment,
after investigation. The former are
no help to Canada and not often
themselves. The latter are helping to

develop Canada and at the same time
helping themselves and their families
to greater financial ease and com-
fort.

PORT CREDIT

Toot, toot, splashing and wallowing
in the sands and rocks of the Port
Credit harbor, Dredge No. 3, of the
Toronto Harbor Commission, sounds
out its daily warning. For nearly two
weeks the dredge employed by the
Dominion Government has been suck-
ing sand from the harbor and deposit-
ing it a distance of approximately 100
yards away onto a marshy portion of
land situated on the east side of the
river. When dredging operations are
completed it is hoped that the marshy
land will be an ideal parking space
and picnic ground for the motorist.

The sandsucker, which is 165 feet
long by 32 feet wide, has been se-
cured for 17 days and up until the
present time has made great progress
in its work. When the dredge arrived
the harbor was approximately 6 feet
in depth and the bottom encumbered
with large stones and other debris.
These are being removed and the har-
bor excavated to a depth of between
12 and 15 feet.

According to Captain A. Marvin,
who is in charge of the work, wood,
rocks, pieces of iron, large stones, and
even an old motor tire have been
pulled up. "Only a few days ago a
solid iron plate, weighing in the
neighbourhood of about 100 hundred
pounds, was picked up," he stated.

A cutter head suspended under the
water by two long steel jaws with
steel knives on the end keeps revolv-
ing and stirs up the bottom of the
river. A pipe of two feet in diameter
is located near the suction and all the
sand, dirt and other miscellaneous ob-
jects are drawn through the pipe into
the dredge as far as the pump.

When they arrive at the pump the
sand and dirt is sucked through while
the bigger and other protruding ob-
jects are blocked. When this occurs
the engines have to be stopped and
the objects extracted from the pump.
"This always takes up a lot of time
and we lose that much work," said
Capt. Marvin.

According to the captain an old
wreck is located in the path of the
dredging operations, which was once
blown up, but parts of it are still
there. Stones and rocks are being en-
countered at present, while at the
first only sand had to be contended
with. There is 1,000 feet of pipes
stretched from the dredge to the
marsh, in a few days three or four
more lengths of pipes are expected to
be installed. At the present time
2,000 yards of sand a day are suck-
ed through the pipes, and 30,000
yards of marshy ground has been cov-
ered.

The sandsucker is fitted up with
every convenience. There are elec-
tric lights, bedrooms, kitchen and
dining-room, as well as its own heat-
ing.

On the prettily decorated lawn of
St. Mary's Roman Catholic Church,
the local branch of the Catholic Wom-
en's League held a garden party Sat-
urday afternoon, at which about 500
people were in attendance. Games,
music, moving pictures and dancing
kept the crowd interested afternoon
and evening while short addresses
were made by the pastor, Father
Sheridan and R. W. P. Parker, Lib-
eral nominee for Peel.

A feature of the day was the large
baby show, in which the following
children were adjudged the best: Up
to 6 months of age, John Edward
Whithall, son of Mr. and Mrs. Mi-
chael Whithall of Port Credit; from
6 months to 1 year old, Geo. Ramsay
Webster, son of Mr. and Mrs. George
Webster of the Centre Road; from 1
year to 18 months old, Mary Roche,
daughter of Mr. and Mrs. Michael
Roche of Lakeview, The President,
Mrs. M. Colligan, was in charge.

BRAMPTON

Bert Large, substitute goalkeeper
for the Excelsiors H. Lacrosse Club,
suffered a broken leg in the game
with West Toronto Shamrocks at
Oakmount Park yesterday.

The accident happened after the
first half. "Wally" Large, a brother,
and the regular goalie for the cham-
pions, played the first half and then
retired in favor of his brother. Bert
had been playing but a few minutes
when he was knocked down in a scuf-
fle in front of the nets, fracturing his
right leg. He was taken to St. Joseph's
Hospital, Toronto, and later
brought to his home here.

This is the first accident of its kind
to happen to a Brampton lacrosse
player and lacrosse has been the popu-
lar pastime here for the past forty
years.

Great Britain will again have an or-
ganized exhibit at the Canadian Na-
tional Exhibition, arranged by the
British Federation of Industries which
represents 1,900 manufacturing es-
tablishments with a capitalizing of
twenty-five billion dollars.

There will be a real Paris fashion
show in the French exhibit at the
Canadian National Exhibition. Live
mannequins will parade before the
crowds in costumes made by famous
French designers.

The Fresh Flavor of delicious "SALADA" GREEN TEA

is preserved in the air-tight SALADA packet. Finer than any Japan or Gunpowder. Insist upon SALADA.

Love Gives Itself THE STORY OF A BLOOD FEUD

BY ANNIE S. SWAN.

"Love gives itself and is not bought"—Longfellow.

CHAPTER XXVII.—(Cont'd.)

Judy had got some of the patten of the stage at her finger-ends, and had learned a great many things about the private life of its devotees which had astonished her not a little. Perhaps the greatest eye-opener had been the colossal nature of the work, its arduous exactions, its austerity. There could not be even a moment's slackening, and sometimes she wondered how Carlotta could stand it, and be invariably so cheerful and bright.

It may be said here that there was one flaw in the friendship between these two. Carlotta, out of a mistaken idea of sparing Judy's feelings, and perhaps making the future more bright and complete, had withheld from her a full confidence.

Judy was as yet unaware of the fact which Carlotta, in a moment of emotional abandon, had communicated to Jean Dempster, and had immediately thereafter repented of doing so and had laid a vow of secrecy upon Jean.

Judy did not know that Alan and Carlotta had been married at a London Registry Office on the morning of the day that he left London, and that Carlotta considered that she and all her earnings belonged to Stair. Had Judy been aware that that objective of Carlotta's life was to do her part in the redemption of Stair, she would have understood the practice of the small economies, which sometimes both puzzled and irritated her.

Carlotta smiled her far-away and most provoking smile as Judy closed off her arguments in favor of a closer alliance between Madox and his leading lady. She understood that Judy had much to try her, and thus forgave the pin-pricks of the everyday life which both were beginning to feel just a trifle trying and irksome.

It was Jean Dempster who was Judy's stand-by in those days. The acquaintanceship had made great strides, and often while Carlotta was at the theatre, Judy would slip down to Mrs. Isaacstein's for a chat with the countrywoman who understood her, apparently, better than Carlotta.

New York is a levelling place, and Judy, amid all the strange new whirl of her life, had almost forgotten the trammels of the old days, when she had known just this one or that, and had had her social list marked down with a blue pencil, in a county where in Stair could not only hold its own, but might lead, had been so minded.

Carlotta understood Judy far better than Judy imagined, and with the unerring intuition of the born student of human nature, laid her finger on the sore spot. Instead of making any answer to the jibe about Graham Madox, she leaned her elbows on her knees and looked across the floor-space of the hotel sitting-room of which they were both so heartily sick.

"Judy, darling, the matter with you is that you want to go home."

"But I can't," she answered dimly, not even trying to refute the suggestion. "You won't finish for another month, at least; and I heard Mr. Madox saying on Sunday that he only wished he could add another month on that! As likely as not he will add it, and then where shall I be?"

"At Cambridge, my dear, I hope," said Carlotta firmly.

"Then you want to get rid of me!" cried Judy, in hot rebellion. "Of course I quite understand."

Carlotta, with an infinite patience, crossed the room and knelt by Judy's side, laying her kind, compelling hands on her arms, and forcing the dark, rebellious eyes to meet hers.

"Listen, dearest. I've been watching you all these weeks, and I knew that it must come. When we agreed to take this trip together, everything was different. We expected to find Alan here, and that you would have his companionship and all the concerns of his life to interest you. We have been disappointed."

And here a little catch broke her voice for an instant, but she made a gallant effort to recover herself. "It is cruel to keep you here, and unnecessary besides. Don't look at me like that, Judy. We can't afford to drift away from one another—we daren't, do you hear? And for that reason you are going home."

"And when I am gone Graham Madox will have you all to himself, and the inevitable will happen! Nothing can prevent it, Carlotta. It must be better—far better!—just to accept fate. You are great on the fate-line, anyway! I am sure that Graham Madox is your fate."

She spoke hardly, but her heart was melting in her breast, for the lovely face so near her own had a haunting, pathetic look, which it was not in Judy's nature to resist.

"You don't believe that in your innermost heart, Judy. You may have ceased to love me, perhaps I've been trying, but you believe in me, go, I hope and trust, or I couldn't go on."

"But Alan is dead! There can be nothing surer than that! He never went to that Calgary ranch. He has never been heard of since, and worse than all, he has made no attempt to send back Fordyce's money—because Jean Dempster told me—and that proves beyond all doubt that he is dead. I know him better than you, and that his pride is as high as the heavens."

Carlotta rose slowly to her feet. Her face had whitened a little, but her eyes never lost their serene and steadfast look.

"Judy, if Alan were dead I should know! Do you hear? I should know! He is alive. He will come back to us and things will right themselves at Stair. Don't ask me how I know, because I can't tell you; only it is here—deep down—the only thing that keeps me going," she said, pressing her hand to her heart. "Try to hold on for a little longer. And now go and get your hat and we'll do the steamship offices. It is a crowded season, but perhaps we shall be lucky enough to get you a berth in Saturday's boat."

Judy looked for a moment at Carlotta's face, and her own was a study. "Carlotta, I do believe you're the best as well as the greatest woman in the world! How dare you treat a little beast like me so nobly! Why don't you knock me down and trample on me? It's what I deserve! I won't go! I'll see it through. I'd be a worm of the deepest dye if I took you at your word!"

"You are getting a little mixed in your metaphors, my precious! But the Atlantic breezes will clear your brain," said Carlotta, with a slight, wavering smile. "It is all right, isn't it? And you won't drag in Graham Madox again, will you? His place in my life is what it always has been, and ever will be, I hope—that of good friend and faithful comrade. He is perfectly safe, Judy, and so am I."

With that Judy professed herself content, and they sallied forth together to the steamship office and got a berth on a steamer sailing on the following Saturday.

"Alan's boat," said Judy, with a strange note in her voice. "And for his sake I ought to go second class."

But Carlotta would not hear of that, and a comfortable outside stateroom was duly engaged and paid for that very day.

Upon the completion of that transaction, Judy's spirits visibly rose, and that evening about eight o'clock, after Carlotta had gone to the theatre, she took the street car to Mrs. Isaacstein's to tell Jean Dempster the great news.

She found Jean alone in her sitting-room, in which there was a wealth of flowers.

"You are a very extravagant woman, Miss Dempster!" she said, as she touched the sweet spring-blossoms with tender hand, their delicate perfume bringing back a swift vision of Stair woods in April, carpeted with primrose and daffodil.

"Say, rather, I have an extravagant friend," answered Jean. "But I think I've put a stop to it."

"Admirer!" smiled Judy. "Flowers seem to be one of New York's chief extravagances. Miss Tenderden gets wagon-loads of them. What money they cost, too! Just twice as much as

the same flowers in England or Scotland!"

Jean nodded, and drawing up the most comfortable chair, asked Judy to sit down, and said she would make the coffee.

Every visitor to Jean Dempster's sitting-room knew that cunning little coffee-machine, which she manipulated with her own clever fingers, thereby producing a nectar fit for the gods. "You look ever so much brighter than when I saw you last Saturday. Had any good news?"

"I'm going home on Saturday," answered Judy unexpectedly.

"Oh!" said Jean interestedly. "But Miss Tenderden's season isn't over—"

"Not for another month. But she's sending me home. I didn't know how desperately I wanted to go until we were at the steamship office to-day. And I never—no, I never knew a more understanding person than she is. Her intuition is uncanny sometimes."

"The artistic temperament," murmured Jean, on the spur of the moment. "But she'll miss you frightfully!"

"I don't know. I've been rather a pig just lately. Fact is, Miss Dempster, Scotch women can't lead an idle, purposeless life. If I were busy like you or Miss Tenderden, I think I should like New York quite well. What I'm mortally afraid of is that she marries Graham Madox in the end! Don't you see it would be a splendid arrangement? They seem made for one another, and of course he is a very good-looking—and nice as well."

A curious look flitted across Jean's face, and she suddenly found the coffee-machine more than usually interesting.

"I don't think that will ever happen. They've had plenty of chances before they ever came here. I wouldn't worry about that, Miss Rankine. I don't think she will ever forget your brother."

"But he isn't here, and it's the man on the spot who has the chance," observed Judy dimly. "It's all a horrible tangle from first to last, and I've lived a thousand years in the last one. Are you all right? I thought you'd been crying when I came in?"

"Well, I had been," admitted Jean, glad to get off the subject of stage love-affairs. "I had a letter from my mother this morning, and she says Mamie is going down the hill, and that it isn't likely she'll ever see Hunter's Quay. Think of that! After all my hard work and scraping, and only on Sunday I had a good counting-up, and I thought I might manage it in two years instead of three! A kind man I know in business put me on to a rather good investment just lately, and I've made a bit—"

"Oh, I am sorry! Has she had the best advice and everything?"

"Well, of course, mother has done what she could; but she's poor. What Mamie wants is fresh air, and the best food, and rest, and—happiness. If only I could afford to take a run home, I would see for myself just what is the true state of affairs. I know it must be serious before mother would let me know anything about it at all."

"I wish I could help, or send you home in my place! Couldn't I take your place at the School of Stenography, and give you my passage?"

The idea pleased Judy. To do something for somebody was certainly what gave her the most happiness in the world, and called out all that was finest in her nature. The forced inactivity of body and soul had been bad for her in every way.

Jean's eyes incontinently filled. "It is dear and good of you to think of it, and I shall always remember it. No—I shall just have to go on. Another door will open somewhere. It always does. I have found that, even in the darkest hour of my life, when I was wanting to tumble out of it in the very quickest way I could find."

That very night—nay, that very moment, her words seemed to be verified, for the sitting-room door opened, and black Sambo, with the flourish of delight with which he invariably served Miss Dempster, announced "Mister Fordyce."

Jean was undoubtedly surprised, for though Fordyce had called many times at the Dormer House, and had had much to say to her over the phone at odd times, this was his first visit to Mrs. Isaacstein's. But she was pleased, and looked it as she introduced him to Miss Rankine, not without a certain diffidence. She was not surprised, however, when Judy immediately took her leave.

It was Judy's first opportunity of seeing Fordyce, and the thought of the money he had given Alan, and the silence which had ensued, caused her pride such acute discomfort that she was glad to escape. Jean, with a murmured word of apology to Fordyce, went down to the door with Judy.

This gave him an opportunity of looking round the sitting-room in which Miss Dempster spent her leisure time, and he did not fail to make use of it. He was accustomed to gorgeous rooms, filled with the things for which the rich man's purse can pay, but here he found the things which, fortunately for humanity, money is powerless to buy—the essence of home!

"So that is Rankine's sister?" he observed, when Jean, a trifle breathless from her haste on the stairs, re-entered the room. "She doesn't look much like him. He seems to have annexed most of the looks of the family."

"Oh, do you think so? Well, anyway, she's got brains and a heart. She feels meeting you. Her pride didn't like it, poor dear! Quiser isn't it—that nothing has ever been heard of him?"

"I'm not troubling about him. No—I don't think anything at all has happened to him, except that he has shunted off into some side track. Somebody he met on the train perhaps offered him something better, or, on the face of it, more attractive. That sort of thing happens in this country—especially out a bit—every day."

"I never thought of that! She's worried to death, and thinks all sorts of things have happened to him."

(To be continued.)

TAILORED BLOUSE OF CREPE-DE-CHINE.

Strictly tailored blouses adopt frills and buttons for trimming, and fine cluster tucking in the front distinguishes this version of the hip-length blouse. The long tailored sleeve, fastening with a link cuff, is in harmony with the simple collar that can be adjusted with many buttons. Short sleeves are much in demand and are finished with a turn-back cuff. Puffed frilling forms the jabot, which is not included in the pattern. The diagram shows the simple design of pattern No. 1149, which is cut in sizes 34, 36, 38, 40, 42 and 44 inches bust. Size 38 bust requires 2 1/2 yards of 36-inch, or 2 yards of 40-inch material. This blouse, if worn with skirt No. 1166, would make a charming two-piece ensemble. Price 20c.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

HOW TO ORDER PATTERNS.

Write your name and address plainly, giving number and size of such patterns as you want. Enclose 20c in stamps or coin (coin preferred); wrap it carefully for each number, and address your order to Pattern Dept., Wilson Publishing Co., 73 West Adelaide St., Toronto. Patterns sent by return mail.

Instrumental Music in Schools is Developing.

The amazingly rapid development of instrumental training in the public schools represents perhaps the most significant phase in the evolution of public school music during the last decade.

To-day, practically every progressive music department includes in its curriculum some form of instrumental training. It is gradually taking its proper place in the general scheme of school music. Its importance is secondary only to vocal training. The latter reaching every child, must retain its undisputed supremacy as the foremost doctrine of school music.

The greatest development has perhaps taken place in the high school orchestra. Many of these organizations represent a very satisfactory standard of taste and performance. Where this standard has not been reached the fault often may be found in the fact that the teachers, fired by the ambition to present an imposing program of fine music, omitted to subject the orchestra to a systematic course in ensemble training which would have provided the necessary technical proficiency for the adequate performance of an ambitious programme. Another failing is sometimes encountered, namely, that teachers in their endeavor to avoid too difficult music, become blind to their duties as educators and present insignificant and mediocre music to the orchestra for practice and performance.

Gull's Transatlantic Flight.

In the records of navigation, the feat of the first gull to fly the Atlantic Ocean is an honorable one, and worthy of record. The gull, a kittiwake, was found in Newfoundland wearing a silver band upon which were inscribed the words: "Inform Witherby, High Holborn, London," and the bird has been identified as one that had been released from the coast of Northumberland by a correspondent of the London naturalist.

It is quite likely that this gull was forestalled in his great achievement by other gulls. It is a pity to have to record that the bird was shot.

Have Long Limbs.

Abnormal length of forearm, and of the leg, from the knee downward, is characteristic of the native savage race of Australia.

Minard's Liniment for Burns.

Plowmen Pioneers.

Strong men have gone adventuring
Since Adam saw the sword,
And some have died to serve a king,
And some to serve the Lord;
And some to serve their own red blood
That knew the wayward call
And answered it, and found it good,
From Wrangel to Bengal.

And we have roused good songs for
Lads
Who, whether young or old,
Have entered life's Olympiads
Adventuring for gold.
So have we sung the sons of war;
And so we sing them now.
But who has twanged a ballad for
The heroes of the plow?

West over prairies, through strange
hills,
Calm pioneers fought on—
What? Was it gold that thewed their
wings
And led to Oregon?
Long muskets hooked beneath their
arms—
Afraid of none but God—
They carried plows to virgin farms;
Lean soldiers of the sod.

These were the men who saw wild
stages
With creeping death astir;
Who fought red terror in the pass,
And braved the massacre.
They loved the smell of virgin soil,
The fertile feel of loam,
Yet mingled daring with their toll,
And so, at last, came home.

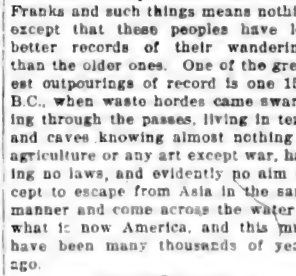

Their furrows down the field of years
Are straight and true and deep.
O simple plowmen pioneers,
God rest you in your sleep!
And we who swell with lusty breath
The ballads of the brave
Will raise a chant for noble death,
And sing it o'er your grave!

—S. Omar Barker.

Modern Humanity.

Research shows that what we term humanity originated away off in Asia so many thousands and thousands of years ago that it is quite impossible to even approximate the date when mankind first flooded the European continent. Always, so it seems, the great loose masses of humankind have flowed periodically through the passes of the Caucasuses, only to find the expected new land filled with other masses that had poured there centuries and thousands of years ago. The fact that we date Europe from the Goths, Franks and such things means nothing except that these peoples have left better records of their wanderings than the older ones. One of the greatest outpourings of record is one 1500 B.C., when waste hordes came swarming through the passes, living in tents and caves knowing almost nothing of agriculture or any art except war, having no laws, and evidently no aim except to escape from Asia in the same manner and come across the water to what is now America, and this must have been many thousands of years ago.

Minard's Liniment for Dandruff.

Even After All.

A suspicious-looking customer was boasting to a grocer of the cheapness of ten pounds of sugar he had bought at a rival shop.

"Let me weigh the package," said the grocer.

The customer assented and the package was found to be two pounds short.

The man looked perplexed for a moment and then said: "I don't think he cheated me much, for while he was getting the sugar I pinched two cans of condensed milk."

New Ship Material.

A new ship of 6,300 tons, the first vessel built of the new material known as elastic limit steel, has been launched in England.

1/2 lb Package

KRAFT K CHEESE

A handy size package for occasions when half a pound is "just right."

Queer Dishes.

At a luncheon given recently in London many strange edibles appeared on the menu, among them being goose stewed in honey, chicken stuffed with pistachio nuts and dates and served with honey sauce and cherries, and pigeons stuffed with cherries.

In Sutton-in-Ashfield, Nottinghamshire, there is an hotel where roast hedgehog is a regular feature in the bill of fare. Every race has its favorite dish, and whilst they shudder over roast beef, the Chinese enjoy soups from certain kinds of birds' nests.

France breeds snails specially for the table. In Canada we marvel that anything so unclean as snails could be eaten by anyone, yet the lobster feeds on the refuse of the sea, and the pig is fed on offal, whilst snails live only on greenstuffs such as parsley, lettuce, and vine leaves.

Whale, camel, and elephant steaks were served at a zoological dinner in Paris and were greatly relished.

In India a species of ant is dried and made into a sort of curry, and in the West Indies no more tasty dish has yet been discovered than rats.

You can eat fried dragon-flies in the Malay Archipelago, caught by boys with branches smeared in bird-lime.

Even the octopus has its partisans among the people of the Mediterranean and in China it is dried and sold covered in flour.

Tasmania.

Canadians who have visited Tasmania have capitulated to the charm of the Australian Isle and its inhabitants. The harbor, formed by the Derwent River, has few equals. Not till 1853 did this earthly paradise cease to be a mere limbo to which convicts were consigned. A great mischief accomplished by white pioneers was the extermination of the aborigines, of whom there were but four left in 1865 and one in 1876. These people knew almost nothing, and did not even possess the art of building boats, being content to use pieces of bark tied together with grass fibre. They made no pottery; they could not use the bow-crank, and mentally and manually they lived in the Paleolithic Age, with its stone implements.

Hobart has about 40,000 inhabitants and the University of Tasmania has about 200 students, the number seemingly depending on whether it rains or not. The island produces tin, copper, silver and gold, and fruit-raising, especially of apples, is of prime industrial importance.

Britain's Doles.

Great Britain has spent £173,530,000 on unemployment benefits since the armistice and £50,520,000 on out-of-work donations.

FIRE SWEEPS CANNIFTON VILLAGE WOMAN FALLS VICTIM OF FLAMES

Went Back to Get Money From House and Was Overcome
—Her Charred Remains Found—Several Residences and Barns Destroyed.

Belleville, Ont., Aug. 23.—Fire which this afternoon destroyed a large section of the village of Cannifton, claimed the life of one person, Mrs. Louisa Parliament, aged 75, housekeeper, who was found in the ashes of one of the residences. Mrs. Parliament had been outside and was helping to carry out household effects from the home of Mr. Willet C. Farley, where she lived, and it is presumed that she went upstairs to her room to get some money which she had there and was overcome by the smoke. Her charred remains were found in the ashes under her bed-room.

About one o'clock fire broke out in some outbuildings on the shore of the Moira River, and as a southwest

wind was blowing at the time the flames spread to the barn of Willet Farley and thence to his house, a frame structure. It crossed to the barns of Chas. R. Arthur Holgate and to his house and then turned south, destroying the stone residence of Chas. Rosevear. Buildings on the east side of the road took fire and willing hands lent assistance, as men fought the flames with buckets from the roofs. All the incipient fires on the east side of the road were put out, but the wind carried the sparks over the hill for some hundred yards to the large barns of Harry Boyce, which soon were enveloped in flames. His entire season's crop, with four large barns, was wiped out with the loss of thousands of dollars.

THREE ARE KILLED WHEN AUTOS CRASH

Husband, Wife and Visitor
Succumb to Injuries, While
Another May Die.

Windsor, Aug. 21.—When automobiles driven by Edwin Lalonde, traveling salesman, 574 Ossington Avenue, Toronto, and H. A. Craven, Delhi, Ont., collided this afternoon at the intersection of the main road to Tilbury and the Comber side road, three persons were killed and another perhaps fatally injured.

Mr. and Mrs. Oren Craven, 218 Balmor Avenue, Hamilton; Mrs. Mary Sheridan of Coney Island, N.Y., sister of Mrs. Craven, are dead. Mrs. Bert McColl, 5 Ruthersford St., Hamilton, an other sister, was internally injured and has little chance of recovery. The others who were injured are: H. A. Craven, driver of one of the cars; his daughter Muriel, 8 years old, and Lalonde. All are at the Hotel Dieu.

Craven was driving west toward Windsor. At the intersection, Lalonde, driving a heavy touring car from Camber, to Stony Point, crashed into the other car, hurling it 45 feet into a ditch, totally demolishing it.

Motorists within half a mile heard the noise of the impact and within 15 minutes more than 15 persons were working to assist in releasing the injured from the heap of wreckage. Mrs. Craven was killed instantly. Her husband, with Mrs. Sheridan, was rushed in a motor bus, but Mr. Craven died while passing through St. Joachim, six miles west of where the accident took place, and Mrs. Sheridan passed away just as she was being carried into the hospital.

SCORE OF SUSPECTS SLAIN BY POLICE

New Policy of Detroit Officers
Leads to Greatest Slaughter
on Record.

Detroit, Aug. 23.—Nineteen criminals and suspects have been killed by police officers in Detroit since Jan. 1, and three policemen have fallen to the bullets of the underworld.

The quick-trigger policy of Police Commissioner Croul, who has instructed every officer to beat the bandit to the draw, has resulted in the greatest toll of deaths in criminal ranks in any eight-month period in the history of the department.

"These police killings show that men who go to extremes in their relations with society must take the consequences," Mr. Croul said. "Banditry and other crimes lead to the morgue as well as to the prison."

"The innocent man has nothing to fear from a police officer. When officers command him to halt he should do so. Otherwise he likely will be killed as a criminal."

One of the twenty killed by police this year was a woman. The remainder for the most part were bandits or recognized enemies of society.

TRAIN HITS AUTO ON GRADE CROSSING

Guelph Man Dies Two Hours
Later—Companions Escape.

Guelph, Ont., Aug. 23.—Injuries sustained when a C.N.R. passenger train crashed into a motor car which was driving at a level crossing near Limehouse on Saturday proved fatal to William Weaver, an employee of the Limehouse lime kiln, whose death occurred at the Guelph General Hospital two hours after he had been admitted to the institution.

In addition to sustaining a fractured skull, Weaver had both legs and his shoulder broken, as well as being badly injured internally. Two companions escaped with a few minor cuts and bruises.

Crazed Peasant Kills 17 and Burns Town

A despatch from Moscow says:—After brooding over quarrels over division of some land, Peter Grachoff, an old peasant of Ivanovo, suddenly became crazed, killed 17 of his neighbors, burned down his native village, and then escaped.

LIEUT. D. BURKE BEST ARMY SHOT

Governor-General's Prize Goes
to Lieut. J. T. Steele.

Connaught Ranges, Ont., Aug. 21.—Canada's best shot and the King's best army shot in Canada, emblemized by the Governor-General's Gold Medal and His Majesty the King's Medal, were made known here today, the closing day of the 57th annual meet of the Dominion of Canada Rifle Association.

Lieut. J. T. Steele, of Guelph, is the winner of the Governor-General's Gold Medal, and Lieut. Desmond Burke, of Ottawa, winner of the King's Gold Medal at Bisley in 1924, is the winner of the King's Medal in Canada.

Both are young men, commenced their shooting with school cadet teams, have been members of the Canadian Bisley team on two occasions, and have been shooting consistently for several years. Both competed to-day against strong opposition under difficult shooting weather, and in both cases youth with experience counted. Both are members of the 1926 Bisley team.

Canada's 1926 Bisley team, as announced to-day, gives Western Canada one-third representation, all British Columbia men.

Eastern Canada will be represented by nine Ontario and three Quebec members. Representation on the team by cities gives Victoria, B.C., the largest number, with five members. Ottawa comes second with four, Montreal has three, Toronto two and Vancouver, Hamilton, London and Guelph one each.

Quicker Transport for Dominion's Beef

A despatch from London says:—The question whether British consumers shall be supplied with beef from Argentine or from the British Dominions—has been thrown into renewed prominence by the press discussion of the two reports published by the Imperial Economic Committee, advising study of the policy of quicker transport to bring Canadian, Australian and New Zealand beef to the British market.

who failed in an attempt to swim the English channel.

SLAYERS OF SIRDAR EXECUTED AT CAIRO

Men Convicted of Murder of
Sir Lee Stack Pay Extreme
Penalty.

Cairo, Egypt, Aug. 23.—The men convicted of the murder of Sir Lee Stack, Governor-General of the Sudan, were hanged to-day, the executions being spaced at 45-minute intervals.

The death sentence imposed upon Abdel Fattah Enayat, one of the conspirators, was commuted to life imprisonment in view of his services to the Crown in turning Sir Lee's evidence.

A great crowd gathered outside the prison walls and watched silently as the successive raising of a black flag indicated the progress of the executions.

Nine men were convicted of complicity in the assassination of Sir Lee, which occurred November 19, 1924. They included two students, two railway workers, a carpenter, a lawyer, a deputy in the civil service and the chauffeur of the car in which the conspirators were driven to the death scene. The last named received a sentence of two years' imprisonment.

BANK MESSENGER SLAIN IN HOLD-UP

Robbers Get Away With \$14,000 Payroll in Busy Street.

Perth Amboy, N.J., Aug. 21.—In another broad daylight hold-up a bank messenger was shot to death in a busy street here this afternoon and three robbers escaped with the \$14,000 payroll of the new \$5,000,000 Victory Bridge here.

Five hours after the slaying the bandit car was found wrecked against a telegraph pole four miles from the scene of the hold-up. Police found several \$1 bills and pay envelopes in the abandoned car indicating the robbers divided the loot before the crash came.

Joseph E. Gallagher, 55, a special officer employed by the Perth Amboy Trust Co. for several years, was slain. With Charles Gray, another employee, he was taking the money for the workmen of the Stillman, Delehanty and Ferris Co., contractors on the state bridge over Raritan River between Perth Amboy and South Amboy.

Gallagher had carried the payroll weekly for more than a year in a small leather bag.

At 10.30 o'clock he telephoned Harry Warren, who runs a taxi cab service, to send a cab to the Trust Co. Charles Schuck drove the taxi. Gallagher and Gray got in and started for the paymaster's office of the contracting firm.

Approaching a bump in the road, Schuck slowed down, and as he did so heard a crash of glass. He looked around and saw two men, one on each of the runnings boards of the taxicab.

As Gray related afterward, one bandit broke the glass in a door of the cab with the butt of a pistol and then two shots rang out. One bullet went through the rear window. The other was fired point blank through Gallagher's head and he crumpled in the seat. One of the robbers grabbed the bag containing the money.

Schuck stopped his cab. The robbers ran to another car moving along slowly with a third man at the wheel, which headed off at top speed.

At the sound of the shots there was a scurrying feet of people in all directions. None could be found who had seen the license number of the slayers' car. It was merely learned from the scared eye-witnesses that it was an Essex coach. By the time pursuit in another car was attempted it had disappeared.

Gallagher died on the way to the Perth Amboy Hospital.

The police believed the robbery was carefully planned, even to selecting the spot with the bump in the road, where the taxi would slow down.

DEATH LIST FORTY-SIX IN STEAMER EXPLOSION

It is Expected That Others
Will Still Be Added to
Mackinac Toll.

Newport, R.I., Aug. 21.—The death of Edward Donovan, of Pawtucket, at 8.15 to-night, brought the total dead in the Mackinac steamer explosion of Tuesday evening to 46.

The deaths of three others to-day were recorded and as the hours pass it is expected that others will be added to the toll. The 45th victim to succumb to his frightful burns was Peter Borsay of Pawtucket. He died early to-night. The other deaths to-day were Bessie Mullin and William Robinson, also of Pawtucket.

Both the Naval and Newport Hospitals house a number of critical cases, and physicians there frankly said there were several who are now beyond all medical skill, so horribly were they scalded when the boiler of the excursion steamer exploded as she steamed through Narragansett Bay on the return trip to Pawtucket with almost 700 excursionists aboard.

Train Strikes Auto at Welsh's Crossing

Smiths Falls, Ont., Aug. 23.—Cecil Command, of Ferguson's Falls, was killed, and Richard Stafford, of Lanark, seriously injured when an automobile in which they were riding, was struck by a Canadian Pacific Railway train at Welsh's crossing near here, Saturday afternoon. Command died a few minutes after he was brought to this town on the train. The extent of Stafford's injuries is not yet known.

The men were employed at fence building along the Provincial Highway and were returning from dinner at a farm house in Command's car when their automobile was struck at the crossing. The car was not broadside but was struck a glancing blow by the locomotive. Neither of the men were thrown out of the car.

Body Was Severed By Launch Propeller

Windsor, Ont., Aug. 23.—Diving from a sixty-foot motor launch in Lake St. Clair, at a point half a mile from the Canadian shore, Mrs. Thelma Halman, 30 years old, whose husband is G. A. Halman, an official of the Fisher Body Co., Detroit, was drawn by suction beneath the propeller of the launch, which had been kept in motion, and instantly killed. The body was practically cut in two at the waist.

THE MARKETS

TORONTO.
Man. wheat—No. 1 North, \$1.81; No. 2 North, \$1.77; No. 3 North, \$1.68; No. 4 wheat, not quoted.
Man. oats—No. 3 CW, 58c.
Am. corn, track, Toronto—No. 2 yellow, \$1.20.
Millfeed—Del., Montreal freights, bags included. Bran, per ton, \$28; shorts, per ton, \$30; middlings, \$36; good feed flour, per bag, \$2.30.
Ont. oats—48 to 50c, f.o.b. shipping points.

Ont. wheat—\$1.30 to \$1.33, f.o.b. shipping points, according to freights. Barley—Malting, 78c.
Buckwheat—No. 3, 78c.
Rye—No. 2, nominal.

Man. flour, first pat., \$9.30, Toronto; do, second pat., \$8.80, Toronto. Pastry flour, bags, \$6.30.

Ont. flour—Toronto, 90 per cent. pats., per barrel, in carlots, Toronto, \$6.10; seaboard, in bulk, \$6.10.

Straw—Carlots, per ton, \$5 to \$5.50. Screenings—Standard, re-cleaned, f.o.b. bay ports, per ton, \$18 to \$20.

Hay—No. 2, per ton, \$15; No. 3, per ton, \$11 to \$12; mixed, per ton, \$9 to \$11; lower grades, \$6 to \$9.

Cheese—New, large, 24 to 24½c; twins, 24½ to 25c; triplets, 25 to 25½c; Stiltons, 26 to 27c. Old, large, 28 to 29c; twins, 29 to 30c; triplets, 29 to 31c.

Butter—Finest creamery, prints, 41½c; No. 1 creamery, 40½c; No. 2, 38 to 38½c. Dairy prints, 28½ to 30½c.

Eggs—Fresh extras, in cartons, 41 to 42c; loose, 39 to 40c; fresh firsts, 36 to 37c; seconds, 32 to 33c.

Dressed poultry—Chickens, spring, lb., 30 to 36c; hens, over 4 to 5 lbs., 22 to 24c; do, 3 to 4 lbs., 20c; roosters, 18c; ducklings, 5 lbs. and up, 27 to 30c.

Beans—Can., handpicked, lb., 6½c; primes, 6c.

Maple produce—Syrup, per imp. gal., \$2.40; per 5-gal. tin, \$2.30 per gal.; maple sugar, lb., 25 to 26c.

Honey—60-lb. tins, 13½c per lb.; 10-lb. tins, 13½c; 5-lb. tins, 14c; 2½-lb. tins, 15½ to 16c.

Smoked meats—Hams, med., 32 to 33c; cooked hams, 47 to 50c; smoked rolls, 22c; cottage, 23 to 25c; breakfast bacon, 32 to 35c; special brand breakfast bacon, 38 to 39c; backs, boneless, 36 to 42c.

Cured meats—Long clear bacon, 50 to 70 lbs., \$22; 70 to 90 lbs., \$20.50; 20 lbs. and up, \$19.50; lightweight rolls, in barrels, \$29.50; heavyweight rolls, \$24.50 per barrel.

Lard—Pure tierces, 18 to 18½c; tubs, 18½ to 19c; pails, 19 to 19½c; prints, 20 to 20½c; shortening, tierces, 14½c; tubs, 15c; pails, 15½c; blocks, 16½c.

Heavy choice steers, \$8 to \$8.25; do, good, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$7; do, med., \$5.25 to \$6; do, com., \$4.60 to \$5.25; butcher heifers, choice, \$6.75 to \$7; do, good, \$5.75 to \$6; do, med., \$5 to \$5.50; do, com., \$3 to \$5; butcher cows, choice, \$4.50 to \$5.35; do, fair to good, \$3 to \$4.50; canners and cutters, \$2 to \$3; butcher bulls, good, \$4.50 to \$5.25; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.50; do, fair, \$4.50 to \$5.25; calves, choice, \$10.50 to \$11.50; do, med., \$8.50 to \$9.50; do, com., \$4.50 to \$5.50; milk cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7 to \$9; good light sheep, \$7 to \$8; heavies and bucks, \$5 to \$6; good lambs, \$13.50 to \$14.75; do, med., \$12.75 to \$13; do, hucks, \$11.25 to \$11.75; do, culls, \$10 to \$11; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.65.

Heavy choice steers, \$8 to \$8.25; do, good, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$7; do, med., \$5.25 to \$6; do, com., \$4.60 to \$5.25; butcher heifers, choice, \$6.75 to \$7; do, good, \$5.75 to \$6; do, med., \$5 to \$5.50; do, com., \$3 to \$5; butcher cows, choice, \$4.50 to \$5.35; do, fair to good, \$3 to \$4.50; canners and cutters, \$2 to \$3; butcher bulls, good, \$4.50 to \$5.25; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.50; do, fair, \$4.50 to \$5.25; calves, choice, \$10.50 to \$11.50; do, med., \$8.50 to \$9.50; do, com., \$4.50 to \$5.50; milk cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7 to \$9; good light sheep, \$7 to \$8; heavies and bucks, \$5 to \$6; good lambs, \$13.50 to \$14.75; do, med., \$12.75 to \$13; do, hucks, \$11.25 to \$11.75; do, culls, \$10 to \$11; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.65.

Heavy choice steers, \$8 to \$8.25; do, good, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$7; do, med., \$5.25 to \$6; do, com., \$4.60 to \$5.25; butcher heifers, choice, \$6.75 to \$7; do, good, \$5.75 to \$6; do, med., \$5 to \$5.50; do, com., \$3 to \$5; butcher cows, choice, \$4.50 to \$5.35; do, fair to good, \$3 to \$4.50; canners and cutters, \$2 to \$3; butcher bulls, good, \$4.50 to \$5.25; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.50; do, fair, \$4.50 to \$5.25; calves, choice, \$10.50 to \$11.50; do, med., \$8.50 to \$9.50; do, com., \$4.50 to \$5.50; milk cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7 to \$9; good light sheep, \$7 to \$8; heavies and bucks, \$5 to \$6; good lambs, \$13.50 to \$14.75; do, med., \$12.75 to \$13; do, hucks, \$11.25 to \$11.75; do, culls, \$10 to \$11; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.65.

Heavy choice steers, \$8 to \$8.25; do, good, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$7; do, med., \$5.25 to \$6; do, com., \$4.60 to \$5.25; butcher heifers, choice, \$6.75 to \$7; do, good, \$5.75 to \$6; do, med., \$5 to \$5.50; do, com., \$3 to \$5; butcher cows, choice, \$4.50 to \$5.35; do, fair to good, \$3 to \$4.50; canners and cutters, \$2 to \$3; butcher bulls, good, \$4.50 to \$5.25; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.50; do, fair, \$4.50 to \$5.25; calves, choice, \$10.50 to \$11.50; do, med., \$8.50 to \$9.50; do, com., \$4.50 to \$5.50; milk cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7 to \$9; good light sheep, \$7 to \$8; heavies and bucks, \$5 to \$6; good lambs, \$13.50 to \$14.75; do, med., \$12.75 to \$13; do, hucks, \$11.25 to \$11.75; do, culls, \$10 to \$11; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.65.

Heavy choice steers, \$8 to \$8.25; do, good, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$7; do, med., \$5.25 to \$6; do, com., \$4.60 to \$5.25; butcher heifers, choice, \$6.75 to \$7; do, good, \$5.75 to \$6; do, med., \$5 to \$5.50; do, com., \$3 to \$5; butcher cows, choice, \$4.50 to \$5.35; do, fair to good, \$3 to \$4.50; canners and cutters, \$2 to \$3; butcher bulls, good, \$4.50 to \$5.25; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.50; do, fair, \$4.50 to \$5.25; calves, choice, \$10.50 to \$11.50; do, med., \$8.50 to \$9.50; do, com., \$4.50 to \$5.50; milk cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7 to \$9; good light sheep, \$7 to \$8; heavies and bucks, \$5 to \$6; good lambs, \$13.50 to \$14.75; do, med., \$12.75 to \$13; do, hucks, \$11.25 to \$11.75; do, culls, \$10 to \$11; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.65.

Heavy choice steers, \$8 to \$8.25; do, good, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$7; do, med., \$5.25 to \$6; do, com., \$4.60 to \$5.25; butcher heifers, choice, \$6.75 to \$7; do, good, \$5.75 to \$6; do, med., \$5 to \$5.50; do, com., \$3 to \$5; butcher cows, choice, \$4.50 to \$5.35; do, fair to good, \$3 to \$4.50; canners and cutters, \$2 to \$3; butcher bulls, good, \$4.50 to \$5.25; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.50; do, fair, \$4.50 to \$5.25; calves, choice, \$10.50 to \$11.50; do, med., \$8.50 to \$9.50; do, com., \$4.50 to \$5.50; milk cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7 to \$9; good light sheep, \$7 to \$8; heavies and bucks, \$5 to \$6; good lambs, \$13.50 to \$14.75; do, med., \$12.75 to \$13; do, hucks, \$11.25 to \$11.75; do, culls, \$10 to \$11; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.65.

Heavy choice steers, \$8 to \$8.25; do, good, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$7; do, med., \$5.25 to \$6; do, com., \$4.60 to \$5.25; butcher heifers, choice, \$6.75 to \$7; do, good, \$5.75 to \$6; do, med., \$5 to \$5.50; do, com., \$3 to \$5; butcher cows, choice, \$4.50 to \$5.35; do, fair to good, \$3 to \$4.50; canners and cutters, \$2 to \$3; butcher bulls, good, \$4.50 to \$5.25; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.50; do, fair, \$4.50 to \$5.25; calves, choice, \$10.50 to \$11.50; do, med., \$8.50 to \$9.50; do, com., \$4.50 to \$5.50; milk cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7 to \$9; good light sheep, \$7 to \$8; heavies and bucks, \$5 to \$6; good lambs, \$13.50 to \$14.75; do, med., \$12.75 to \$13; do, hucks, \$11.25 to \$11.75; do, culls, \$10 to \$11; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.65.

Heavy choice steers, \$8 to \$8.25; do, good, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$7; do, med., \$5.25 to \$6; do, com., \$4.60 to \$5.25; butcher heifers, choice, \$6.75 to \$7; do, good, \$5.75 to \$6; do, med., \$5 to \$5.50; do, com., \$3 to \$5; butcher cows, choice, \$4.50 to \$5.35; do, fair to good, \$3 to \$4.50; canners and cutters, \$2 to \$3; butcher bulls, good, \$4.50 to \$5.25; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.50; do, fair, \$4.50 to \$5.25; calves, choice, \$10.50 to \$11.50; do, med., \$8.50 to \$9.50; do, com., \$4.50 to \$5.50; milk cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7 to \$9; good light sheep, \$7 to \$8; heavies and bucks, \$5 to \$6; good lambs, \$13.50 to \$14.75; do, med., \$12.75 to \$13; do, hucks, \$11.25 to \$11.75; do, culls, \$10 to \$11; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.65.

Heavy choice steers, \$8 to \$8.25; do, good, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$7; do, med., \$5.25 to \$6; do, com., \$4.60 to \$5.25; butcher heifers, choice, \$6.75 to \$7; do, good, \$5.75 to \$6; do, med., \$5 to \$5.50; do, com., \$3 to \$5; butcher cows, choice, \$4.50 to \$5.35; do, fair to good, \$3 to \$4.50; canners and cutters, \$2 to \$3; butcher bulls, good, \$4.50 to \$5.25; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.50; do, fair, \$4.50 to \$5.25; calves, choice, \$10.50 to \$11.50; do, med., \$8.50 to \$9.50; do, com., \$4.50 to \$5.50; milk cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7 to \$9; good light sheep, \$7 to \$8; heavies and bucks, \$5 to \$6; good lambs, \$13.50 to \$14.75; do, med., \$12.75 to \$13; do, hucks, \$11.25 to \$11.75; do, culls, \$10 to \$11; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.65.

Heavy choice steers, \$8 to \$8.25; do, good, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$7; do, med., \$5.25 to \$6; do, com., \$4.60 to \$5.25; butcher heifers, choice, \$6.75 to \$7; do, good, \$5.75 to \$6; do, med., \$5 to \$5.50; do, com., \$3 to \$5; butcher cows, choice, \$4.50 to \$5.35; do, fair to good, \$3 to \$4.50; canners and cutters, \$2 to \$3; butcher bulls, good, \$4.50 to \$5.25; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.50; do, fair, \$4.50 to \$5.25; calves, choice, \$10.50 to \$11.50; do, med., \$8.50 to \$9.50; do, com., \$4.50 to \$5.50; milk cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7 to \$9; good light sheep, \$7 to \$8; heavies and bucks, \$5 to \$6; good lambs, \$13.50 to \$14.75; do, med., \$12.75 to \$13; do, hucks, \$11.25 to \$11.75; do, culls, \$10 to \$11; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.65.

Heavy choice steers, \$8 to \$8.25; do, good, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$7; do, med., \$5.25 to \$6; do, com., \$4.60 to \$5.25; butcher heifers, choice, \$6.75 to \$7; do, good, \$5.75 to \$6; do, med., \$5 to \$5.50; do, com., \$3 to \$5; butcher cows, choice, \$4.50 to \$5.35; do, fair to good, \$3 to \$4.50; canners and cutters, \$2 to \$3; butcher bulls, good, \$4.50 to \$5.25; do, fair, \$3.75 to \$4; bologna, \$3 to \$3.50; feeding steers, good, \$6 to \$6.50; do, fair, \$4.50 to \$5.25; calves, choice, \$10.50 to \$11.50; do, med., \$8.50 to \$9.50; do, com., \$4.50 to \$5.50; milk cows, choice, \$7 to \$8; do, fair, \$4 to \$5; springers, choice, \$7 to \$9; good light sheep, \$7 to \$8; heavies and bucks, \$5 to \$6; good lambs, \$13.50 to \$14.75; do, med., \$12.75 to \$13; do, hucks, \$11.25 to \$11.75; do, culls, \$10 to \$11; hogs, thick smooth, fed and watered, \$13.60; do, f.o.b., \$13; do, country points, \$12.75; do, off cars, \$14; select premium, \$2.65.

LOCATION

The property consists of three claims, Nos. T. C. 405, 418 and G. G. 1445, with a total of 134 acres, more or less, situated on the East branch of the Montreal river, Donovan Township, Gowganda Silver Area District of Timiskaming.

BUILDINGS AND MACHINERY

The necessary buildings have been erected for the accommodation of fifty men, comprising dining room and kitchen, sleeping camp, office, storehouse, power house, blacksmiths shop, stable—boiler, compressor and hoist house and are in active operation.

The following machinery:—65 h.p. Boiler, 320 ft. Ingersoll Rand Compressor, one 6x8 hoisting engine, drill machines, ore cars and buckets, pipe etc.; in fact everything required to complete development; all the foregoing have been erected or installed and PAID FOR by the present company.

DEVELOPMENT

THE MINE SUPERINTENDENT, Mr. J. A. MacVichie, one of the best known and most experienced mining engineers in Northern Ontario and who has been associated with the development of Timiskaming "City of Cobalt" and "Chambers Forkland" mines, and who discovered the ore for the "Beaver," said in his last report:

"Considerable development has been done on the number 1 or main vein, on claim T.C. 405, about 400 feet of trenching showing the vein to be continuous for that distance. The general trend of the vein is North 70° degrees West; the vein is from 8 to 4" wide, showing Calcite with Native Silver, Nicotite and Cobalt. At the top of the hill a test pit was sunk to a depth of 20 feet, showing about 8 inches of decomposed matter that carries considerable Native Silver in the form of leaf and small nuggets. At the foot of the hill a shaft has been sunk to a depth of 51 feet, and a drift to the West for 40 feet; in the shaft there are two veins about five feet apart, the one vein on the hanging wall is from 8 to 8" wide and the vein on the north or footwall side is 1 1/2 to 2" wide, showing Calcite with some Native Silver and Cobalt. The vein on the North side of the shaft looks as if it is a branch from the No. 2 vein.

Mr. MacVichie AT THE SAME TIME REPORTED ON NUMBER TWO VEIN:

This vein has been traced for a distance of 500 feet, the general direction is North 22 degrees West, and appears to parallel the diabase, conglomerate contact; a shaft has been sunk 16 feet on this vein about 800 feet South of the No. 1 shaft, the vein in the shaft is 1 1/2 to 2" wide, of Calcite and Cobalt, carrying Native Silver and looks very promising; this vein crosses number 1 vein about 66 feet West of No. 1 shaft, and at the intersection of the veins there is a good showing of Native Silver. Owing to the depth of snow it was impossible to make an examination of No. 3 and No. 4 veins without going to considerable expense, but from what I can learn from parties that have examined these veins on claim 418 there is a good prospect of developing ore.

DEVELOPMENT AND FINANCIAL POLICY

THE SHAREHOLDERS ARE "PARTNERS"—without further personal liability—not merely the tools of manipulators.

Of the one million shares of par value of \$1.00 each only 500,000 will be issued as treasury shares before the shares are put on the market.

EVERY DOLLAR subscribed by Treasury Shareholders has been and will be used for development purposes and not to meet the heavy charges of over capitalization of New York or other capitalistic syndicates.

THE POLICY LAID DOWN AT THE BEGINNING AND BEING ADHERED TO IS: CANADIAN SHAREHOLDERS—NOT GAMBLERS OR SPECULATORS—TO CONTROL THIS CANADIAN MINE AND TO RECEIVE THE FULL FRUITAGE OF DIVIDEND—PRODUCTION.

THE THIRD BLOCK of Treasury shares limited to 100,000 shares, is now being offered at FORTY CENTS PER SHARE.

PREVIOUS BLOCKS offered at different stages of development at corresponding prices have all been subscribed.

THE NEXT BLOCK—also limited—will be offered at 40 cents per share.

IN PURSUANCE OF THE POLICY OF SECURING THE CONFIDENCE OF THE Canadian investor and the comparatively small investor—as distinct from the stock speculator, the Directors have done all but bring the mine itself into localities where there are, or where there are likely to be, a number of bona fide investors.

A BRANCH OFFICE has been opened (AS HERE IN STREETSVILLE) provided with all the facilities for the would be investor having access to the authenticated reports and other evidence including the product of the mine, for the most complete investigation.

INVESTIGATE and then INVEST.

LOCAL representation on the Board of Directors is secured when possible.

OPPORTUNITY is periodically provided for any number of shareholders to go up to the mine and make the fullest personal investigation.

WITH THE ASSURANCE THAT IF ANY SHAREHOLDER FIND ANYTHING AT VARIANCE WITH OR OF LESS VALUABLE SIGNIFICANCE THAN HAS BEEN REPRESENTED HE MAY RETURN HIS SHARES AT THE PRICE HE PAID AND FURTHERMORE IN SUCH A CASE THE COMPANY WILL PAY THE EXPENSES OF THE TRIP.

In not a single instance has there been a request or desire by a shareholder to relinquish his holding but ON THE CONTRARY AFTER SUCH TRIP OF INVESTIGATION AND INSPECTION HOLDINGS HAVE BEEN INCREASED—DOUBLED AND TREBLED—BY SOME VISITING SHAREHOLDERS.

FULLEST INFORMATION may be obtained and reports of Government auditors showing assays up to 180 ounces of silver per ton of ore; reports of assays of silver showing value \$1810.60 per ton, samples from the mine, photographs of property, and maps may be seen at the Head Office or at the

Cooksville Dots and Dashes

Dates to Remember!
School Fair, Sept. 15.
Fall Fair, Sept. 25, 26.

Upon invitation from the trustees, a number of ratepayers visited the school last Friday evening and inspected the newly installed flush closet system. It looks to be a good job at a cost of approximately \$1300, Mr. Moore being the Contractor.

In ideal football weather, Cooksville defeated Smith's of Toronto 3-2, last Saturday. The locals played great football and always had the edge on the play. The half time score was 2-1 in favor of the home team. This was the last home game for the locals, except there is talk of a replay of the unfinished game with the New Toronto's of a week ago Saturday. If this takes place it will be on Labor Day likely.

Cooksville L.O.B.A. is holding a picnic to Eldorado Park this Saturday, to which the members of No. 1181, have been invited to attend. Games, races and sports have been arranged for.

The softball team visited Lakeview on Saturday last, on the occasion of the sports held there, and won a 11-0 victory over the waterfront team.

Gasoline dropped one cent in price on Monday and is now selling at 30 per.

Mr. J. C. Crowley, landscape gardener, is showing some of his fine blooms at Toronto Exhibition.

A congregational rally and social is being held by the United Church this Thursday evening.

Rev. G. W. Rowland, former pastor of Dixie and Islington Presbyterian Churches, has accepted the call to Knox Church, Stratford, at a stipend of \$3600. In becoming past or there, Mr. Rowland will have charge of one of the largest churches in Ontario.

Mrs. Birney and two children, the former a sister of Mrs. R. Malpass, returned to their home in Saskatoon on Tuesday after several weeks pleasant sojourn with Western Ontario relatives.

This is a wonderful plum and apple year. Vegetables are also very abundant. Fruit men and gardeners report splendid crops in all lines but as is expected from a good yield, the prices for the growers are not high.

Engagements

Mr. and Mrs. Herbert Jefferson, Richview, announce the engagement of their youngest daughter, Alice Mabel, to Walter A. Pearson, third son of Mr. and Mrs. George Pearson, Richview, the marriage to take place in September.

Mrs. Margaret Rowan, Orangeville, announces the engagement of her daughter, Margaret Louise, to Geo. L. Empringham, son of Mr. and Mrs. A. Empringham, Toronto, the marriage to take place the middle of Sept.

The engagement is announced of Jane Ashley, daughter of Mrs. Wilson and the late Harold A. Wilson, to Mr. Grey Hamilton, son of Mr. and Mrs. John C. Hamilton of the Lake Shore Road, Port Credit, the marriage to take place in September.

DIED

Stuart—At his late residence, 176 Woolwich Street, Guelph, on Tuesday, August 25, Dr. Peter Stuart, aged 66 years. Interment at Milton.

W. A. SHOOK

Auctioneer, Real and Personal Estate. Ten years experience. Authorized Agent for Dominion of Canada Guaranty & Accident Co. Insured all kinds of Automobile Insurance. Phone 24, Clarkson, Ont.

REV. J. W. PERRY, Rector

Port Credit

Miss Mary Austin of the Middle Road, Port Credit, was knocked down by a motor bus on the Toronto Hamilton Highway Tuesday. She was attended by Dr. W. Thompson, and taken to St. Joseph's Hospital, Toronto, suffering from a fractured skull.

Jack Pichuk of Long Branch died in St. Joseph's Hospital from injuries received when a radial car struck the motor truck in which he was riding at Stop 25 on the Highway Monday night. He was a Russian, 33 years of age, had served overseas with the Canadian forces, and was regarded as a high type of citizen in Long Branch. He leaves an 18 year-old wife, who had been hoping, with him, to move this week into their new house, which he had just finished plastering last Saturday. The funeral was from St. Mary's Roman Catholic Church, Port Credit to Dixie Cemetery.

CLARKSON

A story of two girls' heroism was brought to light yesterday by Highway Constable S. Hunter, of Clarkson, upon his return from Roc Roc Bay, Muskoka Lake, where he had been spending the week-end. Constable Hunter was high in his praise of the two girls, and related their thrilling experience. When interviewed the two girls, Miss Edna Murphy, aged 21, of Port Credit, and Miss Ethel Lush, aged 21, of Clarkson, would hardly speak of their adventure, saying any person would have done the same act under the circumstances.

On Saturday morning the two girls were holidaying at Parker's Camp, at Roc Roc, and while fishing saw Vauxhall's Island, including the house, aflame.

The girls turned their boat around and frantically rowed to the scene of the fire. When nearing the island they noticed two women, Mrs. Vauxhall and her daughter, scrambling over the rocky ledges to the shore. Seeing the women were in difficulties, the two girls rowed with renewed vigor, and beached their boat just as mother and daughter reached the shore's edge.

They had arrived just in time, for Mrs. Vauxhall, either from exhaustion or excitement, fainted, and was slipping into the water, which is between five and ten feet deep at that point. Her daughter was also in a collapsible condition.

Both the girls are expert swimmers and soon had Mrs. Vauxhall out of the water. After reviving mother and daughter, help arrived from the mainland and they were taken in a motor launch to an island at Driftwood.

In the meantime Miss Murphy and Miss Lush, accompanied by several others, dashed to the scene of the fire. Upon their arrival there it was found impossible to save the Vauxhall's bungalow as it was a mass of flames. Several buckets of water were filled by the girls and thrown on the fire, but to no avail.

The fire is thought to have been caused by an overturned stove. The women, who were alone in the house at the time, attempted to extinguish it, but seeing it gain such huge proportions rushed to the shore to seek aid. The bungalow, which was built of frame, is a complete loss. The island, before the fire, was studded with many beautiful trees and shrubs, but is now practically bare.

The Travellers' Lament

Tune—"The Dying Nun"

When we started off from Streetsville
For the wild and woolly west
Some who left sweethearts behind them
Were so sad and sore distressed.

When we got down to Toronto
Bill said, boys, I don't believe
My sweetheart, at Soldiers Corners
I don't think, I can leave.

Going by, the lakes and mountains,
If Ben's wishes, were all known
He was thinking of his home town
And the Streetsville Telephone.

Russell said, I feel so lonely,
This trip gives me such a pain
I wish I was back in Clarkson,
Walking with her in the lane.

Don said, I am so happy
For I haven't any girl,
But he showed a golden locket
With a pretty little curl.

Jim said, I am sad and lonely,
This trip leaves me in the lurch,
Wondering who will be my absence
Will be going then to church.

Ralph, he is so very happy,
He thinks he will be alright
For life promised him one evening,
She would not forget to write.

One day we heard Victor saying,
About the pretty girls we meet,
There are some of them so pretty
As his sweetheart on the street.

We would like to add this postscript,
This is from the love sick boys,
They are wondering if some dear one
Would help Sandy in his joys.

SANDY

Lawn Social

The members of Bethel Church, Trafalgar, held a very successful lawn social at the home of Mr. and Mrs. J. F. Ford, sixth line, Trafalgar Wednesday evening. There was a good attendance and a splendid program given by Mrs. O. R. Church and Miss Edith Hayward soloists; Miss Helene Bradley, Milton, elocutionist; Miss Drysdale and Mr. Fred Moore, violinists. Mrs. J. Stephens and Miss Lillian Church were the accompanists. Mr. O. R. Church acted as chairman. Lunch was served and refreshments were sold. The receipts were in the neighborhood of \$50.

Rev. W. A. MacKay.
Rev. S. J. Fortner will preach in the United Church, Streetsville, 11 a.m., Eden 2.30 p.m., Meadowvale 7.30 p.m.
Rev. W. A. MacKay at Britannia in the morning and Streetsville at 7 p.m.
The meeting of the Official Board of the United Church, including the appointments of Streetsville, Eden, Meadowvale and Britannia will meet in the basement of the United Church Streetsville on Tuesday evening, Sept. 8th at 8 o'clock.

St. Andrew's Notes

This Sunday
10 a.m.—Sunday School
10.15—Bible Class
11 a.m. & 7 p.m.—Both services taken by Rev. David Ritchie.

Brampton

Following a stroke, which was the climax of a lingering illness, the death occurred at her late residence of Mrs. Eliza Sinclair, widow of the late John Sinclair, in her 74th year. She was a daughter of Andrew Starrat, a Peel pioneer, and was born on the 2nd line east of Chinguacousy, and had lived in that vicinity until eleven years ago, when she and her husband retired and moved into town. She was a member of St. Paul's United Church. Predeceased by her husband in 1922, she is survived by three sons, D. V. and Fred, Toronto and William of Wolfe, Sask., one daughter, Mrs. Henry Higgins, of Brampton, one brother, Thomas Starrat, of Detroit, and two sisters, Mrs. Wm. Pimlott of Cuyon, Quebec and Mrs. Henry Shook of Clarkson. Mr. and Mrs. Albert Coates are entering their family in the "largest family" competition at this year's Canadian National Exhibition. They won the prize at the recent Business Men's picnic with their family, and are going to take a chance in a larger way. Mr. Coates is the third generation of a family that settled near Snellgrove, where he was born 37 years ago. Mrs. Coates, also a member of a pioneer family, was born near Dixie. Their 10 children are natives of Brampton.

Harold Beatty and Robert Stewart gave a demonstration on the sixth line east before a large gathering of County Council representatives and local farmers of a special leaning grader. Tractor power for the demonstration was furnished by Wm. Kitchener, Claireville, and Wm. Madgett, Malton. One quarter of a mile of road was built during the afternoon, no plowing in advance being necessary for the ditches.

WOODBIDGE

Second only to the Woodbridge Fair in its attendance and general success, the field day held at the fair grounds on Saturday by the local veterans attracted about 2,500 people.

In the girls' softball tournament the home team emerged victorious one run up on the Maples, the other finalists. In an exhibition girls' softball game, Capitals of the Sunnyside League of Toronto, beat Cyclists of Weston, and a hard-fought lacrosse match between Weston and Woodbridge intermediates resulted in a 2 to 2 draw. An exciting auto polo match contributed greatly to the excitement of the afternoon.

Other sporting events resulted as follows:—
Two-mile bicycle race—1. James Wilson, Toronto; 2. Norman Webster, Toronto; 3. Stanley Edgeley, Toronto.
One-mile foot race—1. A. Gandy; 2. J. Dalline; 3. E. Timpon.
440 yards—1. J. McShie; 2. George Riley; 3. J. Pott.
Running high jump—1. H. Smithson; 2. A. Gandy; 3. J. Park.
Pole vault—1. J. Pott; 2. Tastator; 3. J. Graham.
Shotput—E. Tastator.
Tug-of-war—Woodbridge beat Bond Head.

Notice of Dissolution

Notice is hereby given that the partnership heretofore existing between D. A. Hewgill and H. Ward of Streetsville, Ont., under the firm name of Hewgill & Ward is this day dissolved by mutual consent.
The business will be continued by D. A. Hewgill & Co. to whom all accounts will be paid.
Thanking one and all for past favors and trusting for a continuance of the same.
D. A. HEWGILL
H. WARD
August 26, 1925.

Erindale

The Women's Institute will meet at the home of Mrs. J. T. O'Neil on Wednesday, Sept. 9th at 2.30 sharp. Mrs. Sheather of Port Credit will address the meeting. Members are requested to attend as there is important business to discuss. Roll call—Pickle Recipes. Everybody welcome.
The Public School has been broken into again and quite a lot of damage done. Why such person or persons should break into a school is a puzzle as there are not any hidden treasures there—unless it is to renew their knowledge of subjects which they have forgotten. They certainly forget the Eighth Commandment.
Confirmation Class is held every Friday evening at 7.30.
Mr. and Mrs. W. Morris motored to Niagara and spent the week end with friends.
Mrs. J. Crozier and family are visiting friends in Toronto.
Miss A. Burke is spending her vacation in Haliburton.
Mrs. Le Feure of Los Angeles is visiting Mrs. O'Neil.
There are rumors and rumors of marriages. Erindale is getting quite romantic.

Lawn Social

The Ladies Aid of St. Andrew's Presbyterian Church were favored with good weather on Tuesday evening for their lawn social at the residence of Mr. S. H. Foster, which was largely attended. Rev. Thos. Dodds, Dixie, acted as chairman and a splendid program was rendered by the following talent: Mrs. Templeton and daughter, Toronto; Mrs. T. Dodds, Dixie, Mrs. H. Wright, and Mrs. R. H. Greig and daughter.
Each selection was well rendered and encored, and the many friends of Mrs. Templeton and Miss Helen were pleased to have them back to the old town again to entertain.
Refreshments were served on the lawn, which was nicely illuminated. The receipts of the evening were about \$75 and the ladies are well satisfied with the success of the event.

Mr. W. R. P. Parker gave a short address in which he mentioned a few incidents in the early history of Peel County, telling of the first communication which Streetsville had with the outside world about 1791.
Among those present at the Lawn Social were Mrs. Brown, daughter of Dr. Barnhardt, who practised here many years ago; Mr. H. Barber, of Toronto; Mr. W. R. P. Parker, wife and daughter, also a large number from Dixie congregation.

The Gowanda-Duggan Silver Mines Limited has opened an office in Mr. Goodison's store here. See big ad in this issue.

The Peel County Progressives will
hold a convention at Brampton the
latter part of October.
Miss Marion Lindsay has returned
from visiting friends at Milton.

Mr. Robert Lindsay is spending
his holidays in Toronto.
Mrs. Alex Cameron of Oak Lake,
Man., arrived in Oakville Tuesday,
on a visit to her sister, Mrs. Wynd-
ham and other friends in Ontario.
Misses Mysia and Mabel Graydon
are holidaying at Sparrow Lake,
Muskoka.

Miss Evelyn C. Fortner has
returned to resume her duties at the
General Hospital, Toronto.

Mr. and Mrs. Douglas Parsons of
Atlas Ave., Toronto, spent the week
end in Streetsville.
Mr. Harry Barber of Toronto
attended the lawn social at Mr.
Foster's Tuesday evening.

Mrs. W. C. Hubbell and daughter
Jean, of Chatham are visiting friends
in town.
Mr. and Mrs. R. H. Greig and
Miss Ruth, are taking a motor tour
to the Georgian Bay this week.

Mrs. Eliza Sinclair, who died at
Brampton this week, was the mother
of Mr. Fred Sinclair, who gave
lectures on gas engines at the
Streetsville Short Course.

Mr. W. J. Sanford is driving a
new Master-Six McLaughlin Sedan.
Dr. S. H. Smith is sporting a new
McLaughlin sedan.

Miss McQuig of Toronto is visit-
ing with Mrs. Eph. Evans.
Miss Kirby of Brampton is visiting
her sister, Mrs. C. D. Evans.

Miss Yarwood of Belleville has
been engaged as Principal of Streets-
ville High School. She has had 18
years experience and will receive
\$2200.

Miss Elsie Scott of Newmarket
and Miss Olive Howard of Toronto
visited with Miss Violet Bowie last
week.

Mr. Philip Ross and family motor-
ed to Detroit a few days ago and
visited Mr. and Mrs. H. Max. Mr.
Ross is some driver for he made the
distance in seven hours.

Miss Lily Johnson of Oshawa is
visiting friends here.

Mr. Clarence Cook and his bride
are visiting with his parents, Mr.
and Mrs. J. A. Cook, here.

Messrs. Victor Bonham, James
Bonham and Russell Jamieson left
on the Harvester's excursion for
Winnipeg and points West.

Mr. Dugald McGregor went out to
look after some business interests in
the west, while Ralph will spend his
time on his uncle's ranch at Van-
guard.

Dr. and Mrs. Bowie motored to
Ayr, Embro, London, and Chatham
last week and visited friends.

A grand picnic will be held at the
home of Mr. W. R. P. Parker, on
the Credit, near Erindale station,
Tuesday Sept. 8th, at 3 p.m. See
ad. in this issue.

Dr. and Mrs. Aikin and family of
Toronto spent Wednesday with Mr.
and Mrs. Kemp.

Miss Margaret Creemore of New
Toronto visited with Miss Dora Wat-
son over Sunday.

The water in the Credit was so
scarce on Monday that the wheels at
the local power dam would not turn
and the plant was shut down for the
day. This was a disappointment to
the ladies who use electric washers.

Messrs. Alan Couse, Jack Drennan
and Bruce Bunt have returned after
a pleasant motor tour to Collingwood,
Sarnia, Detroit, Cleveland, Buffalo
and Niagara Falls. They covered
a thousand miles in a Ford sedan and
enjoyed the trip immensely.

Mr. Chas. Sproule of Clarkson,
who underwent an operation at the
Toronto General Hospital last week,
is improving nicely and will be home
in a few days.

A number of girl guides from
Toronto camped for a few days on
the fifth line west. They attended
Trinity Church in a body Sunday
morning.

THE GARDEN'S SWAN SONG

Here Are Gorgeous Blooms That Will Lengthen the Flower Season Many Weeks.

BY AMELIA LEAVITT HILL

The praises of "the flowers that bloom in the spring" have been so often sung that their most enthusiastic devotees can hardly grudge a few words of far less frequently voiced praise to the flowers that are at their glory during the sunset hours of the gardening year.

Indeed, it is an open question whether the delightful feeling which comes as we look upon the up-peeping head of the first crocus or daffodil is superior to that which fills us as we look upon the brave bright heads of the persistent flowers which still nod about the brown waste which once was our summer garden. But by a judicious planting of these soldier blossoms, they will make it possible for us to enjoy flowers later in the year than we had ever hoped.

Recently the writer of a most charming garden book boasted that January was the only month from which she had been unable to wrest a little bloom. Though this is an ideal which must be unattainable to those of us who live in more northern latitudes, still considerable care in planting, nursing and selection will lengthen out the flower season.

There are, of course, certain annuals which withstand the ravages of frost far better than others. The rosy morn petunia and the nicotiana will continue to bloom until actual freezing weather sets in. Occasional frosts set them back, but with every cessation of cold they take up their activities where they were forced to lay them down.

LATE BLOOMS.

The little red-and-gold French marigold and the calendula are in the same class, whereas the zinnia is particularly hardy and will make a fine showing until the most severe frost.

The strawflower—helichrysum—with its variegated red, yellow and pink everlasting blossoms not only withstands cold but may be plucked and brought into the house, where it will serve as a memory of the garden during the winter. Since all these blossoms are inhabitants of the summer garden, no especial attention is necessary to secure them for autumn use, save by an original heavy sowing. They are easy of culture and will offer their services as readily in beautifying the autumn garden as they did in the more genial temperature of the earlier season.

You may, too, incorporate a "rainbow bed" by the inclusion of the gladiolus in solid plantings of its many lovely shades. These bloom three months after sowing, so that they may be had in October.

But the varieties which have been mentioned are all properly summer flowers, which only have unusual properties of withstanding the frost. Are there no distinctively late blooming plants which will turn October and even November into a season of beauty?

Indeed there are such plants. First should be mentioned the cosmos—one of the very few autumn blooming annuals. The early variety begins to bloom comparatively small, and therefore is apt to be disappointing at first. In time, as it increases in stature, it produces a most excellent effect, especially when used as a background. The late varieties are apt to be caught by frost. Like other annuals, the cosmos, though properly an autumn flower, does not bear a really cold snap as do the autumn blooming perennials.

The glory given to the garden by the many beautiful and perfect tints of the aster should not be forgotten. Some varieties of the annual aster grow to a height of between two and three feet, bearing magnificent red, pink, white and purple blossoms closely resembling the chrysanthemum. While some types bloom as early as August, there are others which do not come to perfection until late.

The perennial aster, which is native to this country and which is little more than the wild roadside aster with whose gorgeous colorings we are all familiar in crisp September and October days, has justly become very popular as a garden flower. It may be relied upon to beautify your flower beds late in the autumn with its masses of purple, mauve and white bloom.

Among perennials, the helenium is an attractive flower which will endure a considerable amount of cold. It is covered with great masses of flower heads, composed of blossoms suggestive of an all-yellow daisy with the petals cut off at the widest part, and may be had in rich golden yellow or in a very fine deep crimson. Some of its varieties resemble a mass of giant wallflowers. It is absolutely hardy.

DAHLIAS.

Unfortunately, it seems to be admired by the black aphids as much as it is by its human devotees. These pests, however, can readily be driven away by the occasional use of insecticides.

The dahlia is another autumn standby in whose favor too much cannot be said. It is to be had in varieties—show, cactus, single, pom-pom, peony flowered, collarette and decorative. The last of these is the

type so popular in our grandmother's gardens. They may be grown in almost any soil, and though they are frequently described as "gross feeders," expert opinion ascribes a large majority of failures in their growing to over-richness in the soil, which is apt to cause the plant to run to leaves.

A three-inch layer of well-rotted manure spaded into a bed two feet deep every year, with a generous dressing of slaked lime in the alternate years, is sufficient nourishment.

The roots, or "toes," as they are called, are obtained from growers and planted just below the surface of the ground in June, though a succession of bloom may be obtained by additional plantings at earlier and later dates. June-planted dahlias will bloom from August until frost, which gives a most satisfactory length of service.

The "toes" should be set in a sunny spot where there is a good circulation of air, and at the very least two feet apart, although four feet and even more will produce the best results. The soil should be kept stirred up about them and never allowed to cake or to become hard.

Buds which appear early—any, indeed, which are visible before the plant has attained its full growth—should be pinched off so that the plant may not dissipate its strength in producing inferior blossoms.

Stout stakes should also be provided early, since the heavy growth is at the mercy of the wind. One strong stake may be used, but a better method is to employ three, connecting them by a heavy cord and tying the dahlia loosely to this support at various points.

Of course the flower of which one is especially apt to think in connection with autumn flowering plants is the chrysanthemum. There has recently been much discussion as to whether there is such a thing as a really hardy chrysanthemum. The wintering of plants with perfect safety, however, is such an easy task that it seems the part of wisdom to indulge ourselves to the full with these lovely flowers and then by taking proper precautions preserve them during the winter.

The process simply consists in lifting the plants and resetting them in boxes in the cellar or some other cool place where they will be untouched by frost. The boxes should be stationed in a spot where they will receive full sun for at least a portion of every day, and they should be surrounded on the three other sides and the top by heavy builders' paper to shut off drafts. They should be lightly watered about every three weeks.

This treatment will preserve them in a comparatively dormant condition and when at the end of the winter they are brought out into the light they will be in excellent condition.

Chrysanthemums should be given a rich and well-drained soil and set out a foot apart. When the plants attain a growth of four or five inches the middle stalk should be pinched back to three, and the resulting branches, which will spring from the centre stem, should, upon reaching four inches, be again pinched back. This will result in compact plants.

With both the dahlia and the chrysanthemum, the size of the flowers may be governed by the removal of the lateral buds, leaving the terminal buds on the various branches but pinching off the others. Such pinching and pruning should not be done after the middle of July for fear of injuring the flowers.

Live Stock Trade in Six Months.

The Dominion Live Stock Branch market review shows that during the first six months of 1925 compared with the same period of 1924 there was a decrease in all Canada of a thousand head in the sales of cattle. Toronto showed an increase but the other markets had a decrease. Hogs increased by 95,000 compared with last year, Toronto alone showing a decrease. Increased offerings were particularly noticeable in the West. Sheep supplies dwindled, the markets generally showing a falling off.

A feature of the export trade was the increased shipments of cattle to Britain, they being the largest in June for any month since the embargo was removed in 1923. Exports of calves, hogs and sheep also showed an increase compared with 1924. The trade in live hogs between Western Canada and the Pacific Coast continues good. Great Britain has more than doubled her purchases of beef, but the United States has fallen away 50 per cent. Sales of bacon increased during the six months of 1925 by 10,000,000 lbs. compared with 1924. Exports of pork have doubled and but- ton and lamb show good gains, although the trade is still rather small.

Infectious abortion, a disease in cattle, is costing nearly as much money as bovine tuberculosis, according to a prominent doctor of veterinary medicine.

Sweet corn is easily canned, but a pressure canner gives the best results.

SENIOR DELEGATE TO THE LEAGUE OF NATIONS

Senator Racul Dandurand, Minister of State and senior Canadian delegate to the League of Nations, photographed on board the Canadian Pacific steamship "Empress of Scotland" on his way to attend the gathering at Geneva in September. Before returning to Canada, the Senator will visit practically every capital of Europe.

YOUR NOSE EATS WHEN IT SMELLS

BY GRANDFATHER.

To understand why housewives so often claim that after cooking a nice dinner they cannot eat it, one must go away back to a somewhat old tale, but one easily explaining the strange loss of appetite.

In the Dark and Middle Ages all Europe was so steeped in ignorance and superstition that everything that happened was credited to some invisible being in the sky. Ghosts were everywhere, demons were lurking around all corners to trip the unwary, and nothing of any consequence was believed to come from natural causes.

Everything was a miracle! For a thousand years and more cfs, fairies, witches and such things kept the people busy. They had but one thought and all learning practically disappeared from every portion of the Continent—but not from Southern Spain where the Arabs or Moors were enjoying one of the highest forms of civilization ever known.

These Arabs had enormous universities where science was kept alive for the rest of mankind. They were especially inquisitive into the matter of distilling fluids. Alcohol is the name they gave the almost gaseous material which still bears the Arabian name. One dozen Arab students at that time knew more than a dozen million of the peoples who lived almost a stone's throw from them and it was a natural thing that their knowledge must sooner or later reach the interior of the mass of superstition.

When the Arabs did get into Northern lands with their alcohol and wonderful perfumes, they carried their gaseous things in bottles. When the corks were drawn the fluids escaped by evaporation. The superstitious peoples smelled the odors, saw the fluids slowly disappear from the bottles.

"Ghosts! Spirits!" they gasped. Bottles filled with spirits and held in confinement by corks. To them there was no other explanation!

And the name has stuck to this day. But to-day we know how the spirits crawl out of the bottles in invisible atoms. We know how these atoms get into the fine membranes of our nose and lungs.

When you smell a perfume or odor of any kind you inhale millions and millions of solid atoms, so small that they cannot be seen even with a microscope. We see the atoms of

smoke because the atoms are in great bunches, but when the smoke thins, in other words when the atoms separate, we cannot see them, we merely say that the "smoke disappears."

Mist and fog are the same, little clusters of atoms, the clusters being much smaller than rain drops. Even gases are solids. When gas is lighted minute atoms of coal expand and explode when they reach a certain degree of heat and the friction of the billions of explosions makes the atoms glow and give out light and heat.

In one flash of gas light millions and millions of explosions are made and each explosion means that a number of atoms have suddenly parted company.

The unexploded atoms of gas, perfumes, onions, flowers and decaying matter, in fact everything that gives forth an odor, these atoms are what we "smell."

But we do not "smell," we actually taste, we eat. The odoriferous atoms are real, they are solids. They are drawn into the nose and against the membranes which are so sensitive that they "taste" the atoms, and if those atoms are agreeable the membranes eat them. If the atoms are not suited the membranes get rid of them by forcing a fluid through the membranes and making the nose "run," the fluid carrying with it the disagreeable "odors."

Now you know why the housewife does not enjoy the meal which she has cooked, why she is not hungry after having prepared a repast. She has had enough food.

Her lungs and nose membranes have actually consumed so much of the food that her appetite has been satisfied.

Your lungs are eating day and night. They eat every good odor that comes with the air drawn into the lungs. Air is a "gas," nevertheless it is composed of billions of solid particles, numberless pieces of water, salts, nitrates, pieces of anything and everything because all the odors of the whole world are mixed in air and float around the earth until they eventually settle just like the muddy water settles at last.

When all these food-stuffs go to the lungs the little fellows known as "blood" eat what they choose and carry the digested food through the entire system.

James Brown, Indian and former football star, who is said to be the world's champion bricklayer. He puts down 33,000 daily and keeps five men busy handing them over.

PUTTING THE JELL IN JELLY

Plenty of Pectin is Essential to a Firm Jelly.

What puts a woman up with housewife's pride more than does a row of sparkling jelly jars waiting on the kitchen shelf ready to be stored in the basement for winter use? But many jars of jelly stored to satisfy the family appetite during the fruitless season do not score as high as they might because of some error in the process of making.

The whys and wherefores of jelly making are quite simple and a few rules mastered at the beginning often saves many a glass of syrupy jelly.

In the first place it is very essential to have enough pectin in your fruit juice to have it jelly. This substance is found in apples and currants and some other fruits. If the fruit is over ripe this valuable jelly making substance is found in a lesser quantity.

Fruit acids also play a very important part in jelly making. These acids are the substance that give edge to the taste of fruit and fruit juices as the tartaric acid in grapes and currants, malic acid in crab apples and sour apples, and citric acid in lemons and oranges. Like pectin, acids are not so abundant in over ripe fruit so jelly made early in the fruit season or fruit juice canned at that time for making jelly during the winter months is much better.

Any fruit that is to be used for jelly making should be thoroughly washed and drained. In objecting to this washing some housewives say that the resulting juices are too watery to jelly. However, it is found that the proportion of sugar used according to the pectin in the juice

rather than to the water in the juice will obviate these difficulties.

In extracting the juice, transfer the clean fruit to an enamel kettle, add just enough cold water to keep the fruit from burning. Heat the fruit gradually and allow to cook over a slow fire. When the simmering point is reached mash the fruit and stir while cooking for ten minutes. Drain the juice from the pulp through fine muslin. This is known as the first extraction. By adding more water to the pulp and cooking the second and even the third time enough fruit juice can be extracted to make a very satisfactory jelly, if care is taken.

During the jelly making process, the boiling mass should be carefully skimmed. Most housekeepers have a jelly test which they are in the habit of using, but the one most generally used is "that point at which the boiling mass sheets off or breaks off as a portion of it is allowed to drop from the spoon. This test is more satisfactory than allowing a small portion to cool to note how it jells, because time may spoil success or failure toward the end of the process."

Just when to add the sugar to the fruit juice is often puzzling to many inexperienced cooks. One thing should be remembered, that the longer the juice and sugar boil together the darker the jelly. With certain rather colorless jellies this darkening is desirable while with others it is not. To become completely dissolved the sugar should be in the juice at least ten minutes and should be added hot (not scorched) so as not to cool down the jelly making process. Rather constant stirring is essential both before and after adding the sugar to prevent burning.

Recipes Worth Trying.

Fresh grape relish is novel. Select bunches of grapes of about the same size and ripeness; they should not be overripe. Leave the grapes on the stems and pack the bunches closely into clean glass jars, but do not try to get too many in the jar, for the fruit should not be bruised. Make a syrup of one and one-half cupsful of sugar to each cupful of white vinegar; boil for five minutes, pour over the grapes to fill the jars, and seal them. These grapes have the appearance of the fresh fruit and make an excellent relish to serve with meat or to use as a garnish for salads.

Fear Honey: Select one dozen fine Bartlett pears. Pare, cut into halves, remove the cores, and grate the pears into one quart of water. Boil gently for a half hour, then add two pounds of granulated sugar. Cook until clear and as thick as good strained honey. Add the juice of two lemons and can in half-pint or pint jars. This is an excellent spread for school lunches. Quince honey is made in the same way, using five fine quinces, a pint of water and three pounds of sugar.

Fresh Corn Muffins will please. To make, grate enough corn from the cob to make two cupfuls, add a tablespoonful of salt, a tablespoonful of butter, the beaten yolks of two eggs, two cupfuls of milk, and three cupfuls of flour in which two teaspoonfuls of baking-powder have been well sifted. Mix thoroughly and add the beaten whites of the eggs. Have gem pans heated and greased. Half fill with the mixture and bake in a quick oven for a half hour.

Broiled Eggplant is good and wholesome. Pare, cut into quarter-inch slices, lay on a buttered broiler and cook until done. Turn often to keep from burning. Season with salt and pepper and a little melted butter.

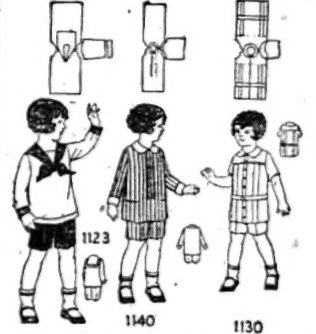

Tomato Chowder: Pare and cut six potatoes into cubes, mince two large onions. Cut into dice two slices of fat salt pork and fry them until golden brown in the kettle in which the chowder is to be made. Add the potato and onion, a teaspoonful of salt, a tablespoonful of black pepper. Cover with boiling water, and add two sliced tomatoes. Simmer for a half hour, then add two quarts of hot milk. Let it come to a boil and add a tablespoonful of butter. Serve very hot.

Tomato and Orange Marmalade is made with yellow tomatoes. To each pound of tomatoes use one orange and one pound of sugar. Boil the tomatoes a few minutes, then add the orange pulp. Boil the orange rinds until tender, then drain and pass through a food chopper and add to the tomatoes. Add the sugar and cook until the marmalade is stiff and transparent. Pour into sterilized glasses and seal with paraffin.

Clean Seed.

In the one million bushels of seed wheat required to sow the wheat fields of Ontario each year, there are a few thousand bushels of weed seeds that grow, not to make more bread but to add to the misery and take the profits of the farmer. Clean seed is possible for all, and certainly well worth while. Buy clean seed or use a fanning mill of your own, if you can get such; failing this use a long water-tight trough and water to float the chaff, light weed seeds and light grain out. It is of course necessary to dry or partly dry the seed before sowing. This can be done by spreading in the sun for a few hours and shoveling over frequently.

Minced watercress and green onions added to cottage cheese make a very delightful change.

1123—Boys' Sailor Suit, with long sleeves, set-in pocket, with or without yoke, and long or short trousers. Sizes 4, 6, 8 and 10 years. Size 8 years requires 2 1/2 yards of 36-inch or 1 1/2 yards of 54-inch material. Price 20 cents.

1130—Boys' Suit, having back and front yoke, box-pants, long or short sleeves, and with straight side-closing trousers. Sizes 4, 6 and 8 years. Size 6 years requires 2 1/2 yards of 36-inch, or 1 1/2 yards of 54-inch material. Price 20 cents.

1140—Boys' Suit, with front opening under tab, set-in pockets, long or short sleeves, and straight side-closing trousers. Sizes 2, 4 and 6 years. Size 4 years requires 1 1/2 yards of 32-inch, or 1 1/2 yards of 36-inch material. Price 20 cents.

Many styles of smart appeal may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

HOW TO ORDER PATTERNS.

Write your name and address plainly, giving number and size of such patterns as you want. Enclose 20c in stamps or coin (coin preferred; wrap it carefully) for each number, and address your order to Pattern Dept., Wilson Publishing Co., 73 West Adelaide St., Toronto. Patterns sent by return mail.

Poverty of the Soil.

B. C. O. Huron Co., writes: "Some of my soil seems rather poor. Can you tell me how it can be enriched and improved?"

Answer—Writes the Dominion Chemist, who in his report for 1924 states that the employment of crushed limestone is on the increase, especially in Eastern Canada. It is evident, he says, the most popular form of lime for soil treatment and he believes that it is destined to become the most widely used lime compound employed in general farm practice. You might also consult the district agricultural representative.

There are many farmers and fruit growers who would like the birds to put in about eighteen hours a day destroying insect pests, but never peck at a cherry or a grape or a strawberry or help themselves to a few mouthfuls of grain. Do they know how much the market-basket and dinner-pail have been depleted by the loss of birds?

The
Most satisfactory
Range made

There are so many good features embodied in the Happy Thought that it is the outstanding range value at any price.

One reason why Happy Thought ranges are the most satisfactory is found in the correct relation which the many exclusive features bear to each other—it is the perfectly balanced range.

Let us show you the perfect balance in the scientifically proportioned firebox, "Duplex" grates, draft control, broiling and roasting front, ample reservoir, pyramid oven plates, ventilated oven, heat conserving flue and all the other improvements which are being enjoyed by more than 300,000 critical Canadian housewives.

Happy Thought Pipe, Pipeless and Combination Warm Air and Hot Water Furnaces serve every type of home.

Here and There

The first batch of last winter's furs, brought from the Far North by the steamer "Distributor," from Ak-lavik, has arrived at Edmonton, Alta., and is valued at approximately \$1,000,000. Good catches of furs were reported throughout the north.

Sockeye salmon fishing around Vancouver, B.C., for the first three weeks of the current season, while not as active as last year, has, so far, resulted in fairly good catches. The latest reports indicate a catch to date of 55,000 cases, which is 2,000 cases less than last year.

While the members of Dean Sinclair Laird's party of school teachers from Ontario is returning East from their tour of the country the party of British teachers, who landed in Canada recently, is now travelling through the West on a special Canadian Pacific train to gain knowledge of the country and information concerning its resources.

Construction of the half million dollar storage and power dam on the Muskoh River, authorized at its last session by the Ontario Legislature, has been commenced. The proposed work is designed to control the flow from the Muskoka Lakes basin and will enable the linking up of power development in that district with the Egenia-Severn system.

Passenger traffic over Western Lines of the Canadian Pacific Railway to date this summer has been particularly heavy, and a large number of special trains and special cars being operated for British, Canadian and American tourists. Lake side and summer tourist travel to the annual exhibition at Saskatoon and other Western points required the operation of special trains.

Construction of one of the largest and most modern departmental stores at Winnipeg, Man., by the Hudson's Bay Company will be proceeded with immediately, according to an announcement by Mayor Webb of that city. A start upon the company's building programme here was assured, stated Mayor Webb, with the passing of a by-law by the City Council providing for a memorial boulevard flanking the Hudson's Bay property.

During the first half of August two important Ontario railway towns celebrated their Old Home Week and held pageants illustrative of their local histories and industrial activities. These were North Bay and Smith Falls, both of which held C.P.R. Days and were the meeting points for thousands of railroad men, who assisted in the pioneering work of the districts. The Old Home Week at North Bay marked the graduation of that town to full-fledged cityhood.

The funeral in Montreal recently of the late G. M. Bosworth, chairman Canadian Pacific Steamships, was attended by E. W. Beatty, chairman and president of the Canadian Pacific Railway, and nearly all the directors and executive officers of the company. An impressive and dignified procession followed the ceremony, a cortège being formed by the company's police and officers and men from the crews of Canadian Pacific steamships.

A party of thirty prominent American society people, scientists and artists succeeded recently in blazing a new passage along the Wolverine pass across the northern Canadian Pacific Rockies with the Trail Riders of the Canadian Rockies. The Riders this year have many famous men among them and six separate countries are represented. Twenty of the members wear gold and enamel buttons, showing that they have ridden 2,500 miles along the mountain trails.

MILTON

The Milton Lawn Bowling Club's tournament for doubles Saturday was favored with fine weather, which helped to make this big event a grand success. Eighteen pairs competed for the valuable prizes and the greens were in excellent condition.

Reeve J. W. Blain, one of the best-known bowlers in the Province and a veteran of the local greens, presented the prizes to the winners, as follows: First prize, buck gloves, won by Dr. Byerley, skip, of Guelph, with 3 wins and plus of 5; second prize, gloves, won by W. Rae, skip, of Burlington, with 2 wins and plus of 20; third prize, fountain pen, won by W. Gould, skip, of Acton, with 2 wins and plus of 20.

HIS 75TH BIRTHDAY

On Monday, Aug. 24th, 1925, Mr. Abram Block, of Port Credit, celebrated the 75th anniversary of his birth, and many friends called at his cozy little cottage beside the lake, to congratulate him on the event and wish him many happy returns of the day.

In the evening, several members of Port Credit Lodge, No. 385, Independent Oddfellows, met at his home to join in the celebration. Bro. R. J. Walker, D.D.G.M., took charge of the proceedings, and acted as chairman, when speeches were made by the following gentlemen: E. W. Lackie, Noble Grand, Port Credit Lodge; E. M. Niece, Vice Grand; Rev. J. H. Dudgeon, Port Credit; Rev. S. J. T. Fortner, Charles, and Wilbert Andrew, Charles Strong and O. R. Church, Streetsville, all referring in a nice way to the host of the evening, to his geniality, to his long life, and to his influence for good in the community.

Mr. Block has been an Odd Fellow for over fifty years, having joined the Order at Streetsville shortly after the organization of the Lodge in 1873. He later transferred to Port Credit Lodge. A pleasant feature of the evening was the presentation, when Bro. W. E. Clancy read a nicely worded address and Bro. J. Warner presented Bro. Block with a beautiful silver loving-cup on behalf of Port Credit Lodge. Bro. Block was taken completely by surprise, and made a very appropriate reply, in which he thanked his friends for their kindness to him, and in referring to his life in the community and his connection with his church and his lodge, he gave all the credit to Divine Providence, who had guided him all the way and blessed him with good health and kind friends.

Mr. A. Block, Dear Sir and Bro.:— We have gathered together, on this, the eve of your 75th anniversary, to join with you and yours in the celebration of this eventful day.

As a brother of our organization, you have ever lived up to the tenets of our beloved order; the open hand of fellowship has always been extended to those in need; Friendship, Love and Truth exemplified in your daily walk in life.

It is indeed, Sir, a great honor to be present on this auspicious occasion; to share the privilege with others in wishing for you many long years of happy usefulness in the community in which you live, that the love and happiness you extended to others may be yours in generous measure in this, the evening of your life.

It is, therefore, with mingled pride and pleasure, that we extend to you our heartfelt congratulations at this time, and with the acceptance of this little token of our regard, may it serve to remind you of the respectful esteem we bear toward you.

That you, Sir, together with your worthy helpmate, upon the Sea of Life, may be spared many years in our midst before completing this voyage, to inspire others with the spirit of service to our neighbors, is the fervent wish of the officers and brothers of Port Credit Lodge No. 385, I.O.O.F.

Spoken on behalf of the Lodge, R. W. LACKIE, Noble Grand.

The inscription on the cup was as follows: Presented to Bro. Abram Block on his 75th Birthday By Port Credit Lodge, No. 385 I.O.O.F.

In the absence of the assistant minister at the Union Church last Sunday morning, Mr. Abram Block occupied the pulpit and delivered a splendid sermon. Mr. Block celebrated his 75th birthday on Monday, Aug. 24th. He is the youngest of a family of eight. Both he and Mrs. Block are enjoying good health. His two sons, Albert and Fred, were present at the birthday anniversary, but his only daughter, Mrs. Bert Burrell, was not able to join them.

Mr. C. H. Strong was groomsman for Mr. Block, while Miss Patterson was bridesmaid. The latter married Royal Grafton of Mt. Charles, but both she and her husband have since passed away.

Mr. Block was superintendent of the Methodist Sunday School for 25 years and was presented with an ivory cane when he retired in 1924. Both he and his wife have lived at the Credit for 66 years and celebrated their golden wedding in 1922. They have been closely connected with the Methodist Church all the time. Mr. Block has been an Orangeman for 51 years, and was a school trustee for 36 years. Mrs. Block has also been active in Church work and in the Women's Institute.

Mr. Block was born at Dixie and his wife at Unionville. Both have been respected and useful citizens of the community, always taking an active part in everything that was for the benefit of the village or the people at large.

INTERESTING ANNOUNCEMENT

Word comes from Montreal that that great family and farm paper The Family Herald and Weekly Star has been enabled to reduce its subscription price to One Dollar a year. This certainly will be interesting news in every Canadian home where the Family Herald is known and to many who will avail themselves of the offer. At Two Dollars a year The Family Herald and Weekly Star was generally admitted to be a good value, in fact big value, but when reduced to One Dollar a year it will certainly be the marvel of the newspaper world.

Canada is proud of that great Weekly, and has every reason to be so, as it has no superior and few equals in the world today. The Publishers announce that notwithstanding the change in price every feature will not only be maintained but improvements will follow. The Publishers are fortunate in being in a financial position to do this, and Canadian homes will have the advantage. When the new rate is made known it certainly will bring a rush of subscribers to the Family Herald. One Dollar is a small amount for such a great paper.

After Harvest Cultivation and Clean Seed

Judging from the increasing number of weeds one sees going to seed in the crops on the roadsides and along the fences these days, one would almost have reason to imagine that shortly there will be little room for anything of value to grow.

After harvest cultivation is proving to be a very effective method of controlling and to a certain degree of ridding one's fields of weeds. Harvest time sees many of the common weeds gone to seed. Naturally much of this seed is lying on the ground in the stubble. The making of a fine mulch by discing or by the use of the spring-tooth cultivator provides a very fine seed bed. Many of the seeds thus germinate and further cultivation will thus destroy these weeds. This method should be followed as far into the fall as possible in order to insure the germination of a maximum number of the weed seeds. It is also a good practice to rib up the land before freeze-up and leave it for the winter.

The above system, however, can only be effective to any great extent where the practice is followed of cutting the weeds on the roadsides and along the fences before they go to seed.

It is a very fine thing to clean up the weeds, but how about preventing at least a few of them from ever entering the soil? Clean grain seed is at all times an important factor. It is now approaching fall wheat seeding time. How many of our farmers sow seed that is really clean? How many buy seed from a reliable source? How many use the fanning-mill on their own or their neighbors' seed? It is an excellent practice to prevent the spread of weeds as well as attempting to do away with those already established.

LONG BRANCH

Trampled by a team which was scared when the milk wagon to which it was hitched was struck by a motor truck, Jack Goldhar, aged 13 years, of 32 Robert Street, Toronto, was taken to St. Joseph's Hospital at 3.30 this morning, where he now lies, suffering lacerations on his left leg and ankle. As a result Stewart Osman, driver of the truck which hit the wagon, and F. W. Denney of Lorne Park, owner of the truck, appeared in the New Toronto Police Court this morning, the former on a charge of driving without a license and the latter charged with allowing him to do so. Both were remanded on joint bail of \$1,500.

The boy, who had been helping the milkman whose horse trod on him, was patting the team as it stood on the north side of the highway near Government Road. A milk truck stood in front of the team, both vehicles being faced west. Osman, going westerly, struck the wagon in the rear, scaring the horses, which trampled the boy. Goldhar was attended by Dr. H. R. Adams, who had him removed to St. Joseph's Hospital.

Herbert Hogg, First Line West, Chinguacousy, had several ribs broken and was badly shaken up in an automobile accident that happened this afternoon at Victoria, a busy intersection on the Centre Road, about 10 miles north of this town. Mr. Hogg was proceeding east, and Elgin Delaney, driving S. F. Fleming's car of Brampton, was going north, when the latter car struck the eastbound car with such terrific force that it knocked it 20 feet into a ditch.

The Brampton car made a complete turn from the force of the collision. Mr. Hogg, who was alone in his car, was thrown into the fence. With Mr. Delaney was his parents and two others, but no one was hurt in the heavier car. Both cars were badly damaged. Motor traffic on the Centre Road was very heavy at the time of the accident.

Charles Hunter, railway constable at Bronte, caught two men in his house, from which his wife was temporarily absent. They apparently had opened a Yale lock in the back door with a skeleton key. The house had been ransacked and jewelry was found on the men. The constable held them and phoned for Chief Smith, of Burlington, and the men were taken to that town after his arrival. Their names are Albert Hayes, who gave his address as 317 Jarvis St., Toronto, and James Aikens, of Acton, Ont., who, according to Constable Hunter, stated that he was absent without leave from the Westminster Military Hospital, in that city. Police Magistrate Barr remanded the pair to jail for eight days on the charge of house-breaking and theft and they were brought to Milton.

Here and There

More than 100 persons joined the ride of the Trail Riders of the Rockies on their horseback journey from Banff to Wapta Camp, via Marble Canyon and Lake O'Hara. The ride started on August 8.

Grain figures issued by the Harbor Commission of Montreal show that on August 1st all grain shipment records were broken by one day's delivery of 2,277,712 bushels of grain to outgoing ships. Harbor officials state that this is the first time that grain shipments in one day have topped the two million bushel mark.

Installation of machinery at the new annex of the Dominion Textile Mill at Montmorency Falls, Quebec, will be started by January first next. About 300 additional employees will be required to operate the plant. At present there are about 1,300 employed at the mills.

A prophecy that the Orient would become in the very near future a really large importer of Canadian wheat was made recently by Hon. Dr. J. H. King, Minister of Public Works. In predicting increased Orient trade in grain, Dr. King pointed out that imports of wheat from Canada for 1923-1924 increased by 400 per cent.

Over fifteen thousand men left the east on the first harvesters excursion from the east to the wheat fields in the middle of August. Four other excursions are to follow from Toronto later in August and September, when it is expected that the majority of the remainder of the 50,000 men required for the harvest will travel west.

British teachers touring Canada under the auspices of the Overseas Educational League are now enjoying all the various forms of entertainment to be found in the Canadian Pacific Rockies. They have been riding trails, hiking, fishing, motoring, bathing in the sulphur springs at the Banff Springs Hotel and were the guests at a dinner there given by J. M. Gibbon, secretary of the Trail Riders of the Canadian Rockies.

Confidence of United States capital in the Dominion, optimistic preparations for the new Canadian financing, prospects of a good crop, large United States purchasing in Canada, and heavy expenditures of American tourists in the Dominion, were some of the reasons offered by New York financial experts for the consistent above par stand of the Canadian dollar on the New York exchange. The Canadian dollar is now at a premium on the New York exchange.

The total number of students in Canadian universities and colleges in 1924 was 52,639, or nearly one in eighteen of the total population, according to a bulletin issued by the Dominion Bureau of Statistics. Under the category of colleges, the total number in 1924 was 63. Of this total six are agricultural, two technical, two law, one dental, one for pharmacy, one for veterinary science, 28 theological, 39 affiliated, one school for higher commercial studies, one college of art and one military college.

During the coming winter Canada will see the debut of a new transportation device known as the Snow-motor. This consists of two hollow cigar shaped cylinders or drums to which flanges, resembling cork screws, are attached. These drums are fixed to an automobile or tractor in the place of the wheels and, by rotating actually float the machine over the snow. The snow-motor is regarded as especially valuable in the transportation of lumber; it can negotiate snow of any depth and can operate in countries where other methods of transportation are impossible or too costly and can also make roads which other vehicles can use. It is manufactured in Detroit and will be on the market in Montreal during the coming winter.

Building permits issued in Canada during the first quarter of 1925 were 10.2% and 1.2% greater than in the first three months of 1924 and 1923, respectively. There were also 6.5% greater than in the first quarter of 1922, 40.5% higher than in 1921 and 4.3% above the 1920 total. The aggregate value of building permits issued for the first quarter of 1925 was \$10,000,000, compared with \$11,000,000 for 1924 and \$10,000,000 for 1923.
